SUBJECT: Security Measures Hotel and Boarding House Registers.

TO : R.C.'s. Regions I, II, III, IV, V, VI, VII.
S.C.A.O.'s 5th and 8th Armies.

1. Concern has been felt at H.Q. A.A.I. regarding the lack of enforcement of the Italian system of registration for persons staying at hotels and boarding houses.

2. The Minister of the Interior has now issued a directive to Prefetti on this subject and a translation is attached hereto for your information. Steps will be taken to ensure that the necessary action is taken by the Italian authorities in unoccupied territory, and in AMG territory a procedure similar to that outlined in the directive will be adopted.

3. H.Q. A.A.I. have issued instructions to FSS/CIC personnel with regard to:

(a) Periodical examination of Questori records with a view to noting new arrivals in the area and checking these against suspect or "black" lists.

(b) Periodical checks at hotels and boarding houses to ensure that the regulations are being complied with.

Salerno, March 23, 1944.

SUBJECT: Provisions.

TO : All the Prefects of Salerno, Potenza, Matera, Taranto, Lecce, Brindisi, Bari, Cosenza, Catania, Reggio C., Catanzaro, Messina, Siracusa, Ragusa, Enna, Caltanissetta, Trapani, Palermo, Agrigento, Nuoro, Cagliari, Sassari. Allied Control Commission, Public Safety Sub-Com.

1. Owing to shortage of Hotel accommodations many civilians have taken upon themselves to let rooms without required police authorization, consequent to such illegal action the above fail to fulfil the prescribed regulations in connection with such activities, that is registration and notification of the persons lodged.

This failure hampers police activity in keeping track of persons dangerous to society and to public order. It is intention of this Ministry that this state of affairs cease as soon as possible.

Therefore, it is necessary that inquiries should be made in every locality in order to find out all those who give lodgings without permit, and compelled them to comply with the proper regulations, and supply themselves with the prescribed register and to notify in lawful terms the Public Safety Office the arrivals and the departure of the tenants.

In the same time, all the Hotel owners, in-keepers, owners of boarding houses, persons who let private rooms that are properly authorized, must comply strictly with the law and if they fail doing so they will be prosecuted by law, and their license revoked.

The same must be responsible of the notification sheets which must be written clearly and exactly, noting all the particulars from the identification cards of each transient.

All those who have no documents to show, must be brought to the police office or to the HQ of the proper branch of the Army, which will provide for their identification and will regulate themselves accordingly.

In regard to the above, we request you to notify through the Municipio and the CCRR that it is their interest to have their identity papers, in order to avoid consequent friction with the police.

MEMORANDUM FOR THE COMMANDING GENERAL, ARMY AIR FORCES,
ARMY GROUND FORCES,
ARMY SERVICE FORCES,
DEFENSE COMMANDS,
THEATER COMMANDERS:

In connection with the attached report "What the Soldier Thinks" from the Special Service Division of the Army Service Forces, attention is invited to my secret Memorandum for Higher Commanders dated 5 July 1943, concerning the responsibility of higher Commanders for the morale or state of mind of their commands. The deficiencies in troop attitudes evidenced by this report calls for a review by all commanders of their strict responsibility for full performance of the objectives and intent of MR 1-10, March 5, 1943.

Tables of Organization and allotments will be revised to provide two special service officers per regiment and equivalent organizations. One of these officers will be specially qualified and trained for the staff supervision of athletics, recreation, and welfare activities as an assistant S-1. The other will be specially qualified and trained for staff supervision of orientation and indoctrination activities as an assistant S-3. Special service officers not now qualified in either field are to be replaced as rapidly as practicable with qualified, trained officers.

The Army Service Forces Quarterly Morale Report is being changed to a Monthly Progress Report which will be distributed to all commanders down to include regiments and equivalent organizations. All commanders will evaluate the status of the morale of their troops in the light of the conditions revealed in this and subsequent reports and take corrective action accordingly.

b. NATOUS. Circular # 145 30 July 1943

All Headquarters within this theater dispatching material through the Army Courier Service will take steps to insure that all material presented for transmission is of an official nature and complies with one or more of the following classifications:

- b. SECRET
- c. CONFIDENTIAL
- d. EXTREMELY URGENT

Under no circumstances will personal correspondence or property be forwarded through Army Courier Channels.

c. NATOUS. Circular # 8 18 January 1944

The word "REGISTERED" will not be used on letters or other matter handled through message centers or by the mail and distribution sections of the various headquarters. Its use in this area is reserved exclusively for the Army Postal Service. Only urgent, official classified communications, documents or material will be transmitted by Army Courier Service pouches.

d. ABBREVIATIONS

Originators should, wherever possible, avoid the use of abbreviations in addresses. Hundreds of letters are delayed daily because they are insufficiently addressed. Examples of use of abbreviations in addresses with insufficiently

Subject: Prevention of Loss of Coal by Spontaneous Combustion.

To : See Distribution.

1. A circular letter on the above subject dated 2 January 1944 suggested certain precautions against loss by spontaneous combustion to be taken by all having coal of any considerable amount under their control. Paragraph 2(a) laid down that the stockpiles should be spread as much as possible and stated that piles should not exceed certain maximum heights.

2. Since the issue of the above mentioned circular the source of supply has been changed and the coal now arriving in Italy is known to be particularly liable to fire when piled high in rains and strong sun. There have already been several cases of coal being hot on arrival at discharging ports.

3. In future all having stockpiles of either imported or Sardinian coal under their control, should insure that, unless they are frequently turned over, they do not exceed FOUR FEET in height.

4. It is desirable that the temperature of coalpiles be taken at intervals. If the temperature reaches 150° Fahrenheit immediate steps to move entire contents of the heated area should be taken.

SUBJECT: Powers and Rights of Allied Forces and Allied Military Government in Unoccupied Italy.

TO : See Distribution Below.

1. HQ. A.A.I. (Admin. Echelon) C.M.F. has issued an Administrative Instruction to all Military formations outlining the situation in general terms and substantially as stated in memoranda from this HQ dated 23 Jan and 31 Jan already in your possession.

2. The following extracts are quoted for your information :

(a) Although there will be officers of the Allied Control Commission in unoccupied ITALY they will be there to advise and control the Italian Government and not as governors. One of the most important functions of the Regional and Provincial Officers of the Commission will be liaison between Allied Military formations in the area and the Italian administrative officials. All but the most routine dealings between the Italian administration and the Allied Military authorities must be conducted through the Commission. When the Italian Government is directly represented on a control board or committee, the Military may, of course, deal directly with that organisation without the intervention of the Commission.

(b) Requisitioning.

The Allied Forces have retained the power and right to requisition private and public property and services in unoccupied ITALY - this right must be exercised sparingly and only for reasons of genuine military necessity. This right will be exercised through the Italian authorities. If, for example, a building is needed by the military it should be requisitioned through the Sindaco of the town where the building is situated, with the assistance of the Provincial Officer of the Commission. The usual formalities of requisitioning used in occupied territory should be strictly followed in unoccupied ITALY. The property of dissolved fascist societies must not be seized without giving a receipt and then only if required for reasons of military necessity.

Instruction to all Military Formations concerning

(a) Although there will be officers of the Allied Control Commission in unoccupied ITALY they will be there to advise and control the Italian Government and not as Governors. One of the most important functions of the Regional and Provincial Officers of the Commission will be liaison between Allied Military Formations in the area and the Italian administrative officials. All but the most routine dealings between the Italian administration and the Allied Military authorities must be conducted through the Commission. When the Italian Government is directly represented on a control board or committee, the Military may, of course, deal directly with that organisation without the intervention of the Commission.

(b) Requisitioning.

The Allied Forces have retained the power and right to requisition private and public property and services in unoccupied ITALY - this right must be exercised sparingly and only for reasons of genuine military necessity. This right will be exercised through the Italian authorities. If, for example, a building is needed by the Military it should be requisitioned through the Sindaco of the town where the building is situated, with the assistance of the Provincial Officer of the Commission. The usual formalities of requisitioning used in occupied territory should be strictly followed in unoccupied ITALY. The property of dissolved fascist societies must not be seized without giving a receipt and then only if required for reasons of military necessity.

(c) Allied Military Courts.

As the Proclamation of the Military Governor ceases to operate in unoccupied ITALY, all crimes will normally be tried under Italian law and in Italian courts. The Allied Forces, however, have reserved to themselves the right to hold Allied Military Courts in unoccupied ITALY for the trial of civilians who commit acts seriously hostile to the Allied Forces and to punish them in accordance with the Italian Penal Codes.

The reservation of this right is not intended to encourage the trials of civilian offenders by Allied Courts but only to deal with the most serious offences against Allied personnel or property which cannot be properly dealt with by the Italian Courts. If such an offence has been committed the Military Authorities should give a full statement of the facts to the local representative of the Commission with the request that an Allied Military Court be convened to hear the charges. It will be the responsibility of the Commission to frame the charges and constitute the Court.

-2-

Consequent on reservation of the power to try such offenders there is reserved to the Allied Forces the power to arrest persons who are believed to have committed such offences. High ranking Italian officials and officers of the Italian Armed Forces should, however, only be arrested in collaboration with the appropriate Italian official (e.g. the Prefect or the Commanding Officer of the officer concerned). In all cases of arrest the agreement of the local officer of the Allied Control Commission will be obtained beforehand, except in an emergency, when he should be informed immediately after the arrest.

(d) The right is reserved by the Commander-in-Chief to declare specific areas in unoccupied ITALY to be Military Zones. Should the situation in any area become such as to convince the District Commander that such action is necessary, he should, after consulting the Regional Commissioner, report accordingly to HQ.I. Giving full reasons to justify his view. It may happen that the local Italian authorities may ask for the assistance of Allied troops in quelling civil disturbances. If such request is made the local commander will point out that the quelling of civilian riots or disturbances is a matter for the Italian Administration and he will refuse such assistance unless he is of the opinion that it is necessary for the protection of Allied Military interests. Before rendering such assistance the local commander will warn the local official requesting his assistance that the territory in question will be made forthwith an Allied Military Zone. If time permits the local commander will consult the local officer of the Commission before giving assistance.

(e) Prisoners of War and Civilian Internees.

The Allied Forces may continue to hold or require the Italian Government to hold in Custody military or civil prisoners of war in unoccupied ITALY. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with Italian officials unless in any particular case it is thought that a request to the Italian police to arrest a suspect would be ineffective. In all cases, except in emergency, the local officer of the Commission must be informed of the intention to make any such arrest, whether by the Allied or Italian authorities. If he is not in agreement the matter will be referred to higher authority. Normally such persons will be detained in 371 P.W. Camp.

(f) Process in Italian Courts.

No member of the Allied Forces may be prosecuted or sued in Italian Courts.

(g) The agreement now reached with the Italian Government makes the rights

areas in unoccupied ITALY to be Military Zones. Should the situation in any area become such as to convince the District Commander that such action is necessary, he should, after consulting the Regional Commissioner, report accordingly to HQ.I. Giving full reasons to justify his view. It may happen that the local Italian authorities may ask for the assistance of Allied troops in quelling civil disturbances. If such request is made the local commander will point out that the quelling of civilian riots or disturbances is a matter for the Italian Administration and he will refuse such assistance unless he is of the opinion that it is necessary for the protection of Allied Military interests. Before rendering such assistance the local commander will warn the local official requesting his assistance that the territory in question will be made forthwith an Allied Military Zone. If time permits the local commander will consult the local officer of the Commission before giving assistance.

(e) Prisoners of War and Civilian Internees.

The Allied Forces may continue to hold or require the Italian Government to hold in Custody military or civil prisoners of war in unoccupied ITALY. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with Italian officials unless in any particular case it is thought that a request to the Italian police to arrest a suspect would be ineffective. In all cases, except in emergency, the local officer of the Commission must be informed of the intention to make any such arrest, whether by the Allied or Italian authorities. If he is not in agreement the matter will be referred to higher authority. Normally such persons will be detained in 371 P.W. Camp.

(f) Process in Italian Courts.

No member of the Allied Forces may be prosecuted or sued in Italian Courts.

(g) The agreement now reached with the Italian Government makes the rights of the Allied Forces in the Provinces of Apulia identical with their rights in the areas recently transferred from Allied Military Government to Italian Government.

3. The instruction emphasises that except where, in emergency, immediate action is required by the Allied Forces for their own protection and security, all action required from the Italian Administration should invariably be taken through the medium of the Regional or Provincial Commissioner.

-3-

It is further notified that where immediate action is taken without previous reference to the Allied Control Commission for emergency reasons, the appropriate officer of the Commission will be informed as soon as possible.

4. It will thus be appreciated that HQ. A.C.C.I. are seeking to obtain the fullest co-operation between military commanders and the Allied Control Commission. It should be your constant endeavour to reciprocate.

SUBJECT: Powers and Rights of Allied Forces and Allied
Military Government in Unoccupied Italy.

TO : See Distribution Below.

1. HQ. A.A.I. (Admin. Echelon) C.M.F. has issued an Administrative Instruction to all Military formations outlining the situation in general terms and substantially as stated in memoranda from this HQ dated 23 Jan and 31 Jan already in your possession.

2. The following extracts are quoted for your information :

(a) Although there will be officers of the Allied Control Commission in unoccupied ITALY they will be there to advise and control the Italian Government and not as Governors. One of the most important functions of the Regional and Provincial Officers of the Commission will be liaison between Allied Military formations in the area and the Italian administrative officials. All but the most routine dealings between the Italian administration and the Allied Military authorities must be conducted through the Commission. When the Italian Government is directly represented on a control board or committee, the Military may, of course, deal directly with that organisation without the intervention of the Commission.

(b) Requisitioning.

The Allied Forces have retained the power and right to requisition private and public property and services in unoccupied ITALY - this right must be exercised sparingly and only for reasons of genuine military necessity. This right will be exercised through the Italian authorities. If, for example, a building is needed by the military it should be requisitioned through the Sindaco of the town where the building is situated, with the assistance of the Provincial Officer of the Commission. The usual formalities of requisitioning used in occupied territory should be strictly followed in unoccupied ITALY. The property of dissolved fascist societies must not be seized without giving a receipt and then only if required for reasons of military necessity.

1. HQ. ARK. 1. (Admin. Section) C.M.R. has issued an instruction to all military formations outlining the situation in general terms and substantially as stated in memoranda from this HQ dated 23 Jan and 31 Jan already in your possession.

2. The following extracts are quoted for your information :

The usual formalities of requisitioning used in occupied territory should be strictly followed in unoccupied ITALY. The property of dissolved fascist societies must not be seized without giving a receipt and then only if required for reasons of military necessity.

(c) Allied Military Courts.

As the Proclamation of the Military Governor ceases to operate in unoccupied ITALY, all crimes will normally be tried under Italian law and in Italian courts. The Allied Forces, however, have reserved to themselves the right to hold Allied Military Courts in unoccupied ITALY for the trial of civilians who commit acts seriously hostile to the Allied Forces and to punish them in accordance with the Italian Penal Codes.

The reservation of this right is not intended to encourage the trials of civilian offenders by Allied Courts but only to deal with the most serious offences against Allied personnel or property which cannot be properly dealt with by the Italian Courts. If such an offence has been committed the Military authorities should give a full statement of the facts to the local representative of the Commission with the request that an Allied Military Court be convened to hear the charges. It will be the responsibility of the Commission to frame the charges and constitute the Court.

-2-

Consequent on reservation of the power to try such offenders there is reserved to the Allied Forces the power to arrest persons who are believed to have committed such offenses. High ranking Italian officials and officers of the Italian Armed Forces should, however, only be arrested in collaboration with the appropriate Italian official (e.g. the Prefect or the Commanding Officer of the officer concerned). In all cases of arrest the agreement of the local officer of the Allied Control Commission will be obtained beforehand, except in an emergency, when he should be informed immediately after the arrest.

(d) The right is reserved by the Commander-in-Chief to declare specific areas in unoccupied ITALY to be Military Zones. Should the situation in any area become such as to convince the District Commander that such action is necessary, he should, after consulting the Regional Commissioner, report accordingly to HQ. A.C.I. Giving full reasons to justify his view. It may happen that the local Italian authorities may ask for the assistance of Allied troops in quelling civil disturbances. If such request is made the local commander will point out that the quelling of civilian riots or disturbances is a matter for the Italian Administration and he will refuse such assistance unless he is of the opinion that it is necessary for the protection of Allied Military interests. Before rendering such assistance the local commander will warn the local official requesting his assistance that the territory in question will be made forthwith an Allied Military Zone. If time permits the local commander will consult the local officer of the Commission before giving assistance.

(e) Prisoners of War and Civilian Internees.

The Allied Forces may continue to hold or require the Italian Government to hold in Custody military or civil prisoners of war in unoccupied ITALY. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with Italian officials unless in any particular case it is thought that a request to the Italian police to arrest a suspect would be ineffective. In all cases, except in emergency, the local officer of the Commission must be informed of the intention to make any such arrest, whether by the Allied or Italian authorities. If he is not in agreement the matter will be referred to higher authority. Normally such persons will be detained in 371 P.W. Camp.

(f) Process in Italian Courts.

No member of the Allied Forces may be prosecuted or sued in Italian Courts.

in any area become such as to convince the District Commander that such action is necessary, he should, after consulting the Regional Commissioner, report accordingly to HQ.I. giving full reasons to justify his view. It may happen that the local Italian authorities may ask for the assistance of Allied troops in quelling civil disturbances. If such request is made the local commander will point out that the quelling of civilian riots or disturbances is a matter for the Italian Administration and he will refuse such assistance unless he is of the opinion that it is necessary for the protection of Allied Military interests. Before rendering such assistance the local commander will warn the local official requesting his assistance that the territory in question will be made forthwith an Allied Military Zone. If this permits the local commander will consult the local officer of the Commission before giving assistance.

(e) Prisoners of War and Civilian Internees.

The Allied Forces may continue to hold or require the Italian Government to hold in Custody military or civil prisoners of war in unoccupied ITALY. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with Italian officials unless in any particular case it is thought that a request to the Italian police to arrest a suspect would be ineffective. In all cases, except in emergency, the local officer of the Commission must be informed of the intention to make any such arrest, whether by the Allied or Italian authorities. If he is not in agreement the matter will be referred to higher authority. Normally such persons will be detained in 371 P.W. Camp.

(f) Process in Italian Courts.

No member of the Allied Forces may be prosecuted or sued in Italian Courts.

(g) The agreement now reached with the Italian Government makes the rights of the Allied Forces in the Provinces of Apulia identical with their rights in the areas recently transferred from Allied Military Government to Italian Government.

3. The instruction emphasises that except where, in emergency, immediate action is required by the Allied Forces for their own protection and security, all action required from the Italian Administration should invariably be taken through the medium of the Regional or Provincial Commissioner.

-3-

It is further notified that where immediate action is taken without previous reference to the Allied Control Commission for emergency reasons, the appropriate officer of the Commission will be informed as soon as possible.

4. It will thus be appreciated that HQ. A.C.C.I. are seeking to obtain the fullest co-operation between military commanders and the Allied Control Commission. It should be your constant endeavour to reciprocate.

Capt. Pearson of the Political section gave me the following message for you:

Mr. Caccia has had his attention drawn to Daily Routine Order No. 34 of 12 March, Item No. 175, that honors will be paid by all guards to officers of the Italian Army. He says that the political difficulties will be enormous if any action is taken against British or U.S. soldiery failing to obey this order. In his words, "there will be hell to pay". He asks that action under this order should be stopped forthwith.

SUBJECT: Changes in AR 380-5 Affecting Security Classifications.

TO : All Concerned.

1. The Combined Chiefs of Staff have approved an agreement made between the American and British Services on the definition, classification, and handling of matters to be safeguarded. Procedures, names, definitions, and handling hereinafter set forth are to be put in effect by all War Department Offices and United States Army Headquarters at 0001Z, 15 March 1944.

2. Instructions to the same effect are being issued for the same effective date to the United States Navy and to the British Armed Forces.

3. It is contemplated that a complete revision of Army Regulations 380-5, embodying all the details of the agreement, will be printed and distributed by the War Department on or about 1 April 1944.

4. From 15 March 1944 to date of receipt of AR 380-5 revision, the policy hereinafter outlined will be followed by all concerned. No change in the classification of existing documents is necessitated by this agreement.

COMBINED SECURITY CLASSIFICATIONS AGREEMENT

5. Need for Classification. - To safeguard official matter, it must be examined and graded into categories so that it may be recognized and accorded proper handling. To grade matter accurately and uniformly, the following general policy and definitions have been agreed upon by the Combined Chiefs of Staff to become effective 15 March 1944. - b. Material - Any article, substance, or apparatus.
- c. Handling - Care in transmission and custody.

GENERAL PRINCIPLES

18. Grading. a. The designation of persons responsible for grading and re-grading will be a function of the proper authorities.

b. Each document should be graded according to its own content and not necessarily according to its relationship to another document. This also applies to extracts from graded documents.

c. The grading of a file or group of physically connected documents shall be that of the highest graded document therein.

19. Regrading. - It is the obligation of all authorities to keep classified matter constantly under review and to downgrade it as soon as conditions permit.

20. Transmission of Certain Messages by Electrical Means. - Messages which have been transmitted or are to be transmitted in a high grade cryptographic system of one nation will not be relayed or transmitted by the other nation between point of origin and destination by electrical means in clear language or unapproved "scrambler" system, or low-grade cryptographic system.

21. Handling (Treatment). - No person is entitled solely by virtue of his rank or position to acknowledge possession of classified matter. Such matter is entrusted only to those individuals whose official duties require such knowledge or possession.

22. SECRET. - Secret matter will be handled in accordance with the following rules:

a. The highest grade cryptographic systems available will be used for the transmission of secret messages.

b. Secret documents will be transmitted only by officially designated courier in double sealed envelopes, the inner one being marked SECRET, and will be opened only by the addressee or his authorized representative. Where officially designated courier service is not available, secret documents may be transmitted by registered mail service or mail service superior to registered mail service, if the service is completely within national control.

c. Transmission and custody of these documents and materiel will normally be covered by a receipt system and registered documents and materiel periodically accounted for. It is mandatory that registered documents be covered by a receipt system.

d. Secret messages will not be transmitted by electrical means in clear, except over approved circuits and providing the rule in paragraph 20 is not violated.

NOTES: (1) An approved circuit is a circuit approved by the Theater Commander

or the British Services "Defense Teleprinter Network" in the United Kingdom.

- (2) This item will not appear in United States regulations on cryptographic security. It will be released immediately to responsible commanders in special letters of instruction.

a. It is the responsibility of the commissioned officer or equivalent civilian holding custody of secret documents to insure that all security precautions are taken to guard such documents at all times.

23. TOP SECRET. - Top Secret matter will be handled in accordance with the above rules with additional safeguards as follows:

a. Under no circumstances will such matter be transmitted by registered mail.

b. Under no circumstances will messages so graded be transmitted by electrical means in the clear.

c. It is mandatory that transmission and custody of such matter be covered by a receipt system.

The War Office,

7th February 1944.

Administration of Royal Army Chaplains Department

Sir,

1. I am commanded by the Army Council to explain the arrangements in existence for the administration and supervision of Chaplains to the Forces, and to request that you will inform all subordinate Commands and formations concerned.

(1) Under the Permanent Under-Secretary of State for War Chaplains, other than Roman Catholic, are administered as a unified Department.

- (a) at the War Office, by the Chaplain-General, assisted by the Deputy Chaplain-General, and
(b) at the headquarters of the principal Army Commands, by an Assistant Chaplain-General (or a Deputy Chaplain-General in major theatres of operations), and by a Deputy Assistant Chaplain-General or Senior Chaplain to the Forces in other independent Commands, who are responsible to the general officer commanding-in-chief for the application of War Office policy to the particular circumstances of the Command, in all matters affecting the military administration of the Department.

(11) Roman Catholic chaplains are administered independently

- (a) at the War Office by the Permanent Under-Secretary of State (Branch - C.1 Chaplains), in consultation with the Roman Catholic Bishop in Ordinary to the Forces, or his deputy, the Principal Roman Catholic Chaplain of the Army.
(b) in Commands by general officers commanding-in-chief (1111111111) where no Command Secretary is appointed, or by the Command Secretary (as the representative of the Permanent Under-Secretary of State), in consultation with the Senior Roman Catholic Chaplain of the Command.

2. All chaplains, other than Roman Catholic, are supervised in their religious ministrations to army personnel by the administrative officers of the unified Department holding the War Office appointments of Deputy Chaplain-General, Assistant Chaplain-General, Deputy Assistant Chaplain-General or Senior Chaplain to the Forces. These officers are appointed by the Chaplain-General.

3. Roman Catholic chaplains are supervised by Senior Chaplains to the Forces appointed by the War Office. These Senior Chaplains are borne on a list of appointments in the War

(b) At the headquarters of the principal Army Commands, by an assistant Chaplain-General (or a Deputy Chaplain-General in major theaters of operations), and by a Deputy Assistant Chaplain-General or Senior Chaplain at the corps in other independent commands, who are responsible to the general officer commanding-in-chief for the application of War Office policy to the particular circumstances of the Command, in all matters affecting the military administration of the Department.

(ii) Roman Catholic chaplains are administered independently

(4) at the War Office by the Permanent Under-Secretary of State (Branch - R.C. Chaplains), in consultation with the Roman Catholic Bishop in Ordinary to the Forces, or his deputy, the Principal Roman Catholic Chaplain of the Army.

(5) in commands by general officers commanding-in-chief (M. Branch) where no Demand Secretary is appointed, or by the Demand Secretary (as the representative of the Permanent Under-Secretary of State), in consultation with the Senior Roman Catholic Chaplain of the Command.

2. All chaplains, other than Roman Catholics, are supervised in their religious ministrations to Army personnel by the administrative officers of the unified Department holding the War Establishment appointments of Deputy Chaplain-General, Assistant Chaplain-General, Deputy Assistant Chaplain-General or Senior Chaplain to the Forces. These officers are appointed by the Chaplain-General.

3. Roman Catholic chaplains are supervised by Senior Chaplains to the Forces appointed by the War Office. These Senior Chaplains are borne on a regimental establishment and are not eligible for appointments in the War Establishments of the headquarters of Divisions, Areas, or higher formations. They are attached under War Office instructions to appropriate headquarters supervisory to the establishments of these headquarters. The appointment of R.C.M. (R.C.) may be held by a 1st Class, 2nd Class, 3rd Class or 4th Class chaplain, as occasion may require. In this connection your attention is directed to A.C.I. 1692 of 1942.

4. General officers commanding-in-chief are responsible for providing that adequate facilities - including transport and clerical assistance, when not provided on War Establishments - are afforded to senior officers of the Royal Army Chaplains' Department of all denominations for the efficient discharge of their duties.

Reference your No. C/2/44, dated 14 Feb. 44., re loss of an overcoat in respect of Capt. W.E. Jones.

This case has been investigated and no trace of the lost coat can be found.

I am of the opinion that the coat was inadvertently taken by another officer or stolen by a civilian employee. The former is probably the correct explanation and I understand this was also the view of Capt. Jones.

No other instances of theft have been reported in the hospital.

The overcoat was not handed into Pack Store, but remained in the custody of Capt. Jones in the ward.

Reference your letter RA/270.21 dated 16 February 1944.

1. The administrative difficulties of a combined Allied unit for which the personnel is found by two different nations working under two completely different sets of Army Regulations are fully realised at this Headquarters and cannot altogether be overcome. For example, a combined Court of Enquiry is not considered practicable unless the matter can be decided at this H.Q. British Courts of Enquiry are, as you know, submitted to H.Q.s. Districts and American Boards of Survey through American Army channels.

2. Some of the difficulties to which you refer can, however, be overcome, or at least, considerably simplified. To take the specific cases set out in your para. 3.

(a) American drivers are in fact now driving British vehicles and British drivers American vehicles, in A.O.C. If this can be avoided it should be, but if it cannot, there is no objection provided the drivers are qualified drivers. This H.Q. has been unable to discover any specific regulation which forbids this practice. In cases where it cannot be avoided, the officer who sanctions such an arrangement will not be held responsible, financially or otherwise, in the case of accident. It is pointed out that in the near future Army vehicles, both American and British, will be driven in increasing numbers by Italian Army or civilian drivers.

(b) Since the property records of both Armies must be kept separately and the regulations concerning them eventually filter back to London and Washington, it is obvious that responsibility for custody should be in the hands of officers of the nation to which they belong. This does not, however, prevent a G-4 of either nationality signing in the first instance for both British and American stores, nor from exercising general supervision over them.

(c) As stated above, whether a combined Court of Enquiry is practicable

2. Some of the difficulties to which you refer can, however, be overcome, or at least, considerably simplified. To take the specific cases set out in your para. 3.

(a) American drivers are in fact now driving British vehicles and British drivers American vehicles, in A.C.C. This does not, however, prevent a G-4 of either nationality signing in the first instance for both British and American stores, nor from exercising general supervision over them.

(c) As stated above, whether a combined Court of Enquiry is practicable depends upon the nature of the enquiry. There is no objection whatever to a combined enquiry being held if circumstances render it immediately advisable. If the matter is one which can be decided at this H.Q. no separate proceedings under the regulations of the two nationalities are required. For example, a recent joint board was constituted to enquire into the affairs of an officers' mess. If the matter is not one which can be decided by H.Q., A.C.C., there is still no reason why the proceedings of a joint board should not later be used as evidence to support the proper papers for relief of responsibility either British or American. It is pointed out that in the case, for example, of loss or damage to American stores, one officer may constitute a Board of Survey under F.M.O. Circular 100.

3. This H.Q. would be glad to advise on any other questions of a similar nature which you may wish to submit for guidance.

TRAINING MEMORANDUM)

NUMBER 2)

TRAINING IN ECONOMY AND CONSERVATION OF SUPPLIES AND EQUIPMENT

1. The present military situation imposes the necessity for the highest standard of supply discipline and training in the care, preservation, and economy of supplies and equipment. The War Department has repeatedly called attention to the need for conservation of raw materials, supplies, and shipping space. Wasteage in overseas theaters can seriously hinder operations, reduce the efficiency of the army, and materially prolong the war.

2. The exercise of economy, conservation, and due care in the preservation of supplies and equipment is a responsibility of command in all echelons. This responsibility includes the training of all individual officers and soldiers in these subjects in the same degree of proficiency and thoroughness as that required in their technical and tactical combat training. Such training must be directed towards the elimination of waste, the prevention of loss through carelessness and misuse, and toward the obtaining of the utmost use and service from all articles of equipment and supply. It must develop among all ranks a high sense of personal responsibility based on strict supply discipline and supply "consciousness."

3. Unnecessary waste has occurred, equipment has been misused and neglected and individuals and units have failed to exercise care and responsibility commensurate with the existing situation. The following examples of deficiencies in supply discipline have come to the attention of this Headquarters, and are published for the information of all concerned, as a guide to those subjects of training which will be given especial emphasis:

- a. Unwarranted "Cannibalization" of vehicles.
- b. Abuse and rough handling of gasoline containers.
- c. Improper use of gasoline containers.
- d. Undue waste of rations and bartering, trading, or selling articles of subsistence.
- e. Unserviceable supplies not turned in to salvage as prescribed in regulations.
- f. Turning in serviceable clothing to salvage because it is soiled.

US RESTRICTED Equals British RESTRICTED

- g. Improper use of shelter halves.
- h. Carelessness and neglect in use of tools as indicated by excessive losses of important small tools and tool sets.
- i. Undue waste of expendable construction materials.
- j. Wastage, damage, and loss of signal equipment as a result of:
 - (1) Lack of first echelon maintenance of power units.
 - (2) Failure to turn in inoperative equipment for salvage, repair or exchange.
 - (3) Damage to equipment as a result of attempted repairs by unqualified personnel.
 - (4) Neglect in care of tools and equipment.
- k. Improper care and discarding of CMS equipment, including bartering or giving away eyeshields and protective covers.
 - l. Careless and improper storage of CMS equipment.
 - m. Improper maintenance of motor vehicle decontaminating apparatus.
 - n. Waste of rationed supplies of atabrine and quinine.
 - o. Wastage of rations - a most serious item when it is considered that waste of one ounce of food per day for a month by 100,000 troops requires over 90 tons shipping space to replace.
- 4. The Training of units in care, preservation, and conservation of supplies and equipment will include the following points and principles:
 - a. Constant attention to and improvement in first and second echelon maintenance of vehicles, weapons, and materiel.
 - b. Development of individual responsibility in all matters of supply.
 - c. Greater and more appropriate use of Statement of Charges and Reports of Survey in applicable circumstances.
 - d. Thorough indoctrination of all ranks with the realization of the seriousness of the supply situation, and the consequences of waste, neglect, and laxity of supply discipline.

SUBJECT: Delay in Personal Mail.

TO : Deputy Chief Commissioner.

1. It is felt that owing to the continuance of delay in mail that any scheme which may have been worked out in ACC/AMG to palliate the long series of delays which all officers have experienced since joining AMG, is still failing to function.

2. A month ago, on being ordered to Brindisi as a permanent move at AMG HQ. Naples by Brig. Geuterbock, I asked his Personal Assistant to ensure that all concerned were informed of any move. I also signed out on the AG's register.

3. I then went to the Mail Room in the building and informed the NCO on duty who made a clear note of my address in writing in my presence. He assured me that the "new scheme" whereby all personal mail came direct to Naples and was then sorted and forwarded would mean only a short delay before I got it.

4. At Brindisi I received 2 letters (from America).

5. My transfer from Brindisi to Salerno HQ. last week was equally regular and permanent as the move to Brindisi.

6. On 15 February, happening to be in Naples, I called at the mail room and found 37 items of correspondence which the postal orderly informed me was "being kept" there for me. Many of these were air mail letters up to 6 weeks old. I attach an envelope marked "no record" as an example.

7. I am aware of the small official importance of an officers mail but feel that in view of the steps I took to warn all concerned, that:

(a) No proper system of posting officers from place to place exists. This is emphasised in a notice in the Bulletin No. 10 of 14 February which states that "it is impossible to keep track of officers unless they sign out". Would it not be possible to put official moves of officers in Daily Orders as is done in British formations?

(b) That the Mail Scheme is not organised or that no action is taken even when correspondence for a single officer attains considerable proportion.

It is requested that the matter be investigated and that, if necessary, disciplinary action be taken against the personnel concerned in this unwarranted delay of mail which has caused me much inconvenience and will involve considerable expense in cabling to the Argentine (from London) on certain private matters.

Ref: Communication Q.S.5 d/d 16.2.44:

Sir,

In accordance with your request for a full report, I beg to make reply to the rather unjust accusations in the appended communication referring to the Mail Department of this H.Q.

It is not the habit of the British Mail Dpt., to hold mail without reference to departmental records based on up to date facts received from seemingly responsible persons, authentic Posting Orders issued by G.I. Branch., or by "special request."

Orders issued in the Army are usually for a specific reason.

This Department (Both American & British lines) received an order - 8 Feb 44 apprx., - passed on to me by the American Postal Officer (then Lt. Montant) to hold all "Brindisi" mail until further notice. Subsequently a list was received of personnel remaining at Brindisi (liaison) and of the Detachments (i.e. Air Division, and D.P. Sub Commission) that would be located at BARI: Colonel Quin-Smith's name was not on these lists. On enquiry, in all good faith, the Staff Captain arriving at this H.Q., from Brindisi assisted me in combing out "queries" re Brindisi personnel. It was wisely decided that Colonel Quin-Smith's mail should be held, as he was "expected" at H.Q. The Officer concerned did arrive - he was handed a large batch of mail that would have pleased anybody if an understanding of the difficulties experienced at that time had been apparent.

Further, Colonel Quin-Smith's mail had been partially accumulated & obviously delayed elsewhere - proof of this lies in the fact (it has occurred before and action taken) that Postage Stamps had been inefficiently removed from this Officer's Argentine Airmails by some other Department. A Post Office does not do this sort of thing.

In the Supervisory position of N.C.O. i/c of Postal Services (British) I make it my business to do my utmost to provide an efficient mail service within the H.Q. I am loyally wholeheartedly interested and have the very necessary team co-operation of two good assistants - this has made this H.Q. Mail Department the best in any A.M.G. - A.C.C. - Region:

Mail means "everything" to the serving man overseas. It serves to keep him in touch with "loved ones" from whom he has been separated and has an enormous bearing on the "morale" of both Officer and Other Rank. With

With these facts well in mind I have been rewarded, not by promotion, by the grateful thanks of all concerned.

Mistakes have been made, admitted, and deeply regretted - but this instance is not the outcome of an error appertaining to this Mail Dpt.

The Despatch and Receipt of mail is a race against the clock - providing Transport, Clerical Departments, Records and every facility is available the delay should not be too great, but it is believed that other departments may not have the keenness or the facilities for getting mail to its supposed rightful destination as we have. Even this Dpt., depends on outside co-operation, and even the weather to speed up the "Mail Service".

With sincere apologies for any inconvenience inadvertently caused,

I remain, dear Sir.,

Your obedient Servant,

(Note: "Biological Warfare" may be broadly defined as the employment of bacterial and toxic chemical agents (other than war gases to produce death or disease in man, animal, or plant (i.e. food crop) population.)

1. Due to his steady deterioration, the enemy may in desperation resort to biological warfare. It is therefore imperative that all intelligence officers, medical officers, and others concerned be keenly alert to possible methods of attack, and be able to recognize presumptive evidence of its contemplated, employed, or attempted use, and be in a position to transmit to the proper agency all pertinent information thereon immediately.

2. As a precedent for the employment of biological warfare, the following incidents are noted:

In 1916 a German attempt to propagate glanders and anthrax among livestock in Rumania was foiled by the timely discovery of the bacterial cultures on the premises of the German Legation in Bucharest. In 1917 German agents were apprehended while attempting to disseminate glanders and anthrax among military animals on the western front. During the present war (1941) on the Chinese front, the Japanese attempted to spread bubonic plague by dropping packets of rice and fleas mixed with wisps of cotton rag contaminated with the plague microbe from low-flying aircraft. This attempt was reported partially successful as several cases of this disease followed this effort.

3. Since World War I, a large number of scientific, military, and other writers have pointed out the possibilities and dangers of biological warfare. Conflicting opinions have been expressed as to the feasibility and ultimate value of such methods of attack; however, a survey of pertinent data indicates that the effective dissemination of disease agents in warfare

is a distinct possibility. The German and Japanese High Commands have shown a definite interest in biological warfare, and it is believed that they have conducted experiments from an offensive point of view. Neither Germany or Japan will be influenced by humanitarian motives in making their decisions to employ biological warfare.

4. From the information now available, it appears that two principal types of biological warfare are to be guarded against. One of these is what might be called a mass tactical or external attack, such as the Japanese used in China. The other is sabotage, or attack from within, such as the attempts of the Germans in World War I to spread glanders and anthrax among the horses in France and Rumania. Intelligence officers and others concerned must be alerted for indications of either type of attack.

5. The following could be taken to indicate enemy intentions in this respect and should be watched for carefully:

a. The appearance of specialized troops in strategic areas, such as certain types of chemical and engineer troops trained in biological methods, for otherwise unexplained purposes.

b. Unusual type or amount of special equipment such as delousing units, field laboratories, field autoclaves, decontaminating equipment, new or special type artillery and mortar shells, and bombs.

c. Unusual types of inoculation of enemy personnel (from paybooks, medical records, or blood serum tests, etc.).

d. Transportation or storage of highly classified matter and unusual security precautions in relation to such.

e. New issues or reissues of protective equipment or alteration of such (gas masks, special decontamination clothing).

f. Instruction of line troops in protective attacks against biological warfare.

g. New techniques or equipment for projecting smoke or mists by aircraft or artillery.

6. Since there is a time interval of hours to days between the dissemination of and the manifestations of bacteriological agents, the following acts by the enemy will call for immediate investigation on the part of intelligence officers:

a. Unusual and otherwise unexplained flights of enemy aircraft.

b. Material dropped or sprayed from aircraft such as smoke or mists, flasks or ampules, gelatinous masses, refuse or food particles,

parachutes or other containers for animals or insects.

c. Unusual types of bombs or shells, particularly those containing compressed air cylinders or pistons.

7. Saboteurs are most likely to use biological warfare in foods, water supplies, or other beverages. Unusual taste and appearance of these commodities, suspicious actions of individuals handling them, or the sudden reduction or disappearance of the residual chlorine in water supply system may indicate sabotage by biological means.

8. A successful biological attack, whether made from within or without, can be expected to manifest itself in one of the several ways listed below; security officers and especially medical officers should view these manifestations from the biological warfare aspect.

a. Appearance of a disease in a previously non-infected area which cannot be accounted for by normal means of transmission.

b. Numerous widespread unexplained outbreaks of unusual diseases or unexplained deaths occurring in a given area.

c. Abnormal deaths among the rat population in a given area or a sudden decrease in the number of rats.

In connection with the observations of the manifestations of biological attack listed above, it should be borne in mind that the infectious and toxic agents that appear most likely to be employed have a lag or incubation period between the time of contact and the first appearance of symptoms; this period is never less than a few hours and may extend to many days. This fact may further be utilized by the enemy in endeavor to spread contagion by release of prisoners deliberately infected with communicable disease.

9. It is desired that responsible intelligence officers within the area concerned be thoroughly alerted to the possibilities of biological attack and be instructed to coordinate their activities and cooperate with the appropriate services in the investigation, appraisal, and report of any definite or presumptive evidence of employment by the enemy of biological warfare methods. Whenever physical evidence is found and preliminary investigation warrants laboratory examination to complete the appraisal, the services of the nearest laboratory adequately equipped to conduct the examination should be promptly utilized. On discovery such material should be treated as contaminated.

MEMORANDUM TO: ALL OFFICERS,
H.Q. A.C.C., Naples.
H.Q. A.C.C., Salerno.

I wish to bring to the notice of every officer personally a few aspects of the internal machinery of this Headquarters with respect to which their help is needed:-

1. Telegrams.

Outgoing telegrams amount to roughly 25 per day. When telegrams reach the Message Centre 4 copies of the literal text have to be typed. The telegram is then translated into telegraphic language of which 6 copies have to be made. The telegram is then sent to P.B.S. where it is enciphered and despatched. The same process is carried out at the receiving end.

It is appreciated that internal communications in this country are bad and that in order to ensure quick receipt and action on instructions, the use of the telegraph service is generally necessary. It is, however, probable that correspondence sent by Air Letter Service for A.F.H.Q. and other formations outside this theatre reaches its destination more speedily than if sent by telegraph and certainly involves far less work and manpower.

An Air Letter Service leaves for A.F.H.Q. daily and I must ask all officers to reduce their external telegraphic correspondence and to employ the A.L.S. Officer in charge of the Message Centre has orders to refer to me telegrams which appear to conflict with this policy.

2. Duplicating.

The average number of foolscap sheets issued by the duplicating office for this month is over 3000 a day, i.e., over 6 reams of paper. This is excessive and if present demands continue, shortage of paper will result in essential distribution being curtailed. The output of paper must be reduced considerably and immediately. The officer in charge has instructions to refer to the Establishment Branch any demands which he considers excessive.

1. Telegrams.

Outgoing telegrams amount to roughly 25 per day. When telegrams reach the Message Centre 4 copies of the literal text have to be typed. The telegram is then translated into telegraphic language of which 6 copies have to be made. The telegram is then sent to P.B.S. where it is enciphered and despatched. The same process is carried out at the receiving end.

It is appreciated that internal communications in this country are bad and that in order to ensure quick receipt and action on instructions, the use of the telegraph service is generally necessary. It is, however, probable that correspondence sent by Air Letter Service for A.F.H.Q. and other formations outside this theatre reaches its destination more speedily than if sent by telegraph and certainly involves far less work and manpower.

An Air Letter Service leaves for A.F.H.Q. daily and I must ask all officers to reduce their external telegraphic correspondence and to employ the A.L.S. Officer in charge of the Message Centre has orders to refer to me telegrams which appear to conflict with this policy.

3. Telephone Calls.

There is one telephone switchboard only, attended by one operator. The operator answers calls ceaselessly. Delay, therefore, is inevitable and must be tolerated until a second switchboard can be instituted next week.

1. The responsibility for observance of military censorship regulations is that of each individual whose communications are governed thereby. Submission of such communications to a military censor does not lessen that responsibility.

It is the responsibility of each military censor, whether in a unit or in a base censorship detachment, to insure that each communication passed by him contains no violations of military censorship regulations. If a communication containing such violations is passed without exclusion of all censorable material, the military censor releasing the communication and the sender thereof will both be considered responsible for those violations.

BANCA COMMERCIALE ITALIANA

Testo delle Norme che regolano i Conti Correnti di corrispondenza

Art. 1. — I rapporti di dare ed avere si regoleranno, in via normale, semestralmente e cioè al 30 Giugno e 31 Dicembre di ogni anno, portando in conto gli interessi e le commissioni ai tassi stabiliti, le spese postali, telegrafiche e simili.

I conti che risultino anche saltuariamente debitori si regoleranno invece, in via normale, trimestralmente e cioè a fine Marzo, Giugno, Settembre e Dicembre di ogni anno.

Ad ognuna delle parti è però sempre riservato il diritto di chiudere in qualunque momento il conto, senza bisogno di alcuna disdetta e così anche di reclamare l'immediato pagamento di tutto quanto sia comunque dovuto, salvo s'intende, le speciali limitazioni che venissero concordemente prestabilite.

Art. 2. — I rapporti di debito e credito esistenti con la Banca in dipendenza di qualunque operazione e che per ragioni contabili o per altre cause figurino, sia pure in moneta differente, in più conti anche presso diverse filiali della Banca, devono compensarsi fra di loro, compensazione che si intende accettata con l'apertura dei singoli conti.

Alla Banca viene riconosciuto, a garanzia di ogni sua ragione creditoria, il diritto di ritenzione sui valori per qualsiasi ragione da essa detenuti e di spettanza del Correntista.

Art. 3. — Trascorsi 40 giorni (oltre il tempo ragionevolmente occorrente per il viaggio) dall'invio degli estratti-conti senza che sia pervenuto il benestare regolarmente firmato od un reclamo specificato, gli estratti stessi si intendono senz'altro riconosciuti esatti ed approvati.

Art. 4. — Nella esecuzione di qualsiasi ordine di compra o vendita di valori o di divise, sia a contanti che a termine, la Banca agisce sempre come contraente in proprio di fronte al Cliente committente, e si riserva il diritto sia di eseguire sul mercato a mezzo di Agente di cambio o direttamente con altri propri Clienti gli ordini di compra-vendita che le vengono affidati, sia di assumere o cedere per proprio conto i titoli o le divise di cui le venga ordinata la vendita o l'acquisto, senza essere tenuta in nessun modo a giustificare in quale forma l'ordine del Cliente sia stato eseguito. La Banca si riserva sempre il diritto di non dar corso alle commissioni che fossero date, senza essere tenuta per questo ad alcun risarcimento di danni.

Art. 5. — Per i conti correnti in valuta estera e le cessioni di cambi a consegna la Banca si assume unicamente, con espresso onere da ogni maggiore o diversa obbligazione, di mettere a disposizione del Cliente (a scadenza od a di lui richiesta) crediti verso Banche residenti nel paese dove la valuta stessa ha corso legale, o, a sua scelta, chèque sulle Banche medesime: resta comunque a carico del Cliente ogni vincolo, restrizione od aggravio dipendente da forza maggiore o da caso fortuito o da disposizioni di Autorità emanate in Italia od all'estero.

Art. 6. — Gli ordini dei Clienti, specialmente nei versamenti telegrafici, hanno corso a rischio dei Clienti stessi per ogni conseguenza derivabile da qualunque errore, anche telegrafico, disguido o ritardo.

Art. 7. — Gli eventuali reclami in merito alle operazioni effettuate dalla Banca per conto del Cliente dovranno essere fatti da questi appena in possesso della comunicazione di esecuzione per lettera o telegramma, a seconda che l'avviso gli sia dato per lettera o telegramma.

Trascorso il tempo ordinariamente utile per la ricezione della lettera o del telegramma, l'operato della Banca si intenderà approvato.

Art. 8. — Il Titolare del conto è tenuto a depositare la propria firma ed a rimettere il fac-simile delle firme delle persone autorizzate a rappresentarlo nei suoi rapporti d'affari colla Banca precisando, se del caso, i limiti delle facoltà loro accordate. Le revocche e le modifiche di tali facoltà non avranno effetto per la Banca finché questa non abbia ricevuto la relativa notifica per lettera raccomandata e ciò anche quando dette revocche e modifiche siano state rese di pubblica ragione a sensi di legge.

Art. 9. — Salvo accordi speciali, il pagamento delle disposizioni sulle casse della Banca si effettua alle condizioni seguenti:

- le disposizioni dovranno essere fatte di regola mediante assegni forniti dalla Banca, contro rimborso del costo;
- la Banca non assume alcuna responsabilità per gli assegni non avvisati né per quelli emessi al portatore;
- il Correntista è tenuto a custodire con ogni cura il libretto di assegni restando responsabile di ogni dannosa conseguenza che potesse risultare dalla perdita, dalla sottrazione o dall'uso abusivo od illecito dei moduli. L'invio dei moduli di assegni è a rischio del Correntista;
- cessando il rapporto di conto corrente, gli assegni non utilizzati devono essere restituiti alla Banca;
- la Banca ha il diritto ma non è tenuta ad accertare le facoltà degli incaricati dal titolare del conto ad incassare o ritirare assegni, a presentare richieste e ritirare moduli di assegni.

Art. 10. — Le informazioni anche se riguardano titoli, sono date dalla Banca senza sua garanzia né responsabilità.

Art. 11. — La Banca non assume alcuna responsabilità per ogni conseguenza derivante da inosservanza di ordini o di operazioni che sia causata da fatto di terzi o comunque non imputabile alla Banca.

Art. 12. — La Banca si riserva la facoltà di modificare in qualsiasi momento le norme e le condizioni tutte che regolano i rapporti di conto corrente. Le comunicazioni relative saranno validamente fatte dalla Banca mediante lettera semplice all'ultimo indirizzo indicato dal Correntista.

Ad ognuna delle parti è però sempre riservato il diritto di chiudere in qualunque momento il conto, senza bisogno di alcuna disdetta e così anche di reclamare l'immediato pagamento di tutto quanto sia comunque dovuto, salvo s'intende, le speciali limitazioni che venissero concordemente prestabilite.

Art. 2. — I rapporti di debito e credito esistenti con la Banca in dipendenza di qualunque operazione e che per ragioni contabili o per altre cause figurino, sia pure in moneta differente, in più conti anche presso diverse filiali della Banca, devono compensarsi fra di loro, compensazione che si intende accettata con l'apertura dei singoli conti.

Alla Banca viene riconosciuto, a garanzia di ogni sua ragione creditoria, il diritto di ritenzione sui valori per qualsiasi ragione da essa detenuti e di spetanza del Correntista.

MEMORANDUM:

SUBJECT : Activities of Major V.J. Ranton, Hq., A.C.C.
TO : Mr. Viarengo, C.C.C.

1. Submitted hereunder is a resume of the activities of Major V.J. Ranton while attached to the Allied Control Commission Headquarters, also contained herein is pertinent information concerning the status of his work at the present time.

2. The western half of the Edilizia Apartments has been prepared for occupancy of 30 officers of field grade. There are about five (5) wardrobes and five (5) tables still lacking to complete furnishing these quarters. In preparing this building some repair work were necessary to the plumbing, woodwork, windows and electrical system. The most needed repairs have been completed. Several nights of occupancy of the Edilizia have shown the necessity of further repairs. This work have been discussed with the General contractor and a list of the work to be done will be given him. Private Orlando Rita presently has this list.

3. At the present time there is a piano in the Palace of Justice which was taken from Apartment 9 of the Edilizia shortly before Christmas. It has been planned to return this instrument at the earliest opportunity, otherwise it will become lost.

4. It is respectfully recommended that Private Rita be placed in charge of our quarters at the Edilizia in order that adequate supervision may be exercised over the civilian personnel employed for cleaning purposes, and in order that necessary routine maintenance may be continued. It is further recommended that he be given quarters in either apartments 3 or 4 so that all who are concerned may know where to reach him.

5. It is my understanding that five (5) female civilians who have been employed to clean the Edilizia and Navy House will be placed temporarily on the Allied Control Commission pay-roll until sufficient number of officers are quartered in these build-

Private Orlando Aita presently has this list.

3. At the present time there is a piano in the palace of Justice which was taken from Apartment 3 of the Edilizia shortly before Christmas. It has been planned to return this instrument at the earliest opportunity, otherwise it will become lost.

4. It is respectfully recommended that Private Aita be placed in charge of our quarters at the Edilizia in order that adequate supervision may be exercised over the civilian personnel employed for cleaning purposes, and in order that necessary routine maintenance may be continued. It is further recommended that he be given quarters in either apartments 3 or 4 so that all who are concerned may know where to reach him.

5. It is my understanding that five (5) female civilians who have been employed to clean the Edilizia and Navy House will be placed temporarily on the Allied Control Commission pay-roll until sufficient number of officers are quartered in these buildings, at which time the officers will pay them. At the present time Private Aita has the list of civilians who are employed and he has been instructed to furnish the names to Mr. Vierengo.

6. One of the features of the Edilizia which I have not pointed out until now is that two of the apartments have stoves for heating water. They appear to be in good condition. The general contractor has been asked to have them checked in order that they may be operated.

exp. to Mr. Viarengo from Major V.J. Ranton, Subj: Activities of Major V.J. Ranton, Lt., A.C.C. (Cont'd.)

7. I am a little concerned about blackout regulations and believe that the civilian employees or soldiers on duty there should be instructed to close all blackout shelters at night to avoid a repetition of last night's incident which involve an electric power outage with a subsequent resumption of service in the middle of the night. One light had been left on in the apartment in which I stayed and shown out through uncovered windows. Although this is just a small detail, I further suggest that the employees be instructed to ventilate the quarters adequately during the day time.

8. During the work at the Edilizia, a considerable number of iron beds was received. A local civilian who had been sent to the apartment by Captain Jones in the AMG Provincial Office in the same building found that the beds contained bee bugs. The beds were subsequently burned through the use of gasoline torches. It is respectfully suggested that if anymore second hand beds are procured, that they first be brought to the Palace of Justice and that they be similarly treated. To burn beds at the place where they will be used creates an unfavorable impression on the neighbors. Furthermore, in connection with these beds I have received no information as to their origin. Seems to me that there should be some means of marking this material so that if we have to give it back to its original owner, it can be done without confusion.

9. At the present time we lack mirrors and mattresses in the Edilizia. The General contractor furnished private Anthony Canterino with the names of stores in Salerno where he believes mirrors could be procured. He also promised that he will endeavor to secure the price of new straw mattresses.

10. At the present time there are two occupants in the officers' quarters at the Edilizia; Major Baxter and I believe a Major Desmond are living in apartment number 4. The keys to the four apartments are being kept by the doorman. It is respectfully recommended that he be compensated in some way for the odd jobs which he is in a position to perform at the building.

11. At the present time the Navy House lacks approximately 30 beds. Yesterday afternoon 6 of these beds were obtained from the ROCCIA INFIRMARY hospital and 34 more will be picked up on January --. These beds will be used to furnish both, the Navy House and the one apartment at No. 5 Via Indipendenza. There is also a considerable

These beds will be used to furnish both, the Navy House and the one apartment at No. 5 Via Indipendenza. There is also a considerable number of wardrobes and tables which are needed for the Navy House. It is believed that some of these pieces of furniture may be obtained from the Palace of Justice. In view of the fact that Captain Frank Blaughter has only recently been placed in charge of furnishing the Palace of Justice no effort have been made to obtain furniture from this source. It is believed however that an effort should now be made to secure any available furniture.

12. Commander Hill who is in charge of the Port of Salerno and whose offices are at the Navy House has indicated that the Royal Navy has some furniture in storage at Naples which we might use in furnishing the Navy House.

Memo. to Mr. Viarengo from Major V.S. Renton, Subj: Activities of
Major V.S. Renton, Hq., A.C.C. (Cont'd.)

Par. 14 (Cont'd)

A detailed requisition has not been made for this equipment because it was first desired to see what will be available in the Palace of Justice in order to avoid the shipping of an unnecessary amount of furniture from Naples. The Navy has indicated that it will install 8 showers in the 2nd floor of the Navy House. Only cold water will be available.

13. Our quarters in the Navy House consists of rooms in each of the 3 floors. Fifty eight (58) officers of company grade can easily be accommodated there and there will be in addition at least one large room on each floor which might be used as a sitting room. Also on the second floor is located a large room which apparently was once used as a Court Room.

14. In making arrangements for using the Navy House, I have contacted both Commander Hill and 1st Lt. Mclellan both of whom have been very cooperative. I suggest that if my successor has any question about the Navy House he first see Lt. Mclellan whose office is in the Navy House.

15. There is one apartment which can easily hold eight (8) officers located at No. 5 Via Independenza. Private Canterino knows the story of this building. The quarters there were formerly occupied by a lawyer who when approached by Colonel Robertson, Senior Civilian Affairs officer, immediately prepared to move out. I subsequently visited Major Hewitt, Town Major, and told him that I wished to requisition that apartment. Col. Robertson said that we might take others apartments in this building, however, there is no immediate need for this and I have told the occupants in order to relieve their anxiety that it was my opinion that Allied Control Commission donot require this place immediately, but I pointed out that I could not speak for anyother military organization nor could I speak for the future in the case of my own organization. The apartment at No. 5 Independenza has both, a fireplace and an electric hot water heater. It is unfurnished and some of the beds which will be secured from NOCER/ INFERIORE will be used there.

16. It is to be noted that the 40 beds which were secured yesterday were not taken from HOSPITAL TORTORA PAGANI. Yesterday after receiving instructions to pick up the beds I went to see Col. Robertson in order to be certain that my plans would not conflict with his. I have found Colonel Robertson

Robertson in order to be certain that my plans would not conflict with his. I have found Colonel Robertson very cooperative. He told me what has been unable to find for my own organization, namely, that he believes that a mistake has been made in requisitioning any material from the HOSPITALE TORTORA PAGANI, but that he believes that 40 more beds could be spared from there. He told me that Captain Jones, the Medical Officer had been out to the hospital the previous day and found that 40 beds could be spared. He then gave me a letter which had been previously prepared and which was addressed to the Director NOCERA INFERIORE asking that the Allied Control Commission be given 40 beds. I took the letter to the HOSPITALE TORTORA PAGANI and was told that the NOCERA INFERIORE was a separate hospital several miles away.

I went there, was warmly received and was told that I could have the 40 beds without any questions but that they are still assembled and that it would take a little time to take them apart. I prepared requisition number B-0753, two copies of which are attached hereto and took 6 beds. I told the priest who was in charge that I would be back in January at 1000 o'clock to pick up the remainder. Lt. Canterino was with me on this trip.

17. In my activities about town I have been greatly assisted through efforts of Major Hewitt, Town Major, Lt. Col. Robertson, Senior Civilian Affairs officer and Captain Kiolo and Lt. John Barden of his staff. I respectfully suggest that if anymore large scale requisitioning be done that both Major Hewitt and Col. Robertson be consulted by the officer who actually have to go out and get the material. They have eased my work considerably through suggestions and other help.

18. In connection with the material to be returned to the Hospitale Tortora Pagani I took none of it back because I was unable to find some of the material. The 200 beds which are called for in the requisition from the hospitale Tortora Pagani we do have as far as I know.

Dear Gueterbock:

I have just had a talk with Colonel Pettorelli about the housing plan for the Italian Government in Salerno. He brought along a letter from Badoglio to General Joyce which states that the Marshal considers that the living accommodations for Italian officials are not entirely adequate.

At General Joyce's suggestion I told Pettorelli that he should call on the Archbishop and suggest to the latter that it would be appreciated if he would accept some of the Italian officials at the Seminary on a guest basis. Pettorelli agreed to make the demarche which may not impress His Grace. The Italians have indicated that their requirements would be pretty well taken care of if they were allowed the Diana Hotel, at least during the initial period of getting settled. I told Colonel Pettorelli that this was a matter for you to decide and that I would only invite the matter to your benevolent consideration.

I can see right now that it will be a real job to get the Italians over in an orderly fashion. I will do my utmost from this side and I know that you will do what you can to facilitate their getting settled at the Salerno end.

With best wishes, I am

Sincerely,

Para. 2 A. This is being arranged.

Para. 2 D. This is being arranged.

Para. 2 C. It is regretted that it is impossible to provide a Carabinieri Guard. The Carabinieri at Raito near Vietri are found from Salerno City and with the present situation it is impossible to furnish any further guards from Salerno City. The Carabinieri are continuously having to send reinforcement to different parts of the Province to reinforce the Police at different Communes because of rioting and disturbances.

For instance today word has been received that rioting is taking place at Montesano Sulla Maccellana and carabinieri reinforcement are being sent to this place from Salerno City.

It is strongly suggested that the A.C.C. make representations to the Comandante Della Legione C.C. R.R. Napoli for the Carabinieri to be considerably increased in Salerno City because of the arrival of the A.C.C. and the Italian Government.

The Carabinieri in Salerno City come under the Command of the Colonel of the Carabinieri in Naples.

MEMORANDUM: Relation of the Allied Control Commission
to the Italian Government

TO : All Officers, Allied Control Commission

1. The attention of all officers is invited to the fact that the Allied Control Commission occupies a position in relation to the Italian Government which is quite different from that of Allied Military Government. The Commission advises and supervises; it does not govern. This fundamental difference must be thoroughly understood by all officers who will adjust accordingly their attitude toward Italian officials and agencies, allowing them to develop their functions freely without undue interference.

2. If basic differences arise between officers of this Commission and the corresponding members of the Italian Government, the matter at issue will be submitted to the Deputy President for adjustment with the Head of the Italian Government.

3. This document is a matter of continuing policy. Each Vice President will ensure that it is understood by all officers belonging to his section.

SUBJECT:- Personal Mail - British Officers
& O.Rs.

M/7/3

To:- Staff Captain,
Angot Liaison,
15 Army Group,
C.M.F.

1. Personal mail is being received at H.Q. Angot, Palermo, at very irregular intervals and in consequence constant enquiries are being received on this subject.
2. It is appreciated that the difficulties are varied and numerous.
3. I should appreciate if you would investigate the causes of delay etc., at your end and please advise this office.
4. Enclosed please find:-
 - (i) A complete location statement of Angot Officers & O.Rs. to date as known here, and
 - (ii) A list of recent arrivals for whom I understand some mail has arrived at your H.Q. (their address may be anything!).
5. In the mail received from you yesterday many envelopes were defaced by having the postage stamp removed - this would appear to have only occurred where envelopes were bearing "picturesque" foreign stamps. The offenders obviously are "budding" philatelists, but as you will appreciate, this practice is highly irregular, and strong disciplinary action should be taken against offenders. Would you kindly investigate this matter.
6. Lastly, it is pointed out that para. 8 of Organisation and Distribution of Personal Mail at H.Q. Angot, dated 26 Aug 43, a copy of which was sent to you, still applies, i.e. all British mail for Angot personnel about whom you have no knowledge and for whom you are unable to clear, please send to Postal Dept., H.Q. Angot, Palermo.

In the Field,
29 Oct 43.
