At 18.30 hours a French Army Officer called asking for sleeping accommodation in this building for a total of 14 men passing through SALERNO. He stated that some of his men had ~~been~~ been ~~accommodated~~ accommodated here on Monday last, permission having been obtained from the H.Q. Commandant.

I 'phoned to H.Q. Commandant but was unable to locate him. Eventually I got in touch with the Asst. H.Q. Commandant who granted permission, but after a short time another French Officer called and stated that they had to proceed to EBOLI, and could not sleep in SALERNO.
