PART II "G".

3. ORGANISATION.

a) Domestic. -- Nil.

b) Italian.

(i) The changeover of the Calabria Division to Calabria Brigade is now reported as being completed.

(ii) C.A.R. - Sardinia.

The project of establishing a C.A.R. in Sardinia has still not definitely been dropped though it is still considered unlikely.

(iii) Serving Soldiers from ex-Colonies.

There is still no definite new policy in this matter as suggested in the Monthly Report for August, i.e. that the Ministero di Assistenza Post Bellica should be responsible for the employment of discharged soldiers.

4. TRAINING.

a) 8 C.A.R. was visited on 4 Sep. 46 at the time of visit of Military Representatives and again on September 17th. 46 when their supply unit, No. 80 Dist. Depot was inspected by an officer of this unit together with a representative of S & T, M.M.I.A.

Training at the C.A.R. appeared to be proceeding satisfactorily.

b) 3 Bn. Granatieri at Aquila was inspected on 19 Sep. 46. Field firing was held up by lack of British ammo.

C.O. was worried by complete lack of any signal equipment. He expects men to return from Signal Courses in early October and if they have no equipment he is naturally afraid that they will soon forget all they have learnt. This has been taken up with Rome Territorial Command.

5. INTELLIGENCE.

a) Ascertainable activities of Italians viz-a-viz other countries.

The whole Italian people and Army resented bitterly the aspersions cast at their honour by the remarks of the U.S.S.R. representative Vysshinsky.

A certain elation was felt after the speech of Mr. Jordan, the South African delegate, at the Peace Conference but this was followed by great depression when it was made clear that Britain and America would not allow the return of the Italian colonies and favoured the reduction of the Italian Fleet.

b) Frontier Activity.

There are no incidents reported on the French-Italian frontiers as France has now received Briga, Tenda and Montcenisio and appear very satisfied. There is still naturally great concern felt over the Trieste problem.

Italian people are generally satisfied regarding the agreement between Austria and Italy concerning Alto Adige.

No incidents are reported.

c) Relations between troops and populace.

Relations remain cordial. There are reported individual incidents where troops on isolated stations become lax in their dress and cases of indiscipline occur.

During the recent clashed between Partisans and the Government, the latter was unable to take as firm a stand as it did not wish to offend the parties of the Left.

This particularly applies to the recent incident at Asti.

d) Political current amongst troops.

Nothing new. The recruits at the C.A.R. are well disciplined and are doing their duty.

672

e) Subersive Elements.

It is considered that there are a number of Yugslavs, Poles and Albanians implicated in illegal traffic of arms between Yugo Slavia and Italy, helped it is alleged by the Communists.

There is also an illegal frontier traffic in grain. Very high prices are paid in Yugo Slavia and Switzerland for grain smuggled from N. Italy

f) Public Security.

f) Public Security.

Unrest is reported in the vicinity of Modena and Reggio where a number of murders have been attributed rightly or wrongly to the Communists.

It is alleged that the police are implicated in these matters but there is no proof.

There has been reported a general increase in robberies, banditry, strikes and crimes by demobolised soldiers and unemployed all over Italy.

g) Economic.

Black Market activities are reported to be on the increase, [illegible] thus neutralising all attempts to revive bona fide trading.

8. Discipline.

Nothing new.

9. Leave.

Regimental soldiers are proceeding on leave regularly though the same does not apply to H.Q.s and Staff personnel as there are insufficient trained Officers and men to replace them.

10. Pay.

The Press have announced increases in pay for Officers, NCOs and civilian employees. It is too early to comment as to whether these increases will will be of direct benefit as some consider that prices will continue to rise.

It is felt that more pay should be given to those holding positions of responsibility rather than a general increase to everyone.

11. Morale.

It is considered that there will be a substantial improvement in morale when the new pay increases are implemented.

12. Welfare.

Distributions have been made, to the troops and their families, of food and clothing.

A lady of the C.A.F. has been appointed to visit and provide welfare for the troops in hospital.

At the "Casa di Soldato" in Rome there were 18 theatrical shows and 19 cinema performances.

.....4.

Declassified E.O. 12356 Section 3.3/NND No. 785036

13. Public Relations.

With the fall of the old Government a certain number of civilian welfare societies and organisations were disbanded; consequently there is not the same proportion of money available for the military. Formerly, places of entertainment allowed soldiers free admission, but this is by no means general now.

It is alleged that the population have no great sympathy and understanding for the Army as owing to its small size it would be ineffective in protecting the frontiers of Italy.

PART IV "Q".

REMARKS

Date. 5.. October. 1946.

APPENDIX C.

VISIT OF FOREIGN MILITARY REPRESENTATIVES TO

S.C.A.L. - CAVRIATO - 5 SEP. 46.

1. Representatives included Gt. Britain - Deputy Commander, M.M.L.A. Colonel Harmon M. Fiske, Brigadier M.W. Hope DoC, M.M.L.A., and Major H. Abercrombie, GSO II Liaison, M.M.L.A. - Uganda - Colonel Williams and Major Gray. U.S.A.R. - Captain Vedenich and Captain Schlanker. France - Captain Vinquet and Spain - Major Coenzalle.

The representatives were accompanied by General Soldarelli, Commander of Rome Territorial Command, and Colonel Fiore - Vernasca, Chief of Public Relations at Italian Ministry of War.

2. All the main daily papers were represented. Criticism on the whole was favourable, the Press acknowledging the advantages of the C.A.L.A. and particularly the improvements in the living conditions, food and uniform of Italian soldiers.

The following criticism was made by the Press of the Left:-

(a) The Italian Army was now entirely dependent on the Allies and tended to prevent a real and efficient regeneration of the Italian Army.

(b) The adaption to a great extent of the British khaki type of uniform makes the soldier forget his original grey-green uniform and may tend to deprive him of his national initiative.

3. However the Press generally gave prominence to the importance of the visit of foreign military representatives because the general standard of the C.A.L.A. showed that the will of regeneration of the Army clearly indicated the desire of the Italian people to return to normality and take their place again in N.A.T.O.

a) Change of Officers.

T/Major R.H. Charles (333938), Northern Rhodesia Regt, posted and joined this unit as G.S.O. II w.e.f. 19 Aug. 1946 vice T/Major R. Downing on Class "B" release.

b) Visit of G.O.C., M.M.I.A.

Major General E.H. Goulburn, DSO, visited the Rome Territorial Commander, General Soldarelli, on 28th. August 1946.

2. Italian.

Forthcoming visit of Foreign Military Representatives to 8 C.A.R., Orvieto.

Representatives of Great Britain, U.S.A, U.S.S.R, France, Spain and Brazil have been invited to visit 8 C.A.R. on Wednesday, 4 Sept. 1946. The first four invitations were extended by H.Q. M.M.I.A., the latter two by the Ministry of War.

Programme for visit is attached as Appendix "G"

PART II "G".

3. Organisation.

a) Domestic. - Nil.

b) Italian.

i) C.A.R. - SARDINIA.

The project of establishing a C.A.R. in Sardinia is in abeyance. It is considered that the need for this C.A.R. has been cancelled out by the policy of NOT forming Territorial Regiments.

ii) Serving Soldiers from ex-Colonies.

It is reported that the discharge of soldiers from ex-colonies and their passing to employment by the Ministero di Assistenza Post Bellica is under consideration.

Soldiers in the above category are not being discharged at present but are permitted to resign if they can become self-supporting.

4. Training.

a) 8 C.A.R.

Training at 8 C.A.R. is proceeding satisfactorily.

b) Regimental.

i) The training of the Grenatieri Regiment in Rome is very difficult owing to the heavy duties being carried out.

ii) The Battalion at Viterbo is still in the process of being changed into Grenatieri and is in a state of re-organisation.

British small arms have arrived during the month but there is a great dearth of competent instructors.

iii) The Battalion at L'Aquila is very much in the same state as the Battalion at Viterbo except that the efficiency is higher.

5. Intelligence.

a) Ascertainable activities of Italians viz-a-viz other countries.

It is reported that Yugoslav agents have established an office in Milan and seek to attract ex-Fascist and dis-occupied soldiers and especially aviators.

It is further suspected that organised armed bands of Slavs circulate in many towns of the Adriatic where they conduct black market and smuggling activities. Fear is expressed that only action by the Allies can successfully intervene since the Italian Government has its hands tied by the Communist Party.

b) Frontier Activity.

Concern is mounting over the Yugoslav incidents in the Veneto and Istria.

c) Relations between troops and populace.

Reported to be good and improving, probably assisted by a growing resentment of the partigani who are seen to be adopting the Fascist principle of obtaining by force a recompense for their patriotic service and so exploiting the weakness of the Government.

d) Political current amongst troops.

New recruits are reported to be far more truly patriotic.

e) Public Security.

Banditry, disorder, smuggling are all, rightly or wrongly, attributed to Slav agents who seek to disturb the equilibrium of the Italian people.

f) Economics.

Nothing now to report.

Traffic in currency and gold is reported to be based on Greece, Isle of Rhodes and Switzerland.

g) Road accidents caused by Allied vehicles.

The General Public desire that the Allied GHQ take strong action to suppress the speeding of Allied vehicles which has caused many fatal accidents of late.

This is particularly reported in the case of Polish vehicles.

PROGRAMMA:
Visita di una missione di ufficiali esteri all'8° CAR.

I - PREMESSA

1°) - L'8° CAR del Comiliter di Roma è dislocato in Orvieto, antica e bella cittadina umbra che possiede vestigia etrusche e romane ed edifici di alto pregio artistico fra cui famoso il Duomo.

Il CAR è alloggiato in due caserme:

- ex accademia femminile di educazione fisica: III btg. e infermeria presidiaria.

2°) - Il CAR ha per compito di impartire alle reclute l'istruzione primaria.

Al termine del primo mese le reclute di artiglieria, genio, motorizzazione e servizi sono smistate alle varie scuole di arma ed a reparti dei servizi. Le reclute di ftr. rimangono invece per l'intero corso della durata di tre mesi: per queste reclute, perciò, il CAR è una vera e propria scuola allievi soldati.

. There appears to be a disproportionate number of civilians employed in the services and as clerks. In the interests of economy alone the replacement of civilians by soldiers is justified. It is considered unfair that the small sum allocated to the Army should be used to bolster up the employment situation which is apparently the present political policy.

L'ufficiale incaricato dell'ispezione (Comandante del sottoreparto o Ufficiale dei trasporti) deve conoscere minutamente le caratteristiche dei tipi di autoveicoli che costituiscono il reparto al suo comando. Egli, nell'eseguire l'ispezione, oltre al normale controllo delle varie parti dell'autoveicolo, dovrà:

a) = provare personalmente l'automotoveicolo in movimento;

b) = portare la propria attenzione sullo stato di usura dei pneumatici anteriori e posteriori e indicarlo sul "Rapporto ispezione" rispettivamente alle caselle n.10 e 19.

passa il registro 406 al Comandante l'officina del reparto, il quale, dopo aver constatato i difetti:

a) - se la riparazione è effettuabile presso l'officina del Reparto, la fa eseguire, segnalandola nella parte "Rapporto provvedimenti" - colonna - "Provvedimenti presi dal Comandante l'officina";

b) - se la riparazione NON è effettuabile presso l'officina del Reparto, propone al Comandante del reparto, l'invio dell'automotoveicolo al Reparto Riparazioni. La decisione in merito spetta esclusivamente al Comandante, il quale la segnala nel "Rapporto provvedimenti" - colonna - "Osservazioni del Comandante". L'automotomezzo, quindi, viene inviato al Reparto Riparazioni, sempre seguito dal Registro 406 che ne segnala i difetti da eliminare.

Responsabili della compilare del "Rapporto Provvedimenti" sono rispettivamente il Comandante l'officina e il Comandante del Reparto, i quali firmeranno il rapporto suddetto SOLO quando i difetti segnalati nel "Rapporto ispezione" saranno stati del tutto eliminati.

Particolare attenzione da parte dell'ufficiale incaricato della ispezione deve essere portata sui difetti riscontrati nell'ispezione precedente.

APPENDIX E

WELFARE ORGANISATION - 8° TERRITORIAL COMMAND.

Appreciation and Recommendation submitted to
8 Territorial Command HQ on 2 July 46

1. INFORMATION

(a) The Welfare organisation has a bigger and more varied task than the British organisation.

(b) Public Relation duties are performed by this organisation.

(c) Information supplied by the "Capo Ufficio" Colonel Scaramouche.

(d) About 25 to 30,000 soldiers and re-impatriated soldiers are to be considered.

2. ORGANISATION

i) The following duties are performed by the Welfare organisation:-

(a) Assistance to soldiers in convalescent depots.

(b) All welfare work for small units.

(c) Assistance to soldiers in transit.

(d) Assistance to recruits before posting.

(e) Acting as Welfare Officer for hospitals.

(f) Organisation and control of entertainment.

(g) Control of military shops (canteens)

(h) Guidance and control of unit welfare work and recreation rooms.

(i) Sight seeing tours.

(j) Control of Chaplains.

(k) Control of funds (about 100,000 lire monthly) for Disbursement.

.....2

0909

Declassified E.O. 12356 Section 3.3/NND No. 785030

(l) Correspondence relating to dead, sick and missing soldiers.

(m) Correspondence requesting help and information and confirmation sent on from Ministry of War.

(n) Assisting in the rehabilitation of discharged soldiers.

ii) A very great burden is thrown on to the staff of the Territorial Welfare Office by their having to deal with a great number of non-serving soldiers awaiting discharge such as re-patriated , sick and mutilated.

The question of setting up a separate branch office to deal with these men should be seriously considered.

The normal organisation should organise itself now on a long term policy.

iii) The present staff of

One Colonel
Two Captains
Five N.C.Os
Five Civilians

is considered grossly inadequate.

3. RECOMMENDATIONS

(a) The staff should be increased to

(b) Welfare Officers should be appointed in each unit, however small. An Officer can perform this duty in conjunction with his normal regimental duties.

(c) Unit Welfare Officers should in particular be appointed in hospitals, even if this means the posting of an officer for this duty.

(d) Unit Welfare Officers should receive written instructions from the Territorial Command Welfare Officer as well as set pro-formae for applications of assistance.

They should also receive lectures from experts, including an opening address from the General Commanding.

(e) Welfare in Rome Territorial Command must be considered as a special problem unless the recommendations in para. 2 (ii) are given effect in which case the recommended reorganisation set out in para.3 (a) may be amended by the elimination of Section 2 and the halving of personnel in Section 4.

(f) The Lt/colonels commanding the "Poste di Sosta e Restaro" (a type of transit camp) should be made fully responsible for all resulting welfare work.

(g) The financial assistance given to repatriated soldiers without domicile, to enable them to eat and sleep should be replaced by increased facilities as offered in para "f" above. The present accommodation is 100 beds on the following allocation - Army 60, Navy 30, Air Force 10.

(h) The re-forming of a Local Committee of prominent citizens in all large centres should be attempted. These committees should aid in the collection of gifts for soldiers, books, radios, games etc. and the organisation of entertainment.

615

.....4

0911

Declassified E.O. 12356 Section 3.3/NND No. 785020

The committee can also attempt to assist in the rehabilitation of soldiers and the collection of information for the Welfare Officers.

Well disposed persons can also act as guides and controllers of sight seeing tours, especially those with specialist knowledge of art, architecture, museums etc.

(i) Requests sent on from the Ministry for investigation should be dealt with by a special branch of the Welfare Office since 900 to 1,000 are dealt with monthly.

(j) Officers Commanding Units should be invited to submit to the Welfare Officer any news which might be of value as Public Relations matter.

(k) Discharged Officers of good social standing should be encouraged to form ex-soldiers clubs in the cities where they are resident and act as local correspondents for the Senior Welfare Officer.

4. GENERAL

It will be appreciated that these recommendations include the units stationed on the Island of Sardinia.

Course at Orvieto ends 6th. July.

Although the use of recruits on Public Security duties dis-organised to some extent the set training programmes, much of the lost time has been recovered. The equivalent of approximately one week's training was completed during the four weeks taken up by public duties. Credit is due to Colonel Gatta who insisted that such training as was possible should continue.

The extension of this first course by almost three weeks has enabled the complete syllabus of training to be carried out.

Commander 8th. Inf. Regt., in liaison with Colonel Gatta, has organised instru ction on British weapons to the 1/8 Inf. Regt.

A series of lectures on Platoon Tactics is being given within the 1st. Battalion.

The first 14 days W.T. cpurse for Officers and N.C.Os at the C.A.R has been completed. It is not anticipated that a further courses for the 8th. Inf. Regt. will be held in the immediate future but a sufficient nucleus now exists to organise Cadres

It is recommended that training should now start at a very early hour; that all arduous training should be undertaken during the 'cool' hours and that the rest period after the mid-day meal should be correspondingly increased.

The duties performed during the election period have been of value in impressing upon the recruit a sense of serious responsibility and impartiality. The officers confess to having been most impressed by the conduct and discipline of the recruits whilst in Rome. Clothing and Equipment

New khaki drill uniforms are being manufactured in the Territorial Clothing Depot and are being issued to units throughout Italy. It is suggested that a policy of equipping units in turn to complete scale would be preferable to issuing to several units at once in insufficient quantities. There would appear to be ample material available. Evidently issue is authorised by the Ministry of War.

....6

Declassified E.O. 12356 Section 3.3/NND No. 785036

It is also recommended that an issue of this new K.D. uniform to officers and instructors at C.A.R. would go far to increasing their morale, producing a uniformity of dress and being of very material assistance to the permanent staff of C.A.Rs.

An increase in the scale of socks to the C.A.R. is also important.

Accomodation.

As soon as the Ministry of War has accepted the derequisition and 'marching out' state of the ex-Militia H.Q. Viale Romania, it is understood that this building will be made available to the Italian Army for the Rome Territorial Command H.Q. Present delay has been due to disagreement between R.A.A.C. Real Estate and Ministry of War on the subject of acceptanie of inventories.

On the move of the Territorial H.Q. and its departments, the following civilian properties will be vacated:

(a) Villa in Via Po.
(b) Villa in Via Gaeta
(c) 4th. Floor Villa Pirelli, Via Gaeta.
(d) R.Liceo Convitto P. Monte Grappa.

Repair works on the ex-Militia buildings are likely to last some months and involve considerable expense.

The necessity of this move is however understandable.

It is reported by the Director of Repairs that HD 30 is the only oil available for all types of vehicles.

Declassified E.O. 12356 Section 3.3/NND No. 785020

As soon as the Ministry of War has accepted the derequisition and 'marching out' state of the ex-Militia H.Q. Viale Romania, it is understood that this building will be made available to the Italian Army for the Rome Territorial Command H.Q. Present delay has been due to disagreement between R.A.A.C. Real Estate and Ministry of War on the subject of acceptanre of inventories.

On the move of the Territorial H.Q. and its departments, the following civilian properties will be vacated:

(a) Villa in Via Po.
(b) Villa in Via Gaeta

It is reported by the Director of Repairs that HD 30 is the only oil available for all types of vehicles. This does not meet with the requirements of all light or heavy vehicles nor with the seasonable changesof the temperature.

Brake fluid and Shock Absorber Oil is reported to be in extremely short supply.

A P.R. Officer has been appointed with the H.Q. of the Territorial Command and incorporated withing the Welfare Office at the H.Q.

It is apparent that the Territorial H.Q. have a very clear idea, as to what the duties of this Office involve, but as yet have not given any real practical demonstration of putting these ideas into practice. This H.Q. feels that it's connection with the Welfare Office, may have a somewhat discouraging influence on the P.R. Office.

However, pressure is being brought to bear to have the new Branch separate and working independently.

This H.Q. has requested a monthly P.R. activities Report from the Territorial Command.

Recruits. Total number of recruits, who reported to the C.A.R. by 10th. April was 4005. Of these, 3340 were ordinary recruits, of whom 740 had previous military instruction.

Of a further 238 volunteers, some 117 had already had previous military instruction. 73 of the volunteers

were sent to Div. Cremona for training, and 107 to the C.A.R. at Siena.

34 were returned to District as not being up to required physical standards. Hospital cases, Absence etc, involving a further 233 recruits, left a total of 3726, who completed the first month of Training.

(b) Instructors

The break-down of instructors for training purposes was as follows:-

(c) W.E.

The Colonel points out that he has a number of Officers engaged on essential duties not connected with training and not covered by the present W.E.

Such duties are those of the Catering Officer, who is responsible for the spending of the 15 Lire daily ration allowance. A sum of 60,000 Lire being spent daily and needing the supervision of an Officer. An Engineer Officer is engaged daily in Barracks Maintenance work, Administration, Selection Boards, Duty Officers, disciplinary cases etc, all make a 3

heavy call on the limited Officer W.E. and draw them away from Training.

He points out that whilst the maximum strength of some 4,000 is held for only one month, the W.E. for the C.A.R. should be based on the monthly figure, otherwise Administration, Welfare and Training etc. will suffer.

In a recent letter to the Territorial Command he has asked for a considerable increase in the W.E. both for Officers and N.C.Os.

(d) Training Programme

Col. Gatta points out that in the 6 day, 42 hours per week training programme, a deal of time is lost in getting from one training locality to another, particularly during the last 8 weeks of training.

During the preliminary training period, hours of work were as follows. - 08.00 hrs to 11.00 hrs, 13.00 hrs. to 17.30 hrs.

During the advanced training period and in view of warmer weather, hours adopted are as follows. 07.30 hrs until 11.30 hrs, 14.30 hrs until 17.30 hrs. On Saturday, Training ends at mid-day and the afternoon is devoted to interior administration.

One hours instruction is given on Sunday mornings before Church Parade.

The 5 hours per week for P.T. has been found to be insufficient and at present they are doing one period daily of 1 hour i.e. 6 hours per week.

(b) Italian Deficiences

8th. Inf. Regt. is up to its strength in Officers but 552 deficiences in O.R.s

Calabria Division is rapidly making up its own strength of specialists from Divisional Courses.

Discipline Continues to be reasonably good. Troops have behaved themselves exceptionally well throughout the elections both on duty and otherwise. The 3 Bn. of the 8th. Inf. Regt. typifies how, through the efforts of its Officers who are mostly younger than the average and particularly through the keenness of its Commanding Officer, in spite of very fair accomodation, a unit has attained a standard of discipline somewhat better than that of the other 2 Bns. in the Regiment.

Morale. Some time must elapse before the effects of the Referendum on the Army as a whole can be fully appreciated. Immediate reactions are of obvious distress and a difficulty in realising that their allegiance to the King must cease, especially so since it has been the basis on which Officers have worked in re-creating morale and esprit de corps. The ideal of service to the King and Country has been part and parcel of the Army's revival.

Some Officers realise that some re-orientating is going to be necessary. Their own sympathies with the Royal Family will not simplify the situation.

Transport The first issue of the new Alfa-Romeo lorries, thirteen in all, has been made to the Admin. Transport Coy: a matter of great satisfaction. Reduced size of the wheels and quality of the tyres does not allow these vehicles to be fully loaded.

Through the efforts of the Asst. Chief of Staff, Col. The shortage of tables and forms for men's dining rooms is still acute. Lack of funds is the direct cause. 3 Bn. 8th. Inf. Regt. are the chief sufferers in this case.

Movement of Troops

The Territorial Command moved 4,176 troops during the election period for public order at voting centres about Perugia, Macerata, Teramo, Chieti, Ascoli, Terni, Latina, Viterbo, Pescara, Rieti, Frosinone; were provided by C.A.R and the Military Schools. Some difficulties were

treated by a promise of a hundred vehicles from the Ministry of the Interior which was not fulfilled. The eventual result was that all movement was done by rail. Return of troops to Units by rail has already begun.

8th. Inf. Regt. is now back to normal training.

TRAINING

The standard of training within the Calabria Division is good. Specialist courses are being run within each of the two brigades. 40th. Inf Regt. is responsible for Div. Driving School for the complete division.

A demonstration platoon under an officer who has lately

563

returned from Cesano, has been formed and will tour the various Battalions. A request has been made by General Maccarios to the Ministry of War for British arms to equip the Platoon.

800 E.T. pamphlets have been distributed and all officers and N.C.Os are to attend compulsory classes organised within Battalions.

236th. Inf. Regt. has commenced English Infantry Section leading training.

Specialist Mortar and Machine Gun Coys. are quite good. Demonstrations of 81mm Mortar Drill by 236th. INF Regt. confirm this impression.

CC.RE

In the Rome, Lazio and Abruzzi Legions, except in Mobile Battalions, training seems to be at a standstill, owing to preparations for the elections.

Conditions are not expected to return to normal, until after the June elections.

INTELLIGENCE

(a) Public opinion is reported to be centred on the Italian Peace Treaty and the fear of further food cuts. It is reported that the Italian people feel that they are being unfairly treated in view of their efforts against Germany after the Armistice. The proposed division of the Italian Fleet has been very unfavourably received. Likewise the Italians insist that Trieste is theirs. There has been some feeling of relief that the Austrian claims to the Alto Adige have been refused.

Brigade Officers Club and mess to use as a communal kitchen. U.N.R.R.A. Director has been unofficially requested to find alternative building if possible. Divisional and Brigade Staffs consider Meloni to be attempting to run down the Army.

Deficiences in Specialists

All deficiences within the Calabria Division being met by Div. Specialist Courses.

Discipline within Calabria Division is good. The fact that all Battalions are accomodated in Barracks situated out of large towns, that troops are employed on fairly complete training programme, that the majority of officers are living near and training their own units, are all factors favourably influencing the desire of all Senior officers within the Division to create a new regimental spirit.

Leave Problems. In Sardinia, no problems. The number of transit personnel awaiting return to Units on the Continent is considerably decreased. There are no cases of disorder amongst the troops.

Morale. Some 200 ex-prisoners have been released from prisons and returned to Div. Units. The number is not considered sufficiently large to effect morale but they are certainly an offensive element.
Complaints were received by Gen. Marchese at 236 Inf. Regt. that the CIVILIAN prison of Algerse left much to be desired. It was certainly noticeable that ex-prisoners possessed insufficient clothing, some without boots, and that their physical condition was exceptionally poor. Gen. Marchese reported this fact to Div. H.Q.

Italian. Transport Vehicles are all of Italian origin throughout the Calabria Division, and are exceptionally antiquated. The percentage of vehicles V.C.R. for the recurrent necessity of both minor and major repairs is high. All vehicles are running on single sets of rear wheels due to lack of tyres. No spare wheels are carried. Batteries are in short supply. 14 Terr. Admin. Trans. Coy. is sub-divided between Sassari and Cagliari, to serve both [illegible] Brigades.

A general shortage of tools is more than evident.
No civilian drivers are employed.
All vehicles possess "targa" numbers.
Cars from 14 Ambulance Car Section are allocated to all battalions.

Clothing and Equipment

All units within the Division are exceptionally badly clothed, in point of fact the worst yet seen in any part of Italy.
The most common type of uniform consists of green trousers and old style grey Italian army jackets.
Troops possess one shirt and one pair boots and sometimes one pair of socks.
At least 5% of all Units cannot be equipped and at least 40% cannot parade for route-marches due to condition of boots.
14th. Clothing Depot could not meet demands of Units.
No supplies of leather in possession.

Arms and Ammunition

Complete to scale: condition of arms is excellent. All rifles within ARMOURIES have bolts removed.
Mortar Field Firing has been ceased owing to faulty ammunition. Two cases have occurred of premature bursts with present stocks of mortar ammunition.
Sufficient dummy bombs in possession to continue training.

Accomodation.

Extensive repair work being carried out on the Div. H.Q.- 59th. Inf; Reg. Barracks near Capriati are new and in good condition. 60th. Inf. Reg. is similarly located in an Army Barracks at Inglesias.

The latter is shared with a C.A.R School. Com. Officer of the 59th, Col. Ricci, had only been posted to the regiment some seven days previously and was only too pleased to be able to voice his opinion.

Declassified E.O. 12356 Section 3.3/NND No. 785036

The question of water supply for all barracks is a matter of some concern.
As Col. Ricci pointed out, ten water tanks supply the whole of the 59th. Regt.
The general shortage of water in Sardinia does not help matters.
Barracks require new plumbing and pumping apparatus and until these grants are made improvement of the present condition is impossible.
The Barracks of the 216 Regt. at Tempio are in a particularly poor state of repair. As opposed to this, the standard of cleanliness of barrack rooms and general lay out of stores is excellent.
Kitchens are most primitive. 59th and 60th. Regts. kitchens consist of parallel iron rails with a fire built in between. Cooking equipment is in short supply.
The proposed G.A.T. to be accomodated in Barracks at Sassari is well situated . Consists of twelve blocks capable of accomodating each 200 troops, plus separate buildings for H.Q. and services.
One of the twelve accomodation blocks has been destroyed by bombing.
These Barracks have never been completed although they have OCCASIONALLY been occupied during the last few years.
They lack lighting, some glass, taps and water pumping apparatus.
There are no accomodation stores.
The central parade square consists of large rocks.To complete these barracks, Gen. Marchese estimates some six months work at a cost of 25 million lire. This

present condition is impossible.

The Barracks of the 236 Regt. at Tennio are in a particularly poor state of repair. As opposed to this, the standard of cleanliness of barrack rooms and general lay out of stores is excellent.

Kitchens are most primitive. 59th and 60th. Regts. kitchens consist of parallel iron rails with a fire built in between. Cooking equipment is in short supply.

The proposed S.A.F. to be accomodated in Barracks at Scesari is well situated . Consists of twelve blocks capable of accomodating each 200 troops, plus separate buildings for H.Q. and services.

One of the twelve accomodation blocks has been destroyed by bombing.

These Barracks have never been completed although they have OCCASIONALLY been occupied during the last few years.

They lack lighting, some plant, taps and water pumping apparatus.

There are no accomodation stores.

The central parade square consists of large rocks. To complete these barracks, Gen. Larchese estimates some six months work at a cost of 25 million lire. This is considered somewhat exaggerated but the cost of repair to buildings would be high.

Supply Problems

14 Reg. Food Dist. Depot and the 71 Local Distributing Depot are both well run.

Supplies are chiefly from Naples. Some pilfering occurs during shipment.

Wine and cheese are almost entirely acquired by local contract.

Declassified E.O. 12356 Section 3.3/NND No. 785026

Fresh meat issue commenced May 1st, and local contracts have been arranged by individual Battalions. Supply is chiefly Beef. Prices vary slightly.

The 14 Reg. Food Dist. Depot is at present swarming with rats and the cigarette stocks suffer accordingly. Measures are being taken to improve conditions.

Stock registers, tally cards etc;, are good.

Fire Precautions adequate.

Bread throughout Sardinia is good.

71 Local Depot at Sassari supplies the North. Bread is baked by civilian contractors. Army Bakery at Cagliari is old but quite efficient and roomy. Supplies app. 6000 issue loaves daily.

Local purchases from troops 15 Lire allowance are more evident than on the mainland.

Fresh fish is plentiful and makes a considerable addition to the daily ration. Vegetables are also plentiful. Troops are generally well fed in spite of the miserable kitchen accomodation.

An excellent form of biscuit is made at the Army Bakery in Cagliari and issued in lieu of fresh bread to isolated units in Nuoro and Maddalena.

Medical Problems

14 Principal Territorial Hospital, Cagliari, excellent.

22 Camp Reception Hospital, Sassari, still has over 60 Tuberculosis cases in the wards for whom no accomodation can be found in civilian sanatoriums. The majority of these are ex-prisoners of war. All wards throughout the hospital are adjoining.

Medical stocks are stated to be sufficient.

22 Camp Reception Hospital is fortunate in possessing

Beyond a natural preoccupation on the part of the Italian Public, regarding the present political situation, the proximity of the General Election, the possibility of losing Venezia Giulia and other Italian Territory, this H.Q. has nothing further to report under Intelligence.

TRAINING

C.A.R.

During a recent visit to Orvieto, Col. Gatta, O.C, raised the following points.

(1) Instructors:- Situation at the C.A.R is most unsatisfactory.

So far they have received less than 75% of the W.E. for instructors. Between 20% and 30% of these are unsatisfactory, either too old and ready for discharge or too illiterate to make satisfactory instructors.

Some 52 potential instructors have been found among a batch of some 400 of the recruits who have seen previous Military Service. In spite of this addition, the present deficiency is 40 N.C.O Instructors.

Of the many already proven instructors, who Col. Gatta sent from the C.A.R. to Cesano and Manziano on Courses, only a very small percentage were returned to the C.A.R. at the end of their course, many being posted to other C.A.R.s, in spite of the fact that Col. Gatta had been promised that this would not occur.

The present deficiency of 40 instructors, plus a daily absence of some 10% of the Instructional Staff,for reasons of sickness, compassionate leave etc;, result in a shortage of instructors, which is being severely felt, especially when it comes to breaking down to small squads for arms instruction.

(2) Training Programme

Certain snags have cropped up in the training programme. The training programme for the first four weeks has been found to be beyond the capabilities of the C.A.R. in it's present circumstances. The six day week of 42 hours training has been found to be a very great strain on the instructors who are forced to handle large squads owing to the shortage of good instructors. During the 4th. week the 4000 recruits of the C.A.R. are supposed to complete firing practices on the 30 yds. and 100 yds. ranges. This necessitates firing some 8000 men in a week, which is quite outside of the capabilities of the C.A.R. Col. Gatta has,however, overcome this difficulty by starting training immediately the recruit arrives and by including part of the 2nd. Weeks training in the first week,part of the 3rd. Week in the second and so on. In this way, it has been possible to start shooting in the 3rd. Week of training instead of the 4th. This, however, has severely taxed the training staff and has necessitated rather rushing the recruits training.

8 INF. REG.

All troops of the 8th. Inf. Reg., who have been engaged in the public security work, during the election period, returned to their Bns. on the 15th. of April.

Training in the 8th Reg. has recommenced.
At the present moment, W.T. and P.T. are the main considerations. The new issue of Model 91 (6.5mm) rifles has necessitated all ranks receiving instruction in handling what is paramount to being a new arm to them; A copy of the 8th Reg. new training programme will be submitted with end of month report. ? fastidious
The Regiment is at present well below strength and is awaiting arrival of recruits from the C.A.R. The arrival of these recruits, trained on British weapons, joining a regiment which is having instruction on what amounts to a brand new weapon to them, is liable to cause a certain amount of confusion. Officers of the Regiment are very keen to know, when and if British Arms are to be supplied to the Regiment. If such is the case, steps should now be taken to send available Officers and N.C.Os to Cesano for instruction on British Arms.

END/BEGINNING MONTH REPORT AS AT 1st. APRIL 1946

(1) GENERAL

(a) Domestic

Major Feak continues Sick Leave until the week end 6/7 April. He has, however, made daily visits to the Territorial Command H.Q. and accompanied the Asst. Chief of Staff, Col. Buonerba, to the C.A.R. at Orvieto.

Major Downing has spent the most of the short time he has been here visiting Units and making the acquaintance of Officers in the Territorial Command. He accompanied Gen. Soldarelli, Gen. Cortellessa and Col. Buonerba on an inspection tour of Units in Viterbo and of the C.A.R.

Major Lacey has spent some seven days in Sardinia. It is hoped that either the G.S.O II or the D.A.A./Q.M.G. will be able to visit the island soon.

Major De Carvally has been made available by the Chief of Staff, to accompany visits to Italian Units and his assistance is invaluable.

(b) Italian

Senior Officers state themselves to be well satisfied with the call-up and are greatly surprised by the general physical standard of the recruits.

The Engineer Services are rather extended by the amount of work required by American Units in R.A.A.C. This is over and above the demands of the Territorial Command itself.

51

ORGANISATION

(a) Domestic Satisfactory, but there is still only one learner clerk to deal with all correspondence.

(b) Italian

Col. Gatta has evidently made considerable efforts to retain the old staff of the ex-Orvieto Re-inforcement Camp as general duty personnel within the C.A.R., a course which had much in it's favour.

It is hoped that these men may be incorporated within the Coy. from the Ind. Regt. who are well below strength.

EMPLOYMENT OF TROOPS

(a) Army less CCRR

The 6th. Inf. Regt. is still supplying detachments for Public Security.

.....2

Declassified E.O. 12356 Section 3.3/NND No. 785030

The Coy. of the 2nd. Bn. guarding an A.R.A.R. dump at Perugia is being withdrawn.

All detachments should start returning to Bns. after the 7th. April.

Grenadier Company continues under command of the 6th. Cheshires.

TRAINING

(a) Army less CCRR

In the Inf. Regt. little or no training is possible. This was pointed out in our 8/G/17 of the 20th. March. It has been suggested that the Regt. Commander can re-commence a training programme in the very near future when his Bns. are intact again.

At Orvieto, progress in training is most impressive and the many large, open parade grounds lend themselves ideally to primary training.

Both recruits and instructors are keen. Little time appears to be wasted in between individual periods.

Most Officers participate in training in identical dress as the recruits.

INTELLIGENCE.

(a) N.T.R.

(b) N.T.R.

(c) The return of ex-prisoners of war from Russia has been the only incident of note..Demonstrations in Naples and Florence have not been repeated in Rome. Army authorities are rather amused by the inevitable "loss of face" suffered by the Communist Parties.

Public opinion is almost entirely in favour of the refugees.

Extract from Italian Int. Report "Scandals that have occurred in the Questura of Rome, Genoa and Milan, associated with officials of supposed "ex-partisan" origin, have swung public opinion very much in favour of the CCRR"

The Army generally is quite naturally in favour of a return of Trieste to Italian control. This frame of mind is encouraged by the normal Italian Army Officer.

The question of the Army vote is a subject of much discussion.

Leave Problems The Territorial Command has experienced difficulties in returning troops from Sardinia at the end of their leave. At one stage last month, there were 1,150 men waiting for return to the mainland. The question of their supply has been discussed with S/T,M.M.I.A.

Cruisers 'Scipione' and 'Regolo', making two trips each plus civilian services have now returned the greater percentage of these men.

Morale At the C.A.R. is excellent. Week-end leaves for a percentage of the instructional staff has been organised.

Col. Gotta has pointed out that there are few recreational facilities for troops in Orvieto. He has

..... 4

He has organised a football team; a theatrical company and has every hope of forming quite a full sized orchestra and band out of the recruits. He regrets the inability to acquire any form of sports gear and is willing to buy anything he could purchase from Allied Sources.

Troops in Rome are fortunate in being able to enjoy the facilities of a well organised canteen.

Between 09.00 HRS. and 21.00 HRS. all tram fares are halved for troops.

600 free cinema tickets are distributed amongst local units daily by the Ufficio Benessere.

The same department offers welfare grants to ex-servicemen and repatriated prisoners of war.

(1) Strength returns do not show deficiences which will result from the present Army Class Release. Figures have not yet been compiled by Territorial H.Q.

A consignment of jeeps (ex A.R.A.R.) allocated by the War Ministry to C.C.R.R. were discovered in the E.V.P. There they were sprayed, numbered and issued to units. All the vehicles require at least a major overhaul.

It has since been learned that the CCRR have refused to accept these jeeps and therefore they will presumably go to 8 Repair Unit. It is not known who was responsible for the original instructions for disposal of these vehicles.

Clothing and Equipment

Gen. Soldarelli has remarked on the faulty manufacture

..... 5

Declassified E.O. 12356 Section 3.3/NND No. 785030

of many of the new Italian pattern boots issued to C.A.R.

Socks are nearly in holes after two days training.

Beyond these two exceptions, clothing issued to the C.A.R. has met with complete approval. It has been queried whether any form of gaiter or puttee could be issued to recruits. Gen. Soldarelli is greatly in favour of this.

British webbing equipment is in possession and in the process of distribution.

Arms and Ammunition

Gen. Soldarelli continues to point out that the ex Mussolini Barracks are only occupied by some 300 French troops. He is most anxious to establish the Rome Military District there.

His argument is that such a move would release

" ROSSELLI
" LAMANORA

These barracks could then accomodate refugees at present in Cecchignola.

It would be appreciated by the S.L.U. if either the possibility of alternative accomodation for French troops could be considered or Gen. Soldarelli be informed by M.M.I.A. that the ex Mussoilin Barracks will not become available for some lengthy period.

At the C/A/R/ certain repair work and rebuilding still remains to be done.

Every effort has been made by the S.L.U. to hasten this but many of the barrack rooms and messes, although in use, are

I GENERAL

(a) The illness, during the last ten days, of Major Peak Gill, has of necessity rather curtailed the activities of the B.L.U. and the arrival of a D.A.A. & Q.M.G., in the person of Major Downing, is most opportune and has greatly simplified the situation.

Liaison with the Territorial Command continues to be satisfactory.

The vetting, by this H.Q. of all requests originating from R.A.A.C. for repair and maintenance work, required to be carried out by the Genio Militare of Rome, is working out quite satisfactorily. There has been a marked reduction in the number of requests and in the extent of the work called for.

(b) The Commander of the C.I. Calabria Division has been requested to report on the possibilities of organising a C.A.R. capable of handling 1500 recruits at one time, on the island of Sardinia. The suggested locality is the Serrasecca Barracks at Sassari.

An officer from S.M.L.U. will be visiting Sardinia in the near future.

The Call-up has started satisfactorily in the Rome Territorial Command and some 500 recruits have reached the C.A.R. at Orvieto, to date.

In spite of the large quantity of Anti-Conscription prepaganda, which has been in circulation for some time in Italy, morale among the recruits seems quite high. However, many cases of malnutrition have already come to light and quite a large number of young men have been turned down, owing to their not conforming to the physical standard required. The majority of these cases are under weight.

Relations with France are still not good and alarm still exists in the minds of many Italians, as a result of territorial claims made by France some time ago.

Although these claims have not been discussed either in the French or Italian press for some time, they have not been forgotten by a large portion of the populace.

A number of unconfirmed reports have been received in Rome, of a traffic in arms and ammunition on the Adriatic Coast. Arms and ammunition are presumed to be coming from the Balkans.

In the Rome Territorial Command, relations between the troops and populace, remain on the whole cordial and between the populace and the CCRR quite good.

A report received from CCRR Legion Commander at Cagliari in Sardinia, states that elections on the island, are continuing satisfactorily and have so far been held in 16 communes of the province of Cagliari, in 8 communes of the province of Sassari and in 12 of the province of Nuoro. This H.Q. is in course of settling down in its new offices located at the Rome Territorial Command, 32 Via Po.

This move should result in a much closer liaison with the Territorial H.Q. than has been possible previously.

The arrival of two British O.R. has slightly reduced the staff problem. The unit, however, is still denied the services of it's DAA & QMG, who is attached to 7 BLU, Florence.

11 EMPLOYMENT OF TROOPS

(a) Army less CCRR

In view of the proximity of the forthcoming local elections in Italy, Prefects of many Provinces have already called for detachments of troops to be placed at their disposal, during the election period. The main reason for this demand, is the acute shortage of CCRR and police for Public Security Work. These demands are made direct to General Soldarelli at the Territorial Command and only he can authorize the detachment of troops for this purpose.

Numbers called for up to and including the 7th. March are given below.

Unit	Number of troops involved	Prefect at whose disposal troops have been placed	Notes
1 Bn 8th INf Reg	80	Lat ina

This move should result in a much closer liaison with the Territorial H.Q. than has been possible previously.

The arrival of two British O.R. has slightly reduced the staff problem. The unit, however, is still denied the services of it's DAA & QMG, who is attached to 7 BLU, Florence.

11 EMPLOYMENT OF TROOPS

(a) Army less CCRR

In view of the proximity of the forthcoming local elections in Italy, Prefects of many Provinces have already called for detachments of troops to be placed at their disposal, during the election period. The main reason for this demand, is the acute shortage of CCRR and police for Public Security Work. These demands are made direct to General Soldarelli at the Territorial Command and only he can authorize the detachment of troops for this purpose.

Numbers called for up to and including the 7th. March are given below.

Unit	Number of troops involved	Prefect at whose disposal troops have been placed	Notes
1 Bn 8th INf Reg	80	Lat ina	
1 Bn 8th Inf Reg	250	Macerata

TRAINING

(a) Army less CCRR.

As a result of the large number of extraneous duties being carried out by the 8th. Inf. Reg., including those shown in the paragraph on Employment of Troops, training within the Regiment, at the present moment, is at a very low ebb.

550 men alone are so far committed in aid to Civil Power detachments.

Situation at the C.A.R. is satisfactory and the preparation of training set ups, equipment and programmes is well advanced.

Extract from report by Col.Massia, "Intelligence", Rome Territorial Command.
"The news that Tito's forces on the Yugoslavian frontier have recently been reinforced, has caused a great deal of alarm in the hearts of the Italian public, who feel very strongly indeed against the Yugoslavian's claim of Trieste.
Relations with Austria are rather strained at the moment as the result of this countries claims relating to "Alto Adige".
A number of Italians who have been resident in Switzerland for many years, have recently been expelled from the country for no apparent reason.
Resentment is felt against France, especially over her claim of Venttimiglia". end of extract.

Discipline:-

Discipline within the Territorial Command remains fairly satisfactory and very few serious breaches of discipline have been reported during the month.

One case of a Sergt. in the 8th Inf. Reg; making a public speech of a communistic nature at Viterbo was reported. The Sergt. in question was severely punished.

Morale

Morale remains surprisingly high, bearing in mind, the low rates of pay; high cost of living etc.

The increase from 5 lire to 15 lire per day of the of the troops subsistence allowance has definitely had a very good effect on morale.

I GENERAL

Liaison with the Terr Command is continuing satisfactorily, although the lack of a DAA & QMG is being very much felt. The BLU now consists of Major J.G.FEAK G II and Major LACEY SO II Liaison CCRR and is completely deficient of ORs Staff.

Gen SOLDARELLI, Rome Terr Commander wants the BLU to move into his HQ in Via PO, where he has made available the necessary offices etc. It is proposed to move at the end of the month.

During a recent visit to the CAR ORVIETO, Brig M.W.HOPE BGS, expressed himself as being satisfied with the progress being made. All essential repair work at the centre should be completed by the end of the month.

II EMPLOYMENT OF TROOPS

(a) Army Less CCRR : No changes reported during the last 14 days.

(b) CCRR. Extraneous Duties.

(i) Outside Regna Coeli Prison - 23 men.
(ii) Military Prison of Forte Boccla - 1 Office and 45 Men.
(iii) E"42 Guarding UNRRA warehouses and escorts of trucks - 1 officer and 50 men.

All the above are provided by the Rome Legion mobile Battalion, who have about 17% on leave of various kinds including 3% in hospital.

TRAINING

(a) Army Less CCRR :

8 Inf Regt are being called up to provide an excessive number of guards, escorts for personnel, rail and transport, often for long periods. This is definitely interfering with training, as quite large numbers of men are involved.

An investigation is being made, with a view to cutting down these guards etc and in some cases handing them over to CCRR and the police. Practically all instructors for the CAR have now completed their courses.

Slavs and Albanians have reached this country in numbers not closely known and have spread out all over ITALY and are particularly in the cities of ROME, BARI, NAPLES, ANCONA, BOLOGNA, GENOA, MILAN, UDINE and PALERMO, evidently in accordance with a pre-arranged plan, probably in view of the ITALIAN political elections.

(c) Relations between tps and populace.

Little change to report. Relations between tps and populace in ROME remain on the whole cordial.

Relations between populace and CCRR remain quite good. The populace sees in them the only safeguard of public order.

Relations between populace and police are not at all good, and a great mistrust of the police seems to exist.

Ex-partisans, are despised by most of the population who hear only too often of acts of brigandry etc being carried out by ex-partisans. A dim view is taken of the admittance of a considerable number of ex-partisans into the police.

(a) Domestic. No change in the situation since last report.

Acute shortage of staff is being seriously felt and liaison side of the BLU is suffering as a result.

(b) Relations with 8 Terr HQ continue to be satisfactory.

Gen SOLDARELLI has great confidence in the scheme for the new ITALIAN Army, and is giving it his whole-hearted support.

The morale generally of the Terr HQ is satisfactory and continues to improve within the Terr Command. The General, however, is still very office-bound, as a result of the extraordinary amount of paper work which daily flows into his office and with which only he seems capable of dealing. There is nowhere near enough decentralization of responsibility in the HQ.

Col BUONERBA, Assistant Chief of Staff, does seem to get out and about a fair amount, visiting and inspecting Units within the Command.

High priority has been given to the organizing and equipping of the CAR and both Gen SOLDARELLI and G II 8 BLU have paid visits to the Centre during the last ten days. Satisfactory progress is being made and all work will be completed in time for the first call up.

Discipline - An improvement in discipline has been noted during the month, especially in the case of the 8th Inf Regt, where the Regimental Commander has been carrying out a drive with this view in mind.

An improvement in turn-out in the Regiment has resulted from a reshuffle of Uniforms, and the difference in dress is now a Company one, and not as previously an individual one.

Leave. There are a large number of men in the ROME PC awaiting leave or discharge to TRIPOLITANIA, TUNISIA and LIBIA.

Pay problems. Nothing to add to those already appreciated by MMIA.

Morale. A slight improvement has been noted in morale during the last month. Improvement in the living conditions of 8th Inf Regt, resulting from the moving from VITERBO of one Bn to ROME and one Bn to AQUILA, has already had a good effect on the morale of the Regiment.

The present programme of the Terr Comd of moving Units into better accommodation as it becomes available from the ALLIES, is bound to result in an improvement in the morale of the troops.

The increase to 15 lire per day of the troops' subsistance allowance will permit the officer to augment the daily ration of his troops and will have a beneficial result on morale. On the other hand, low pay, shortage of funds for Welfare purposes, bad feeling caused by disparity in rates of pay between various units in the Army, are all factors contributing to the present low standard of morale.

Herewith Progress Report No 3 as at 15th Jan 46.

I. GENERAL

(a) This BLU has been functioning with the ROME Territorial Command since Nov 45 and although a considerable period has elapsed, progress to-date has been rather slow. This situation has arisen as the result of the acute shortage of staff in 8 BLU. This HQ is now reduced to a GSO II and no other staff whatever. Naturally with the accumulation of paper work and normal fortnightly and monthly reports and returns, a great deal of time is of necessity spent in the office and not outside on actual liaison work.

(b) In spite of the above however, a number of units in the ROME Territorial Command have been visited during the last fourteen days. The general standard found has been reasonably good bearing in mind the difficulties under which many of the units are working.

EMPLOYMENT OF TROOPS

(a) Army Less CC.RR

No important changes in the employment of troops in the ROME Territorial Command have taken place during the last fourteen days.

(b) CC.RR

No important changes during the last fourteen days. They are carrying out normal duties required of them.

Situation at the C.A.R. ORVIETO is satisfactory and the barracks will be ready in good time. Col GATTA, OC., the C.A.R. is a very efficient officer who has had a great deal of experience in the running of training establishments. The barracks at ORVIETO were previously occupied by the 802 Reinforcement Centre which Col GATTA commanded and the change-over to C.A.R. has been simplified by the fact that this quite efficient organisation was already in existence. Practically the complete staff, which has been in the Centre for over a year has been absorbed into the C.A.R. Numbers attending courses I and II at CESANO and MANZIANA are as follows :-

INTELLIGENCE

(a) Ascertainable activities of ITALIANS viz a viz other countries.

N.T.R.

(b) Frontier Activity

N.T.R.

(c) It is evident that the feeling of the civil population towards the Army is not as good as it should be. The Army has lost its prestige in the eyes of the people, who feel that they have been let down. Until the Army can be put on a resonable footing again and regain the confidence of the people, this feeling is liable to remain. No serious incidents between troops and populance have been reported within the ROME Territorial Command.

(d) Political Current among troops

There is no apparant political activity on the part of the troops.

(e) Subversive Elements

A certain amount of hard feeling is caused among the troops by misleading articles appearing in the extremist press against the Army.

(f) Public Security

Some concern is being shown with regard to public security and it is felt that the elections will be a real testing time.

Return of Br MT held by 8 British Liaison Unit - NIL.

NOTE: As a result of a conversation on 19 Dec, 45 between Col PIDSLEY and G.S.O. II, 8 B.L.U., the following points were agreed upon in connection with the transport situation of this H.Q.

1. that a vehicle should be at the daily disposal of this H.Q;

2. that during periods when the vehicle is not required by this H.Q., it shall be sent back to the garage with a note stating when and if the vehicle is required again during the course of that day;

3. that as far as possible the same vehicle and driver should be provided daily, thus enabling the driver to become conversant with the locations of the various units to be visited by this H.Q.

To: H.Q. M.M.I.A.

Reference your Appendix 'D' to G/7 of 16 Nov as amended by G/7 of 7 Dec, 45, herewith Fortnightly Report as at 15 Dec 45.

1. The first part of the month has been devoted to visiting various units in the Territorial Command.

On the whole the accommodation situation in the Command is not yet satisfactory, as many of the Barracks, at present occupied, are sadly lacking in essential repairs. Naturally, this has had an adverse effect on the morale of both officers and men living under these conditions.

In the case of the 8th Inf. Regt, at VITERBO, this has been particularly marked. In order to improve the situation, one Bn of the Regt has now been moved to AQUILA, where a very good barracks has been found for them.

In the near future, the Regt H.Q. and the H.Q. Coy will be moving to the Regina Margherita Barracks in ROME. The remaining Bn will occupy the LA ROCCA Barracks in VITERBO as soon as the repair work, at present in progress, is completed. This should greatly improve the accommodation of this Regt.

2. The Democracy Course being held in the Regina Margherita Barracks is causing a great deal of interest both at the Ministry of War and the Territorial Command.

During a recent visit, I noted that the standard of officer and O.R. attending this course is quite high and great interest and enthusiasm was being shown by both instructors and students.

Free speech and frank discussion are encouraged and political issues are avoided.

It is quite clear that the Ministry of War are very keen on this new project.

3. The 802 Reorganisation Centre at ORVIETO is being prepared for its new role of T.T.C. and repairs etc, will be completed by early Jan, 1946.

The remaining personnel still at the Centre are being disposed of as reinforcements to units in the Command.

Most units are up to W.E. for officers and men although some difficulty is being experienced in finding sufficient trained mechanics, drivers, W.T. operators to replace personnel being discharged.

4. There is still a serious deficiency of essential clothing and much of that being supplied is in a very poor state, coming from old stocks and [illegible]. Naturally, as a result of this, any question of uniformity of

Naturally, as a result of this, any question of uniformity of dress within units is extremely difficult, although some effort is now being made to issue to units, as far as possible, clothing and equipment of a similar pattern.
