I 1. The system could be less complicated by the issue of one
pass in triplicate, the duplicate to be retained by issuing authority,
the triplicate by the same authority in Police for production in
Court. Cashin method to be adopted.

2. One type of pass should suffice if headed
Temporary / Travel Permit - the word
Temporary being struck out if thought necessary.

3. A.H.G. proclamations will probably require
movement, and although the matter is referred to in
1(b) this should have specific reference.

"Protected personnel of the enemy may not be paroled. Not being Prisoners of War, there is no basis for requiring them to give their parole. The only way to control them is by giving them directions restricting their movements." (Protected personnel are Chaplains and Medical Personnel)

2. If medical personnel or chaplains captured in Sicily are residents of Sicily and are set free, they will be subject to the same Proclamations and Orders of the Allied Military Government in the same manner as all other persons in the territory.

SCHEME FOR RESTRICTION OF
MOVEMENT OF THE CIVILIAN POPULATION

1. In the early stages of Military Government, it is anticipated that a restriction of the movement of individuals will be necessary to the following extent:

- (a) Restriction of the individual from movement outside his own Comune, Town, or Province.
- (b) Restriction of the individual from movement beyond a specified radius from his home.
- (c) Restriction of the individual from movement into certain specified areas.
- (d) Restriction of the individual from certain specified forms of transport.
- (e) Restriction of the individual from movement during the hours of darkness (i.e. Curfew)

2. The principles of the following scheme will be applied.

3. The decision to apply such restrictions should be taken by the SCAO upon the advice of the Public Safety Officer in conjunction with the Chief CAPO.

4. The general restrictions of movement will be effected by Proclamation 2, Article 2, para. 43.

5. The SCAO will be authorized within his discretion to grant exemptions for a period not exceeding three months with right to withdraw such authority at any time.

Exemptions from restrictions may be granted to any or all of the following classes of persons:

- (a) To Doctors, Nurses and Midwives. To Police Officers, essential Public Utility Workers and to any other class of persons the Authorized Officer may deem expedient.
- (b) To individuals who require freedom from restriction for urgent business or personal reasons.

6. The SCAO will be responsible for the classification of all areas within his administration into three categories:

- (a) Category A: which will include all areas of high military importance, such as Docks, Base areas, into which all unnecessary ingress must be prohibited.

- (b) Category B: which will include areas of lesser military importance, and also areas of industrial and strategic importance into which an unnecessary ingress should be strongly discouraged.
- (c) Category C: to include all other areas, where no special precautions are necessary.

7. Permits will be of two classes:

- (1) Effective until cancellation.
- (2) Temporary.

(a) Permit (1) will be printed on colored paper and will indicate:

- (1) Permit No.
- (2) Holder's Name and Address.
- (3) Identity Card No.
- (4) Occupation.
- (5) Conditions attached to Permit and specific terms of facilities granted, (i.e. method of travel permitted motor car, motorcycle, lorry, van, cycle, horse, rail, or road transport).
- (6) Signature of Holder, made in presence of Issuing Officer.
- (7) Signature of Issuing Officer and stamp of Officer.
- (8) Date of Issue.
- (9) Date of expiration.

(b) Permit (2) will include all the above particulars but will be printed on white paper.

8. The SCAO will, in the light of circumstances, decide who is to be the Issuing Authority. Normally this should be the local Chief of Police. It is recommended, however, that the permits to areas in Categories A and B should be closely supervised by the CACO under some circumstances.

9. The Issuing Officer will keep a record of the persons to whom such permits have been granted and the fact that such an issue has been made, or indeed that an application has been refused, will be endorsed upon the Identification Card of the applicant.

10. When a temporary Permit (2) has expired, it must be returned to the Issuing Officer by the person to whom it has been issued, within 3 days of expiry. The records of the Issuing Officer will be amended accordingly, and a cancellation will be made of the entry upon the individual's Identity Card.

11. When the holder of a Temporary Permit (2) intends to be absent from his usual address for more than three days, he may be directed by the Issuing Officer to report to the Police at his intended place of destination, who will then endorse his Permit to that effect. Failure to report would constitute an offence.

12. All permits are to be prepared in triplicate; the original handed to the applicant, one copy to be retained for permanent record, the third copy will be attached to the file for production in court, in the event of the institution of proceedings for an offence against this Order.

13. Controls will be effected by personal examination by Military and National Police patrols at such places as railway stations and strategic road junctions.

14. Nothing in this Directive will supersede any Directions ordered by Proclamation.

15. Insufficient information is available at present to determine the application of the scheme outlined above, or any modification thereof, to Armistice Control Conditions. A further directive on this point will be issued later.

SUBJECT: Travel Passes
TO : Joint Assistant Chiefs of Staff, A.C.A.
FROM : Colonel Young.

1. The question of the issue of travel passes must be considered on a national, rather than a regional basis. Uniformity is essential. It is now obvious that certain pro forma have been prepared and carried by the invading force onto the mainland of Italy. Copies of passes should immediately be made available to senior officers and I suggest that a request be sent by air for copies of such passes and pro forma to be forwarded to the Holding Centre at once, to ensure uniformity of operations.

1. I herewith submit my amended scheme to deal with the above subject.
2. Since my original proposals I have had time to reflect upon and amend some of the detail, but at the same time a likelihood of such provisions being required under ACA Administration has been considerably minimized in light of the changed circumstances; Nevertheless, it is possible even under ACA Control such a scheme will be necessary owing to serious enemy action or industrial disorganisation. I suggest therefore that this amended draft be forwarded as a Directive for issue to all Regions.
