SUBJECT: U.S. Rations for Officers and Personnel (3) Stationed at the Civil Affairs Camp at Chrea.

TO : Commanding General, SOS YEMTOUSA, APO 780

1. Your attention is invited to attached request from Headquarters AMOOT for authority to draw U.S. rations for British officers and soldiers stationed at Civil Affairs Camp at Chrea.

2. It is the desire of this headquarters that the necessary authority be issued to General Depot No. 1 and that these rations be accounted for in accordance with Section III, Circular No. 5, AFHQ, dated 10 January 1943.

By command of the Theater Commander:

A. B. KING,
Major, A.C.D.,
Asst. Adjutant General.

Memorandum for : C-4 Section,
A.F.H.Q.

1. It is requested that authority be granted to draw U.S. rations for the British Officers and soldiers stationed at the Civil Affairs Camp at Chrea. At no time will this exceed 375 rations daily and normally it will be greatly below this figure.
2. The AMGOT school of instruction at Chrea is a joint U.S. - English endeavor, in which the Americans outnumber the British. In order to work more closely together and economize on personnel a common mess has been established. This presents many difficulties owing to different days of drawing and entirely different ration scales. The result of this is reduced rations which in the long run will affect morale.
3. It is believed that this can be very simply accounted for by furnishing the Quartermaster with a statement of rations furnished each month and then ship them to the Q Branch as an ordinary shipping ticket.

Memorandum for: G-4 Section,
A.P.H.Q.

1. It is requested that authority be granted to draw U.S. rations for the British Officers and soldiers stationed at the Civil Affairs Camp at Chrea. At no time will this exceed 375 rations daily and normally it will be greatly below this figure.
2. The AMGOT school of instruction at Chrea is a joint U.S. - English endeavour, in which the Americans outnumber the British. In order to work more closely together and economise on personnel a common mess has been established. This presents many difficulties owing to different days of drawing and entirely different ration scales. The result of this is reduced rations which in the long run will affect morale.
3. It is believed that this can be very simply accounted for by furnishing the Quartermaster with a statement of rations furnished each month and then ship them to the Q Branch as an ordinary shipping ticket.

SUBJECT: Establishment of School for Personnel of AMGOT.

MEMORANDUM FOR: The Commanding General, Allied Force Headquarters.

1. Administrative Memorandum No. 35, Allied Force Headquarters, dated 1 May 1943 announced the establishment of an organization for Allied Military Government of Occupied Territory (AMGOT). Tables of Organization for the American Section of this organization have been approved by the War Department.

2. In order to effectively prepare for active participation, it is requested that authority be granted to establish an officers' school at Chrea for the purpose of instructing personnel of AMGOT in their duties. The necessary buildings have been requisitioned by the British and have been approved. Verbal permission has been given to such an establishment for instructions. Confirmation is requested in order that the necessary supplies and equipment may be drawn for the American side.

SUBJECT: Supplies for Camp Contingent.

MEMORANDUM: To Brigadier General Hamblen

1. Inclosed is a request addressed to Colonel Heyduck, G-4, AFHQ, requesting approval of a list of equipment as the basis for requisitioning for the camp detachment, Ohrea Training Centre. This equipment is not included in the TE for AMGOT.

2. Since the camp detachment is composed of officer and enlisted personnel on detached duty from Headquarters Company, AFHQ, no TE is authorized. Also for the foregoing reason it is suggested that AFHQ should approve the list of this equipment. Because of our previous discussion of AMGOT supplies, however, this memorandum is transmitted ~~through~~ through Force 141.

To: Colonel L. E. HEYDUG, G.S.O.,
G-4 Section, AMHQ.

1. It is requested that the attached list of equipment and supplies be approved as the basis for requisition and issue of the items listed therein in lieu of a T/BA or T/E.
2. These items are required for operation and maintenance of a Training Center established at Ohrea for instruction of American and British Officers, AMGOT. Approximately 200 American officers are arriving from the United States at an early date, all included on an approved T/O for Headquarters and Headquarters Company, AMGOT (American Section).
3. An American Detachment of approximately 100 officers and enlisted men has been established at Ohrea for the operation of mess and supply facilities incident to this school and also to provide a guard platoon for security measures. Neither a T/O nor T/BA (or T/E) is authorized for this detachment because of its temporary nature.
4. Due to the early opening of this School, it is extremely urgent that the supplies and equipment referred to above be drawn as early as possible.

MEMORANDUM for: Lt. Colonel Aitken

SUBJECT : Training Centre Stationery

1. Request is made herewith for the following items of stationery for the student officers of the Training Centre. The amounts requested are based on an estimated 250 students.

- (a) 750 large note books (S.O. Book 135, Code 28-72-0).
- (b) 750 small pads (S.O. Book 136 $\frac{1}{2}$, Code 28-76-0).
- (c) 750 pencils.
- (d) 250 rubbers.
- (e) 1 gallon of ink.

2. It is understood that blackboards have been ordered and that chalk will arrive from the U.K. with the first contingent of British Officers.

3. Lt. Baker informs me that it is impossible for him to obtain a duplicating or mimeographing machine from American supplies. I believe that the Centre has a single machine at present in the Hotel Allemand. It would be highly desirable if we could obtain a second machine from British supplies for the mimeographing of the purely academic material such as lectures, summaries, excerpts, etc. Could you kindly ascertain if this machine can be procured?
