INFORMATION

1. Any amendments concerning this directory, requests for new extensions, or the ceasing of existing extensions, should be addressed in writing to "X" Branch.
2. Faults on extensions should be reported to the Supervisor.
3. The switchboard now in use is of a new type intended to give better service. The attention of the operator is called by lifting the receiver from the cradle switch. The attention of the operator can be recalled by actuating the cradle switch slowly. When the call is terminated, please take care to see that the receiver is replaced on the switch to give the necessary "clear down" signal to the operator.

NOTES

1. Remember at all times that the telephone is not SECRET.
2. The number of long distance telephone circuits is severely restricted — be brief and clear.
3. Do not use the telephone if you can send a message. Do not send a message if you can send a letter.
4. Long distance calls may be booked with the operator. Having booked a call and you are called away, arrange for the call to be taken or cancel the booking.
5. On no occasion should the operator be held in conversation. Address enquiries or complaints to the Supervisor or Signalmaster who will take the necessary action.
 - a. Priority calls may be made as follows:
 - (a) "CLEAR THE LINE" by officers entitled to frank "MOST IMMEDIATE" messages.
 - (b) "CLEAR THE LINE EMERGENCY AIR" by the A.O.C., A.O.A., and S.A.S.O.

Both (a) and (b) are of equal priority and neither will be cleared in favour of the other.

 - (c) "PRIORITY" by officers entitled to frank "IMMEDIATE" messages.
7. In the event of operational necessity any officer may claim priority provided that he can justify his action when called upon to do so by a higher authority. Such special calls should be arranged through the Signalmaster.
8. Use the directory and ask for extension numbers whenever possible.
9. The telephone exchange name is FILPOT.
