The Six Party Congress at Bari has today unanimously accepted a compromise program which calls for (a) the prompt creation of a government to include representatives of all the six parties and endowed with the powers necessary at this critical period. (b) the creation of a constituent assembly as soon as hostilities cease. (c) the abdication of the King. The Congress then voted to establish an executive committee composed of representatives of all parties for the purpose of bringing about the foregoing aims. It was further agreed that the present situation does not allow the immediate solution on the institutional question, but the Congress considered that the King's abdication was an essential condition of the unification of Italian effort. This compromise was reached after the Christian Democrat and Liberal Parties refused to accept the program put forward by the action, Socialist and Communist Parties. It is expected that the Congress will adjourn shortly with a resolution to reconvene within 20 days at which time it is hoped Rome may be freed. Please inform Messigli and Vishinsky.

My number 962 of 29 January refers. Prisoners of War Agreement.

I have just received a note verbale from the Italian Government signed by Badoglio. A lengthy document which details the reasons for which the Italian Government decline to accept the agreement. Vice President Stone who received the note verbale from Badoglio personally agrees with me that there appears to be no prospect of getting Badoglio to sign an agreement on the lines of the one we have presented to him. In the note verbale the Italian Government refer to their Ministry of Foreign Affairs Memorandum Number 42 of 5 January forwarded to you by General Joyce under number 383.6 of 8 January. This concerns a plan for the disposal of Italian prisoners of war alleged to have been discussed between General Gazzera and the Provost Marshal General and Generals White and McNeary in the United States. The Italian Government again proposes that the whole question of Italian prisoners of war should be referred to a small mixed commission of Italians, Americans and British. I have informed Badoglio that I am forwarding his note verbale to you at once. I am sending you the original note verbale with translation and my comments by hand of MacMillan.

With reference your 42781 FHEOT. Marshal Messe has again urged very strongly that a limited number of Italian officers PW might be returned to Italy as he requires them very badly to replace certain unsatisfactory commanders and staff officers.  AFHQ FOR DGS, CIVIL AFFAIRS, BRITISH RESIDENT MINISTER RPTD
 AGENT FOR INFO FATIMA ISAR FOR INFO

The Bari Congress met yesterday under the presidency of Alberto Giances. In the opening address, Giances criticized the King's position and the tendency on the part of the Allies to maintain in power "persons of a fascist character". He admitted however that the anti-fascists, while deploring the war had taken "great care not utter a word that could discourage our soldiers".

The Socialist delegate from Rome, Longobardi (see my L89 of January 25) brought a message from the Central Committee of National Liberation in Rome which referred to the fight in which the Committees of Liberation in occupied Italy were engaged with all their strength against the invader and his fascist servants. It was then stated that in this fight the present government had not been able either to organize the effective participation of the nation or to contribute to resistance in occupied Italy. Therefore it must disappear and an extraordinary government of National Liberation should be created to assume all constitutional powers of the state without endangering national unity and without prejudice to the free expression of the popular will as regards the institutional question thus enabling Italy to wage the war and to ensure its own future.

Based on the position taken by the Rome parties, proposal of the action, Socialist and Communist parties was then presented to the Congress which maintained that since the failure to form a national democratic government rested solely with the King and the Badoglio Government, the three parties were acting

First: Inasmuch as King Victor Emmanuel has not abdicated, a Bill of Indictment against the Government, based on all violation of the statutes which he has committed, should be drawn up. Second: The Congress should proclaim itself the representative assembly of liberated Italy and reconvene as soon as possible in Rome, completing itself with representatives of the other provinces in Italy as liberated, to sit in permanence until the formation of a constituent assembly. Its tasks would be: (a) to proceed to the formation of an extraordinary government which unites the powers of the dissolved parliament and of the crown, taking care to give it immediately a wide base. (b) to intensify the war effort. (c) to ensure that ^{no} one takes away newly won liberties.

Third: Meantime and until the liberation of Rome, an executive committee for liberated Italy should be appointed. (1) to perform all acts necessary to attain the aims expressed in (b) and (c) above. (2) to represent the Italian people in their relations with the United Nations and (3) to carry out, on the basis of mass action to be immediately promoted in forms which the executive committee will itself decide, the legal foundation of the Congress and the verification of its powers. (4) Measures necessary to compensate the ineffectiveness of the Badoglio Government in order to alleviate the food situation, eliminate unemployment and destroy the black market* should be taken through the communal, Provincial and Trade Union organizations established by anti-Fascists in liberated territory.

Considered desirable inform Governments disposition of senior officers who do not appear in your reorganization letter of 26 Jan. Among them Brigadiers Gueterbock, Hamlyn. Grateful if you will supply material to enable us to inform them.

NEW SUBJECT. Believe appreciable personnel savings possible in present organization for administration of personnel and equipment on both American and British sides. Will appreciate your views on this, including what disposition you would propose for British and American Administrative HQ now at Tiai.

NEW SUBJECT. In light of existing directive that ACC function is "To insure that conduct of Italian Government conforms to requirements of an Allied Base of Operations", have you considered various pending proposals for creation of Central Power Directorate. Your attention is invited to the Directive of the CCS in FAN 248 that
"the Nationalities of heads of the sub-commissions will be left to your
decision and, in so far as possible, these posts will be distributed
equally between the US and UK. The assistant heads will similarly be
of opposite nationality"

It is noted that parity is well maintained at top level of vice presidents
and directors, but that as at present recommended, of 22 heads of
sub-commissions seventeen are British and 5 are American. It is
recognized that this is a situation that has developed gradually and is
not of your making, but consider it essential to adjust distribution of
these appointments to approximate parity.

AFHQ RPTD RE AGONY AND FATIMA REAR

with reference my 2116. Prisoners of war Agreement. I saw Badoglio yesterday. He said that he had considered the agreement carefully with his colleagues and that he could not possibly sign it. He stated that if he signed the document he would lose face entirely with the Italian people and that he would resign rather than sign. He pointed out that with half a million prisoners of war affected probably four million or more Italians were intimately concerned. He proposed that a committee should be formed consisting of Signor Brusca, General Gudzera and British and American representatives to reconsider the whole question. I argued forcibly and at length with the Marshal and produced I think every possible reason why it was urgently necessary that the agreement as presented should be immediately concluded. I told the Marshal very strongly that his refusal to sign and his counter proposal would inevitably be very well viewed by the American and British Governments. He remained adamant and it was impossible to shake him. I saw him again this morning. I told him that if he still declined to sign he must state most urgently and specifically exactly what his objections are. I insisted on his giving me at once his specific reasons and refused to accept a refusal in general terms to sign. He asked for time to produce a detailed report and promised to let me have it tonight. I finished our talk by impressing upon him once again the great urgency which the Allied Governments attached to the question.

see your number 46997 and my number 510, Transfer of Territory to Italian Government.

Saw Badoglio today. I went through document A with Badoglio who asked that he might be given time to consider it together with documents B, C and D with his colleagues. I considered this request reasonable but insisted on receiving a reply within 48 hours. I do not anticipate any difficulties with the possible exception of clause 5 of document A. I think it possible that Badoglio may suggest some modification to this clause although I pressed him strongly to accept the document as it stood and stressed the fact that the clause was an enabling one and that action under the clause would be strictly limited to cases of the kind mentioned. In anticipation of agreement being reached Badoglio agreed (a) to move his government to Salerno by the 10th February and (b) that the date of transfer should be the 10th February. I am making arrangements to facilitate the move of the Italian Government starting if possible on the ³⁰19th inst. I hope to let you have Badoglio's decision regarding the transfer documents within 48 hours.

Refer to our 30217 of 17 Jan and paragraph 9 of Letter AG 400-1 (Italy)
GCT-AMG, subject "Disposal of Italian Army" dated 2 Jan. As a matter of policy
it is impractical to release any Italian PW, either officers or men, now in
service units, and such requests from the Italian Government should be discouraged.
Above letter should be amended accordingly. Instructions have been issued to hold
all Italian prisoners not formed into service units now in order that their forma-
tion into such units may be considered. The above is due to manpower shortage
necessitating the utilization of these PW to replace US and British Service Units
for the duration of the war in this Theater.

FUTUR FOR MARSH MARSHALLS WITH YALOWAY

subject is your #1092 of 23 January. Previous reference is presumably your #242 of 23rd December. While latter included message to political leaders which might imply that G-in-C has in fact issued an order to them, we agree that it is such to be preferred that orders to Rome, at least until we arrive, should be in the name of the Italian Government and not direct orders by the G-in-C. You do not indicate Badoglio's objections to issuing the order as from himself, but we assume that he may be in some apprehension lest it not be obeyed. If this is so it emphasizes potential risks should order ^{be} drafted as from General Wilson. You should therefore insist on the Marshal issuing the order with the text of which we are in agreement. There will be no objection however and the Marshal might appreciate the insertion of the words "whom I have consulted" immediately following the words "Allied Headquarters" in the first line of the penultimate paragraph of your cable.

Subsequently pressure this area reported less. Opening by enemy of S. Giovanni Dam (G 6323) has increased speed and force of current in Garigliano and much complicated all recent Allied crossings.

2. EIGHTH ARMY. No activity reported.

3. GENERAL. Accumulative evidence enemy in defence using Divisional Engineers Battalions as Infantry. This done in case 15 and 29 PG, Goering, 94 Infantry, and 5 Mountain Divisions. Similar recent role given to Goering and 103 Recce. Units.

4. SIXTH CORPS. Fewer reports on progress of operation but no general enemy counterattack appears to have developed. Roman 1 Battalion and 13 Company 71 PGR (29 PG Division), Roman 2 Abteilung, 3 Artillery Regiment, and HQ Company Goering Panzer Regt identified. 2. In Cassino area enemy react very strongly to diversionary attack of 21 January. Heavy volume fire from all areas. Defiladed areas and area not held by forward troops very heavily mined and wired. Every evidence defense position extremely elaborate and thorough. Equally heavy reaction to attack same day south S. Angelo area 06515 where Allied bridgehead secured with difficulty. Pressure increase 22 January and enemy forced withdrawal all Allied troops across river inflicting heavy casualties. 71 Infantry Division identified during these operations. Increased enemy artillery activity. Presume result arrival of other elements three FG Division (all three battalions Night FOR now identified) in support Five Mountain Division. No reports today's renewed French attacks.

4. VI Corps. No initial opposition to landings. Some shelling by Anzio defences in early morning. Few enemy encountered during day but twenty prisoners taken identify ((38 71 PGM } PG. 8617) and 29 HEDS unit (PG. 8025) (both 29 IG Division) 2 or 3 tanks seen. Traffic on roads from Rome, Anzio and Terracina. Enemy did not carry out demolitions Anzio port.

4. Estimate enemy first likely commit elements 14th Panzer Corps Divisions not yet fully engaged in main defense line. 29 and 3 IG Divisions probably in this category. 90 IG Division ~~probably~~ well placed to double back along coast. Heavy concentration divisions in Cassino line indicated enemy's uneasiness at potential turning threat at northern and southern extremities and at probable inability of 4 original forward divisions to meet general Allied offensive. Intention was evidently maintain position intact and inflict maximum casualties on Allies. Anzio operation obviously complete surprise. Consider enemy must concentrate on sealing then eliminating bridgehead whilst endeavoring hold Five Army off. Much depends on his ability act quickly. Enemy will risk situation on Adriatic flank. Had removed all reserves before Anzio landing. Further territorial loss this sector not vital to general position and Foro defences are not now well advanced. No indications any moves from north of Rome. General counter attack plan not yet clear here.

5. General. Prisoners report so called Adolf Hitler's Witch Line being prepared Terracina-Fondi-Ponte Corvo-Monte Cairo. Slovak units believed working in this line. Look to letter MBS 387.4-2 December 25, 1943, from AFHQ to GOC, 15 Army Group and Acting Deputy President, AGO, copy to HQ AMG, subject: "Preparation for Restoration of occupied Territory to Italian Jurisdiction." That letter inclosed documents A, B, and C of 22 December "In order that you may be prepared to proceed on that basis in the event that you received instructions to that effect."

Acting upon authority conveyed by GCS Directive received today, Allied G-in-C now directs that restoration of territory to Italian jurisdiction be effected upon basis of documents A, B, and C of 22 December, substituting General Wilson's name for that of General Eisenhower. General Alexander and General MacFarlane will arrange between them for taking the necessary action. This will include:

(a) Communication to Italian Government by General MacFarlane of terms upon which it is purposed to restore territory to Italian jurisdiction. With this will go statement of any action it will be necessary for Italian Government to take to carry forward essential measures now established by proclamation. (b) Procure from Italian Government acknowledgment that it has taken note of these terms, and assurance of execution by Marshal Badoglio as Head of the Italian Government of Document C. (c) The Italian Government will be called upon to give a firm date as early as is practicable, on which it will be prepared to assume the powers and jurisdiction thus purposed to be restored. He will not terminate Allied Military Government in territory concerned until he is satisfied that requisite action by Italian Government has been taken.

Document A will be regarded as secret in same way Long Terms of Armistice are secret.

It is desired that the transfer be effected as soon as is practicable.

General MacFarlane will inform AFHQ, as promptly as may be, of the firm date on which it will be possible to effect the transfer to Italian jurisdiction. AFHQ has prepared a draft press announcement, to be communicated to the CCS for approval, stating that the transfer will take place at a certain future date, and giving the background of and reasons for the transfer. It is desired that this announcement be made as early as possible, in order that the psychological advantage may be obtained even before the transfer is effected. Publicity will be handled by AFHQ.

SITREP NO. 119 for FAMIR and NO. 129 for FATIMA.

EIGHTH ARMY. Patrol activity only with no change in forward positions.

FIFTH ARMY. On the FHE(?) front fierce fighting continued in the area 10 miles NW of Venafrò. On the 2 Corps front 36 Division was meeting heavy resistance in its bridgehead across the Rapido River. On 10 Corps front, 56 Division repulsed two enemy counterattacks in the area 3 miles NE of Minturno while 5 Division repulsed in the area one NNW of the town. 6 Corps successfully landed in the Anzio Area, 30 miles south of Rome. Complete surprise was achieved and very little opposition was met. By night 22 Jan, the ports of Anzio and Nettuno, 2 miles to the east were in our hands. 3 Division landing east of Anzio advanced against little opposition and reached their first objective 4 miles inland to the north. 1(Br) Division landing NNW of Anzio also advanced and seized its initial objective 4 miles inland to the NE.

REFERENCE FATIMA'S 2067 of 21 January

Italian armed forces in Region 2 originally paid by Regional Chief Finance Officer. Payments were temporarily suspended and later resumed on orders from General McSherry. Payment of 80 million requested by Corps Commander was effected. In meantime Jung without notifying Region 2 had sent 80 million lire to Corps Commander (12 million in vaglia and 68 million in cash). When duplication accidentally discovered all payments suspended on security grounds until Macelle removed. Not therefore clear how refusal to meet vaglie caused duplication as duplication already accomplished fact. (2) As Jung sent physical cash once not known Region 2 if he will repeat this operation. Suggest that if all military expenditure now controlled by you only necessary telegraph advice to Banca d'Italia Catanzaro of total expenditure approved for Corps for particular month and no need send vaglie. Necessary notify Region 2 amounts involved so as Banca d'Italia Catanzaro can be put in funds. (3) Above sent by MacFadzean in capacity as ex-Regional Chief Finance Officer.

PARA 1. Have personally visited Sardinia with members of my staff, and representatives from Corsica Italian Hq. Discussed matters of labor troops from Sardinia for Northern Base Section with General Webster. In absence of Colonel Simmons, Capt Vitelli accompanied me to Sardinia Italian hold quarter.

FOLLOWING agreements were reached, all concerned in Corsica and Sardinia concurring. In place of 2 Battalions of Alpine or REMBO Division, which are not desirable as labor troops, Sardinia will furnish 2 provisional battalions of truck drivers, total strength about 1000 men. These drivers and mechanics will be selected from Italian units in Sardinia and shipped to Corsica as provisional units with OWL officers. In addition to these 2 truck battalions 22 labor companies composed of men of Yugoslav origin will be furnished without their Italian officers or non commissioned officers. Total strength of 22 companies will be about 4500 men.

PARA 2. Truck battalions will have same status as Italian troops now in Corsica working with US troops. Yugoslav labor companies will be nominally under administration of Italian Hq, Corsica, but actually will work similar to Italian prisoners of war, now service troops in North Africa. The using services will be charged with supply and administration. For initial processing and later supply, provisions will

PARA 3. I have left a staff officer of NORBS and Italian officer from Corsica Hq in Sardinia. They are making detailed arrangements for earliest shipment of these labor troops. If any major modifications of plans and arrangements made by me are considered necessary by your Hq, earliest instructions are requested since operations are proceeding now.

PARA 4. Since making arrangements above stated cable R 837/18 from Fatima Fiske was received. Coastal division proposed is manning coast defenses in Sardinia. It is not suitable for labor, French command does not want it in Corsica.

Formation of administrative units from Italian Army still held up pending your reply to 15 Army Group 8653/1/283 of 6th Jan. and Plambo letter 25/1 of 6th Jan. It is essential to fix ceiling of Italian forces who will be supplied with rations from Allied Military sources and to sub-divide total between Army, Navy and Air Force. No reply has been received from Patina to our 29831 of 16 Jan. copy to you. No reply has been received from Patina to your 30221 of 17 Jan. copy to us. Urge you take action by laying ceiling as follows:-

Italian Army on Mainland including Carabinieri	225,000
Italian Navy drawing Military rations	61,000
Italian Air Force	21,000

Figures for Navy and Air Force to include any administrative units required by those services. If considerable numbers are transferred to Italian mainland from Sardinia or elsewhere, ceiling for Italy to be adjusted accordingly provided your overall commitments is not increased. Present tendency is for Army to dwindle whilst Navy and Air Force increase. This will lead to great confusion unless firm decision on dwindling (?) number of these three forces is given

Unit censorship regulations coordinated 15 Army Group being promulgated by MGS. FLAMEO RPTD FATIMA

Reference my signal All of 18. Further points for Adm Instr as follows.

For Italian Units working for Allies Italian Army is responsible for Adm including pay clothing expt discipline rife food and POL except in Combat Zone where food and POL are supplied from Allied Stocks.

For Italian portion of Allied Combat units such as 7 Mtn Arty Regt now under form same principles apply except that responsibility for discipline is under discussion with AFHQ under FLAMEO 3112/A2 dated 28 Dec.

For Italian PW units such as Tpt Coys which may in future be imported from overseas legal position is undefined. Presumed they would be freed on arrival but important in this case that they include NO overage personnel due for demobilisation. Will take up this policy question with FATIMA.

Above deals with Italian Army only. If Adm Instr is to apply to Italian Navy and Air Force you will presumably want reps at your meeting next Saturday to deal with that aspect.

considerable casualties as result of French offensive which by further penetration towards Atina would threaten flank of whole Cassino position. What forces will be used for such reinforcement not clear. Consider enemy likely resume effort to disengage whole of 29 PG Division and drawback to Army reserve possibly general area Frosinone-Frascati. Recent PW state division going back to Rome area. Herman Goering Division has recently been committed piecemeal and enemy likely profit by inevitable diminution battle tempo on taking up defensive line to regroup division again and use LX corps reserve. Review recent casualties in 44 Infantry division and extremely long front line experience of 15 PG Division consider together with probable attempt to create corps and Army reserve by withdrawal 2 Divisions as described, enemy will have to strengthen front line holding. Suggest possible intention draw again on 14 Army but no indications proposed change. Reports cite southwards movements through Frascati. Consider these probably represent new formation arriving.

PART 4. Rome area. Estimate. Enemy forces composed (A) 90 PG Division (vice 3 PG Division) generally north of city. Hq probably Civita Castellana, general responsibility coastal defense both north and south Civita Vecchia, (B) possibly for battalion parachutists including Roman II and III Battalions 6 para Regt left behind by 2 Fieger Division and parachute LIHR Battalion. Parachute troops reported also Tiber Mouth, Tivoli and Frascati. (C) probably 29 PG Division moving up south of city with possible coast defence responsibilities north and south Anzio. FATIMA REAR FOR ACTION, TO AMHQ FOR INFO FOR INFO TO DISTRO
FOR AND REGION 2 FOR INFO

Additional officers and SM/ORs requested from Region 5 for Kirkwood appear excessive and will seriously disrupt planned and necessary operation of Region 2. Region urgently needs many officers with certain qualifications request that number for refugee work be reduced to 15 officers and 40 SM/ORs and that HQAO Region 2 be permitted priority of essential officers of special qualifications. Military administrative officers especially those with experience of troops should not be taken for this service. Would also urge that Fargo and regions under command are coming to be regarded as inexhaustible pool whereas in fact personnel question is becoming increasingly difficult and these constant demands are seriously hampering operations and administration. Can some limit on both numbers and time be set to Displaced Persons demand.

IMMEDIATE

FLAMBO FROM CENTRAL ECONOMIC COMMITTEE

SIGNED HENDERSON

FATIMA FOR ACC BRINDISI FOR MURPHY

Tried yesterday afternoon and this morning to get following message to you by telephone but impossible.

Region III states that 1726 tons of flour 2.82 tons of soup 8 tons of milk were delivered to Salerno Province since 1 December 1943. Additional stocks has been allocated to Region 2 to meet the usual demands of the Province. CEC does not allocate to Provinces.

All importated food supplies will be treated as a common pool and will be allocated on an equitable basis. The Committee desires to establish a ration which will be substantially uniform throughout all Italy. It is considering the possibility of increasing the present ration in view of promised imports. Definite allocations cannot be made until supplies actually arrive. Amounts allocated to Salerno will be on the same basis as that for the rest of Italy.

No special plan is being made to provide food for Salerno and it seems doubtful that preferential treatment for Salerno would be politically advisable.

If you desire to propose special treatment for Salerno it is suggested that you submit a definite proposal to CEC for consideration.

The next meeting of the CEC will be on Thursday 20 January.

After discussion with General MacFarlane here the CINC cabled CCS expressing opinion that the tone of documents is unduly severe, and recommending that latest directive be cancelled and that transfer be on basis of documents a, b, and c of 22 December. These documents were transmitted to General Alexander and General Joyce by letter SOS 387.4 - 2 of 25 December, and are the original documents a, b, and c somewhat modified in details. Text of main agreement between General Wilson and Marshal Badoglio regarding treatment of Italian Prisoners of War was forwarded to General Joyce by pouch on January 11th with instructions that he should procure the signature of Marshal Badoglio. You should arrange this, at the same time Marshal Badoglio should sign on behalf of the Italian Government the supplemental financial agreement with the governments of the British Commonwealth, text of which was sent to you under cover of letter from ADDIS of January 9th. You should make the following alteration in the Preamble of the text of this agreement: for "hereinafter referred to as the governments of the British Commonwealth" read "for the purposes of this agreement referred to as the governments of the British Commonwealth".

1. Suggest you should arrange for the financial agreement to be initialled six times by yourself on behalf of the governments of the British Commonwealth and by a representative of Marshal Badoglio and put into force at once. Arrangements for actual signature by Mr. Macmillan on behalf of the United Kingdom and Commonwealth governments and by General Vanier on behalf of the Canadian Government can be made later.

You should also secure from Marshal Badoglio agreement to the issue of a Manifesto appealing to Italian Prisoners of War to volunteer under the terms of

the main agreement, this Manifesto to be issued immediately after signature. Terms of this Manifesto must of course be left to Marshal Badoglio but British Government feel that following points should be covered.

(a) It is the duty of Italian Prisoners of War who are given the opportunity of doing so to volunteer to cooperate with the United Nations. It might be as well in this connection to remind them of the declaration of war against Germany.

(b) They should do everything in their power to assist the war effort of the United Nations by obedience to orders given them by the latter authorities and by working to the utmost of their ability on any task allotted to them.

(c) Whatever the work they are called upon to do, whether it is agricultural work or unloading ships in the docks in the Middle East or elsewhere, they are doing just as much to help us as if they were fighting in the front line to clear the Germans out of Italy.

(d) The rapid conclusion of the war with the consequent possibility of their own repatriation will depend largely upon the way in which they assist the war effort of the United Nations.

Text of this Manifesto will be distributed amongst Italian Prisoners of War Camps in the British Commonwealth. Please telegraph text as soon as possible.

For your own information British and United States Governments have agreed to adopt a different procedure in appealing to Italian Prisoners of War to volunteer under the agreement. British Government wish to use Manifesto from Badoglio and do not intend to communicate the text of the agreement of Italian Prisoners of War in Camps in their hands. United States Government do not require Manifesto but will probably display the text of the agreement in their Camps for

Latest strength returns Italian Armed Forces show. Italian Navy seventy seven thousand two hundred an increase of sixteen thousand since thirty November. Italian Air Force twenty nine thousand two hundred an increase of eight thousand since thirty November. Policy set forth in Flambo letter 25/01 dated 6 January limits total combined strength of Italian Forces on mainland to two hundred and ninety six thousand. Therefore these Naval and Air Force increases are equivalent to reduction in Army strength for planning purposes. Request fixation of definite strengths for each service to fix Italian Army strength on which Allied program can be based. Secondly understand verbally from Italian Ministry of War that additional Naval demand of twenty seven thousand men is being prepared this if true will break the bank.

Agree should be feasible delay exchanging Dinar for Lire since relief expenditures being charged to Italian Government. However would seem practicable to make exchange of reasonable amounts at rate based on Dinar - Sterling Cross Rate without prejudicing future Exchange Rate decisions.
