"HOLLYWOOD" HQ

SECURITY - STANDING ORDERS No.2. 14 Aug 43

1. All personnel will bear in mind that they are responsible for highly important work which calls for an UNUSUAL degree of security. It is for them to obey the following instructions, but it is just as important that they should use their intelligence and, in accordance with all conditions and circumstances that may arise, safeguard to the smallest possible extent, the security of everything with which they are concerned and maintain in every way the highest standard of efficiency and integrity.

2. "HOLLYWOOD" building:

(i) There will only be ONE entrance and exit.
(ii) Entrance and exit will be effected by means of a Security Pass, which will be shown to the sentry both on entering and on leaving the building.
(a) Permanent passes will be obtained from the Security Officer, No.7 Planning Staff HQ.
(b) Temporary passes will be obtained from the sentry and will be countersigned by an officer of "Hollywood" HQ before leaving the building.
(iii) Only those having legitimate military business to transact will be admitted.
Each officer interviewed by a holder of a Temporary Pass will endorse the pass.
(v) It is important that holders of Temporary passes be not allowed free access in and about the building, UNESCORTED.
(vi) Guard on the entrance will be maintained continuously.

3. CENTRAL REGISTRY.

(i) The Central Registry will be responsible for all files, documents etc.
(ii) All files, documents etc. will be returned to the Central Registry as soon as an office is about to be left unattended.
(iii) The Central Registry will never be left unattended.
(iv) A daily check of all files, documents etc. will be carried out, and any discrepancy will be reported at once.
(v) It will be the Central Registry's responsibility to clear ALL waste paper (Secret and Non-Secret) whenever an office is being left unattended.

4. LEAKAGE OR COMPROMISE.

It is the duty of all concerned to report any suspicion, however small, of leakage or compromise, immediately. It may cause inconvenience, but this is unimportant compared with the danger of a possible case of leakage going undetected.
