1. The SALERNO Military Switchboard, which you are at present using, is becoming seriously overloaded with long-distance calls. The congestion which results is decidedly to the detriment of essential Army work.
2. Will you please arrange to make use of your own north-bound direct lines for all traffic as from 20 Jan 44.

1. The delay in opening the exchange in this Headquarters A.C.C., is due to shortage of exchange operators. Every effort is being made to obtain the necessary personnel, and it is hoped that the exchange will be opened by the 20th Jan, in which case our long distance circuits will be taken in to this exchange.

SUBJECT: Allied Control

Commission Communicat-
ions in SALERNO.

Ref COM/z/43

FROM: Colonel Henderson, AGO, Salerno.

The following details of local communications in the Salerno area are now definite:

(a) A.U.C. Offices: General PAX will be released by AFHQ Signals for installation in the Palace of Justice. This will probably be a U.S. board Type 550, with a capacity of about 50 local extensions and 14 junctions.

Could you please have the state of the internal wiring in the Palace of Justice investigated so that the installation of the exchange can be made as quickly as possible. The list of room numbers in which telephones are required at the start are:

Ground Floor: 1 - 4 - 45 - 46 - 47 - 48 - 49

Seventh Floor: The following details of local communications in the Salerno area are now definite:

(a) A.C.C. Offices: Manual PAX will be released by AMO Signals for installation in the Palace of Justice. This will probably be a U.S. board Type 550, with a capacity of about 50 local extensions and 14 junctions.

Could you please have the state of the internal wiring in the Palace of Justice investigated, so that the installation of the exchange can be made as quickly as possible. The list of room numbers in which telephones are required at the start are:

Ground Floor: 1 - - - 4 - - 6 - - 8/-3

Messamine Floor: 33-34-36-38-39-4-/41-4-/40-43-45-48-53-58-59
70-73-75.

First Floor: Nil

Second Floor: -01--30--31--35--37--41--43--45

Third Floor: -53-506-509-510-511

Rooms shown thus, 4-/41, should preferably have an extension telephone in the second office rather than direct service.

It appears likely that the junctions between the SALERNO Auto and SALERNO Military will be inadequate to carry the additional traffic; would you kindly see whether additional junctions could be arranged and if possible make the numbers group hunting.

(b) Junction Circuits: It is understood that the Bari-Salerno Hayes cable is in working order. As you know, three circuits are reserved both ways from SALERNO for the use of the A.C.C. and the Italian Government, increasing to six later. Pending the installation of the A.C.C. PAX, would you please accept these circuits on the SALERNO Military exchange.

(c) Residential quarters: The officers of the A.C.C. and the officials of the Italian Government are having to be accommodated in hotels and villas around SALERNO. They will require telephone service as soon as possible, but on a lower priority than the offices.
