1. Lt. Col. H. A. Smith, who is in the Legal Division of this Hq., was admitted to the 94th General Hospital on the 19th of June. He was reported by the Specialist there to be fit for duty not involving severe physical strain or rarified mountain air. On this report it has been decided that Lt. Col. Smith is not sufficiently fit for duties required of him with this Hq. now or in the future.

2. A letter has been received from Lt. Col. Baker, AAG, G-1 (B), AFHQ, to the effect that Lt. Col. Smith is now working in the Legal Department there and requesting to know whether this arrangement meets with the approval of this Hq. The position is that this officer's services cannot be further used here, and therefore if he is wanted at AFHQ, he must be taken on by AFHQ establishment. In the event of this not being possible, could you please find him some suitable appointment in the rank of Lt. Col., failing which steps will have to be taken for him to be returned to the U. K.

All are R.A.S.O.

2. Adv 022 have been asked to post a further complement of 10 C.R.'s to this detachment. 022 have been asked for War Establishment and authority. This difficulty has been got over for the moment, but it is desired that 022 should receive a War Establishment, War Establishment number or authority for posting. (This number of drivers has been asked for to provide one driver per vehicle for this detachment.)
3. The question arises about field returns of personnel. Shall this detachment make a field return on AFW 3011 of all such personnel, or, since there is presumably only one central W.E. against which these men are held, will AMGOT 141 Force publish the casualties? Please reply by signal.
4. Is it necessary for this detachment to make Field Returns on AFW 3010 of all Officers arriving, departing etc? If so, [or if such officers should only be shown as attached,] shall American officers be shown as attached?

This difficulty has been got over for the moment, but it is desired that 02E should receive a War Establishment, War Establishment number or authority for posting. (This number of drivers has been asked for to provide one driver per vehicle for this detachment.)

3. The question arises about field returns of personnel. Shall this detachment make a field return on AFM 3011 of all such personnel, or, since there is presumably only one central E.E. against which these men are held, will AMGOT 141 force publish the casualties? Please reply by signal.
