Colonel Scott Bailey presided (Chief Comr.)
Italian Government has requested re establishment
of mails including Air mail which they are willing
to organize between Italy & Lisbon (Portugal)
It was suggested that two POs be established
in Italy at NAPLES & BARI or BRINDISI
for the routing of civilian mail - from these POs
the sealed bags will go to CATANIA &
PALERMO for distribution, etc and then
to NEW YORK or LONDON or CAIRO?

for censorship (100%) - only surface mail
will be entertained, no registration or facets
The whole idea was considered premature.

? Who will pay the transit charges -
Italian Government / AMG ?

How will Diplomatic Mail be handled?

CIRCULAR)

NUMBER 86)

- EXTRACTS -

U. S. MILITARY CENSORSHIP REGULATIONS.I - GENERAL PROVISIONS.

2. Purpose: The purpose of this circular is to furnish a set of instructions establishing uniform procedure for the conduct of U. S. Military Censorship. It is intended that the provisions contained herein be applied with common sense and an appreciation of the fact that enemy intelligence gains much invaluable information from improperly censored mail. These regulations are much less restrictive than those which would be warranted for untrained and uninstructed troops and must therefore be applied in accordance with previous security training and an appreciation of the danger to which careless correspondence subjects writers and their associates.

6. Authorized Channels for Private Communications.

a. Private communications originating in, or destined for, this theater of operations will be transmitted only by means of authorized systems of communications, such as the Army Postal Service, approved telephone, telegraph, cable, or radio systems. They will not under any circumstances be dispatched from this theater of operations by any means other than those authorized by the Theater Commander. Persons guilty of using unauthorized means of communications, thus evading censorship, will be disciplined, as will those who act as unauthorized messengers conveying such communications to another.

b. All personnel governed by this circular, on leaving this theater, may be required to sign a certificate in duplicate as follows:

"I hereby certify that I am not carrying out of this theater any personal communications or documents which have not been passed by a Chief Base Censor. I further certify that all such matter carried bears the impression of the official Base Censorship Stamp."

The original of the certificate will be retained by the signer, and the duplicate will be filed with the Security Officer at the port or air-port of departure.

c. It is forbidden to make use of the civil postal service as a means of sending personal mail. Only the facilities of the U. S. Army Post Office will be used for posting mail and buying money orders.

d. Personal telegrams, cablegrams, and radiograms originating in, or destined for, this theater have not yet been approved, except as provided in Circulars No. 66 and 77, this headquarters, etc. As soon as adequate transmission facilities are available, the necessary instructions will be issued.

However, messages of an urgent nature may now be handled through the American Red Cross, in accordance with the provisions of Circular No. 28, this headquarter, cs.

II - INSTRUCTIONS TO PERSONNEL.

1. General:

a. With few exceptions all private correspondence will be in plain English. Permission to write letters in a foreign language must be obtained from the Unit Commander. Such permission will be granted by him at his discretion. The Unit Commander will immediately notify the Chief Base Censor that permission has been granted, giving the name of the soldier and the language authorized. Personnel authorized to write in a foreign language will indicate in pencil the language of the communication on the face of the envelope.

b. The use of codes, ciphers and shorthand, or any other forms of secret writing in private correspondence is forbidden. Crosses, X's and other marking of a similar character in the text or at the end of a letter or on the envelope will not be permitted.

c. All articles and photographs, including those of a non-service nature which it is desired to dispatch for publication in the press will be forwarded, properly enveloped addressed in an outer cover to Censorship Branch (INC).

d. The press frequently publish information which is generally prohibited in personal correspondence. This is possible since all press material is censored before dispatch and it is practicable to exercise day to day control which is impossible in troop mail. An item concerning a certain unit or high ranking officer may be released one day while shortly afterwards secrecy may prevent any mention of this same unit or individual.

2. Guidance:

a. Conditional Statements: Under no circumstances will either open or hidden reference be made in private or unofficial correspondence, or in private records, to any matter which might be of value or comfort to the enemy, be detrimental to the war effort, or disparage the forces or prejudice the foreign relations of the United States or her Allies. The following list indicates some subjects, the mention of which should be made only after careful consideration of the above:

(1) Information concerning military or naval forces of the U.S. or any Ally.

(2) Military, naval or aircraft armament or equipment. (No new designs should be mentioned until publicity has been given in the press).

- (3) Description of billets, bivouacs or camps; location of groups of soldiers; troops or supply movements.
- (4) Specific information as to names or numbers of casualties, or desertions. (Numbers are of value to the enemy - names may distress relatives.)
- (5) The military status of any person in transit, or the fact of his movement. (Possible future military operations might be revealed by identifying an individual known for a specialized activity.)
- (6) Reference to the presence in this theater of any officer of the rank of full colonel or higher if such information links him with a unit or an assignment. Officers whose names have been released to the press may be mentioned. Care will be taken not to disclose their present location.
- (7) Unauthenticated or false reports or misleading statements.
- (8) Troops of units in actual combat may state in their private mail addressed to the continental United States or United Kingdom that their unit has been in action in a certain sector on a certain date. Such information must be at least two weeks old at the time of writing and must refer to sectors only, and not to well defined small localities. Unit Censors will be held responsible for adherence to the two week limitation and for an intelligent interpretation of the above.

b. Prohibited Statements: Under no circumstances will reference be made to the following:

- (1) The exact geographical location of my unit, or the revelation of the geographical location of the Army Post Office number which is assigned to that particular base or force. Location at which a unit or individual is stationed may be disclosed only as "SOMEWHERE IN SICILY" in letters to the United States or the United Kingdom, to an address in this theater, or to other personnel under U. S. Military jurisdiction. Letters addressed to persons not in the U. S. Military Service in locations outside the continental limits of the United States (except to an address in this theater or the United Kingdom) will disclose no location whatever.
- (2) The location, identity, movement or prospective movement of any U. S. or Allied naval or merchant vessel or of any U. S. or Allied naval, military or commercial aircraft.
- (3) Distinguishing signs used for identity of organizations or their transportation or baggage.
- (4) Plans and forecasts, or orders for future operations, whether known or merely surmised.
- (5) The use, condition or probable extension of roads, air routes, railways, bridges, utilities or other transportation facilities.
- (6) The effect of enemy operations to material suffered by the U. S. or any Ally previous to the official publication of such information.

- (7) Statements criticizing or disparaging the effort of the Allies of the United States or causing a dissimilarity between members of the Allied nations thereby retarding the successful prosecution of the war.
(8) Reports of atrocities, unless released by appropriate authority.

3. Enclosures:

a. To send or to attempt to send to any person or agency, otherwise than in the course of official business, any of the following is forbidden:

(1) Official documents, or classified documents.

(2) Documents captured from the enemy or found in places occupied by the enemy, or containing information about the enemy.

(3) Official documents belonging to civil authorities in allied or enemy territory.

b. In addition, none of the following will be enclosed in private communications unless specifically permitted below. Parenthetical explanations are included to clarify restrictions:

(1) Local newspapers. This restriction does not apply to the publications "Yank", "Stars and Stripes" (weekly), and "Union Jack". Clippings from local newspapers may be sent if they do not indicate the location of a unit. (The daily "Stars and Stripes" contains many local announcements, hence discloses unit locations and may not be mailed.)

(2) Organization publications or news bulletins. (These are not press censored.)

(3) Postage stamps except in small numbers. (All stamps are examined for coded messages.)

(4) Phonograph records. (These cannot be censored in the theater).

(5) Blank sheets of paper, including envelope linings. (All have to be thoroughly examined for possible coded messages.)

(6) Foreign currency or coins except in small numbers and denominations. (Export control of currency.)

(7) Drawings, sketches, music manuscript and paintings, except when submitted directly to the Chief Base Censor for censorship. These submissions will not be accompanied by correspondence and will be wrapped ready for mailing.

(8) Private Diaries and Memoranda.

(a) In general, the preparing of private diaries and memoranda will be discouraged.

(b) Private diaries kept by officers, enlisted men, or civilians may contain information of value to the enemy and their dispatch through the regular mail is forbidden while censorship is in effect.

Censorship Rules Cont.

(c) The writers of such diaries ~~frequently~~ keep them in their pockets or in kits where they are liable to capture by the enemy, thus becoming a source of danger. To minimize such risks, private diaries and memos will be collected periodically by regiments, or separate battalions and similar organizations and sent to the Chief Base Censor, where they will be stored. Before being dispatched, diaries will be enclosed in sealed covers marked as follows: "Private Diary of _____ (giving name, grade and organization), date _____. Upon release to be mailed to _____ (give exact address)". Diaries will be released when censorship is no longer in effect, or after censorship.

(2) Communications originating in and destined for this theater of operations and the communications between this theater of operations and the British Isles will be addressed as outlined in a and b above, except that the term "U. S. ARMY" will be substituted for "Postmaster, New York City, New York".

(3) A military return address will not be used anywhere on or in any communication intended for a neutral, enemy or enemy-occupied country. Such mail must be sent through a friend or relative residing in the continental United States. The friend or relative may forward such mail using a domestic civilian return address. It is cautioned that communications to Allied prisoners of war fall into this category.

d. Private addresses will not be used.

e. Official, hotel or other headed, printed or embossed stationery will not be used for private correspondence in such a manner as to disclose the exact geographical location of the writer, his unit or an APO number.

5. Picture Postcards.

a. Picture postcards will be subject to the same censorship regulations as applicable to ordinary mail. Particular care will be taken by senders and Unit Censors to insure that postcards do not disclose a unit location or link an APO with a geographical location.

b. Any reference in communications to postcards previously sent or to be sent which, when considered with the postcard or separately, violates military censorship regulations, is prohibited.

7. Mail of Officers and Civilians under Military Jurisdiction.

a. The provisions of this circular apply to the mail of officers and civilians under military jurisdiction as well as to all other types of mail.

b. Mail of officers and civilians under military jurisdiction will not be unit censored nor stamped with the unit censorship stamp, but will be subject to censorship by the Chief Base Censor. Officers and civilians

under military jurisdiction will sign their name without rank on the lower left corner of the envelope. When using V-mail, they will sign their name on the inside of the form in the space provided for the "Censor's Stamp" in addition to signing it on the lower left corner of the "envelope". The signature certifies that they have read, understood and complied with military censorship regulations. Violations of military censorship regulations by officers and civilians under military jurisdiction will subject them to disciplinary action, including trial by courts-martial.

9. Handling of Violations.

- a. Mail and other communications which do not strictly conform to the instructions contained in this circular will not be forwarded and need not be returned to the writer, but are liable to such disposition as the Theater Censor or Chief Base Censor may direct.
- b. Persons revealing information prohibited by this circular, other than in the course of official business, will be subject to disciplinary action.

III - UNIT CENSORSHIP REGULATIONS.2. Responsibility:

- a. The company or similar unit commander is responsible for the censorship of all mail (see exceptions, paragraph b below) of enlisted personnel of his command. The company or unit commander may designate officers of his command, such as platoon leaders, to examine the mail of the enlisted personnel of the unit.
- b. The censorship of Officers' mail, blue envelope mail, registered and insured mail, mail to Allied prisoners of war, and mail to neutral, enemy or enemy-occupied countries, is the responsibility of the Chief Base Censor.

3. Duties of Censorship Officers.

- a. All communications subject to Unit Censorship will be examined and censored by commissioned officers or warrant officers in the U. S. Army.
- b. Censorship officers will respect and observe the confidential nature of information which comes into their possession. THEY WILL NEVER DISCUSS OR DIVULGE ANY SUCH MATTERS EITHER IN PUBLIC OR PRIVATE, EXCEPT WHEN THE INTERESTS OF THE PUBLIC SERVICE REQUIRE A REPORT TO A HIGHER AUTHORITY. Any violation of this trust by a censorship officer will subject the officer to prompt disciplinary action.
- c. An enlisted man who delivers his mail for Unit Censorship has performed his duty. The Unit Censor is responsible for seeing that violations are corrected before the communication is passed. Letters containing

violations will normally be returned to the sender for rewriting. The censor is responsible for any violations contained in communications passed by him.

5. Instructions for Postal Censors.a. Examination of Letters.

(1) Detection of the use of secret writing in correspondence is sometimes very difficult. Nevertheless, all censorship officers should be aware of the possibilities and should be alert to detect the use of such methods.

(2) A physical examination to detect the presence of secret writing will be made of the letter, the envelope and all enclosures. Any communications suspected of containing secret writing, codes, or ciphers, will be sent immediately to the Chief Base Censor for action.

b. Parcels: All parcels, including luggage, will be examined carefully to prevent the transmission of concealed messages. After examination, parcels must be securely packaged prior to dispatch, and they will be handled by censorship personnel only, until placed in the custody of postal authorities.

c. Communications from Unknown Persons.

(1) Communications to and from unknown persons, including "pen-pal" letters, will be referred by unit censors to the Chief Base Censor, who will normally condemn the communication.

(2) Replies to advertisements or trade circulars or to letters of congratulation from unknown persons, or letters in acknowledgement of gifts from unknown persons, will be referred to the Chief Base Censor.

(3) Advertisements or letters for publication inviting correspondence with unknown persons are forbidden and will be condemned by censorship officers.

d. Official Mail: Official correspondence is not subject to censorship, but the address and return address will be checked to insure that no classified information is revealed. Censorship officers, however, must be alert to detect possible evasion of censorship by use of franked envelopes for personal correspondence.

6. Outgoing Mail:

a. Officers' mail and blue envelopes will be transmitted to the Army Post Office without being opened by unit censors.

b. The following types of mail will be forwarded in a covering envelope by the Unit Censor to the Chief Base Censor as official mail:

(1) Foreign language correspondence which cannot be translated by the unit censor.

Censorship Regs Cont.

- (2) Mail enclosing communications to Allied prisoners of war.
 - (3) Mail enclosing communications to persons in neutral, enemy or enemy-occupied countries.
2. All other mail, subject to Unit Censorship, including parcels, will be examined by Unit Censors and one of the following actions taken:

(1) Pass: If the letter or parcel does not violate any censorship regulations, it will be passed. The examiner will replace the contents in the cover, seal it and after sealing the cover, sign his name and rank on the lower left corner. Parcels will also be signed with the censor's name and rank on the lower left corner of the face of the package, and will show a list of contents on the outside of the package. Signed mail will then be forwarded to the officer holding the United States Examiner Stamp for the censorship impression. Censorship stamp impressions will appear only on the front left-hand side of an envelope. Sealed mail will then be forwarded to the Army Post Office. Unauthorised persons will not be permitted to handle mail that has been sealed and signed. V-mail letters of enlisted men will bear the censor's signature with rank and the United States Army Examiner's Name in possession both on the lower left corner of the "envelope" and on the inside of the form in the space provided; therefore, they will be forwarded unsealed (after proper signing by the censors) to the officer holding the United States Examiner Stamp who will seal them after executing the proper impressions.

(2) Condemn: If the letter or parcel contains a violation of censorship regulation, it will be returned to the sender or condemned by the examining officer without notice to the sender, depending upon the nature of the violation. Normally a letter or parcel will be condemned only when it is believed the original will be needed for evidence. When a unit censor believes that a letter or parcel should be condemned, he will make an informal recommendation indicating such action and stating the reason or reasons therefor. The recommendation, together with the letter or parcel concerned, will be forwarded direct to the Director of Censorship.

(3) Return to Sender: Letters and parcels containing minor violations of censorship regulation will usually be returned to the sender with a notation on an official Form (MC 3) indicating the nature of the violation. The censor, if practicable, will discuss personally with the offender the nature of the violation, instead of using Form (MC 3). It is expected that the number of letters to be returned to the sender will grow progressively, until gradually owing to the fact that from this procedure individuals should learn what will and what will not be passed by the censor.

(4) Excise: Excessive mutilation of mail by excisions is never warranted. If a letter contains a word or short phrase violating censorship regulations but is not otherwise objectionable, the examining officer will excise the objectionable word or phrase using a sharp knife or other cutting instrument. When necessary excisions are so extensive as to destroy the sense of the message, the letter will be returned to the sender for revision. Excisions will be sufficiently complete to prevent restoration of the original meaning of the excised portions by the addressee. Under no circumstances will Unit Censors delete information by lining out or covering words or phrases using a pencil, ink, paint, or similar material, except in the case of V-Mail. All V-Mail deletions will be made by completely obliterating censorable portions with black ink.

(5) Recommend Photograph or Photostat: If it appears desirable that a letter or parcel go forward but a record is needed for evidence or future reference, the letter or parcel should be forwarded to the Chief Base Censor with an informal recommendation that it be photographed or photostated before being passed. The Unit Censor will state the reason or reasons for his recommendations.

(6) Note Missing Enclosures: When reference is made in a letter to an enclosure which cannot be found, the omission will be called to the attention of the sender in person if feasible. If the sender cannot readily be reached for reference, the examining officer will prepare duplicate copies of Form (MC 2), "Notification of Missing Enclosure". Both the original and the duplicate will be initialed by the examiner. The original will be placed in the letter and the communication returned to the sender. If local conditions render such action impractical, the letter will be passed. The duplicate copy of Form MC 2 will be retained by the examining officer for his own protection, after noting on the reverse side thereof the following information:

- (a) Date of examination.
- (b) Name and address of addressee.
- (c) Name of sender.

IV - FILM CENSORSHIP.

2. Photographic Information to be suppressed.

a. In addition to the information prohibited by paragraphs 1, 2 and 3 of Section II of this circular, the following classes of information are not to be released for export from this theater, except in the course of official business or with the written approval of this headquarters.

- (1) All aerial photographs and films of friendly territory.

- (4) Pictures which could be distorted by the enemy and used as propaganda against the war effort.
- (5) Pictures which might focus attention on training, personnel, or equipment from which the character of future operations might be determined. Also pictures which show state of training or morale of troops.
- (6) Pictures revealing general location of such equipment as planes, tanks, large guns, combat cars, etc.
- (7) Pictures of all classified equipment.
- (8) Pictures indicating a quantity or the presence of, a particular type of equipment in any general locality.
- (9) Pictures indicating route, type of aircraft, nature of cargoes and installations of the Air Transport Command.

 - c. Photographs or films furthering the objectives of enemy propaganda will not be imprinted into this theater.
 - d. Particular attention will be given to backgrounds. Frequently the principal subject in the foreground of a picture is not objectionable while the background will reveal information to be suppressed.

3. Instructions for Handling Photographic Material.

a. Photographic material exposed by amateur photographers may be processed locally but only by firms approved by the respective Base Sections.

b. Since local developing facilities are very limited, provisions have been made for developing negatives in the United States without cost to the photographer. To take advantage of these facilities, the following procedure will be followed:

(3) The negatives of such rolls cannot be mailed to this theater by the developing agency in the United States.

CENSORSHIP CUTS ON COPY FILED BY ACCREDITED CORRESPONDENTS 14, OCTOBER 1943.

DYLAN, AP: The writer filed a despatch which was of aid to the enemy; "French undergrounds usually operate only two months- that is considered the maximum margin for safety- then they retire for four months before they start again. Persons traveling by way of the underground invariably reach Spain, but many Frenchmen attempt to cross on their own. Of these twenty per cent are usually apprehended. Underground guides if caught are shot immediately, and the would-be fugitives are sent to Germany to work battalions."

GILLARD, BBC: The correspondent mentioned the waterproofing of tanks; "The condition of the riverbed also had to be inspected to attempt to find places where tanks might cross in reasonably shallow water on a firm bottom. Tanks, of course can ford in quite considerable depths provided approaches are suitable and riverbed firm, but trouble here was that generally speaking where the water was shallow, banks were steep. Finally a considerable number of our tanks were waterproofed- that is they were specially treated so that they could travel short distances through deep water, without stopping the engines or injuring the equipment."

SUBJECT: Censorship in Italy

TO : Chief, Censorship Branch (INC), NND

1. There is returned herewith the revised proposal for Censorship in Italy, in which the concurrence of this Section was requested.
2. For the reasons pointed out in the letter of Major Howell, Advisor on Italian Affairs in this office, - of which a copy is inclosed, - it is regarded as important that the military censorship of the Allied Nations be kept free from any suggestion of suppressing domestic political debate. The Allied Governments have made clear their intention that the people of Italy shall have an opportunity for democratic discussion. It will be the duty of the agencies thus set up for the control of the Italian Government to make sure that this intention is not defeated by domestic law or practice. Accordingly, it is suggested that the Censorship Directive for Italian Press open with an introductory statement as in the inclosed draft, clearly distinguishing between military censorship which we must have for our own protection, and political censorship for the benefit of a particular Italian party or group, which we do not intend to tolerate. Wherever the Censor's rules are published this preliminary statement should be included so that the position of the Allied Governments may be made clear.
3. In your letter to the Chief of Staff, action recommended, 1 f, "an Allied Signals Officer with whom" should be struck out and "the Communications section of the Allied Commission, with which" should be substituted.
4. With the addition of a preliminary statement as suggested, the proposed Censorship Directive has the concurrence of this Section.

SUBJECT: Proposed Censorship in Italy

TO : Brig. Gen. J. C. Holmes

1. I have studied the revised proposal for censorship in Italy sent to you for concurrence by Col. McCrystal.

2. The proposal in my opinion is reasonable and allows the Italians the greatest possible freedom of expression within the limits of military security.

3. I would suggest, however, that it be made quite clear to the Italian people that we are interested in the censorship of the press only insofar as material affecting the war is concerned. The Badoglio Government has already censored the political opinions of some of the more liberal newspapers — *La Stampa* of Turin, for example — and I do not believe that we should run the risk of being accused, however falsely, of supporting the Italian Government in a program of political censorship. This does not mean that special circumstances may not make it advisable for the present government to continue to exercise political censorship. It does mean, however, that the allies will lose good will and active support if they become associated in the Italian mind with measures which are strongly reminiscent of the Fascist regime. We are dealing here with a matter of the greatest psychological importance which will influence the attitude and actions of a great many Italians towards us. They will understand the need of military censorship exercised by us directly or indirectly. Political censorship and its attendant ill will should be clearly established as a matter between the Italian Government and the Italian people.

(INTRODUCTORY STATEMENT)

CENSORSHIP DIRECTIVE FOR ITALIAN PRESS

The Allied Governments have two distinct interests in the manner in which the Italian press and radio are censored: (a) to prevent the dissemination of matter prejudicial to the United Nations and the successful prosecution of the war, and (b) subject to that overriding consideration, to make sure that the Italian people are not denied the means of carrying on the free orderly discussion of their government and politics. The Allied Governments have declared their intention to see to the destruction of Fascist institutions in Italy, of which political censorship has been a salient feature.

The former of these interests is a responsibility of the Censorship Branch (INC). The latter will have the attention of such other agencies as the Allied Governments may see fit to establish to supervise press and broadcasting relations in Italy.

The following directive is issued by the Censorship Branch:

SUBJECT: Censorship in Italy

TO : The Chief of Staff.

I. Discussion.

1. In view of the acceptance by Britain and the U.S. of Italy as a co-belligerent the following proposals are submitted regarding the operation of all forms of censorship throughout Italy, Sicily, and Sardinia.

2. Information is very incomplete on the manner in which the Italian censorship operates. We have been advised that Post and Telephone censorship is handled by Military and Civil personnel who are under the control of the Ministry of the Interior. Telegraph (including cables and wireless) censorship is handled by Naval personnel under the control of the Admiralty.

II. Action Recommended.

1. P.T.T.

a. Italian censorship will continue to function.

b. An Allied Officer will be attached to selected Italian censorship centers.

c. A directive will be issued to the Italian censorship outlining the information required by the Allies from the Italian censorship and the types of communications which must be referred to the Allied Censorship Liaison Officer.

d. A directive will be issued through Italian authorities to the Italian people indicating the types of information forbidden in communications. (See Appendix "A".)

e. The various forms of communications will be handled as follows:

(1) Internal mail. No restrictions. Will be subject to a token censorship.

785015

(2) External mail. No restrictions. Will be subject to a token censorship after which it will be properly sorted into countries of destination and handed to either British or U.S. APOs for dispatch. This mail will be routed through British or U.S. Civil censorship units where it will undergo such censorship as is considered necessary.

(3) Telephone. There will be no restrictions on local calls. Long distance calls will be forbidden except for Allied or Italian official calls.

(4) Telegraph. Internal telegrams will be permitted and will be 100% censored by the Italian censorship. External cables will be censored if desired by the Italian censorship but will be 100% censored by Allied personnel stationed at cable gateways. No personal, commercial or semi-press messages will be dispatched by wireless.

f. It is understood that the use of telegraph, cables, radio and wireless will be under the control of an Allied Signals Officer with whom a close liaison will be maintained.

2. Press and Radio.

a. The distribution of all national news, world news, war news or allied inspired information will be through the network of the Stefani News Agency. Everything which goes out through Stefani will be censored by allied officers stationed at the Agency.

b. Other material used by the Italian press such as editorials and local news will be censored by an Italian press censorship organization. A directive (see Appendix "B") will be issued to the Italian censors indicating the subjects forbidden to be published.

c. A copy of all issues of newspapers will be sent to allied censors at the Stefani News Agency for scrutiny. Breaches of directives discovered by scrutiny will be dealt with through the Italian censorship.

d. All material for broadcast other than that obtained through the Stefani Agency will be submitted to allied censors.

3. The above plan applies to those areas in which operations have ceased. In areas near the lines (to be determined by the

will be forbidden.

II - INSTRUCTIONS TO PERSONNEL.

1. General:

a. With few exceptions all private correspondence will be in plain English. Permission to write letters in a foreign language must be obtained from the Unit Commander. Such permission will be granted by him at his discretion. The Unit Commander will immediately notify the Chief Base Censor that permission has been granted, giving the name of the soldier and the language authorized. Personnel authorized to write in a foreign language will indicate in pencil the language of the communication on the face of the envelope.

b. The use of codes, ciphers and shorthand, or any other forms of secret writing in private correspondence is forbidden. Crosses, X's and other marking of a similar character in the text or at the end of a letter or on the envelope will not be permitted.

c. All articles and photographs, including those of a non-service nature which it is desired to dispatch for publication in the press will be forwarded, properly enveloped addressed in an outer cover to Censorship Branch (INC).

d. The press frequently publish information which is generally prohibited in personal correspondence. This is possible since all press material is censored before dispatch and it is practicable to exercise day to day control which is impossible in troop mail. An item concerning a certain unit or high ranking officer may be released one day while shortly afterwards secrecy may prevent any mention of this same unit or individual.

2. Guidance:

a. Conditional Statements: Under no circumstances will either open or hidden reference be made in private or unofficial correspondence, or in private records, to any matter which might be of value or comfort to the enemy, be detrimental to the war effort, or disparage the forces or prejudice the foreign relations of the United States or her Allies. To minimize such risks, private diaries and memoranda will be collected periodically by regiments, or separate battalions and similar organizations and sent to the Chief Base Censor, where they will be stored. Before being dispatched, diaries will be enclosed in sealed covers marked as follows: "Private Diary of _____ (giving name, grade and organization), date _____. I - GENERAL PROVISIONS.

1. Foreword: This circular is based on Training Circular No. 15, War Department, 16 February 1943 (After-Censorship). All other existing regulations and instructions contrary to the provisions herein, are rescinded and the following substituted therefore. (Specifically, Section III, Circular No. 25; Circular No. 32; Section II, Circular No. 52; Section II, Circular No. 65; and Section II, Circular No. 66, all this Headquarters, etc., are rescinded). Subordinate commanders will issue orders in accordance with, or more restrictive than the instructions contained herein.
2. Purpose: The purpose of this circular is to furnish a set of instructions establishing uniform procedure for the conduct of U.S. Military Censorship. It is intended that the provisions contained herein be applied with common sense and an appreciation of the fact that enemy intelligence gains much invaluable information from improperly censored mail. These regulations are much less restrictive than those which would be warranted for untrained and un instructed troops and must therefore be applied in accordance with previous security training and an appreciation of the danger to which careless correspondence subjects soldiers and their families.
3. Responsibility: Military censorship is a function of command and is direct responsibility of the Theater Commander, exercised through the Information and Censorship Section (IMC), AFIC, except that U.S. Army mail censoring and prisoner of war mail censorship is exercised through this headquarters. Military censorship will be conducted in accordance with the provisions herein and any supplementary instructions promulgated by the War Department and the Theater Commander.
4. Jurisdiction: Military censorship will be effected over all private communications to and from all personnel in this theater aside, U.S. Military jurisdiction, to include all civilians (or Correspondents, Red Cross Representatives, etc.,) accompanying or serving with this command in this theater.
