DAILY SITREP

Headquarters,
Allied Armies in Italy

To: Tripdist, NA District, EES, CMIC, A-2 MAAF, Hq ACC (15)
Province Building Hq ACC.

On the left side of our Fifth Army Allied Bridgehead line the enemy attitude was defensive but three attacks of platoon strength were launched in area 8330 afternoon 26 March. All were repulsed. Two patrol clashes occurred at 9:31 and 9:32 in the vicinity of CARANO, near the centre of the line. An enemy patrol was driven off south of CISTERNA.

On the main Fifth Army front, our arty damaged considerably the battered Continental and Des Roses Hotels in CASSINO which the enemy has converted into strongholds. Fire started by our arty in an enemy dump at 8519, south of the town. The enemy shelled our lines steadily night of 26 - 27 March south of CASSINO. North of town, an enemy attack at 8327 on the road between CAIRO and TERRELLA was repulsed by our arty fire. A patrol clash occurred east of CAIRO. Enemy arty and mortars were active night of 26-27 in this sector. In the lower Garigliano valley, shelling was less intense but patrols on both sides were active. Weather generally fair on both Fifth Army fronts.

Several enemy patrol thrusts were repulsed in a resumption of some activity on the Eighth Army front. Two such attacks were made at 2814, southeast of TOLLO. In this area the enemy was engaged several times by our arty. In the ARIELLI vicinity at 2507 one of our patrols was attacked by a ten man enemy patrol which was repulsed. An enemy patrol in this sector withdrew when engaged by small arms and mortar fire. Northeast of ARIELLI one of our patrols demolished enemy-held houses. In the CRBONA area intermittent enemy shelling increased. Weather cold and clear.

DAILY SITREP

Headquarters
Allied Armies in Italy

TO: Tripdist; N A District, MBAS, CMIC, Lt-Col Bowman Room 35, Provincia Building, Hq ACC, A-2 MAAF, Hq ACC (14) Message Centre, Naples.

The enemy attacks on the Fifth Army Allied Bridgehead were by patrols near the centre of the perimeter. One patrol tried to infiltrate (9130) two miles southeast of CARROCIETO. The other attack was (9432) just north of CARROCIETO. An exchange of small arms and machinegun fire near CERRANO (9431) early evening 25 March quickly subsided. Heavy shelling on left flank. During night usual harassing arty fire.

On the main Fifth Army front, large explosion occurred (8214) near PIGNATARO, about four miles southwest of CASSINO when our arty heavily engaged enemy nebelwerfers (six barrel mortars). Our arty pounded Continental Hotel and Des Roses Hotel areas, enemy strongholds within CASSINO. During the night spasmodic enemy shelling of Point 193, which is firmly in our hands. Considerable enemy arty fire directed at PORCELLA (9024), northeast of CASSINO. Several enemy planes were over the CAIRO-SAN ELIA area, in the same general vicinity. South of CASSINO in the lower Garigliano valley, enemy mortared and shelled forward positions. Normal patrol activity. Weather on both Fifth Army fronts overcast with scattered rain and snow.

On the Eight Army front, enemy was more inactive than at any time recently. Near the coast, enemy mortars and arty were mostly quiet. An enemy held area just north of ARCELLI was successfully engaged by our mortars. Enemy gun firing on the eastern outskirts of ORSOCCA engaged by our arty. Night 25-26 March generally quiet. Now determined that our mortaring of caves two miles northeast of TOLLO night of 24-25 March killed three enemy. Weather mostly cold, no rain.

FILIPPO MITO P. GBO. FATHER FOR OFFENHAUER F. TINA REAR
FOR QUINSMITH

Your SM910 of 20th. First Italian War Office consists of Ministry of War strength 1550 plus General Staff strength 1250 totalling 2800 all ranks. Apparently they have been reconnoitering to move to Salerno area hence stated request for school at position is that any split is not acceptable and they should either move completely or stay where they are.

SECOND. Offenbauer to inform General Baese and Quinsmith to inform Marshal Baese accordingly.

Ref your AGO/11601/8/PB of 17 March. First. Carabinieri accepted as an integral part of the Italian army entitled to share of Italian clothing resources existing which are mainly underclothing controlled by Ministry of War. In addition entitled rations and darkgreen battle dress and boots are of Allied origin controlled by AMIA through Ministry of War. These demands for boots and battle dresses should go through Ministry of War and can be met in reasonable quantities. Advise me what quantities are genuinely required separating mainland, Sicily and Sardinia. Second. Guardia Finanza at present accepted for rations as integral part of Italian army but this may unconstitutional. I have asked for policy decision from Chief Commissioner in my 0303 of today copy to you. Third. Agents of Public Security have not previously been claimed to be integral part of Italian army and copy of AFM letter dated 16 January forwarded refers only to stated request for captured stocks. Their duties not understood but claim does not appear strong. Submit to Chief Commissioner for policy decision. Fourth. The strength of all those entitled to rations boots and clothing of Allied origin must be included in strength states such as that forwarded to Quin Smith under my G/11/28 of 16 March. These figures are shortly to be forwarded to Allied Chiefs of Staff on their demand for authorization of future totals allowable. Question is therefore of urgent policy importance. Policy for supply organization Italian military is laid down in Freedom letter AG/CO-1 (ITALY GDE-AGM of 9 January addressed to Allied Control Commission.

1. Further to my AQ715 of 21 March copy to you. Hand book on Italian military forces TME 30-420 published in Washington August 1943 defines constitutional position of Carabinieri in page 8 as definitely part of the army. Guardia Finanza on page 14 are trained for combat and in wartime come under ministry of war. Public security police on page 15 come under ministry of interior only. As I read it we can claim in memorandum shortly to be forwarded to Combined Chiefs of Staff that both Carabinieri and Guardia Finanza are in war part of Italian army but can not so claim for public security police. Above book should be available in PBS for your reference.

2. If in fact Carabinieri and Guardia Finanza are being employed on same duties suggest for your consideration that they be merged in order to have duplication and over heads.

Reference Madrid Italian cables which were received yesterday. Messages were sent immediately to the Italian Government. Copies however were not deciphered and delivered to the Political Section here until today. Deeply regret error. Have advised all signal clerks involved of this error. However I am severely understaffed and my men are working under bad pressure. No replacement has arrived for my Supt Ranson who is to return to America and has been called back to his unit. The only TWX operator I have here at Naples is ill and my clerks are having to do a double job in order to clear our traffic.

- (1) Under authority Freedom signal 62113 of 9 March cite PHEUP and Flembo signal 622770 of 13 March the Italian armed forces will be maintained as from 25 March from Italian army depots on ration strengths laid down in Freedom letter AG400-1 (Italy) GHS-AGM of 9 January.
- (2) Comando Supremo is at present shown on Order of Battle for Italian army as an armed force headquarters under which classification it is entitled as from 25 March only to the Italian scales laid down.
- (2) In view however of its recently amended function there appears considerable case for the Comando Supremo to be classed as a department of the Italian government in which case it would draw rations from the same sources and on the same scale as other government departments. Advise them accordingly. If done they must be deleted from Order of Battle.

4 March for tubes and tyres for SICELP. Ministry of War report only size
available is 42 x 9. Owing critical shortage of tyres for Army vehicles any
large issue of tyres to civilian vehicles will cause Army vehicles to be laid
up with resultant demands on Allied Army Transport. If you consider essential
will arrange release on repayment of 15 tyres.

Refer Freedom 60304 dated 051250. First. Can not undertake supply of Italian Forces on mainland from specially imported Italian army supplied until 24 March for following reasons. Second. Balanced rations do not exist in Italian main depots. This due to hopelessly unbalanced loading of ships have discharged at various ports resulting in necessity for complete resorting in port depots. This has now in part been done and demand for rail movement of 658 tons to various depots has been submitted in my MON/20 of 9 March. Until this movement is completed the scale of rations can not be issued. Third. Maintenance instruction promised in Flambo 25/01 of 23 Feb has not yet reached me. It is not known if 20 or 30 days working margin to be built up in depots as my AQ/8 of 26 Feb to Flambo has not been answered. Plan for provision of extra 2 ozs of canned meat has not been received. My Q653 of 26 Feb to Flambo refers. Fourth. For Distone and Falcon for SIM AR. Advise earliest number of days received of balanced rations from USA specially imported for Italian forces including Army, Navy, Airforce, CC RR and Guardia Finanze. When can you change over to above rations in place of Allied rations?

Italian messages from Sardinia are received here by AXG cable section who sends them to Post Office Bldg where they are typed by civilians. Original is kept and typed copy sent to Italian Army signal office in Naples. During my investigation yesterday I discovered conditions in the communication office postal building deplorable. Records of traffic poorly kept. Filing system incomplete. Conditions at Italian Army signal office excellent. Suggest following change in procedure incoming Italian messages be sent direct to Italian Army signal office for transmission to Salerno. This will do away with unnecessary delay caused by communication office, postal building. Do you concur?
