SUBJECT: P.W.B. Activities

TO : Hq., AMO, CMF
Hq., AMO, 15 Army Group

The following information has been received from PWB regarding their future activities in Italy.

1. The possibility of most radio stations being destroyed has been appreciated and the Publications Department has, therefore, been enlarged. A party of four officers and twelve EM from PWB Publications Department is shortly being sent to Italy to act as distribution agents for PWB publications.

2. The general directive given to the PWB party from the Publications Department is to provide entertainment and informative reading material as a carrier for PWB propaganda. Posters, hand-outs, etc. will be mainly appeals to self-help and normality as a necessary step in the fight against "the common enemy." A disinfection of Nazism will be carried on by irony and ridicule and by the exploitation of cartoons, humorous pictures, etc. The endeavor will be made to impress the Italians with the sobriety of the Allied war aims by factual reporting of the world at war. Whilst encouraging self-help, the powers of the Allies to give aid will be made clear. No political parties will be supported. Concrete manifestations of the four Freedoms will be stressed as they occur in Italy.

3. You are requested to communicate to local AMO officers knowledge of the presence of this party and of their operations, and to direct them to afford the party cooperation in the development of this project. In this connection, it should be noted that PWB are anxious to obtain any suggestions from AMO regarding propaganda.

SUBJECT: Plan for P.W.B. Operation in Occupied Territory.

TO : Brigadier General R. A. McClure.

1. Referring to our conference today on the above subject, the following plan for P.W.B. operation in occupied territories is submitted:

P.W.B. Task.

The task confronting P.W.B. in the expansion of HUSKY is visually described in the attached chart, and the problem can best be described in words by saying that prior to the expansion of HUSKY the personnel and equipment requirements were limited to Box 5. In other words, what had been laboriously built up to handle North African propaganda and radio and leaflet work to enemy and enemy-occupied territories has suddenly been stretched to include an eventually transplanted A.F.H.Q., and an advance A.F.H.Q., a number of occupation propaganda groups paralleling the AMGOT set up and, depending upon the number of armies operating, a number of combat groups.

In order to plan this expansion within the limitation of available personnel and transportation, each group has been skeletonized to the minimum capable of rendering the service which, on the basis of past experience, will be called for by the Commanders. Specially to be noted is the fact that unless the chain from the forward combat groups back to the Allied Governments remains unbroken, the propaganda needs of the fighting forces cannot be blended with the general propaganda directives of the Home Governments.

P.W.B. Relation to AMGOT.

A most important new element in the relationship of P.W.B. to AMGOT. From the AMGOT standpoint it would be an impossible situation if the propaganda conducted by a P.W.B. occupation group should disregard or run counter to the wishes of the local military governor. From the P.W.B. standpoint it would be an equally impossible situation if the AMGOT control of local propaganda activities meant that P.W.B. was not able to control its personnel and ensure and control the two-way flow of information and directives stretching from the forward combat group through to Washington and London and back again. In other words, if Box 2 were to be completely controlled by some organization other than P.W.B., it would create an inefficient and ineffective, if not chaotic, propaganda situation.

One must not overlook the fact that in propaganda terms the separation between the North African base and combat or occupation groups is solely geographical. The kind of propaganda put on the air from the North African base or the type of leaflets prepared in the North African base are just as much part of front line and occupation propaganda as the propagandist with a loud speaker in the square of an occupied town. Not only do radio waves disregard geographical or military boundaries, but equally the attitudes and reactions of occupied peoples are of supreme importance in the conduct of base radio operations and leaflet preparation for the next objective.

It is, therefore, recommended that the relationship between P.W.B. and AMGOT in occupied territories be as follows:

- a) P.W.B. to be the recognized propaganda agency in occupied territories.
- b) P.W.B. to retain control of its personnel and equipment in occupied territories.
- c) Joint planning between P.W.B. and the Military Government Section of A.F.H.Q. to be instituted.
- d) P.W.B.'s areas of occupation propaganda to be the same as the AMGOT administrative areas.
- e) P.W.B. local occupation propaganda to be under the general direction of and at the service of the local AMGOT Governor. It is assured that the instructions of the local AMGOT Governor will not run contrary to the joint central directive from Washington and London as modified and approved by A.F.H.Q., in particular the Military Government Section.
- f) In the event of a local conflict of opinion, the matter is to be referred to the Force Commander and through him to A.F.H.Q. for a decision.

Dear Brigadier,

2B

I attach for your information a short statement on the co-ordination of propaganda facilities in liberated Italian territory.

As regards the London Co-ordinating Committee referred to in paragraph 8., I should perhaps explain that it has been decided that the ultimate direction of Political Warfare shall be vested in three co-ordinating committees, viz.: 1. London, for the continent of Europe, 2. Washington for the Pacific, and 3. New Delhi for S.E. Asia.

The Committee will in each case consist of representatives of the Foreign Office and State Departments, P.W.E. and G.O.I., and of the British and United States Chiefs of Staff.

Yours sincerely,

/s/

Co-ordination of Propaganda Facilities
in Liberated Italian Territory.

LB

1. General Eisenhower in the dual capacity of Supreme C. in C. and President of the Control Commission will control all propaganda facilities in liberated (European) Italian territory.
2. These facilities will be required for three kinds of propaganda, viz:-
 - a) Propaganda to the enemy and to the Italians behind the enemy lines for the immediate purpose of supporting and facilitating General Eisenhower's operations.
 - b) Propaganda to the population of liberated Italian territory.
 - c) Propaganda to the enemy and enemy occupied countries not falling within the scope of General Eisenhower's operational requirements.
3. General Eisenhower as C. in C. is interested in the operational propaganda mentioned in 2.a) above, which while the campaign is on must naturally be accorded absolute priority.
4. General Eisenhower as President of The Control Commission and less directly as C. in C. is also interested in propaganda to the population of liberated Italian territory as this will not only be calculated to facilitate administration but will also have repercussions on his operational propaganda.
5. General Eisenhower is not, however, concerned with propaganda to enemy and enemy occupied countries beyond his operational requirements and the question therefore arises whether any and if so what steps can be taken to ensure that the claims of propaganda of this type are adequately met.
6. The agency for all propaganda in General Eisenhower's theatre is P.W.B. and the alternatives therefore appear to be (a) to set up a parallel organisation specially charged with the duty of looking after propaganda to enemy and enemy occupied countries or (b) to invest P.W.B. with combined responsibility for propaganda of all three types subject to control co-ordination at a sufficiently high level to ensure that competing claims are accorded their proper share of the facilities available.
7. The setting up of a parallel organisation to P.W.B. is for manpower and other reasons considered impracticable.
8. It is therefore considered that the second of the above alternatives should be adopted and accordingly that P.W. B. should be invested with combined responsibility for all three types of propaganda under the ultimate direction of the London Co-ordinating Committee.
