Mideast cable following is paraphrased: Xervas the Edeas Comd in Epirus reports Italian Officers and CRS under a Major Firmo Benente wish form own unit to fight Germans. Xervas approves. Benente wishes following message passed to Premier Italian Government Marshal Badoglio. "We evaded Germans by seeking refuge at HQ Greek National Guerilla Bands under Comd Xervas who approves my forming Bn. named Dorados Antaroza. Our desire is to fight under National Govt. for freedom of Greece and Italy. Request therefore by agreement with British High Comd you dispatch 2,000 (anklets - blankets ??), 1,000 pairs boots and 500 uniforms." Paraphrase ends. Policy is that Allied resources will not be diverted to Italian requirements since this could only be done at expense of Greeks and would inevitably antagonize them. However if Badoglio wishes to send supplies for Italians in Greece there is no objection provided they are from purely Italian sources and carried in Italian ships. British Foreign Secretary concurs. General Ambrosio message in your 434 of 15 October being relayed to Mideast as desired. Action FATIMA.

We are most grateful for your telegrams numbers 430, 431 and 432 which admirably set out the political praxtln (?). FATIMA action for TAYLOR for CACCIA from MURPHY and MACMILLAN cite FREEDOM. Our first thoughts are as follows we should continue to work for the earliest possible broadening of the government by the introduction of representatives of the liberal and labour groups. If we work for a civilian premiership, which is preferable, it is essential that Badoglio remain in the government in a position which is comperible with the services he has rendered in bringing about the Armistice. We feel this could be accomplished by latter giving him the ministry of national defense and command of the army. Nevertheless it would be wise to secure the signature of the protocol amending long Armistice terms and naval agreement before any change. It would also be important that Badoglio should acquiesce in reconstruction of ministry and take a portfolio. Moreover it is vital that the right man be chosen as premier. Who really does command maximum support possible. Our plan shapes itself something like this. The formal constitution of Allied Commission will soon be announced. Certain expert officers, to be followed by others, will arrive in Brindisi in a few days. General MacFarlane returns here Wednesday or Thursday and will proceed to Brindisi about Friday with General Joyce. If as we hope the texts of the various documents for signature have reached us agreed by Washington and London we (Murphy and Macmillan) would hope to bring them with us to Brindisi ³³⁴⁰ the end of the

week. We could then consider the whole problem. Count Sforza is due to leave here for Brindisi on October 18th and no doubt will be in conference with the King and Badoglio. It will be interesting to observe the reactions on both sides.

Following tripartite statement was issued simultaneously from Washington, London and Moscow immediately following the Declaration of War on Germany by Italy on October 13. "The Governments of Great Britain, the United States and the Soviet Union acknowledge the position of the Royal Italian Government as stated by Marshal Badoglio and accept the active cooperation of the Italian Nation and Armed Forces as a co-belligerent in the war against Germany. The Military events since September 8th and the brutal maltreatment by the Germans of the Italian population, culminating in the Italian Declaration of War against Germany have in fact made Italy a co-belligerent and the American, British and Soviet governments will continue to work with the Italian Government on that basis. The three governments acknowledge the Italian Government pledge to submit to the will of the Italian people after the Germans have been driven from Italy, and it is understood that nothing can detract from the absolute and untrammelled right of the people of Italy by constitutional means to decide on the democratic form of Government they will eventually have.

The relationship of co-belligerency between the governments of Italy and the United Nations' Governments cannot of itself affect the terms recently signed, which retain their full force and can only be adjusted by agreement between the Allied Governments in the light of the assistance which the Italian Government may be able to afford to the United Nations' cause."

Very personal for Foster from Medcom to FATIMA from Air Command Post CITE

our number A 269.

Policy regarding treatment of Italian service personnel in all areas under consideration on high level. Basic legal status of all such personnel is that of Prisoners of War as necessary foundation for our jurisdiction and control. This status can however be regarded as suspended in case of active collaborators and will not exclude great variations in treatment to suit individual circumstances.

If this is accepted all such personnel as Prisoners of War would be under protection of Geneva Convention and could not be used for purposes directly related to conduct of the War without consent of Badoglio Government it is proposed that latter should sign agreement giving general consent to such use.

Legal and Political aspect of the problem are mainly for foreign office and war office but Air Force interests must be kept in view and we should like to have your comments as soon as possible. In particular it would be helpful to have immediately any information available about (1) approximate number and categories of IAF personnel both aircrew and ground staff within your command (2) present organization and utilization (3) your views on future use of Italian personnel by MED Air Command. ²²³¹ This need not be limited to IAF personnel if you think Italian Army personnel could be usefully employed under MED Air Command control (4) your views on future organization and conditions of service.

Please despatch this message which is from Italian Ambassador at Madrid, to Marshal Badoglio, date is 8th October. "1194. Following is a text of a telegram from Royal Minister at Berne addressed to Your Excellency dated 5th October:

"Italian colonies in Switzerland continue on the whole to remain calm and disciplined. Royal Legation keeps in close touch with consular officers.

Swiss Government have ordered all debts of Swiss firms and private citizens towards Italy to be paid to Swiss National Bank.

400,000 Swiss Francs have been transferred to Switzerland by Ietsambi; for obvious reasons I preferred to have the above sum blocked by the Swiss Government.

I succeeded up to now in securing means to defray the activities of Royal Legation and consular offices. I trust I shall be able to obtain advances from Swiss Government for the future.

Spanish Ambassador to Royal Court Fernandez Questa is still in Switzerland and shall probably not return to Rome for the present. His absence from his post is manifestly due to desire avoiding pressures upon Spanish Embassy by Republican Government Magistrates. End of message from Berne. Signed Paulucci Di Calboli.

Madrid branch of Banca Nazionale Del Lavoro, which has liquid resources of about thirty million pesetas, formerly received direct instructions from Banks Headquarters in Rome and was under strict Governmental control. Bank never acted in close contact with Italian Embassy, Madrid, and Manager, although he holds the same political views as the Ambassador, does not feel able to accept instructions from him on matters affecting the Bank. Manager fears he may receive specific orders shortly from Rome as to disposal of the Banks funds. Foregoing para one.

FATIMA FOR GENERAL TAYLOR FOR CACCIA FROM MAKING FROM G-2 FREEDOM SIGNED GING CITE

PIEBI.

Manager has informed EM Embassy that if a headquarters of his bank has been set up in liberated Italy he would accept instructions from them or, failing this, he would act upon instructions of the Minister of Finance of the Badoglio Government.

Please take whatever action you can.

Message No. 890 of October 6th from the Italian Charge D'Affaires at Buenos Aires for Badoglio reads as follows: FATIMA FROM MURPHY SIGNED EISENHOWER CITY WHOLY. I have the honor to acknowledge the receipt of your Excellency's telegram delivered to me today October 5th by the United States Charge D'Affaires here. I summarize telegrams already sent by me to Your Excellency through British Embassy here in reply to telegrams sent to Italian Diplomatic Representatives loyal to the Royal Government. One unnumbered telegram of September 24th last "I assure scrupulous observance your Excellency's orders. Under date 16th instant I informed Argentine Foreign Minister and local press that this embassy maintains itself faithful to the orders of Royal Government". Telegram No. 887 of September 28th sent to Royal Embassy Madrid in accordance with instructions received: "I assure uniformity my actions with directive of Royal Government. I am developing work of clarification with Argentine authorities and colony also in view campaign newspaper Mattin D'Italia in favor of so-called Fascist Republican Government. Please authorize me to proceed eventual transfer of subordinate personnel on basis of evaluation positions of individual functionaries. Also to place under direction of Royal Embassy local representatives of Bank of Italy and Iacambi in order to provide at this post for needs of Royal Embassy and depending consulates". Telegram No. 888 of September 30th, 1945. I acknowledge receipt of Your Excellency's telegram 27th instant. ³⁰¹⁵AI presented official

note to this foreign office in sense now prescribed by your Excellency. Foreign Office replied 28th instant taking note of my communication. On 20th instant all subordinate functionaries signed to proceed on explicit declaration of loyalty to Royal Government. In case of eventual defections I shall act as instructed. In compliance with your Excellency's orders I sent of September 30th a new note to foreign office confirming my previous communication in name of Royal Government. Royal Military Attache for his part sent Supreme Command through British Military Attache telegrams 1/1 and 2/1 dated September 30th and 30th respectively. He requests acknowledgments. I confirm for every good purpose absolute loyalty of this embassy to Royal Government and readiness execute scrupulously all the orders sent me or which may reach me in future. Already collaborating with United States and British Embassies here. This embassy can communicate in clear by radio and cable with Royal representatives in Madrid, Lisbon and Berre. Argentine Government has implicitly manifested it has no intention of recognizing Fascist Republics Government. At Foreign Office I have been confidentially assured that Argentine Government considers Government of His Majesty only legitimate Italian Government conformably this country's general term conduct in not recognizing change of government occurring during war. This position confirmed by measures taken at my request against daily Mattino D'Italia for "having used disrespectful terms against rulers of a country with which Argentina maintains friendly relations thus giving rise to diplomatic representations". Contacts make it desirable Royal Embassy and Argentine authorities are being maintained without change. I repeat that Argentine note replying to mine of September 17th was limited to acknowledging receipt. Up 'till now I have not received reply to my note of September 30th in name of Royal Government. In conclusion Argentine Government has abstained from official declaration regarding us because it considers them superfluous. Several days ago there left on Steamer Cabo Le Hornes Doctor Quiroga Consul General at Genoa and Colonel Raggio Military Attache to

Argentine Embassy there. Both confirmed the above to me in confidence. General position Argentine public opinion and press is generally in our favor excepting nationalist sectors. A serious schism was produced in colony especially following campaign in favor of so-called Fascist Republican Government and Germany by daily Mattino D'Italia of which Engineer Valdani is financeer and Michele Intaglietta director. I am trying by all means at my disposal to clarify situation and I am continuing in contact with loyal elements including exponents of "Free Italy" who assure their loyalty to Royal Government.

In view of Italian declaration of war and uncertainty of date on which Italian Government may be able to function from ROME the following arrangements are being made. (To AGWAR for COMBINED CHIEF OF STAFF rptd USFOR information BRITISH CHIEF OF STAFF rptd FATIMA for TAYLOR rptd ADV CP rptd FILROT rptd IBS for SEARS for AMO signed EISENHOWER cite WINGS MAT-59). Para 1. Allied Commission being activated and will establish a skeleton headquarters in close contact with Italian Government at Brindisi. This skeleton headquarters will consist of heads of sub-commissions of Allied Commission absorbing the Allied Military Mission. First task will be to examine with Italian Government methods and machinery whereby Italian Territory, at present under Allied Military Government, can pass gradually to Italian Administration supervised by Allied Commission. Sicily likely to be first area transferred. General Joyce on arrival will assume charge of the commission in capacity of Acting Deputy of President. Para 2. Forward elements of Allied Commission have been despatched to Palermo to join AMG headquarters. Intention is that experienced officers of AMG headquarters together with forward elements of Allied Commission will shortly join Allied Commission Headquarters at Brindisi. By that time it is intended that sufficient progress shall have been made to enable steps to be taken looking toward handing over SICILY as contemplated par 1. assigned personnel and certain AMG officers, will join headquarters at Brindisi in due course. This process must necessarily be slow owing to limitations of accommodation and communications etc. Para 3. Concurrently with above AMG Headquarters will be split into (A) AMG 15th Army Group responsible to Commander of 15th Army Group for military government in rear of combat zone. (B) Hq AMG responsible to AFHQ for military government in rear of combat zone. (C) HP Region 1 which will become an Allied Commission region on the transfer of SICILY. Para 4. Thus, when SICILY is transferred to Italian administration Hq AMG will cease to function in that area, and be responsible solely for Region 2 or such other territory as is not the responsibility either of 15th Army Group or of Allied Commission. As soon as necessity for such responsibility disappears, Hq AMG will be merged into Allied Commission.

Observe with great satisfaction that the Italian Government has declared war on Germany.

(TO FATIMA for Taylor for Badoglio rpt ADVANCED COMMAND POST from Eisenhower cite

FINES RE your note dated 11th October.) By maintaining a vigorous resistance to the German forces the Italian Nation, through its armed forces and its civilian population, may hasten the redemption of Italy.

I take this occasion to inform you that the Allied Commission is being constituted and that an advance group of officers will shortly arrive at Brindisi prepared to discuss the most pressing problems with the Italian Government. It is important that we start examining forthwith problems connected with the gradual transfer of territory now under Allied Military Government to the administration of the Italian Government subject to guidance and instruction from the Commission. It is apparent that any measures of this sort require detailed consideration, and that it is a prerequisite that the Italian Government put itself in a position satisfactorily to discharge the responsibilities involved. The purposes disclosed in your proclamation and in your statement to the press yesterday point the way to the accomplishment of this objective.

Since CASTAGNA is second in command, we feel that BADOGLIO not BASSO is the one to take action. (To FATIMA for TAYLOR rpt AFHQ ADVANCED CP signed EISENHOWER cite FHMGS reference your #1698 of 9th October). It is not a question of discharging CASTAGNA but of relieving him of his present command and removing him from the island. Suggest that BADOGLIO recall him to his headquarters for consultation and that no new command be given until his attitude is ascertained with regard to the position which Italy is about to assume.

Transmit following information to Ambrosio. Signed GINC. Cite FREGT. Referring your 346 of 10 October. In order to economize shipping in providing for the defense of Corsica Italians moving to Sardinia have been ordered to leave behind such Anti-aircraft and Coastal-defense equipments and ammunition, load-carrying vehicles and and port equipment as required for the garrison. Decisions on equipment to be left behind have been based on Allied and Italian needs. Further when certain Italian divisions are moved from Sardinia to Sicily or Italy economy of shipping probably will dictate movement of personnel with minimum equipment. Accordingly equipment now in Corsica or Sardinia is being left where it best satisfies needs of garrisons of both islands. Action and acknowledgement FATIMA information AFHQ ADVANCE COMMAND POST. You will inform Ambrosio that above decisions are firm and will not be changed.

Italian Charge D'Affaires Buenos Aires addressed following through State Department to Badoglio. (FATIMA from Murphy signed Eisenhower cite FHCIV). Dated 6 October. In view of the fact that the so-called Fascist Republican Government has reestablished telegraphic communication to Argentina from Rome via trans radio it appears that it would be very useful if like facilities could be made available between Southern Italian zones and the Argentine as present service from Rome creates discrimination against compatriots originating in these zones and pro-German propaganda is favored.

2. Meteorological information of base conditions in Milan-Lurin areas throughout the day and night is scanty but important to make comparison with base conditions in UK particularly during winter months.
3. Please signal immediately any information on this subject which you can obtain from German or Italian aviator or meteorological PW who knows this neighbourhood. Any comments of allied officers who have lived there would also be useful.

Department of State telegraphs that. FATIMA from MURPHY signed EISENHOWER site FIGIV.

If Badoglio could inform Spanish and Swiss Governments charged with Italian interests in the United Nations that he has given instructions to his Missions for complete cooperation with British and American Representatives this would be helpful. He might advise the Representing Powers when informing them of this change of attitude and new relationship that this cooperation equally applies to United Nations territory in which Italy previously had Missions. The Department expresses hope that instructions along these lines will be given to the Italian Interests Sections of the Swiss and Spanish Missions.

Following telegram from Department of State is repeated to you as of interest. FATIMA from MURPHY signed EISENHOWER cite WHCIV. Count Sforza has not in so far as Department of State is aware stated in a broadcast that he approved the actions of the Badoglio Administration. The press has variously interpreted his remarks made at an Italian Rally on September 26 about the amount of support he is willing to accord present Italian Government. An associated press despatch from London on September 28 stated that the Algiers radio reported that Sforza had advised Badoglio of his full support to the existing Italian Government as long as it pursues its policy of defeating the Germans. Countess Sforza subsequently denied to New York any report that her husband had communicated with Badoglio but this may have been because she had no reason to know of his message to the Commander in Chief's Headquarters. Sforza to clarify what he called misinterpretation of his point of view made a statement to the press on October 1st which was transmitted to you in the State Department's recent press telegram. It is the most recent public expression of Sforza's political viewpoint. Regarding the Monarchy during his term of exile Sforza persistently denounced Victor Emmanuel and the House of Savoy for the role it played in Italy's present condition. ~~He~~ he Armistice he has maintained this attitude in interviews and addresses. ~~He has~~ expressed the opinion that Churchill is wrong in attempting to rally Anti-Fascist ~~forces~~ to the

King of Italy however he has likewise taken the stand that the issue of constitutional reforms should not be brought up now and that all political wrangling should be shelved before the task of running the German invaders off of Italian soil. On the whole while he possibly talked too freely his stated opinions agree with the statement sent by him to the commander in chief's headquarters. American Minister in Lisbon has been asked by Italian Minister there (FATIMA from Murphy signed Eisenhower cite FIDIV) to transmit message below to Italian Military Mission via Allied Force Headquarters. Through kindness of American Legation in Lisbon I have received the Sovereign's message to me. I beg you to give assurances to his Majesty the King that I immediately endeavored to give his message greatest possible dissemination to all Italians in Portugal and in Portuguese colonial possessions. I reaffirm the fact that Italians here in an overwhelming majority share the same feelings as those in the Royal Legation here that is of profound loyalty. The noble direct words of His Majesty are a great comfort and encouragement to all of us. Signed Prunas. Your message has been received through courtesy of American Legation Bern. This is to confirm information already sent through our Embassy in Madrid and his Britannic Majesty's Legation in Bern that I am collaborating regularly with the Representatives here of America and Great Britain. By radio I can communicate direct to our Missions in Stockholm Ankara Lisbon and Madrid. The attitude of the Swiss is completely favorable and his Majesty's Government is naturally regarded as Italy's only Government. The 2000 officers soldiers and civilians who entered Switzerland as refugees are being accommodated by the Swiss authorities. I shall continue reporting on condition of our Consular and Diplomatic agents in Germany and countries under German domination via His Britannic Majesty's Legation here. Italian Swiss frontier is controlled by German Fascist forces and is almost closed.

State Department has telegraphed as follows. FATIMA from Murphy signed Eisenhower

Italian missions in all the neutral countries except Afghanistan and Finland. It
would be helpful to have something similar to be transmitted to Kabul and Helsinki
particularly in view of reports recently received from our mission at Kabul that the
British Minister delivered on September 25th a communication to the Italian Minister
which stated that he was to communicate only through the British Legation. Please
take this up with the appropriate Italian authorities.

Cite FHGAB. It is understood that a number of Italian Labour Bns exist composed of Yugoslavs of dual Italian Yugoslav nationality. Understood majority forced labour and would welcome release from Italian control. Numbers have deserted and desire to fight for Allied Nations. Consider these Yugoslav Slave Labour units would prove more useful if taken over complete by us and designation of units changed to embody reference to nationality. At present their usefulness unstable chiefly owing to continued Italian control. Allied Military Mission ascertaining numbers involved and sounding Italian Badoglio Government on the question of these units being taken over by us. Consider these arrangements more suitable than despatching large numbers Yugoslavs to ME or NA. Will be possible at future date to segregate those willing to join combatant units of Yugoslav Force. Similar considerations apply Yugoslav dual nationals serving combatant units Italian Army. Will send you further details after result of talks between Allied Military Mission and Badoglio Government. Meanwhile request your approval in principles.

The return of Italian prisoners of war to Italy reference your #198, October 1st, can be tied in with the G-3 Letter dated 26 September, Subject: Italian Prisoners of War and our cable #683, September 28th. (To CG FATIMA action to AFHQ ADV CP information cite NAGAP cite NADCG cite FHGBI cite FHGCT cite FHGAB signed CINC). We are not willing at this time to make any token release of Italian prisoners of war except for specific purposes for duties connected with Italian units assisting us in driving the Germans out of Italy. Para. In this connection, reference our #7552, September 21 and your #68, September 23, we are proceeding with the organization of Italian prisoners in non-combat service, labor units under Italian officers and non-coms. These units still have prisoner status but will be maintained in camps and fed, clothed, and sheltered by the Allies and will eventually be granted a certain degree of liberty or leave privileges. They will be paid at rates provided by the Geneva Convention. It is possible that at some future date we will transfer some of these service units to Italy to perform service functions, at which time the matter as to whether they will be continued in a prisoner of war status or release to the Italian Government will be decided upon the basis of Italian support and whether the Italian Government is at that time able to maintain them. Para. Italian officers and enlisted men now in prisoner of war camps need an expression from the Italian Government to the effect that they are to assist the Allies in every way on non-combat duties connected with the war effort and that

Count Sforzo is due to leave United States October 6th and will stop several days in England and before proceeding to Algiers. He will be accompanied by his son. Sforzina and Farlo Almagia. Travel arrangements have been made through and with approval of War Department. No objection is seen to precautions the French want us to take to prevent his circulating in Tunisia in the event his plane lands there enroute to Italy. Necessary arrangements should be made. He hopes to proceed to Italian Mainland or Sicily as soon as possible. This will depend on military considerations entirely as has always been made clear to him.

G-2 Summary. (TROOPERS, INFO MIDEAST, FAIRFIELD REAR, FATIMA, FABLE, from G-2 FREEDOM signed RISENHOWER cite PHGBY). All enemy now North of Volturno and Calore Rivers to Ponte, the Nek (?) line to general areas Samsurce and Poifno. Little contact except in Ponte - San Marco Sector by light rear guard forces and artillery fire. Volturno River overflowing in lower reaches. Eastern flank unchanged except Ternoli Area where 16th Panzer Division broke contact nightfall and retired towards Guglionesi and possibly Palta (?). On 5 October considerable traffic NW of Ternoli, but early 6 October naval units reconnoitering to distance 20 miles NW Ternoli unable find signs of enemy and fire on railway drew no reply. Not known whether 16th Panzer actually withdrawing from left flank, after severe handling by Allies on 5 and 6 October. Appreciate such a move would necessitate withdrawal enemy troops this flank to Vasto area and thereby force general withdrawal entire front to Minturno - Vasto general line, since formations at present available too thin on ground to cover such extensive flank as from area NW Benevento to Vasto. Clear that Germans must very soon either reinforce southern front with one or more divisions from central or northern Italy or accelerate their withdrawal. All divisions in line now except 15th. Average Germans not more than 50 - 60 percent battle efficiency due to casualties. 3rd Panzer still believed to be in area north of Cassanocourt (?) watching and occupational duties, possible however elements will be moved south to bolster up 14th Corps. 2nd Parachute Division presumably fully occupied area Rome - Civitavecchia.

Promptly desire full information respecting currencies being used by Allied Forces in Italy. (To FIFTH ARMY, EIGHTH ARMY, FATIMA, FAIRB and SEARS for AMG rptd FILPOT signed EISENHOWER cite FRMGIS). In particular:

1. Has AMG posted proclamations #3 and #12 and on what date did such posting occur.
2. Does public know that BABOGLIO Government issued decree making a lire, BMA note and Yellow Seal Dollar legal tender "provisionally" fixing rate at dollar equals 100 Italian on lire and on re (?). (Of course BABOGLIO's proclamation does not operate in territory under AMG).
3. Was public unwilling to accept any of such currencies, (a) prior to posting of proclamations, (b) after posting of proclamations and if so, what caused such unwillingness.
4. What currencies are now being spent by Allied troops and the Allied authorities.
5. Are there adequate supplies of Allied Military Lire in your area for next 30 days for various purposes, if not, what additional amounts are needed.
6. Are any transactions rencies(?) and Italian lire being conducted at rates other than 100 lire per Yellow Seal Dollar, 400 lire per BMA note and one Allied Military Lire equals one Italian Lire.
7. Is there any marked preference by troops or by public of one currency over another and is there any evidence of hoarding any currencies other than Italian lire

"The President and the Prime Minister are in agreement that the King of Italy declare war on Germany as soon as possible.

There appears to be no necessity for waiting until Rome is occupied by the Allies.

You will, therefore, put pressure upon the Italian Government for an early Declaration of War against Germany without waiting for further successes by the Allied Forces.

Immediately following such declaration a joint announcement of Italy's co-belligerence will be made by the U.S., U.K., and the Soviet."

G2 summary. Not sent yesterday. South Italy. In West, enemy main forces, withdrawing during past 2 days, already crossed Volturno River at several points, but heavy rearguard fighting still going on south of river, especially areas Capua, Caserta, Ajaccaloni. 15th Panzer Division believed in area between Capua and coast probably holding line of Volturno. This has enabled Hermann Goering Division to move further northeast on left of 14th Corps Area. (TROOPERS, AGWAR, info MIDEAST, FAIRFIELD REAR, FATIMA, FABLE, FAKIN from G2 FREEDOM signed Eisenhower cite FHEBI). Germans in Benevento area still have only light forces in contact with Allies who have taken Cantanocchia Ponte and Peschianazza. Farther north enemy putting up stiffer resistance on line west of Faino to west of Celenza. This sector from WOF Benevento to WOF Celenza held by 26th Panzer and 29th Panzer Divisions. Line from area west Celenza to approximately Larino held tenaciously by one paratroop division and probably a small battle group detached from 26th Panzer. From Larino to vicinity Termoli 16th Panzer Division fresh from reserve area has been counterattacking, especially against Allies south of Termoli, but with little success. Enemy obviously appreciates threat to his left flank and further counterattacks may be expected if situation needs restoring. Unlikely however he will waste forces in offensive action to regain ground unless it is vital to his defensive layout.

254. By decision of General EISENHOWER evacuation of our troops from Corsica to Sardinia has begun using small crafts available. Sick and wounded and a first Aliquot (?) of sailors has already been evacuated. As soon as the routes to northern Ports of Sardinia shall be swept transports will be intensified. Priority of evacuation as follows Blackshirts Battalions Divisions Cremona 226 and 225 Friulani (?) Parties of Cremona and 225 Divisions are repairing roads, Air Fields and communications and will be the last to evacuate. Blackshirts Battalions fought well against the Germans in zone of Bastia. (FATIMA FOR ITALIAN HIGH COMMAND FROM CASTELLANO FROM C-2 FREEDOM SIGNED CINC CITE FHGBI). As General MacFarlane should already have informed you Anti Aircraft and Coastal guns and ammunition with no personnel and the maximum portion of Lorries will be left in Corsica. The reason for this is that it is the best way for the Allied Commander in Chief to meet the needs of French Troops in the island.

Policy following will be applied with respect to Italian Prisoners of War: Those in Italy and Sicily may be released, paroled, or detained at your discretion depending solely on which status they will be of most value to the war effort. It is most important that the number released be kept small each case being fully justified by essential war requirements. Those who are Fascists or members of the Mafia and non-cooperatives should be segregated, retained as Prisoners of war and eventually evacuated to North Africa. Reference your 381, 28 September. Para. Italian Prisoners of War in North Africa will not, except in special cases, be released from their status as Prisoners of War. The special cases will be volunteers for special missions and will be a very small proportion of the total number of Prisoners; such personnel may be released or paroled. Of the remainder, those who agree to aid the Allied war effort will be employed in activities which further the war effort in units organized under their own officers and non-coms or as Prisoners of War laborers and will be accorded liberties in accordance with instructions shortly to be issued. They will, however, be maintained, housed, clothed, and fed in Allied camps and be paid at rates provided under the Geneva Convention for all labor performed. Those who will not agree to aid the Allied war effort will be segregated and retained in Prisoner of War camps under guard with a view to eventual evacuation from the Theater. I have just talked with General Mason MacFarlane and we both agree that you should now present to Marshal Badoglio and, if possible, to the King in the strongest way my views on the subject of Italian Declaration of War. (PERSONAL FOR GENERAL TAYLOR FROM EISENHOWER CITE PHCOS). The failure of the Italian Government to declare war is, in my opinion, leaving Italian garrisons in the Mediterranean area in a confused state and with a complete lack of understanding of what is expected of them in their action against our common enemy. For example, in the recent German attack on the Island of Cos a strong Italian Garrison declined to fight and I believe their unwillingness to resist the Germans is the result of the indecisive situation as suggested above. Messages from our Governments indicate grave uncertainty on their part caused by what they describe as the unimpressive attitude of the Italian Government in this matter. We intend to advance rapidly on Rome and all recovered territory will come under the control of the Italian Government provided it now takes a firm position. The Marshal has shown every willingness to cooperate effectively but failure to declare war is militating against the position of the Italian Government and the recognition we can accord it. I am well aware that his Majesty and his family, the Marshal and other members of the Government

SECRET

SECRET

are personally exerting themselves to the utmost to inspire Italian resistance to the Germans, but in the matter of formal declaration of war they must act decisively and without further delay. The world will understand decisive action but further temporizing will be interpreted as a desire on the part of the Italian Government to evade definite responsibility. I repeat that you should present this matter to the proper authorities in the most emphatic way as I consider it of vital importance at this stage of relations between Italy and the United Nations.

Ensuing text King Georges Message to King of Italy;

Your Majesty,

I thank your Majesty for your personal letter conveyed to me through General EISENHOWER.

I and my Government agree that it is most important in our common interests that the greatest possible area of Italian territory should be freed from the Germans, and in particular that Allied troops should reach Rome at the earliest moment with the best assistance that the Italian Armed Forces can afford them.

My Government are prepared to agree on a provisional basis to your Majesty's suggestion that your Governments jurisdiction should be extended to Sicily and subsequently to other areas on the mainland of Italy as they are cleared of the Germans, the authority of the Italian Government being exercised under the supervision of the Allied Governments. At the same time I must make it clear that while my Government are prepared to deal with your Majesty's Government on a DE FACTO basis in regard to questions arising out the execution of the Armistice and the expulsion of the German invader from Italian soil, there is no question of recognizing your Majesty's Government as our Ally. Nor will this provisional arrangement be allowed by my Government to restrict in any way the free choice by the Italian people after the War of the form of democratic Government which they prefer.

SECRET

SECRET

I and my Government welcome your Majesty's reference to the political reconstruction of Italy, and the prospect of or return to a parliamentary regime. My Government earnestly hope that all Anti-Fascist elements throughout Italy will range themselves around your Majesty and your Government and that a coalition Government including all patriotic groups will be formed with the object of carrying on the struggle against the German invader with the maximum force of the Italian people.

Finally, my Government are prepared to consider the possibility of altering the rate of exchange between pounds and lira, though I must warn your Majesty that there may be serious difficulties in the way of any such change. (FATIMA FOR MACFARLANE FROM G-2 FREEDOM SIGNED CINC CITE PROBI)

Personal message from GENERAL MARSHALL at AGWAR just received is repeated (thru FREEDOM) for your necessary action. To FATIMA Personal for MASON MACFARLANE from EISENHOWER cite FHSGS.

1. Inform BADOGLIO that it is the view of this government that GRANDI'S presence in BADOGLIO GOVERNMENT at this time would not be acceptable. Even though GRANDI was perhaps Chief Figure in deposition of MUSSOLINI, he has been so closely associated with FASCISM that to place him now in BRINDISI GOVERNMENT would cause much adverse comment and misinterpretation.

2. First accretions to BADOGLIO GOVERNMENT should be men of unequivocal liberal and democratic principle. It is only through the use of such men in responsible positions that this government can feel justified in supporting the present Italian Government.

3. The KING'S position on the question of declaration of war as stated (?) #428 is unimpressive. Germany has already taken active belligerent steps against Italy and the chief strength of BADOGLIO'S GOVERNMENT is it's announced determination to rid Italy by force of the German invader.

SECRET

4. An immediate declaration of war by the Italian Government on Germany is necessary if Italy is to be given the status of a co-belligerent.
