NOTE * Two copies of this publication were requested from AFHQ by this office cable 7/11 dated 14 September.

3. The attached request has just been received from Allied Commission. As you will see, there is a very wide range on subjects on which they require information.

It will be appreciated if you will obtain from the various departments in Washington lists of any relevant documents, as it is thought to be unlikely that your own library list will be sufficiently comprehensive. Allied Commission have already been supplied with intelligence on telecommunications and ports (both British and U.S. publications) and it is not necessary, therefore, for you to include these subjects in your lists.

MEMORANDUM FOR : ALL CONCERNED

SUBJECT : Disposal of Surplus Intelligence Publications relating
to the planning of Operations.

The following principles will govern the disposal of intelligence publications, such as ISIS or ISTD Reports, ONI Reports, and Strategic Engineering Studies, which are no longer needed by their holders:

a. If the documents are likely to be required for the planning of future operations, they will be returned through channels to this headquarters.

b. If the material is obviously unlikely to be of use in the planning of future operations, it will not be returned to this headquarters, but will be destroyed by fire, and a destruction certificate rendered through channels to this headquarters. It is stressed that the title and copy number of each document destroyed must be included in the certificate of destruction.

GUIDE TO INTELLIGENCE PUBLICATIONS

ITALY

1. The following is a list of intelligence publications relating to the mainland of ITALY which have been or are being prepared in U.K., U.S. or G-2 Section, AFHQ. Unless otherwise specified, the publications are now available and obtainable from G-2, O.I. (Library) Section, in

- a. Room 167, AFHQ (Phone Freedom 166)
- b. Ecole Normal (Phone Fortune 142).

2. No. I.S.I.S. Report is being published. Instead I.S.T.D. Studies are being issued as and when received.

3. So far as possible the list has been divided into "Subject" headings, but many W.D. Strategic Engineering Studies cover so many subjects that analysis is difficult. To discover what intelligence is available on any particular subject, it is therefore necessary to examine both Sections A (all sources) and B (intelligence prepared in Washington, D. C., such as G.N.I. 104 and Strategic Engineering Studies.).

4. Areas covered as at 21 August 1943:

a. Up to line GATEA - FOGGIA, fully covered in all subjects.

b. Area West of line GATEA - FOPI - RIETI - FLORENCE - SPEZZA fairly fully covered. Full cover expected shortly.

c. Rest of ITALY between (South) GATEA - FOGGIA and (North) GENOA - RAVENNA covered as regards roads, railways and a number of other subjects. Will be covered when area b is completed.

d. Area North of line GENOA - RAVENNA up to the Frontier - information scanty at present.

SECTION 4

I. a. HISTORY

O.N.I. 104, page 2.

2. No. I.S.I.S. Report is being published. Instead I.S.I.D. Studies are being issued as and when received.
