TO:- M.G.S., A.F.H.Q.
FROM:- British Admin. H.Q., A.M.G.A.C.
SUBJECT:- Telephone Installations.
REF:- MGC/5516(G-4).
DATE:- 12th January 1944.

When the M.G.School and Holding Centre was first started, British Signal equipment was used for the internal communications. It is understood that this equipment consisted of a small 6 line switchboard and some telephones.

When Colonel Parlin was appointed Commandant, the internal communications were changed. American equipment, now on charge to 2675 Regiment A.C.C. was used and the British equipment was returned to A.F.H.Q. The American equipment will be removed when H.Q., 2675 Regiment (A.C.C.) leave this station as it will be required for their new Headquarters.

A Rear Party from the M.G.School and Holding Centre and possibly the rear-links of Regions VIII and IX will remain here after departure of H.Q. 2675 Regiment. Some internal telephone communication will therefore be required.

It is requested that a small switch board (6 or more lines) and six telephones be provided for this purpose. They will be required only for as long as is necessary to complete the evacuation of the post and to obtain transportation for the rear party.
