Dear Major Pearson,

My attention has been called on the following matter which I shall try to describe to you as briefly as possible.

The son of a poor woman, by name Rosa Vuolo, whose address is c/o Pensione Lone, Amalfi, was run over and killed on February 2nd, 1944 by an Allied lorry.

Signora Vuolo has already applied to the Claims and Hirings Office, A.M.G., Salerno, for an adequate compensation as the boy contributed by his work towards her upkeep.

I am sure the Claims and Hirings Office will deal with the matter in all fairness and will see to it that an early decision be reached, but I believe it would be very helpful should you find it possible to put in a good word on behalf of Signora Vuolo who is in very difficult financial conditions and in urgent need of some help.

Thanking you in advance for your kind interest,

I remain

Sincerely yours

SUBJECT: ACC/AMG Certificates of Employment.

TO : Distribution below.

1. The classes of person liable to call-up for service with the Italian Armed Forces are, at present, those males born between 1913-1924 (inclusive).

2. The mechanics of call-up are as follows:

a. The Italian Military District (of which a list is given in Appendix "A") sends a post-card (Cartolina di Prochetto) to the address of the person concerned, directing him to report to the Comando Forze Armate (located in the same areas.)

b. If a person fails to report he is technically a deserter and the Carabinieri are informed and make the necessary enquiries.

c. Persons who can prove that they are working for Allied Services are exempted with some exceptions.

3. This system has lent itself to abuse in that persons within the prescribed classes obtain employment with Allied Authorities, work for a few days, are granted a certificate of employment whereby they secure exemption from call-up and then leave their employment and the purpose of this directive is to put a stop to this abuse.

4. A. Branch, Hq. A.A.I. have requested that a monthly report be made to them, showing the number of persons exempted, and the trades in which they are employed. In order that this can be done Regional Commissioners and Headquarters Commandant will submit to this Hq. at once on Pro-forma attached, a return of such persons to whom a certificate of exemption has been given, and the trades in which they are employed.

5. When a male person within the prescribed ages leaves the employment of ACC/AMG his particulars will be immediately reported to the local Italian Military District who will take steps to withdraw his exemption certificate and will institute enquiries through the local Carabinieri to ensure that the person is conscripted into service.

6. It is suggested that this matter could best be handled in Regions through the office of the Provincial Police Officer and at Headquarters through the Employment of the Hq. Commandant.

7. A thorough check should now be made to ensure that Italian Military Districts are informed of any person who has been issued a certificate of employment in ACC/AMG service, but is now no longer in such.

8. In future such certificates of employment will be issued only in very exceptional circumstances, i.e. where the person concerned is irreplaceable. A return will be ~~sundered~~ to this Hq. on the 30th of each month of all amendments to the original list. The first return will be made on the 15 July 1944.

9. While this procedure is designed to cover only those persons who fall within the call-up categories, it is obviously inadvisable that any person who has left the service of ACC/AMG should be in possession of any type of current employment certificate, badge or pass and, therefore, every step should be taken to withdraw such certificates, badges or passes as soon as employment terminates. When any person leaves the service of ACC/AMG and fails to surrender his certificate, badge or passes, enquiries should be instituted for their recovery by the local police agencies, and the matter reported direct to the Italian Military District concerned.

Subject: Illegal Disposition of Government Property Preventive Program.

To : See Distribution.

1. In compliance with General Order No. 115, this Headquarters, dated 14 June 1944, immediate drastic corrective action will be taken by Commanders of all units to prevent pilferage, sale, barter, abandonment or other illegal disposition of U. S. Government Property.

2. Company and similar Unit Commanders will personally bring to the attention of all enlisted men of their organizations, through instruction of at least one (1) hour per week, the necessity for safeguarding Government property, the effect of such losses upon our war effort, and the resulting disciplinary action that will be awarded to those convicted of wrongfully disposing of U. S. property. In this connection it will be emphasized that for every article intended for the use of U. S. Troops and wrongfully disposed of, a duplication of labor at home and additional space for shipping is required. It will be further explained that one of the most severe penalties that can be given by a Military Court is a Dishonorable Discharge; that a man returning home after being dishonorably discharged is in the eyes of the people of the United States a criminal. He has betrayed himself, his family, his community, and his government. That he automatically loses his citizenship, his right to vote, and to hold office. He cannot hold a government position. That Discharge Certificates are always requested by employers after any war and a dishonorable one removes the chance for any worth while job. That it is impossible to keep hidden the fact that a man has received a Dishonorable Discharge. A record is kept in Washington and is available to every community in the United States. That a man with a Dishonorable Discharge, branded as a criminal, will find it impossible to establish credit. He will be prohibited from joining patriotic organizations - former friends, learning of his disgrace, will avoid his company. With this in view, it is not hard to understand how the family of an individual will be forced to suffer in his disgrace in the community.

3. In order to further implement the education of all troops, notices on bulletin boards, in mess halls, and at other conspicuous places will be posted calling attention to the serious loss to the government due to the illegal disposal of property. 133

4. It is believed that if our soldiers are made "Property Responsibility Conscious" and if they know that they themselves and their comrades in combat are the real losers, their loyalty and sound common sense will cause them to report every instance of the illegal disposition of government property that comes to their attention.

5. Commanders of all echelons will be responsible for the immediate initiation and the vigorous prosecution within their respective commands of

an educational program which will insure that all personnel are fully aware of the absolute necessity of causing the illegal disposal of government property to cease.

Subject: Authorized ration for Italian Troops on duty with Peninsular Base Section.

To : The Commanding Officers of all PBS Units, to which Italian Army Units are Attached for Operational Control.

1. Numerous complaints have been received at this Headquarters to the effect that the current ration, prescribed for Italian Army Units on duty with Peninsular Base Section, is inadequate, or that such troops are not currently receiving the prescribed ration in full. The matter of supply of rations to Italian Army Units is fully covered in Section XX, Paragraph B (Page 237), Circular No. 68, this Headquarters, dated 28 May 1944.

2. It is directed that all unit commanders, having operational control of Italian Army troops, interest themselves in the matter of proper and full ration supply to these troops. Assistance must be extended to the Italian Units in the drawing of these rations, --particularly when working conditions to which they are subjected may make this process difficult. Unit commanders are charged with verifying that attached Italian Units receive in full amount, in proper time, and in satisfactory condition, the full prescribed ration, --and when substitutes are issued therein, that the substituted items are appropriate, both as to type and quantity. The current authorized "Basic Ration", for issue to all Italian Army Units attached to PBS, is made up of the following components per-man per-day:

a. Furnished from U. S. sources:

Flour.....	12 ounces
Pulses (dehydrated veg.).....	2 "
Tinned meat.....	2 "
Canned fish.....	4 "
Sugar, refined.....	1 1/2 "
Coffee.....	1 "
Pepper.....	1/200 "
Matches.....	1 box or 2 books.

b. Issued from Italian sources:

Fresh fruit.....	4 ounces
Fresh vegetables.....	8 "
Olive oil.....	1 "
Nuts, shell.....	1 "
Salt, refined.....	1 1/2 "
Wine.....	1 liter

NOTE: It is also specified that, when Italian Army units are performing hard-labor duties, that the U. S. unit to which it is attached will provide.

US RESTRICTED Equals British RESTRICTED

US RESTRICTED Equals British RESTRICTED
in addition to the above ration, two (2) ounces of tinned meat per-man
per-day from U. S. stocks, --such to be included in the daily telegram,
as per Circular Number 56 above.

3. The above ration (exclusive of the extra 2 ounces of canned meat) is distributed to Italian Army units entirely through Italian supply channels. (The U. S. component items being bulk-issued direct to Italian Depots). Its supply is entirely a matter of Italian military responsibility, except to the extent that the U. S. operating unit frequently must make available the necessary transportation with which it may be drawn and delivered. Assurance that the ration is received in full, is properly applied, cooked, and served, is made a responsibility of the U. S. unit commander. Any failure or breakdown in this ration supply should be promptly reported to the Commanding Officer of the Provisional Group to which the Italian unit is assigned. Official report should be made to this Headquarters, in all cases where the ration as delivered is inadequate, not up to standard, and where proper adjustment has not resulted through appeal to the Group Commander. The matter of Italian troop morale hinges so closely on an adequate and steady ration supply, that all concerned must make the necessary effort to assure its proper handling.

Risulta a questo Ministero che in quasi tutti gli alberghi viene richiesta ancora ai clienti la razza di appartenenza per essere trascritta sulla relativa scheda di notifica.

Tale richiesta, oltre che ingenerare risentimento da parte di eventuali viaggiatori di razza ebraica, è non solo superflua ma in contrasto alle disposizioni contenute nel R.D.L. 20 gennaio 1944 No 25 pubblicato nella Gazzetta Ufficiale No 5 con cui furono emanate le norme per la reintegrazione dei diritti civili e politici di cittadini italiani e stranieri già dichiarati o considerati di razza ebraica.

Cessato la sperequazione di ordine morale e politico, tra ariani ed ebrei, dovrà cessare anche ogni indagine in merito alla razza di appartenenza dei singoli cittadini.

Analogamente, anche in occasione della identificazione da parte degli organi di Polizia, dei condannati e degli stranieri l'indicazione della razza dovrà essere omessa e la voce relativa cancellata dai moduli ancora esistenti negli uffici dipendenti (dichiarazione di soggiorno ecc.)

Said request, besides causing resentment on the part of travelers of the Jewish Race, is contrary to the provisions of the R.D.L. 20, Jan 1944, N° 25 published in the Official Gazette N° 5, and as a result of which regulations were issued for the restoring of the civil and political rights to the Italian citizen and foreigners who are

It is therefore requested that H.E. order as soon as possible that the word "race" be struck off the printed forms of the hotels; that no requests be made in said matter and lastly new printed forms must not contain any reference to the word "race". SUBJECT: Local Purchases and Contracts.

TO : Distribution below.

1. Cases are still occurring where ACC/AMG are entering into financial transaction on behalf of Italian Ministries, Governmental Institutions or other Italian agencies which could equally well be handled by such Ministries, Institutions or agencies themselves. It must be remembered that it is our policy as far as possible to restore the normal course of trade and to encourage normal trading relations between the Italians themselves. This policy is further dictated by the lack of ACC/AMG personnel to handle and account for such transactions. For this reason it should only be in exceptional circumstances that ACC/AMG themselves make local purchases for resale in Italy or incur expenditure in performing services which could equally well be paid for by the Italian Government or other Italian agency. This does not of course mean that ACC/AMG should not cooperate by making available the necessary supplies etc.

2. The principle is best illustrated by two examples. If large quantities of pamphlets are printed for an Italian Ministry, the printers' invoices being paid by ACC who supply the paper free to the printers, a great deal of unnecessary work is created. In such a case the procedure should be for all invoices to be settled direct by the Italian Ministry or agency and should it be necessary for ACC/AMG to supply any commodity, in this case paper, in order that the contract may be carried out, such commodity should be sold to the Italian Ministry or agency by the Economics and Supply Division of the Region in which the contract is being carried out. Similarly, if salt is sent from a salt mine to an Italian State Monopoly warehouse, ACC should not purchase and resell but the financial transaction should be one between the State Monopoly and the Salt Mine.

PARLIAMENTARY REGISTRATION

The Armed Forces Declaration Card

(Army Form B2626, S1300B, R.A.F. Form 2040)

By Command of the Army Council.

L. Darnoch.

THE WAR OFFICE,
1st April, 1944.

PARLIAMENTARY REGISTRATION

The Armed Forces Declaration Card

(Army Form B2626, S1300B, R.A.F. Form 2040)

Every person who wishes to be included in the new Register of voters must make a declaration, whether previously registered or not.

1. Section 10 of the Parliament (Elections and Meeting) Act, 1943, provides that every person appearing to be qualified to make a service declaration shall receive all reasonable instructions and assistance in the making of that declaration. It is accordingly desirable that these cards shall be filled up under the supervision of a commissioned officer, and the following instructions are issued for general guidance. The declaration must be attested by a commissioned officer other than the declarant.

2. Parts 1 and 3, and, if it is desired to appoint a proxy, Part 2 of the card are to be filled up. Nothing will be written on Part 4. All entries should be made in ink.

Part 1.

3. The space marked "Service" will be completed by inserting "R.N.", "Army," "R.A.F.", "W.R.N.S.", "A.T.S.", or "W.A.A.F.", as the case may be. Nursing Services will be included under the name of the Service (*i.e.*, R.N., Army or R.A.F.), with which they are serving. V.A.D. members employed under the Army Council will put "V.A.D. (Army)."

4. "Service No." includes the personal number, if any, of officers.

5. The date of birth should be inserted only in the case of persons who are under 21 years of age at the time of filling up the card. In all other cases the declarant should state only that he is 21 years of age or over.

Those under 21 years of age will be placed on the register when they attain that age.

6. A declarant is required to state the address at which he resides or, but for his service, would reside. This means that a declarant should as a rule give his home address; but if owing to special circumstances he is not in a position to give his home address it will be open to him to give an address at which he would be likely to be residing if he were not in the Forces, *e.g.*, the address of a relative or friend.

7. The FULL postal address of the HOUSE must be inserted. It will not be possible to register a person who gives only the name of a town or district.

8. Before an attesting officer signs a declaration he is required to satisfy himself that all particulars of identity which can be known to him are accurate, *e.g.*, he should check from the pay book or other official document that the declarant's number and his rank or rating are correct. Since an alien cannot vote, an attesting officer should not attest the declaration of a person whom he *knows* to be an alien, *i.e.*, a person who does not possess British nationality either alone or with any other nationality.

9. An attesting officer if in the Royal Navy will state his ship, if in the Army he will state his regiment or corps, but *not* his unit, and if in the Royal Air Force he will state his unit.

10. A declaration may be cancelled at any time by means of a fresh Armed Forces declaration card (A.F. B2626, S1300B, R.A.F. Form 2040) declaring to another address.

Part 2.

11. This part must be filled in by any declarant who desires to appoint a proxy, *i.e.*, a person who will be given a ballot paper in order that he or she may vote on behalf of the person making the appointment. * A fresh appointment must be made each time the declarant makes a new declaration, because an appointment made

with an earlier declaration expires when that declaration is cancelled. A ballot paper can only be sent to an address in the United Kingdom and therefore a voter abroad cannot vote unless he has appointed a proxy.

12. If a person who has already been appointed proxy dies or becomes unable to act, another proxy may be appointed. For this purpose a fresh Armed Forces declaration card (A.F. B2626, S1300B, R.A.F. Form 2040) should be used, omitting the information as to age and postal address, and deleting the words "I hereby cancel any previous declaration made by me."

13. A proxy must be a British subject of 21 years of age or over.

14. Generally a person can only hold two proxy appointments. This limit does not apply if the person appointed is the father, mother, husband, wife, brother, sister, grandfather or grandmother of the person making the appointment. The relationship of the person appointed as proxy should be stated if it is one of the above. If not, put "none."

15. It is not essential that the declarant should name a person as second choice. It is however advisable for him to do so in case the person whom he selects as his first choice already holds for other people as many proxies as he is by law allowed to hold.

Part 3.

16. The address on Part 3 must be inserted by the officer who is supervising the filling in of the card. Normally what is needed is the last two lines of the full postal address set out in Part 1, e.g., "Crewe, Cheshire," "Tenby, Pembrokeshire," or "Larne, Co. Antrim," but all cards bearing a *Scottish* residential address, should bear *only* the word "Edinburgh" instead of a "Post Town" and "County" address.

Some towns obviously need no "County," e.g., Derby, Cambridge, etc. In these cases only the name of the town need be given. In the case of London and some other large towns, only the name of the town followed by the district numbers and/or initials is required, e.g., London, S.W.1, Birmingham, 15.

General.

17. When cards have been completed they should be folded firmly along the perforated line, Parts 1 and 3 being outside, and transmitted through the normal postal channels.

Mode of voting at home.

18. Persons on the Service Register who will be in the United Kingdom at the time of an election and who desire to vote by post at an election in the constituency will complete A.F. B2628, S1300C, R.A.F. Form 2574, which may be obtained from the unit orderly room or equivalent office; or in the case of personnel on leave or otherwise detached from their units, from electoral registration

4

officers; and forward it to the appropriate electoral registration officer in order that he may be notified of the address to which ballot papers are to be sent. The submission of this form will automatically cancel the appointment of any proxy as respects that particular election.

19. Persons on the Service Register who have not sent in A.F. B2628, S1300C, R.A.F. Form 2574, may vote in person, but where a proxy has been appointed, only if the proxy has not already voted. The appointment of the proxy is then cancelled as respects that particular election.

20. In no circumstances will any special leave be granted solely for the purpose of voting in person.

Appointment of proxies by Service voters at University elections.

21. The Act provides that a member of the Forces who is entitled to vote at a University election may use Part 2 of the Armed Forces declaration card to appoint a proxy to vote for him at that election. Accordingly any person who states that he is a University elector and who desires to appoint a proxy for a University election should be issued with a second card for this purpose. In such cases the card will be completed as follows:—

22. Part 1 will be completed in the same manner as if the declarant were making a service declaration, except that instead of his full postal address he will insert the University constituency in which he is entitled to vote.

23. Part 2 will be completed without any variation.

24. Part 3 will be completed by the declarant, who will insert the name and postal address of the University for which he claims to be entitled to vote.

25. On completion, the declarant will transmit the card through the normal postal channels.

OGGETTO: piantone armato alla rimessa A.O.C. ass. lista da Militari Alleati.

AL COMANDO PRESIDIO MILITARE DI

SALERNO =

e, per conoscenza:

AL COMANDO 1° RAGGRUPPAMENTO GUIDE

= P.M. 186 =

Ieri sera alle ore 21,30 circa, la guida GRAFFI Antonio del 2° Squadrone di servizio all'ingresso della rimessa Automezzi A.O.C. (Corso Vittorio De manuele) veniva aggredito e percosso da 3 militari Canadesi.

I tre militari canadesi volevano entrare nella rimessa ma venivano fermati dalle guide Graffi, che in ottimale pazienza alla consegna ricevente chiedeva loro il tesserino di riconoscimento rilasciato a quanti hanno diritto al libero accesso.

Mentre cercava di farsi comprendere uno dei militari canadesi improvvisamente tentava toglierli il moschetto che la guida teneva a bracc'arm, e non riuscendo nell'intento da solo, veniva aiutato dagli altri due. Il Graffi reagiva energicamente difendendosi, e non si faceva disarmare; ne nasceva di conseguenza una colluttazione serrata durante la quale il Graffi aveva la meglio perchè veniva colpito ripetutamente da pugni, in conseguenza dei quali, presentava questa mattina emorragie ed ecchimosi alle faccie e agli occhi. Il capo-posto e gli uomini di guardia richiamati dalle grida del Graffi accorrevano in suo aiuto.

I militari aggressori vedendo arrivare altri uomini si allontanavano precipitosamente.

In questo momento giungevano due militari della P.M., uno Inglese l'altro Americano, che fermavano uno dei militari aggressori, mentre gli altri due si dileguavano.

Il ferito venne portato nell'interno della rimessa e interrogato.

Il Graffi fu anche interrogato da un Sergente Italiano, di cui non si conosce il nome, ma che deve far parte dell'ufficio della A.O.C., il quale parlava in lingua inglese, riferì al P.M. l'accaduto.

Dopo di ciò i due P.M. uscirono accompagnati ad una vicina infermeria americana.

Il Graffi veniva rilevato ed accompagnato ad una vicina infermeria americana per essere medicato.

Verso le ore 24,30 mentre era di servizio la guida ZANNONI Valerio altri due militari alleati (di nazionalità non precisata) tentavano entrare.

Fermati, cercavano passare ugualmente, al che la Zannoni, per far rispettare la consegna spara un colpo di moschetto in aria. Al colpo uno dei militari si fuggiva l'altro rimaneva sul posto. Sopraggiungeva un sergente americano, del parco della rimessa, che parlava anch'egli con i militari rimasti, fino a che lo costringeva ad allontanarsi.

Il frequente ripetersi di questi incidenti, già verificatosi presso guardie, ha causato da parte dei militari alleati una condotta di

loro il tessero di riconoscimento rilasciato a quando erano di ritorno al
bero eccetto.

Mentre cercava di farsi comprendere uno dei militari canadesi improvvisamente tentava toglierli il moschetto che la guida teneva a bracc'armi, e non riuscendo nell'intento da solo, veniva aiutato dagli altri due. Il Graffi reagiva energicamente difendendosi, e non si faceva disarmare; ne nasceva di conseguenza una colluttazione serrata durante la quale il Graffi aveva la meglio perché veniva colpito ripetutamente da pugni, in conseguenza dei quali, presentava questa mattina emorragie ed ecchimosi alle faccie e agli occhi. Il capo-posto e gli uomini di guardia richiamati dalle grida del Graffi accorrevano in suo aiuto.

I militari aggressori vedendo arrivare altri uomini si allontanavano precipitosamente.

In questo momento giungevano due militari della P.M., uno Inglese l'altro Americano, che fermavano uno dei militari aggressori, mentre gli altri due si dileguavano.

Il fermato venne portato nell'interno della rimessa e interrogato.

Il Graffi fu anche interrogato da un sergente Italiano, il cui non si conosce il nome, ma che deve far parte dell'officina della A.C.C., il quale parlava in lingua inglese, riferì al P.M. l'accaduto.

Dopo di ciò i due P.M. uscirono accompagnando il Canadese.

Il Graffi veniva rilevato ed accompagnato ad una vicina infermeria americana per essere medicato.

Verso le ore 24,30 mentre era di servizio la guida ZANNONI Valerio altri due militari allenti (di nazionalità non precisata) tentavano entrare.

Fermati, cercavano passare ugualmente, al che la Zannoni, per far rispettare la consegna sparava un colpo di moschetto in aria. Al colpo uno dei militari fuggiva l'altro rimaneva sul posto. Sopraggiungeva un sergente americano del perso alla Cella rimessa, che parlava animatamente con i militari rimasti, fino a che lo costringeva ad allontanarsi.

Il frequente ripetersi di questi incidenti, già verificatosi presso guardie fornite dal Gruppo, la violazione di consegna, da parte dei militari alleati, il più delle volte ubbriachi, mette a dura prova lo stato d'animo delle guide, che compiono scrupolosamente e con alto spirito militare il loro dovere.

Prego codesto comando voler fare interpretare presso i Comandi superiori alleati di questo stato di cose, affinché alle nostre guide sia salvaguardata la sicurezza e l'incolumità da predittorie aggressioni nel compito del loro dovere.

I inform you of the fact that yesterday evening at about 10,30 hours, the Italian soldier Antonio Graffi (11th. Group, 2nd. Squad, 1st. Cav.) on guard at the exit of the A.C.C. and at the petrol bowser of the Garage, was assaulted by three Canadian troops, trying to enter the corridor leading to the garage. The Italian sentinel ordered them to halt and asked to see their passes. One of them then tried to take the guard's musket from him, unsuccessfully however, while the other two leaped upon him dealing out kicks and blows. At that moment an M.P. arrived on the scene and took the three Canadians and the guard into the garage. The guard was given first aid by the American Red Cross, for cuts and bruises on the head and face. The Canadians were allowed to leave as far as I know. The English Sgt. Bibi, on garage duty, is acquainted with the incident and spoke to the three Canadians and the P.M.

Later, other Canadians tried to enter the garage by the entry. The Italian sentinel fired a shot in the air. He was assisted by the personnel billeted in the shop of the M.P.'s who intervened. I understand that one of the Canadians was caught and retained by the M.P.s.

SUBJECT:- Report by Cpl Netherwood on Fire.

TO:- Capt B.L.Drage,
Rear Headquarters Commandant,
Allied Control Commission.

Sir,

I have to report that whilst patrolling the Palace of Justice at 1220 hours on Monday 15 May 44, I smelt burning on the Mezzanine Floor. I immediately investigated and saw smoke coming from behind the large cupboard. I threw water behind the shelves and moved the cupboard forward so that I could get a broom handle behind. On further investigation I found a piece of burnt Civilian Trousers. There was one very old, hard cigarette end behind the cupboard but I am convinced that this had been there for a long time and was not the cause of the fire. The water thrown on the fire did not soften the cigarette end. I found no more cigarette ends near the spot. As soon as I had extinguished the fire I reported the matter to the C.S.M. who reported to the Company Commander.

I am Sir,
Your Obedient Servant,

To Rear H.Q. A.C.C.

the office of legation with H.Q. 94 Sub-Area.

In reference to letter of 30th May, 44 from Rear
H.Q. A.C.C. regarding the requisition in question.

I give you the following information on the subject:

(1) Notice of the requisition was given to all the
owners and tenants verbally on 30th May and in
writing on 31st May 1944.

(2) At the time notice was given of the requisition
the rooms were already cleared of the furniture.
This gives reason to suppose that the tenants were
already aware of the requisition, possibly as a result
of information imparted by some Allied or Italian
employee.

2) (3) Six families, comprising 29 persons altogether, asked to be provided with another habitation since they have no other themselves. I ~~just~~ immediately notified the local Commisariat of Lodgings, with instructions to provide with all haste the necessary quarters, but I have had no reply as yet.

(4) Mr. Matteo Chiavone, who has had his own home destroyed during an air raid and lost all, has asked if he might remain in flat no. 2 (composed of two rooms only, of the water-closet and no kitchen) on the first floor.

(5) Mr. Vincenzo Adinolfi calls attention to the fact that he has already had to submit the following, requisitioned for the benefit of the Allies:

- A house in via Roma no. 33, with its furniture,
- A Lancia automobile, Aprilia type.
- The "Vittoria" cinema building.
- The "Vittoria" baths building.
- The "Impero" bar.
- The "S. Severino Rota" cinema building.

I beg you to kindly consider the possibility of cancelling the requisition of the flat occupied by Mr. Vincenzo Adinolfi in reason of

3) the numerous requisitions already suffered, ^{54B} and that of Mr. Matteo Schiaoni, for war damage received and the small number of rooms occupied.

SUBJECT: Control of Civilian Movement - Entry into City of Rome

TO : Distribution below.

1. It is anticipated that numerous applications will be made by civilians as well as by Italian officials for permission to enter the City of Rome and Fifth Army area.
2. The granting of such permission will depend upon the military operations in progress and upon the expediency of allowing additional civilians into Rome which is already seriously overpopulated.
3. Such permission will be given subject only to the following conditions which must be strictly observed.
4. For this purpose the control of movement will operate in three phases:

Phase I in which all movement into the City of Rome as well as into the Fifth Army and Corps areas will be prohibited without the prior approval of C.G.S., HQ. A.A.I. The date on which Phase II will operate will be notified as soon as possible.

Documentation-Field Conduct Sheets (A.F. B122)-Other Ranks.

1. Owing to various exigencies, units frequently lack AFs B122 for some soldiers on their strength. Where it appears probable that the original form has been lost application should be made to GHQ 2nd Echelon for a new AF B122 prepared from the record of regimental entries on AF B103.

2. When a soldier is committed for trial by FCM and there is no AF B122 available in respect of him, the officer commanding the unit to which he belongs or is attached will immediately apply by signal to GHQ 2nd Echelon for an AF B122 relating to the particular soldier to be forwarded. On receipt of such an application GHQ 2nd Echelon will prepare a new AF B122 from examination of the soldier's records and will forward the completed form to the unit.

The unit will retain the new original AF B122 thus received from GHQ 2nd Echelon and a certified true copy will be prepared at the unit which will be produced in the ordinary way at the trial.

3. Attention is directed to ACI 1107/43, which provides for the destruction in certain circumstances of field conduct sheets and the carrying forward of regimental entries only on to a fresh AF B122. It is appreciated that some units may find it difficult to carry out these instructions immediately; it is important, however, that a field conduct sheet produced at a court-martial should comply with the provisions of the ACI, otherwise the soldier may be prejudiced.

Sir,

In the course of my duty as H.C.O. 1/s Police at 1910 hours on 18 May 1944, I was patrolling the Palace of Justice. I happened to be outside the Building when I saw an Italian and a boy coming out of the gate leading to the Motor Pool. I apprehended them and found that the boy was carrying food. I escorted him back to the cookhouse. I noticed that there was no Carabinieri on duty. After ten minutes I found the Carabinieri and told him he was absent from his post, thus allowing civilians to pass through with food. I asked him for his name, he refused to state or write it. I then reported the matter to the Duty Officer who obtained the man's name (Ugliaccio Errico).

SUBJECT: Malaria

TO: All Personnel.

The following is extracted and republished from 94th Sub Area Routine Orders, dated 28 April 1944 for the information and guidance of all personnel of this headquarters.

1. Malaria is one of the most important health problems in the Mediterranean theater of war. During the 1943 malaria season the disease seriously reduced the efficiency of all units that failed to take adequate anti-malarial precautions. Owing to the sickness on the part of officers and men alike, the Italian campaign has gravely handicapped by a high rate of a larva campaign. It is estimated that this rate rose to ten times the figure that would have occurred had orders been obeyed.

2. The whole of the mainland of Italy may be regarded as malarious in some degree. This Sub Area is divided as present into malarious and one highly malarious area. The extent of the highly malarious area is set out below:

3. Boundaries of Highly Malarious Area in 24 Sub Area:

North, Road 5, 1000, East (1) COMMERCE (H)
East, Easting 1000, 1000, 1000
South, Easting 1000, 1000, 1000
West, Easting 1000, 1000, 1000

4. Commanding Officers are reminded that they are responsible for the health of their men and that they will incur a grave responsibility should they neglect to enforce orders on the subject of malaria.

5. Basic Personal Anti-Malarial Precautions:

The following precautions will be taken by all ranks throughout the Sub Area from 7 May, 1944:

- (a) All ranks will sleep under mosquito, or some fly net.
- (b) All ranks will wear, day and night, long trousers and shirt. Ties should be tucked into the waist and tucked.
- (c) Gaiters, and others on night duty, will apply anti-mosquito repellent to exposed portions of the body every four hours between sunset and sunrise.

6. Basic Personal Anti-Malarial Precautions:

1. Malaria is one of the most important health problems in the Mediterranean theater of war. During the 1943 malaria season the disease seriously reduced the efficiency of all units that failed to take adequate anti-malaria precautions. Owing to the slackness on the part of officers and men alike, the Italian campaign was gravely handicapped by a high rate of malaria casualties. It is estimated that this rate rose to ten times the figure that would have occurred had orders been obeyed.

2. The whole of the mainland of Italy may be regarded as malarious in some degree. This Sub Area is divided as present into malarious and one highly malarious area. The extent of the highly malarious area is set out below:

3. Boundaries of Highly Malarious Area in 9A Sub Area:

WEST: Road S. IERNO, E. of (S) COMUSI (H)
E. of, E. of line 6.00
SOUTH: R. of line 11.00
West, E. of line 11.70

4. Commanding Officers are reminded that they are responsible for the health of their men and that they will incur a grave responsibility should they neglect to enforce orders on the subject of malaria.

5. Basic Personal Anti-Malarial Precautions:

The following precautions will be taken by all ranks throughout the Sub Area west of 7 day 44:

- (a) All ranks will sleep under mosquito, or sun fly nets.
- (b) All ranks will wear, between sunset and sunrise, long trousers and shirts fastened at the wrists and neck.
- (c) Guards, and others on night duty, will apply anti-mosquito repellent to exposed portions of the body every four hours between sunset and sunrise.

6. Extra Personal Anti-Malarial Precautions:

The following additional precautions in highly malarious areas in the Sub Area will be taken by all ranks west of 7 day 44:

- (a) All ranks will take one tablet of mepecrine daily.
- (b) All ranks will wear, between sunset and sunrise, boots and gaiters or puttees.
- (c) All local habitations will be out of bounds between sunset and sunrise.

- (a) All tents and occupied buildings will be sprayed with anti-mosquito spray once daily.
- (b) In highly malarious areas, spraying of sleeping accommodation will take place twice daily, once in the morning and once in the evening, an hour before sunset.

8. Unit Orders:

GOC of all units will issue orders for carrying out the above precautions and will particularly ensure that the following items are properly covered in them:

- (a) However, that regular and frequent inspections are carried out to see that nets are properly used and kept in good repair.
- (b) Mosquito nets are used. The orders given are carried out in all ranks and no relaxation is permitted for any reason.
- (c) Repellent lotion or ointment. That application of repellents is carried out under the supervision of an officer or NCO.

Sir,

With reference to correspondence received at this office from D.A.P.M. 94 Sub Area on the 26th. April 1944.

The contents contain a letter to GENERAL MARK CLARK, Commander of the 1st. Army, from an Italian priest, complaining of having been assaulted by Allied soldiers, thereby sustaining injury to his right eye.

As a result of the above information, in company with Sergeant TOLINSON of this Section, I immediately commenced enquiries and interviewed the complainant, Prof. PAOLO VACCA, Regional Seminary, SALERNO.

He stated that on Saturday, 22nd. April, 1944, at approximately 2050 hours, he was walking along VERDE near SALERNO Hospital going in the direction of the Seminary. Here he was joined by an American sailor who spoke to him, apparently in a respectful manner. They walked for a short distance together, the sailor keeping up a conversation which the priest did not understand other than the words "father," "father".

They reached a point approximately 300 yards from the Seminary when the priest noticed two other soldiers alongside the road, the nationality of whom he does not know. These soldiers joined the sailor, and the three, being apparently under the influence of drink, began singing and shouting, at the same time walking in the same direction as the priest.

A short distance ahead the road divided, one being a road leading into the hills, the other a cul-de-sac ending just beyond the Seminary main gates.

SHEET 2.

As they reached this point, the soldiers and sailor began pulling and pushing the priest, and managed to get him a short distance into the road leading to the hills.

The priest became afraid and shouted for assistance, and as he did so the soldiers caught hold of him, holding his arms. The sailor then placed one hand over his mouth and with his free hand struck him a blow in the face, causing an abrasion to his right eye.

As this was happening a car came along the road, and at the sound of it approaching the soldiers and sailor ran away. The cries of the priest were heard by MARIA CARRANO, widow, No. 25 VIA PIO XI, the house of whom is within a distance of five yards from where the assault took place. She took no notice of the first noises she heard, but on a cry for help from the priest she came to the balcony with a torch. By its light she saw the figure of a man lying on the ground. She immediately came downstairs, and on reaching the spot saw the priest prostrate and bleeding from the mouth. She assisted him to his feet and then accompanied him to the Seminary.

The priest is unable to give any description of either soldiers or sailor, and cannot say with any degree of certainty whether the soldiers were American or British. The woman, CARRANO, who came to the priest's assistance, heard the commotion but did not see any soldiers or sailor, either when she shone her torch from the balcony, or when she arrived in the street where the priest lay prostrate.

Lieut. STONNER D. of 566 A.I.O unit, U.S. Army, billeted at No. 25 VIA PIO XI, stated to me that it was he who came in the car which the soldiers and sailor heard, but he did not see anyone in the vicinity other than civilians who had congregated near the scene.

Numerous civilians in the immediate vicinity have been interviewed and questioned by me as to their knowledge of this occurrence. All however, say that they arrived at the scene after the assault had taken place, and none can say that they saw any soldiers or sailor in the vicinity at that time.

I have made full and comprehensive enquiries in the district and extended them further afield. I have visited wine bars and cafes in an attempt to obtain any information whatever which would lead me to the perpetrators.

of this unwarranted assault.

On visiting one wine bar near the SALERNO Hospital, I learned from the proprietor, VALIUTTI ANTONIO, No. 10 VIA PIO XI, that on the night in question, sailors of the U.S. Navy were at his place and were in an inebriated condition. I questioned him as to his knowledge of their movements and he stated that two of them left approximately 6 p.m. though he cannot give any description or peculiarity which would assist me in my investigation. He further stated that the same two sailors visited his bar four nights later, but from this information there is nothing to show that they are, or even concerned with the persons responsible. However, the proprietor was advised by me that should these sailors return, he should inform this office immediately so that they may be questioned.

These premises are situated at the spot where the priest alleges he was joined by the sailor, therefore it would appear that it was here he (the sailor) had obtained his intoxicant. The soldiers also were only about 150 yards away from his place, therefore it can be presumed that they also became intoxicated at this same wine bar.

Two large buildings, housing U.S. troops, are situated close by, but have not been visited by me as no useful purpose would be served. However, I have conversed with two of the officers namely, Captain CASTANO and Captain GOLDBERG, both of 419 Railway Battalion, U.S. Army, who are billeted in the house No. 25 VIA PIO XI. They are fully aware

him as to his knowledge of their movements and he stated that two of them left approximately 6 p.m. though he cannot give any description or peculiarity which would assist me in my investigation. He further stated that the same two sailors visited his bar four nights later, but from this information there is nothing to show that they are, or even concerned with the persons responsible. They are fully aware of the incident and informed me that should they hear any information whatever regarding the assault, they would render me every assistance.

I submit this report without bringing the investigation to a satisfactory conclusion, but it will be borne in mind and should further information be forthcoming to any member of this Section, the enquiry will be recommenced.

The condition of the priest is satisfactory and he has been informed by his doctor that his injuries will leave no ill effects.

The Seminary is situated in a comparatively isolated spot at the end of a cul-de-sac, and no person unless wishing to visit the Seminary has any

has any/ obvious reason to go there.

There are no places of ill repute in the area surrounding the Seminary, and the only attraction for troops or Naval personnel is the afore-mentioned winechop.

As far as is known, no offence of a similar nature has been committed before either near the Seminary or in the area covered by this section. It is realised however, that the offence is of a serious nature and periodical surveillance will therefore be given to prevent a recurrence.

Born at Eboli, 9th. June. 1935. Residing at
Regional Seminary, Salerno.

The states:-

" I am a language teacher at the Regional Seminary
Salerno. On Saturday 2nd. of April 1944, at about 2030 hours, I was
walking along Via Veriers, near Salerno Hospital, going in the
direction of the Seminary, when an American sailor came alongside of
me. He spoke to me saying, "Father, Father", and other words which I
did not understand. He seemed to be under the influence of drink, but
spoke to me in a respectable manner, and walked along with me for a
short distance.

When we arrived in the street, 110 I, I saw two
soldiers alongside the road in front of me. I do not know whether
they were English or American, but they also under the influence of
drink. They joined the other sailor and started singing and shouting,
and all went in the same direction as myself.

When about 100 yards from the Regional Seminary they
started pulling and pushing me, and took me a short distance into a
small side road. I could not understand anything they were saying
and became afraid. I shouted for assistance, calling for the Police,
for assistance that they were going to rob me. It was after I had shouted
while the Naval men struck me with his fist in my right eye, at the
same time holding his other hand over my mouth. I fell to the ground,
and as I did so I heard a motor car coming along the road. The soldiers
and sailor apparently became afraid on the approach of the vehicle
and went away. I do not know in which direction they went.

A woman from a nearby house came to my assistance, and
accompanied me to the Regional Seminary. An ambulance was then
called, and I was taken to the Salerno Hospital suffering from an
abrasion to the right eye. After treatment I returned to the Seminary.
I could not recognise the soldiers or sailor again.

Subject: Persons Subject to Military Law.

To : All Unit Commanders, Peninsular Base Section.

1. Under Article of War 2, "all persons accompanying or serving with the Armies of the United States in the field" are subject to military law and may be tried by court-martial.

2. Under international law, when enemy territory is occupied by an invading power, it is the duty of the invading power to establish and maintain a government for the control and protection of the civilian population. The native civil population is subject to military law, but it is customarily tried not by courts-martial but by provost courts or military tribunals set up and operated by the invading powers.

3. In Italy, therefore, not only the military forces, but all persons accompanying or serving with the Armies of the United States will be tried by court-martial for offenses properly brought before such courts. This will include military personnel, U.S.O. and Red Cross personnel, merchant seamen, lease-lend personnel, and all others serving directly with or under the Armies in the field, but will exclude naval, coast-guard, and diplomatic personnel of the United States.

4. Native inhabitants, whether citizens of Italy or citizens of other countries, will be tried for their offenses by the courts established by Allied Military Government, which is the agency established by the invading powers for the government and control of the occupied territory. All offenses committed by native inhabitants will be vigorously prosecuted, and unit commanders are directed to lend every reasonable assistance to the Allied Military Government in the apprehension, prosecution and confinement of such offenders.

5. The foregoing will be brought to the attention of all military personnel of this command and all civilians who are in the FBS territory.

Sir,

9 Feb 44

CONFIDENTIAL

I am commended by the Army Council to refer to Army Council Instructions 1696 of 1942 (as amended by 153 of 1943) 241 of 1942 and 1064 of 1943, regarding the scheme for the grant of permanent commissions in the Regular Army.

2. I am to say that General Officers Commanding-in-Chief all Commands at home were recently invited to comment upon the inadequate response to the scheme and to submit suggestions for its improvement. This invitation was not extended to General Officers Commanding-in-Chief abroad, on the grounds of expedience and that less information was available regarding the quality and number of candidates appearing before the Selection Boards abroad.

The consensus of opinion of General Officers Commanding-in-Chief all Commands at home is that there is need for improvement in the professional and financial prospects of Regular Officers, but this is a basic consideration upon which no pronouncement can be made at the present time.

3. As to financial considerations, the reforms introduced in 1938 were designed to provide an assured career up to the age of 47 years with a reasonable pension at the close of an officer's service. Army Council Instruction 241 of 1942 extends the effect of these provisions to officers granted permanent commissions in the Royal Army Ordnance Corps, up to the age of 55 years.

Owing to the outbreak of war the beneficial effects of these reforms have not yet been fully felt.

4. Certain amendments have been made to the percentages of their pre-war peace establishment at which the strength of various arms may be maintained by the grant of permanent commissions. They will now be as follows:-

Royal Armoured Corps.....	100%
Royal Artillery.....	75%
Royal Engineers.....	80%
Royal Corps of Signals.....	90%
Foot Guards.....	100%
Infantry.....	100%
Royal Army Ordnance Corps.....	80%

The peace establishment of the Royal Electrical and Mechanical Engineers has not yet been settled, the number of permanent commissions which may be granted will, therefore, be based on 100% of those parts of the peace establishments of other corps absorbed into that corps.

5. It is desired that all officers, and especially those who are candidates or intending candidates for permanent commissions, should be aware of the present position with regard to the scheme, and of the principles upon which it is based. I am, therefore, to request that you will cause the contents of the Appendix to this letter to be brought to the attention of all military officers

3. As to financial considerations, the reforms introduced in 1938 were designed to provide an assured career up to the age of 47 years with a reasonable pension at the close of an officer's service. Army Council Instruction 2441 of 1942 extends the effect of these provisions to officers granted permanent commissions in the Royal Army Ordnance Corps, up to the age of 55 years.

Owing to the outbreak of war the beneficial effects of these reforms have not yet been fully felt.

dated 9 Feb 44.

REGULAR COMMISSIONS

1. With reference to A.C.Is. 1696 and 2441 of 1942, 153 and 1064 of 1943. It is desired that all officers may know the principles on which is based the grant in war of permanent commissions in the Regular Army and the present position with regard to the grant of such commissions. This Appendix will not be quoted as an authority. A further A.C.I. will be issued in due course.

2. The main factors affecting the grant of permanent commissions during the war are:-

(a) Although the future size of the Army is at present unknown, it is considered very desirable that a certain number of officers should receive permanent commissions in the Regular Army to ensure that their services are available on demobilization, and to avoid a gap in the peace establishment, the filling of which at the end of the war would inevitably create a block in promotion.

(b) By bringing in junior officers in accordance with the normal peacetime practice, a block in promotion in future years should be avoided.

(c) It is also desired that every officer receiving a permanent commission should have a fair chance of drawing a reasonable pension at the age of 47 or 55, whichever is the age for compulsory retirement from the arm in which he serves.

(d) The number of vacancies which may be filled by the grant of permanent commissions under this scheme is based on a certain percentage of the pre-war peace Establishment, less the number of Regular Officers still serving. Obviously, it would be grossly unfair to fill all those vacancies in the first instance by accepting too large a proportion of candidates whose applications have already reached the War Office, because they are serving in the United Kingdom of the more accessible Commands overseas. Room must be left for those who have not had an opportunity to appear before a Selection Board. These considerations have particular application to the Infantry, wherein the number of vacancies varies widely in each regiment. No permanent commissions will, therefore, be granted in this arm until the bulk of the applications are received and the preferences of the majority of candidates can be considered at one time in relation to the requirements of the service. It is emphasised that the grant of permanent commissions now will in no way prejudice the prospects or seniority of those candidates or intending candidates who will be unable to obtain their permanent commissions until a later date. Seniority in the Regular Army is based on the length of service after attaining the age of 21 as an emergency commissioned officer and, in the case of former Regular other ranks, reckonable other rank service. The date on which a permanent commission is granted is, therefore, irrelevant to seniority. As the war progresses there may be more casualties.

a block in promotion.

The date on which a permanent commission is granted is, therefore, irrelevant to seniority. As the war progresses there may be more casualties amongst Regular officers, and later information regarding the size and composition of the post-war Army may increase the number of vacancies in all arms.

3. SELECTION

Officers for the post-war Army must necessarily be of a very high standard. They must be well educated, prepared to study their profession intensively and have the high degree of intelligence necessary for professional efficiency. Those who are to receive permanent commissions must, therefore, be drawn from the best emergency commissioned officers now serving. Thus, it is not always possible to accept an officer on the recommendation of his Commanding Officer and superior Commander, because standards vary in regiments and formations and because candidates must compete in the open field of the Army as a whole. For this reason, some form of centralized selection is required, and it was decided that the only practicable method of selecting and grading candidates was by a form of War Office Selection Board, which has proved so successful in selecting emergency commissioned officers. In view of the importance of the permanent commission, a Major-General was appointed to the Board as president. The only other change is that the psychiatrist has been withdrawn.

- 2 -

4. CONDITIONS OF SERVICE

It is emphasised that there are openings in the post-war Army for the keen young man who is prepared to tackle a hard job or work entailing the exercise of very varied talents.

As to financial considerations, it should be noted that the reforms introduced in 1938, were designed to give officers an assured career up to the age of 47 or 50 years, according to the arm of the Service, with a reasonable pension at the close of their service. A.C.I. 2441 of 1942 extends the effect of these reforms to officers granted permanent commissions in the R.A.C.C., up to the age of 55. Owing to the outbreak of war the beneficial effects of the 1938 reforms have not yet been apparent.

5. APPEALS

It is recognised that although the War Office Selection Board has a very small margin of error, no Board can be infallible. It has, therefore, always been intended that a rejected candidate, who feels he has been misjudged may, with the concurrence of his Commanding Officer, be re-interviewed by an Appeal Board. Such a Board has been working in the United Kingdom and one is now visiting Commands overseas. The decision of an Appeal Board is final.

6. GRANTING OF PERMANENT COMMISSIONS

Candidates who have already been interviewed by a Selection Board have been graded A, B, C and Failed. Those graded "A" and "B" for arms other than Infantry are to receive permanent commissions forthwith, providing they are still desirous and that the satisfactory report required under the terms of paragraph 12 Appendix I to Army Council Instruction 1696 of 1942 and paragraph 10 Appendix I to Army Council Instruction 2441 of 1942, is forthcoming.

Those graded "C" are not being accepted at present and may appeal if they wish.

The Selection Boards have interviewed a number of candidates in whom some of the qualities of a Regular officer are present but latent or inadequately developed. These candidates are being advised to resubmit their application one year after their first interview with a Board. Re-interview on resubmission of application will not be regarded as an appeal. Candidates will thus have the opportunity of a third and final interview, with the Appeal Board, should their second application be unsuccessful.

7. LOWER AGE LIMIT

Candidates for permanent commissions in the Royal Armoured Corps, Royal Artillery, Royal Engineers, Royal Corps of Signals, Footguards, Infantry and Royal Army Service Corps may now be accepted for the register at the age of 20 years, instead of 21 years as hitherto, but the minimum age at which permanent commissions may be granted will continue to be 21 years. The lower age

Those graded "A" and "B" for arms other than Infantry are to receive permanent commissions forthwith, providing they are still desirous and that the satisfactory report required under the terms of paragraph 12 Appendix I to Army Council Instruction 1696 of 1942 and paragraph 10 Appendix I to Army Council Instruction 2441 of 1942, is forthcoming.

The lower age limit for acceptance for the register of candidates for the Royal Army Ordnance Corps and Royal Electrical and Mechanical Engineers is unchanged.

8. PERMANENT COMMISSIONS IN THE RANK OF CAPTAIN OR MAJOR

Recommendations have been made that selected officers, above the age limits of the present scheme and holding a temporary or war substantive rank of Captain or Major, should be granted permanent commissions in those ranks.

These recommendations are being examined, but it at present appears improbable that the scheme will be expanded in this way. The known requirements of the Army do not at present warrant such a measure; a block in promotion must be guarded against and officers so commissioned might not have sufficient time, before reaching the age of compulsory retirement, to qualify for retired pay or gratuity under the present code.

9. INDIAN ARMY

Emergency commissioned officers who have applied for and receive permanent commissions, with a view to transferring to the Indian Army after the war, will be released from their honourable undertaking to serve for not less than five years, if it is decided that they cannot be granted permanent commissions in the Indian Army.

10. THE ROYAL ARMOURD CORPS

After full consideration, it has been decided that candidates accepted for permanent commissions in the Royal Armoured Corps, will be gazetted to that corps and not to individual regiments of the corps.

11. ARMY OFFICERS LENT OR TRANSFERRED TO THE R.A.F.

Army officers attached or transferred to the R.A.F. or R.A.F. Regiment may apply, but Army C.O.s. transferred to the R.A.F. and, who have now received emergency commissions in the R.A.F. or R.A.F. Regiment, are ineligible.

Permanent commissions are not being offered in the R.A.F. at present, but if they should be re-introduced later, and an attached or transferred Army officer should be required for a permanent R.A.F. commission, and also selected for a permanent Regular Army commission, the former would take precedence over the latter.

12. DOMINION FORCES

Officers of certain Dominion Forces are also eligible to apply.

13. PRISONERS OF WAR

Prisoners of war have been given details of the scheme and those wishing to apply for permanent commissions have been invited to send in their names. For obvious reasons they are unable to complete the normal application form whilst still in enemy hands, but arrangements have been made for them to submit full applications after they have been repatriated and their medical categories etc can be confirmed.

In war great damage to buildings, including churches and those of great historical value, has to be accepted when it is operationally unavoidable. To add to such destruction either by wanton action or through thoughtlessness is a crime against civilization.

The objects of this pamphlet are to:

- a. Outline the history of Art in Italy.
- b. Emphasize that whereas the Germans look upon collections of objects of Art belonging to occupied countries as fields for vandalism and lucrative looting, it is the duty of each member of the United Nations when in occupied territory to regard himself as a trustee for such possessions.

I wish all officers and men to study this little pamphlet which should help to give a true perspective of the importance of preserving all that is old and rare in any country which they may enter in the course of the war.

R E S T R I C T E D

R E S T R I C T E D1. What Is a Work of Art?

Man is distinguished from the beasts by his power to reason and to frame abstract hopes and ideas. Art, like literature and science, is one of the supreme ways in which that power can be expressed in tangible and visible shape. We all have, in varying degrees, these ideas and feelings at the back of our minds, but most of us lack the power to express them. The artist is the man who, by his special skill, can put them for us into concrete shape, whether in stone or paint or words.

Art is not the mere copying of nature. If it were, the wax-works at Madame Tussaud's would be greater works of art than the sculptures of Michaelangelo. An artist needs technical skill, like any other craftsman. But only if he has also inspiration and vision will his product be a work of art, and the deeper that vision the greater the art. The work of an artist like Raphael or Botticelli ranks with that of the great thinkers, writers and scientists, among the supreme achievements of the human race.

2. What Is the Value of a Work of Art?

A work of art has a money value, often very large. The "Blue Boy" by Gainsborough, was sold for £120,000; and Titian's "Bacchus and Ariadne" fetched £250,000. Even so, works of art are not like diamonds. However valuable a diamond may be, you can always get another like it. But the "Mona Lisa" or the Sistine Chapel in the Vatican are unique. Their creators are dead, and no money could ever replace them.

But, apart from the money value, what useful purpose does a work of art serve? Should we not be just as well off without any? The answer is best given by the fact that, whatever the reason may be, wherever men are, they do find themselves compelled to try to express the artistic sense within them, and their fellow-men do get inspiration and pleasure from their work. Some of the earliest known works of man are not "useful" at all, in the sense that tools and weapons are useful, but paintings of animals and ivory-carvings, such as are found in the famous Stone Age caves of the Pyrenees; and even the most primitive of present-day tribesmen have an art of their own, often surprisingly advanced both in ideas and in technique--for example, the wood-carvings of West Africa. We ourselves, quite unconsciously, every day enjoy the inherited artistic tradition of centuries in our homes, in our furniture, and in our cities. There have been a few nations completely without art or learning, like the Hun or the Vandal; but they perished swiftly, and their names remain only as a by-word for ignorant savagery.

3. Why Is Italy so Rich in Works of Art?

Of all European countries, Italy is the richest in art treasures. For over twenty-five centuries there has been an almost uninterrupted tradition of artistic creation; and in spite of a long and troubled

R E S T R I C T E D

history, Italy has succeeded to an astonishing degree in preserving its artistic heritage. Even today there is scarcely a town or village that does not boast at least one building of historical or artistic value.

The most powerful single influence has been the Church. Imperial Rome has been the center of the ancient civilized world, and the Roman Church inherited that position. Throughout the Middle Ages it was the great patron of the arts--architecture, painting, sculpture, music, literature. It was also their protector. Classical science and literature have survived because they were preserved in monastic libraries, while church treasures were the great storehouses of ancient and medieval craftsmanship. The Vatican collections were the first museum as we know it in Europe.

While the Popes were making Rome a city of monuments, great ruling families such as the Medici in Florence, the Sforza in Milan, the d'Este in Ferrara were the patrons of the artists of their day and collectors of the art of the past. City-councils too employed architects and artists to build and adorn municipal palaces and other public buildings. All these influences of public as well as private patronage have gone to make Italy the home of many of the noblest achievements of the human spirit.

L. How Have the Germans Behaved?

The Nazis have systematically stripped large parts of Europe of their movable works of art. It is easy to see why:

- a. In their opinion, Germany has to be supreme in Art collections as in everything else.
- b. To destroy a nation utterly, as Germany has tried for example to destroy the Poles, you must also destroy its cultural heritage of science, literature, and art.
- c. Works of art, like jewelry, are a good form of investment against the day of reckoning.

This organized looting is supervised by the Special Cultural Branch of the German Foreign Office under von Ribbentrop; some is done by open appropriation, some by fictitious sale, some by "exchange" for third-rate German works of art.

Much of the booty has passed into the hands of the Party leaders. When Greece fell, Ribbentrop sent a special convey of lorries to rob the museums of Athens. Goering has a fine collection of modern French art, while Goebbels is said to prefer the Flemish painters. The great central collection of all was to be at Linz, as a memorial to Hitler's mother. Here it was planned to bring together the greatest works of art in the world, the pick of the museums and galleries of Europe and America.

16e

R E S T R I C T E D

Italy, until recently an ally, has so far fared better at German hands. But since the Italian armistice, there have been at least two cases of wanton and deliberate savagery. The library of the Royal Society of Naples they burned, together with its irreplaceable collection of manuscripts; and at Nola they deliberately destroyed the contents of the Filangieri museum and the six-hundred-year-old state archives of the Kingdom of Naples.

5. Is Art National or International?

This tale of organized robbery and senseless destruction makes it all the more important that we, by comparison, should ensure by our behavior in occupied territory that we cannot be accused of such crimes. It is inevitable that, in the actual fighting and in the bombing of military targets, historic buildings and works of art will suffer. That is only one of the many tragedies of war. But we can, and must, see that what is left is preserved from all further harm.

Art and science are not things that belong to any one nation. The Nazis do not agree. They tolerate an artist or a scientist only insofar as he works for Nazi ends--and as a result, the standard of both has deteriorated in Germany. We believe, on the other hand, that science and art are international, and that only if men are absolutely free to follow their own spirit can they produce and enjoy great work. Even the Nazis were beaten when it came to excluding Shakespeare from Germany; they had to call him "an essentially Germanic poet". And in turn, generations of Englishmen (Shelley, Byron, Browning, Ruskin, Sir Christopher Wren, the Adams brothers, Burne-Jones, Rossetti, to name only a few) have been inspired by the art of Italy and have passed that inspiration on to us. In the words of the notice in the park--"This is yours; look after it".

6. What You Can Do.

Most of the damage that is done to works of art in wartime is done by sheer thoughtlessness. Here are a few suggestions:

Don't carve your name, chip off "souvenirs", or cut out bits of pictures.

If you are billeted in a historic building, treat it as you would expect a stranger to treat your own home.

Books and libraries are going to be badly needed for the reeducation of the Italian people. Help to preserve them from damage.

20

The man who gave you your torch-battery was an Italian scientist, Volta. The research of Italian doctors has helped to save Allied lives. Treat the collections and laboratories, on which such work depends, with respect.

Have you thought who, in the long run, pays for the damage you do?

SUBJECT: Control of Civilian Movement.

TO : Regional Commissioners Regions I, II, III, V and VI.
S.C.A.O.'s Fifth and Eighth Armies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralize as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMF pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMF authority of the area into which they intend to travel.

(b) Territory under AMF.

In territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e. civilians in this area will be forbidden to travel from one province to another without an AMF pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. An Allied Control Commission pass will

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMG pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMG authority of the area into which they intend to travel.

(b) Territory under AMG.

In territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e. civilians in this area will be forbidden to travel from one province to another without an AMG pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. In Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into King's Italy and vice versa.

3. Check Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'snap' check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with F.S.S. or C.I.O. units.

-2-

The object of these check posts will be : (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of 'snaps' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMF/ACC, both in AMF and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.F./C.I.G., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

Passes.

(a) Army Areas and Regions.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMF/ACC representative) a pass issued by the appropriate AMF authority in the area of their destination.

(b) AMF Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Naples to Naples) a pass must be obtained from the appropriate AMF authority in the area of their destination.

insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, District and Base Section Headquarters and NOT by AMB/ACC, both in AMB and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of F.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Ally Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Bifero and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMB/ACC representative) a pass issued by the appropriate AMB authority in the area of their destination.

(b) AMB Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (C.S. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMB/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioners.

The procedure described in para. (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the SCLO or FC of the area of destination.

-3-

(d) Reasons for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Foggia Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Quastore or CC.RR to issue passes for inter-provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by ALG/ACC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose

will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorize specified and approved officers of the Questore or CC.RR. to issue passes for inter-provincial travel. It is emphasized, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AMG/ACC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AMG/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAG/EC of the destination for approval; signature and return.

Sir,

During my tour of duty last night I had occasion to peruse the previous Duty Officers' Reports since my last turn of duty.

It appears that a number of officers have not done Night Staff Duty Officer at all, which seems to be unfair, since it places an additional burden on the officers and W.Os. who are taking their turn regularly.

I should esteem it a favour if you could enquire into the above with a view to having the nominal roll of Night Staff Duty Officers adjusted.
