FANGO RPT FILPOT FATIMA FLAMBO FREEDOM G-3

For Col. Rathbone from Brig. Richards.

1. In DOGS 100 of 23 Nov Filpot asked Freedom G-3 for American Lt Col for MEMO and sent as reminder DOGS 127 of 14 Dec. This Lt. Col. intended to be Chief Liaison Officer in Campania to handle all local Italian army problems there and back up PBS and 5th Army.

2. An apprehensive that cables from Fatima subsequent to 20 Dec on subject of American Col. as second in command have caused misunderstanding and confirm that both repeat both officers are required.

3. Situation in Campania now both Flambo and Italian General Staff complaining of administrative difficulties with Italian units all which best eliminated by Liaison Officer of rank and experience. Am trying to hold the fort with junior British officers but the sooner American Lt. Col. can come the better. Request hasten.

G-2 SUMMARY

1. No special summary yesterday.
2. EIGHTH ARMY. Numerous enemy patrols directed to secure prisoners indicate nervousness and interest in Allied dispositions and intentions. Outpost screen in coastal sector reported thinning and believed falling back on main body behind Arielli and bridge over Arielli on coast road blown. Enemy again reported in Pennapiedimonte empty since 28 December. Identifications show general dispositions in line of contact unchanged. Elements 2 FLIEHER Division recently brought up from some reported withdrawn.
3. FIVE ARMY. No reports yet available of enemy action to attack by French Corps starting this morning. In center, resistance stiffening in Cervaro area but elsewhere enemy noticeably quieter. Prisoners report the Herman Goering Battle Group now is withdrawn and Division generally west of Cassino, but elements 29 PG Division still believed in line strengthening junction 15 PG and 44 Inf Div. Enemy using Rapido River to flood fields in Cassino sector of main defense line.
4. GENERAL. Badoglio has reported that one of his agents reports that General Gambaro, Marshal Graziani's Chief of Staff, stated Germans intend to withdraw to Spezia-Rimini 9 in January. No information this HQ to substantiate

Basic document we have not seen and therefore cannot know content.
But British Ministers office suggests para A is unnecessary since
only inhabitants of German Reich within its 1939 frontiers are to
be regarded as German Nationals. Suggests following definition of
refugees taken from that used by inter governmental committee on
refugees: "Persons who have had to leave their countries of residence
because of the danger of their lives or liberties on account of
their race, religion or political beliefs".
Foregoing is for your consideration.

All we know as regards paragraph 1 is that Cardinal Secretary of State has made more than one appeal to German Ambassador as also to the United States and British Ministers to ask his Government to take all possible steps to spare Rome the horrors of war. Italian Ambassador Madrid is being asked to request Franco to elucidate.

You should continue to base any statement you may make to Badoglio Government on our telegram number 4602 of November 23. You may also say that the United States and British Governments have no intention of departing from their present attitude which is to ignore all appeals addressed to them on this subject.

Transmit following paragraph of State Dept. teletype 25 January 4 specified for Reber:

"As far as United States is concerned the notes exchanged relating to Italian acknowledgment of indebtedness for advances made for maintenance Italian Missions must be modified. New exchange of notes containing necessary revision or exchange of notes modifying notes already exchanged can accomplish this modification.

"Modification or revision must include (2) that any reference to repayment of these advances should be so phrased as not to stop United States collecting its debt at any time whenever dollar assets are available and whenever the appropriate United States authorities consider it desirable to obtain repayment and (1) clear acknowledgment of indebtedness to the United States on behalf of Italian Government.

"Confidential Information for Reber. This question is part of a larger issue at present being considered by treasuries of Britain and America relating to disposition of Foreign Exchange acquired by Government of Italy. The American position is briefly that post armistice creditors should have access to post armistice accruals of foreign exchange for repayment of advances. The position of the British is that Italian Foreign Exchange Balance in the United Kingdom and United States should be held in a kind of trusteeship pending an overall settlement of claims of all the United Nations against Italy with little distinction drawn between prearmistice and post armistice exchange acquisitions and claims. The two governments have as yet not resolved the differences

1. MIDEAST REPORT. They are employing on operational duties a number of Italian service personnel. Inevitably these come in contact with Allied military personnel BG Greeks and Yugoslavs. Strong protests received at wearing by Italians of Albanian medals gained in campaign against Greece. This causing much resentment and will inevitably lead to incidents and loss of life. Mideast cannot accept onus of protecting Italians.

2. Unless you see serious objection you should instruct Padoglio to issue instructions in his name or that of the King that the wearing of these medals and all other gained in campaigns against any of our Allies will be discontinued as being inconsistent with co belligerent status. FOR INFORMATION

1. Prime Minister has been informed; Gen Alexander agreed acceptance Greek Brig in Italy for garrison duty. Probable date based on present incomplete information by which movement could be completed about 1st March. Shingle will not be impaired by this move. Mideast states Greeks have prepared token force consisting company of selected persons to participate entry into Rome. Without hurting shingle hope to be able to ship this to Italy during January. Ref Mideast 0/54437 of 2 January to Freedom only. As far as Italian repercussions are concerned, invitation by Prime Minister to Greek Government for move of two Greek forces mentioned above can be made now even though definite move dates not yet firm. As far as Greek Government is concerned this HQ has had no discussions with Greek Government on shipment of Greek troops to Italy and understands that political side of question has been handled by Mideast.

2. Request Mideast reply urgently our 23077 of 3 January not to Fatima, including data for token company which should be an element of the brigade.

3. Agree Mideast include 1 BLO with token company.

1. You have agreed Italians assemble 1 Division for early combat. Italian High Command proposes NEMBO parachute Division for this role. Reference FATIMA 1709 of 30 December.
2. Essential NEMBO Division be moved out of Sardinia early. Reference my 17293 of 21 Dec not to FATIMA. Men are specially selected similar to own paratroops. All agree they are best combat material in Italian Army. Certain pro-Fascist element must be weeded out and a start has been made. Disaffection mentioned our former cable was over-emphasized. Disbanding of Division not desirable since majority of personnel from enemy occupied territory and disbandment of this picked Division might have depressing effect on morale of balance of Italian forces.
3. Alternate solutions include:
 - a) Employment two Italians for necessary labour duty Corsica.
 - b) Request be made to Mideast to accept division for conversion to labour units.
 - c) Failing other solutions units be separated throughout Italian territories and disbanded as rapidly as civil employment can be provided.

2. Based on UK comments contained in TAM 96 of 30 November and US comments in TAM 104 of 10 December, relative to trade letters and commercial correspondence, postal regulations were amended prohibiting initially commercial correspondence. Communication from Troopers (reference MI 12), dated 20 December, to Censorship Branch, INC, AFHQ, stated Director General, Postal and Censorship Department has drawn attention certain problems relative communications from British territory to areas occupied by British or Allied Forces. He desired point out "(a) that person in England despatching letter today to Naples does nothing illegal since, so far as communications concerned, provisions of trading with enemy act, 1939, cannot apply to an area occupied by British or Allied troops; (b) since it is tradition and duty of post office to establish postal communications any area where possible and to ensure correspondence reaches destination, it would be improper and impracticable for his department attempt resist establishment postal channels with any area with which legal to communicate; and that (c) once postal communication established with such area department could act only within limits its powers under Royal Prerogative in regard such communications."

3. From above, together comment by War Office, appears limitation communications to former enemy territory occupied Allied forces is prerogative Allied Military Commander this Theater. Due regard has been given requirements official communications, military security, and effectiveness curtailment trade letters and commercial correspondence. Since 100% censorship outgoing mails will not be performed will be necessary such censorship be made incoming mails from Italy at countries of address in order effectively control. We do not believe such restriction warranted, either from postal or censorship standpoint, and consider amount commercial correspondence of detrimental nature would be negligible. For Gen Taylor from Gen Robertson.

Reference FREEDOM Letter of 15 December re supplies for Italian Army and draft reply dated 28 Dec forwarded by you. I discussed this reply at AFHQ and expressed view that common ration scale must be applied to all Italian tps. I suggest you forward your reply now with following modifications.

1st. Your para 2. It is essential for provisioning purposes to fix some ceiling. My opinion is that ceiling should be 250,000 for Mainland Italy including all elements receiving Army rations.

2nd. Ref para 1(b) of AFHQ letter. There will be negligible surplus of Army personnel. I cannot speak of surplus naval and air force personnel.

3rd. Unless personnel employed by Allies are adequately clothed and fed they will not give good service.

Transmitting paraphrase of State Department telegram 239 January 1.

"Giovanni Battista Raimondi wishes to offer his services to Italian Government. He feels he could be useful in post of some importance. Should no such post be available in present Italian Government or administration, he would prefer to wait until war is over. Raimondi's offer of service should be transmitted Italian Government and if he can be used approval for his return should be obtained. Since Raimondi was member of Partito Popolare Romano could supply information should Raimondi be unknown to present Government.

"Our Ambassador at Buenos Aires reported that Raimondi has support of certain church officials in Argentina who while in minority have been combating development of "Catholic Fascism" in Argentina. Ambassador believes that Vatican is interested in Raimondi's return. Department has received communication from British Embassy expressing approval of Raimondi return if his services can be used by Italian Government. Reported that Raimondi is prepared to renounce his Argentine citizenship and that Argentine authorities will raise no difficulties to such act."

1. We propose, unless contrary orders are received, to pay out of funds obtained from AISA certain expenses necessary to the proper functioning of AGO/AGE. Nature of expenses is indicated and explained below.

2. (a) Owing to lack of military personnel, it is frequently necessary to employ civilian cooks and mess servants for AGE/AGE messes, furthermore AGE/AGE officers are sometimes faced with having to find their accommodation and food for themselves and BG/GRs for short periods owing to lack of military accommodation and rations in the place to which they have been sent to function in behalf of AGE/AGE.

(b) Such expenditure has so far been disallowed pending a decision on the matter, but it is considered unjust that officers should have to bear such expenses themselves.

(c) At certain AGO/AGE messes AGE expenses are incurred owing to the necessity of officially entertaining representatives of the Allied Nations or the Italian Government; there are certain also to be considerable entertainment expenses at Salerno and Rome in connection with Italian Government Advisory Council and distinguished personages.

3. The whole question of such expenditure especially under paragraph 2 (a)

is complicated by the fact that whilst messes are joint British and American and whilst similar treatment of British and American officers in a joint organization such as AMC/ACC is essential, the regulations of the two armies on these matters differ widely, so expenditure cannot follow normal military channels. Proposed therefore to authorize commanding officers ACC and ACC or their delegates to make such expenditures which would be treated in the accounts of AMC/ACC as an administrative expense. It is, of course, understood that all such expenditure would be carefully scrutinized and controlled and proper scales of civilians allowed to be employed based on scales in force in British and American armies laid down.

4. Advisory Council is arriving Naples area shortly and will have to be housed and fed at a special villa or villas. We will try to get appropriate accommodation requisitioned but other expenses for servants, etc. will be necessary, and they will have to be paid by ACC and treated as administrative expense.

PATINA TO JOYCE REGARDING YOUR LETTER 014.33
DECEMBER 16TH

Security authorities are concerned at continued presence in Portuguese East Africa of Italians who have opportunities of damaging the war effort in an important operational area by sabotage and espionage. There are about 170 individuals involved, most of whom are merchant seamen. Anything in the nature of a security check on the spot is impossible and only practical method of removing the potential danger is to arrange for all the Italians to be removed from Portuguese East Africa to an area under Allied Control where they can undergo a thorough screening.

Preliminary arrangements have therefore been made for these Italians to go by Portuguese ship from Lourenco Marques to Casablanca and to have them screened there. Those found reliable would be sent to Italy, the residue being sent to the United Kingdom for internment.

In order to implement this plan it is necessary for the Italian Government through their representative at Lisbon to request the Portuguese Government to arrange for the departure and transport of the repatriates to Casablanca as it is understood that Portuguese Government would readily accede to this request.

We are asked to treat this question as one of urgency. Please arrange for the necessary instructions to be sent to Dajata as soon as possible.

"Following message from Spanish Representative Bombay has been communicated to me by Spanish Ministry for Foreign Affairs. Major Giocchino Castellana Prisoner of war in Military Hospital Bombay affected with cancer has expectation of 2 months to live. His ardent wish to see his family in Sicily before he dies could perhaps be satisfied through official request for his repatriation to which local authorities have not yet consented.

Paraphrase of Magistrati's 2066, confidential for Royal Italian Government.

Following conversation with Swiss concerns involved, "MH" believe it possible that some of existing contracts for arms supply could be liquidated. This action would avoid shipment such arms to Northern Italy or Germany. Paraphrase D'Ajetas 47 December 23 for Badoglio. Your telegram circular 399. Concerning intelligence I have personally taken every opportune action to enable sincere and thorough cooperation with American and British representatives in Lisbon. Latest instructions to Royal Air and Naval Attaches have been transmitted to them. These Attaches are already cooperating satisfactorily with Allied offices concerned. Captain Di Iuzio Air Intelligence is in closest touch with British Americans and has received same instructions. Have personally and more particularly handled military intelligence cooperation following resignation of military Attache. With reference to defensive repeat defensive intelligence center under Foselli full frank cooperation based on previously reached working agreement between British American authorities is reported. This possible notwithstanding many serious local difficulties arising from collaborators of Foselli. Refer my cable number 43. Regarding offensive repeat offensive intelligence center Clarez has not complied effectively with instructions received despite my repeated efforts. Therefore and also considering his state of mind aggravated by worries for his family in Northern Italy, I suggest in agreement with British Americans that he and his assistants Dargento and Gaulti be recalled promptly to liberated Italy. I am informed by Clarez who is a senior Alpine

EATIMA RPTD FOR INFO TO FARGO. IBS FOR BEARS FOR ROGERS.
AND DIST ONE.

As per your 1455 of 14 December give immediate instructions to AMG Palermo.
No reason why these troops should not be paid under same procedure used for
other Italian forces. Italian Sabaude Division wants 20 million lire monthly
from AMG Palermo, which is asking authorization from Dist 1. Delay in payment
can only have adverse effect on morale.
