Memorandum to Major Harford (Contd).

5. I would also like the Section to study, Proclamation, Ordinances, and outlines of Court procedure with a view of fitting into our plans, regulations and instructions to police on the matters of arrests, investigations, arraignment and presentation of cases.
6. Some of the documents available for study are AMPT plan and Administrative Instructions which should include the Proclamation and Ordinances, outline of Court Procedure and Italian Criminal Code. There is considerable information which we must have available for study as soon as possible, such as Intelligence Reports etc. but we may not be able to secure these until our Section is complete organized.

Suggestions (For Element Proclamation)

10

It is suggested that after a proclamation has been issued that the Commissioner of Public Safety with the approval of the Chief Civil Affairs Officer should issue a Manual or set of instructions to guide the police.

It would seem advisable to divide this set of instructions into two parts -- (1) rules for all police, whether in military units or not, and (2) ~~the civil police~~ special rules for the police recruited from the civilian population.

The first 13 rules are in effect a summary of the significant portions of the Proclamations and rules of court arranged in convenient order.

The remaining seven rules would be applicable to ~~and~~ the police recruited or rather those not members of the Allied Military Forces.

THE TRIPOLITANIA POLICE FORCE

FORCE ORDERS

No. 1 - March 1943

2485

POLICE HEADQUARTERS, TRIPOLI

THE TRIPOLITANIA POLICE FORCE.

FORCE ORDERS.

Official Document for the use of Police Officers Only.

Police Headquarters,
Tripoli.

No. 1—1943.

1st March, 1943.

Part I.

1. Functions of the Tripolitania Police Force.

In accordance with British Military Proclamation No. 4, Article 2 dated 15th December, 1942, the Tripolitania Police Force hereinafter referred to as «the Force» is established

- (a) to enforce Proclamations, Orders and Regulations issued under the authority of G.O.C. Eighth Army;
- (b) for the prevention, detection and prosecution of crime and the apprehension of offenders;
- (c) for the maintenance of public order, and the preservation of security for persons and property;
- (d) for the control of traffic.

2. Appointment of Commissioner of Police.

In accordance with the powers conferred upon the Deputy Chief Political Officer, British Military Government, Tripolitania, by Article 3 of the aforesaid Proclamation, Lieutenant Colonel P. H. Miller is appointed as Commissioner of the Tripolitania Police Force.

3. Police Establishment and Distribution.

The establishment and distribution of this Force shall be as the D.C.P.O. may from time to time direct.

4. Force Orders Object of.

Part One Force Orders will serve to be a permanent record of all Standing Orders and Instructions issued from time to time by the Commissioner of Police for the guidance of all members of the Force.

It shall be the duty of officers in charge of formations to convey all such Orders and Instructions to the personnel under their command. One parade per week will be devoted to instruction of this nature.

Certain orders will apply to one or more formations only, but this does not relieve personnel of the responsibility of being conversant with the whole of the Police Organisation throughout the territory in which they serve.

The Commissioner wishes officers to transmit to him all matters which they consider should be included in Part One Orders. Extracts from Force Orders should form the basis of the Standing Orders which are issued by officers in charge of formations.

Orders contrary to Force Orders are not permitted without the approval of the Commissioner who may permit amendments better suited to local conditions. Any item appearing in Part One Orders which is intended to be a Force Standing Order will be clearly indicated as such by the letters «S.O.» in brackets against the Order.

Part II of Force Orders is the «official Gazette» of the Force and will be the medium through which all Appointments, promotions, postings, transfers, punishments, strength increases or decreases, deaths, etc. will be promulgated. No promotion will be effective until it has appeared and no stoppage of pay or fine will be effected until the printed copy Force Orders has been published.

For the present, Force Orders Parts I and II will be published once a month, or when the Commissioner makes orders. The Orders will be published weekly when sufficient items for Part II are received from the Provinces to warrant it.

5. Force Orders, Part 1 indexing of.

To enable Force Orders to be an accurate and therefore useful source of reference an index will be maintained at all Formations. Such shall be in the form of a card index or indexed register. The indexing of Force Orders will be carried out as soon after receipt as possible and the officer responsible for such indexing will endorse the following particulars on the front page of the Orders when the indexing is completed. («Indexed - Date - Initials».)

As far as possible the Order will be indexed under the initial letter of the title of the Order, e.g. this order will be indexed under F.

«Force Orders Part I indexing of 5/43».

The number of orders appearing in Force Orders Part I will be consecutive commencing in January of each year, e.g. 1/44-1/45.1/46 etc.

7. Food, purchase of.

No member of the British Forces is permitted to purchase food in Tripoli under any circumstances.

8. Property Register, instructions for maintenance of.

1. This register will be maintained at all stations.

2 Full particulars shall be entered therein of all lost and found property. Particulars of lost property shall be entered in black ink and particulars of found property in red ink. Entries shall be numbered serially. In the case of found property a receipt shall be given to the finder and the fact recorded against the entry in the register.

3. The station officer shall make every effort to find the owner and shall, on proof of his ownership, deliver the property to him and obtain a receipt against the entry in the register.

4. If the property is of such a nature and it is impossible to retain it while enquiries are being made as to ownership, it shall be sold without delay, and the proceeds of the sale, less any expenses incurred, shall be paid to the nearest sub-accountant and credited to deposits—unclaimed property. Normally, unclaimed property shall be held for six months before being sold.

5. If the owner is traced, a sum equal to 10% of the gross value of the property shall be paid to the finder, and the balance of the proceeds of the sale, less any expenses incurred, shall be paid to the owner.

6. When found property, which has not been claimed, is finally disposed of by sale, such property may not be purchased by any Police Officer either directly or through a third party.

7. If the owner is not traced within two years of the finding of the property, the sum paid to the nearest sub-accountant shall be returned to the finder.

8. If the property consists of animals, they shall be retained by the police for a period of seven days, and if the owner has not been traced on the expiration of this period, they shall be sold, and the net proceeds of the sale shall be disposed of in the manner prescribed in rule (4) hereof.

9. If the property consists of money, it shall be paid forthwith to the nearest sub-accountant to be disposed of in accordance with rule (4) hereof.

10. When only one person claims the property and there is no substantial doubt as to his being entitled thereto, but a possibility that some person may afterwards come forward to claim it, it may generally be given up to claimant upon his signing an indemnity. The indemnity will be in the following form:—

I, . . . of . . . do hereby acknowledge to have received from . . . the following articles, namely . . . found by . . . AND DELIVERED TO THE CARE OF THE POLICE of which I do hereby declare myself to be the rightful owner and in consideration of the delivery to me, I undertake to return

it (or them, or the value in the event of the lawful owner hereafter claiming and proving his right to the property, subject to any deductions for advertisements or other reasonable payments actually made in endeavouring to find the owner.

Dated this . . . Day of . . . 194 . . at . .
Witness . . . (Signed) . . .

11. An indemnity worded in a similar form will also be utilised when items of found property are returned to a finder.

12. When property is handed over to an illiterate person the receipt will be obtained by recording the impression of the claimants right thumb in the final column of the register. It is essential that the impression should be easily identifiable, therefore the proper finger-print equipment must be used, and a person who has been instructed in the correct method of recording finger-prints should take the impression. If the property exceeds LE 2 in value the impression must be attested by the Station Officer.

13. If the owner of found property is not discovered immediately and until such time as a police gazette is published, full particulars thereof will be circulated to surrounding stations, and, when considered necessary by the station officer, to any other particular station.

14. Any property found on thieves and unclaimed by owners shall be dealt with as unclaimed found property.

15. Description of lost property must be complete in every sense and particular attention must be given to any mark, inscription, engraving, peculiarity, or shape by which the property may be identified.

16. Found property must be kept in safe custody by the station officer and must bear a property label, securely attached, on which shall be recorded particulars of the property.

17. Under the heading «Name and address of Owner» will be included «OR FINDER».

9. Charge Register, instructions for maintenance of.

1. Whenever a complaint or a report of an offence against the criminal laws of Tripolitania, is made at a police station: the responsible officer, receiving it will at once cause an entry to be made in the station diary giving the necessary particulars of the report as made.

2. If the Officer in charge of the Station is of the opinion that the complaint is false or frivolous or of such a nature that no reasonable man would complain of it, or that no offence is disclosed,

07834

Declassified E.O. 12356 Section 3.3/NND No.

785015

the charge will be refused and a suitable entry made in the Charges Refused Register.

3. If in the opinion of the Officer receiving the complaint an offence is disclosed, an entry will at once be made in the Charge Register and a case file will be opened.

4. In cases where it is necessary that the complaint should be investigated, even although there is reason to suspect that it may be false, the charge will be registered in the charge register and also on the face of the cover of the case file. If it is subsequently discovered that the case is false, an entry «False on Enquiry» will be inserted against the case in the remarks column of the charge register.

5. Cases entered in a charge register will be serially numbered commencing with the first case reported on the first (or subsequent) day of each month of the year under reference. For example the first case reported during February, 1943, will be shown in the charge register as 1, but on the case file cover it will be shown as 1/2/43. A line will be drawn under each case.

6. All entries in a charge register will be made in black ink with the exception that the final result of the case when other than a conviction or acquittal has ensued, or bail has been estreated, will be entered in red ink. Where it is necessary to note as a reminder, the date upon which the case is due to be called before a court, etc., lead pencil may be used. When the investigation of a case is closed, otherwise than by final disposal before a court, the entry showing the final result will be signed by the officer in charge of the district. Where, however, the case file has been forwarded to the Officer in charge of the district for closing and has been returned duly endorsed by him «False on Enquiry» or «Undetected» as the case may be, his signature is not necessary in the charge register. The Officer in charge of the station will merely endorse the charge register «Closed false by Superintendent» together with the date.

7. Should it be necessary to re-open for further investigation any case closed during any year, it may be done without a fresh entry being made in the charge register. The word «Reopened» together with the date in red ink shall be entered in the remark column.

8. When a case is transferred from a station to any other station an entry will appear to this effect in the final column (red ink), and a red line will be ruled diagonally through the entry. The station to which the case has been transferred will advise the station of origin of their charge register number of it. Therefore in the final column of the charge register of the station of origin should appear the words «Transferred to Garlan C.R. 5/4/1946».

9. Cases entered into the charge register may only be closed under the following headings:—

Discharged.	}	Result to be shown in black ink.
Conviction.		
Bail estreated.		
False on enquiry.	}	Result to be shown in red ink.
No offence disclosed.		
Withdrawn by complainant.		
Withdrawn by prosecutor.		
Withdrawn by Police.		
Undetected.		
Accused absconded or whereabouts unknown.		

10. At the end of every month a summary will be made in the charge register showing:—

Subject.	Cases Reptd.	Convicted	Acquitted	Refused	Closed Undetected	Awaiting Trial	Under Investigation
1. Murder							
2. Att. Murder							
3. Manslaughter							
4. Assault							
5. Robbery							
6. Breaking							
7. Animal theft							
8. Theft, other							
9. Agrarian offences							
10. Moral offences							
11. Firearms							
12. Contraventions and Traffic							
13. Offences against B.M. Legislation							
14. Other serious offences							
15. Other Offences							
Total.							

11. A red line will be drawn after the summary at the end of each month, and each month will be headed by the name of the month written in bold characters. A similar summary will be made at the end of the year. This will be compiled from monthly summaries.
12. In cases where the court holds that the complaint is false and fines the complainant for false evidence, the original case should be shown as not true, and a separate entry made in the charge register for the charge against the original complainant.
13. In cases of assault which end with the complainant withdrawing the charge in court a note will be made in the charge register "Charge withdrawn by complainant", but for the purposes of returns etc., these cases will be shown as refused.
14. When a report is received at a station that animals have been lost, and there is no evidence of theft, the report will be treated as a case of animal theft unless the animals are recovered within 24 hours, and it is clear that they were not stolen. If the animals are recovered later, and it is clear that the facts do not disclose an offence, the case will be shown in the charge register as "False", and records will be adjusted accordingly.
15. Under no circumstances will any case be closed by anyone below the rank of Assistant Superintendent.
16. In the last column will be inserted the number referring to the charge as shown in the monthly summary. For example against a case of Murder will be inserted No. 1, and similarly in the case of Breaking the number to be inserted against it will be 6, etc. This will assist when compiling monthly crime returns.
17. Remember at all times that neatness and cleanliness in the keeping of records is an essential in good police work.

10. Station Diary, instruction for maintenance of.

1. A Station Diary will be maintained at all times in every Police Station by the Station Diarist on duty. Each day shall be reckoned from 0800 HRS.
2. At 0800 HRS the Station Diarist will rule a line in red ink across the page of the diary immediately below the last entry which he has made. At 0800 hours he will hand over the diary to the relieving Station Diarist.
3. He will then make his first entry recording that he has taken over the articles on charge from his predecessor. A list of these articles will be entered in detail.
4. On any handing over during the day to a relieving Station Diarist it will be sufficient for the incoming Station Diarist to make

an entry that he has taken over the articles on charge as per entry No. 1 with a note in detail of any changes from that entry.

5. The second entry to be made will be list of persons detained at the Police Station, stating the reason for such detention and noting in the cross reference column the numbers of the previous entries referring to each. The Station Diary will be maintained in such a manner as to form a complete and accurate record of all matters relating to the working of the Police Station.

6. In particular, it will form a record of the arrival at and departure from the Police Station of all Police personnel, whether belonging to the formation or not, giving briefly the reasons for their arrival or departure.

7. When special instructions are issued to personnel proceeding on duty, an entry shall be made to this effect giving a summary of the instructions.

8. The Station Officer will carefully read over each morning the entries in the Station Diary. He will certify that he has done so and will state whether he believes them to be true and accurate. He will sign his certificate.

9. The entry of every occurrence of whatever nature will be made as soon as possible and in such a manner as to admit of easy reference to any particular incident. Cross references should be entered in the appropriate column of the Station Diary at every item which has reference to a previous or subsequent entry.

10. Particulars of an enquiry of any nature shall be entered. Arrests of Accused persons brief particulars of property found in their possession shall be recorded.

Similarly, any release from custody of persons detained shall be recorded and the entry signed by the Police Officer who authorises the release.

11. Full details of all complaints laid, together with the names and addresses of the complainants shall be entered in red ink with times of arrival and departure.

Apart from the above all entries will be made in black ink.

11. Monthly return of Crime, instructions for rendition of.

1. This return shall be rendered to Headquarters C.I.D. by Districts not later than the 10th of each month. On no account shall a return be held up beyond this time limit. Cases will occur where an offence is changed on indictment or for other reasons which will necessitate an amendment to the return after it is rendered. These can be adjusted with a note to this effect in the

subsequent return. It should be borne in mind by Officers i/c Districts that statistics are of no value unless they are accurate. Therefore great care must be taken in the compilation of the return and the forwarding of particulars of amendments as they become necessary. Returns will be made out in triplicate.

2. One copy of the return shall be forwarded to the Officer i/c Province and one copy retained by the Officer i/c District. The Officer i/c Province will forward his copy to the Senior Political Officer for perusal, initial and return. If any particular reason exists for an increase or decrease in crime, this should be stated in a covering letter. The Officer i/c District will likewise forward or take his own copy to the Senior Administrative Officer in the District for his perusal. In all cases where time and circumstances permit, it is preferable that returns should be handed personally to the Administrative Officer in case any figures call for comment or discussion. When the action herein has been carried out the copies of the return will be filed by the respective Provincial and District Headquarters.

3. For the purpose of these instructions, the form of return will be referred to as follows:—

- Column No. 1 Carried forward from previous month.
- 2 Number of cases reported.
- 3 Convicted
- 4 Acquitted
- 5 Refused.
- 6 Closed Undetected.
- 7 Awaiting trial.
- 8 Under investigation.
- 9 Total.

If the return is accurate, the figure appearing in No. 1 will agree with the total of the figures appearing in columns Nos. 7 and 8 of the previous return.

The figure appearing in column No. 2 will include all cases entered in the charge register, even though some of them have already been or may be refused in the future.

The figures in columns No. 7 and 8 will indicate the number of cases which have not been disposed of by the end of the month under any of columns No. 3, 4, 5, and 6.

The total of the figures appearing in columns No. 1 and 2 will agree with the total of columns No. 3, 4, 5, 6, 7 and 8.

The figure appearing in column No. 9 will show the total number of cases dealt with during the month. It will equal the totals of column No. 1 and 2, and also the total of columns 3, 4, 5, 6, 7 & 8.

4. The return will contain an appreciation of the state of crime in the District written by the Officer in charge District himself, and whenever the figures for any particular crime show an appreciable increase, the reason therefore will be stated, and a note added as to what steps are being taken to combat the increase.

5. Cases closed « false on enquiry » and « Withdrawn » will be included under column No. 5 (Refused).

6. Every return should be carefully checked with the previous month to ensure that figures have been correctly brought forward. In any addition or other alteration to the previously reported statistics is necessary, the reason for the amendment must be clearly stated. The necessity for accuracy and promptitude in connection with this return cannot be stressed too highly. One late or incorrect return affects the consolidated return for the Territory.

Copy of form to be used in connection with this return is to be found at appendix « A » in this FORCE ORDER.

- (a) In self-defence when he, or another person, is attacked and his life, or that of the other person, is in danger, and there are no other means by which he can save his life.
- (b) When it is necessary to disperse riotous mobs who have been ordered to disperse or who are committing or attempting to commit serious offences against life or property.
- (c) To effect the arrest or to prevent the escape of a person who is charged with a serious offence punishable with death or imprisonment for more than two years, such as:— murder; theft of Government or Military property; breaking into premises to rob; robbery by night; or forcibly attempting to effect the escape of a person arrested for such offence.
- (d) To prevent the escape of a convicted prisoner.

The use of firearms is not, however, justified in any of the circumstances mentioned if—

- (a) By the use of batons or other force the attacker can be overcome, the rioters dispersed, serious offence against life or property prevented, arrest effected or escape prevented or
- (b) there is time to summon the assistance of a force of police and the presence of such force may avoid the necessity of opening fire, or
- (c) The escaping person can be arrested later without danger of his committing another serious offence.

Every police officer who fires upon any member of the public will be required to prove that he was justified in doing so and that there were no other means by which he could have saved his life if this were in danger or have carried out his duty.

If he is unable to prove this, he may be tried before a court and convicted of manslaughter or of causing grievous bodily injury.

Before fire is opened upon any member of His Majesty's Forces, every police officer will consider whether the soldier or other member

is committing an offence or is in fact carrying out his duty, and never in any but the gravest emergency shall he open fire on a member of His Majesty's Forces.

Every police officer will remember that his normal weapon is his baton and not his rifle or pistol, and that he must never open fire unless compelled to do so. If it is necessary to fire upon a mob, fire should be directed at their knees and should cease immediately there is no longer need for it.

16. Pay. Salaries and Wages, payment of.

BRITISH INSPECTORATE

1. Until Banking facilities are available in Tripoli and elsewhere, it will be necessary for British personnel to draw their salaries in cash each month.
2. Those stationed in Tripoli will collect their pay personally from PAY OFFICE, on or after the first of the month following due date, and those in other Provinces will be paid for the time being through local Senior Political Officer or Political Officer. Paysheets will be forwarded direct to the stations concerned and it is requested that pay is collected promptly. The two copies of the Paysheet should be handed to Political Officer for disposal.

CIVILIAN, ITALIAN, & ARAB PERSONNEL

3. As rates of pay are still undecided by D.C.F. & A., no payments can be authorised yet, but it is hoped that information will shortly be forthcoming.
4. Tripoli Province Paysheets and payments will be arranged by PAY OFFICE, but other Provincial Headquarters will be required, for the present, to compile their own Paysheets when information regarding rates is available. Proper printed Paysheets are in the course of preparation and will be issued as soon as possible.
5. Pending authority for payments being received from D.C.F. & A., nominal roll of personnel of the different categories (i.e. Civilians Italian Police and Arab Police) should be prepared. Dates of engagement, for promulgation in FORCE ORDERS, are most important. In the case of Police taken over from the Italian Administration, the date of occupation of the territory would be correct.
6. On receipt of information regarding pay rates, Provincial Headquarters will be immediately informed and Paysheets should then be prepared. Where any doubt exists regarding GRADE of person, the lower rate should be paid and adjustment can be made later on representation.

7. On completion of paysheet, which should be in quadruplicate, (One copy for retention in Provincial H/Q, one copy for Police PAY OFFICE and two copies for the station), the latter three copies should be sent to the Station Officer who should collect the cash required from his Political Officer, on a temporary receipt. It should, however, be first ascertained from the S.P.O. of District what funds are held by the Local Political Officer, as without prior notice of five or six days, he will be unable to meet a sudden demand for a large sum of money. As an alternative, it is suggested that the Station Officer collect both Paysheets and cash at the Provincial Headquarters.

8. The Station Officer will then pay the wages out, and, on completion, hand back the two copies of Paysheet to Political Officer, receiving back the temporary receipt which can be destroyed. The copy of Paysheet required for HEADQUARTERS should be endorsed by the Paying Officer «CERTIFIED PAID» and countersigned by Political Officer, and should then be IMMEDIATELY returned to Pay Office. All relative information necessary, for the proper information of Headquarters, should be endorsed on this copy. One week should be sufficient for the payment of wages.

9. If any amount cannot be paid, by reason of sickness or prolonged absence duty from the station, and if it cannot be handed to an AUTHORISED REPRESENTATIVE, it should be returned to Political Officer and an appropriate remark made on the Paysheet. The name of the person should be deleted and the totals altered accordingly. Subsequent application for payment of any such amount should be referred to the Office for attention. Where a constable or other rank is illiterate, his thumbprint should be taken and witnessed by an Officer, on the Pay Sheet.

17. Prisoners Property Register, instructions for maintenance of.

1. This register will be maintained at all stations and in it will be inserted full particulars of all property belonging to or found in possession of person detained by Police, with the exception that where the property is the subject of a charge it will be entered in the Court Exhibits Register.
2. The register will be serially numbered in respect of each entry, from the beginning to the end of each month. A fresh series will be commenced with the first entry in each month.
3. The Station Diary number relative to the detention of the prisoner will be inserted against every entry.
4. Where there is a charge pending against the prisoner, the Charge Register number concerned will be inserted.

5 Every item of property removed from the prisoner will be clearly enumerated under the heading «Full Description of Property». The property concerned must bear a label on which will be inserted the prisoners full name and the relative Prisoners Property Register number.

6 The Police Officer receiving the property will sign the entry as having done so, together with the date.

7 When the property is returned to an illiterate person the receipt will be obtained by recording the impression of his right thumb in the final column of the register. It is essential that the impression should be easily identifiable, therefore the proper finger-print equipment should be used, and persons who have been instructed in the correct method of recording finger-prints should take the impression.

18. Force Orders, Return of items for promulgation in.

1. This return will be prepared in triplicate,
One copy to be retained by the Officer who renders the return.
One copy to the Superintendent in charge of the Province.
One copy to be forwarded to:—
The Commissioner of Police (Records Office).
Tripolitan Police Headquarters.

TRIPOLI

- 3 Officers in charge of Formations are responsible for bringing to the notice of the Commissioner of Police items from their returns that may be inadvertently omitted from the printed copy of Force Orders.

- 4 Items for promulgation in Part I of Force Orders should include any item which the Officer in charge of the Formation considers should be made a Force Order. Such items will not be published by the Officer in charge of the Records Office without the express permission of the Commissioner of Police.

- (d) Enlisted Italian Personnel

- (e) Civilian Clerical Staff (including Interpreters)
- (f) Civilian subordinate staff (Cleaners etc.)
- (g) Civilian Special Staff (Mechanics etc.)
- (h) Temporary or Special Police.

The items to be covered must include:—

- Increases or decreases of pay and allowances
- Rewards
- Discipline and punishments, Fines etc.
- Hospitalisation, Admissions and discharges
- Obituaries
- Dates of opening or closing Police Formations
- Installation of Telephones, Quote numbers
- Corrigenda

6. It is essential that returns are accurate, the publication of corrigenda is undesirable. The accurate compilation of «Records of service» at Police Headquarters depends on this return.

19. Force Orders, filing of.

Two files will be opened in every Police formation for Force Orders. When the orders have been indexed and checked Part I will be separated from Part II and both parts filed in separate files.

20. Records, files in respect of personnel.

Officers in charge of Police Formations will open Personal Files in respect of the personnel under their command. Relevant extracts from Force Orders Part II will be entered in the file and an indication will be made in the margin of the orders to the effect that such entry has been made. On transfer, the file will be forwarded to the Officer in charge of the formation to which the subject of the file has been transferred. This is a temporary measure pending the introduction of some form of service register.

FORCE ORDERS.

Official Document for the use of Police Officers only.

Police Headquarters,
Tripoli.

No. 4.--1943.

1st June, 1943.

PART I

42.

PROSECUTIONS, before the British Military Courts.

The prosecution of all cases whether before a General Military Court, or a Summary Court, will be conducted by the Police Officer in charge of the Station in whose area the Court sits, unless otherwise directed by his Superintendent. It will be the duty of such Officer to draft the charge, apply for any necessary remands, ensure the expeditious trial of the accused, and present the case in Court. The practice of a prosecutor from Tripoli appearing for the prosecution will be discontinued.

(2) The following procedure will be adopted by Station Officers when it is necessary to apply for the convening of a General Military Court.

- a) The accused if in custody will be remanded by the Court to a suitable date.
- b) A charge sheet containing particulars of the charge to be preferred against the accused will be forwarded to the Law Officer of the Province, or there he is not present, to the S.C.A.O. concerned. In addition, a brief Summary of the case and evidence will be sent. Under no circumstances will the case file be forwarded to support an application.
- c) The Law Officer, or S.C.A.O., as the case may be, will then apply to the Legal Advisor to convene a General Military Court, stating the date on and the place in which the Court will sit.
- d) On receipt of the Convening Order from the Legal Advisor, the Law Officer, or S.C.A.O., will notify the Police Officer who made the application, and all preparations will be made by him for the trial to take place on the date stated on the Convening Order.

PROSECUTIONS, before the British Military Courts.

The prosecution of all cases whether before a General Military Court, or a Summary Court, will be conducted by the Police Officer in charge of the station in whose area the Court sits, unless otherwise directed by his Superintendent. It will be the duty of such Officer to draft the charge, apply for any necessary remands, ensure the expeditious trial of the accused, and present the case in Court. The practice of a prosecutor from Tripoli appearing for the prosecution will be discontinued.

(2) The following procedure will be adopted by Station Officers when it is necessary to apply for the convening of a General Military Court.

- a) The accused if in custody will be remanded by the Court to a suitable date.
- b) A charge sheet containing particulars of the charge to be preferred against the accused will be forwarded to the Law Officer of the Province, or where he is not present, to the S.C.A.O. concerned. In addition, a brief Summary of the ^{prosecution} evidence will be sent. Under no circumstances will the case file be forwarded to support an application.
- c) The Law Officer, or S.C.A.O., as the case may be, will then apply to the Legal Advisor to convene a General Military Court, stating the date on and the place in which the Court will sit.
- d) On receipt of the Convening Order from the Legal Advisor, the Law Officer, or S.C.A.O., will notify the Police Officer who made the application, and all preparations will be made by him for the trial to take place on the date stated on the Convening Order.
- e) In the event of an accused person asking the Police to provide defending Counsel, the Police will pass on the request to the S.C.A.O. or C.A.O. concerned.
- (3) In Tripoli City only, the Officer now acting in the capacity of Police Prosecutor will continue to prosecute before the General Military Court. He will also undertake the prosecution of cases before the Summary Court which present special difficulty.
- (4) It is again emphasized that it is the duty of Station Officers to ensure that all accused persons are expeditiously tried, and that in the meantime, any accused person in custody is so detained on proper authority: the Police Form of Detention is only valid for 72 hours. After the expiration of that time, an accused person for trial by the British Military Courts must be

remanded by that Court, or released from custody either on bail or unconditionally.

43. COURT EXHIBITS.

Until exhibits are brought before the Court, the Police are entirely responsible for their custody, and whilst in their custody, the greatest care must be taken to guard against their being lost, stolen, damaged or tampered with in any way. In addition, the exact state of the exhibit when found is often of supreme importance when evidence is given in Court. Accordingly the following procedure will be adopted forthwith when handling exhibits.

2. As soon as any object is found which is likely to be made the subject of a charge, a note thereof will be made by the person finding it. Any marks of identification, such as a number or other characteristic will be recorded in sufficient detail to identify the exhibit afterwards. Particular note will be taken of the condition of the object when found. If necessary, a sketch map should be drawn.

3. Under no circumstances must any alterations be made to the exhibit after it has been found. For instance, if it is dirty or rusty, no attempt at cleaning must be made. If ammunition is found loose, the rounds must not be put into clips. But if a weapon is found loaded, then it is permissible to eject the ammunition for safety. This must always be done in the presence of the owner if he is available, and if he is not available, in the presence of a reliable witness.

4. The exhibit must be handed over by the person finding it to the Station Officer at the first available opportunity. The Station Officer will ensure that it is correctly labelled, and that the label, which should be permanently attached to the exhibit, will contain the following particulars:-

- (a) Charge Register No.
- (b) Name, address and occupation of accused.
- (c) Date and time of receipt by the Station Officer.
- (d) Where found.

5. All exhibits, labelled as above, will be placed in the room especially set aside for Court Exhibits in the Station. Only Court Exhibits will be kept in this room which will be kept locked. The key will be retained by the Station Officer.

6. Immediately an exhibit is placed in this room, an entry will be made in the Court Exhibits Register, which will contain the following particulars:-

- (a) Charge Register No.
- (b) Date and time of receipt by the Police.

number or other characteristic will be recorded in sufficient detail to identify the exhibit afterwards. Particular note will be taken of the condition of the object when found. If necessary, a sketch map should be drawn.

6. Immediately an exhibit is placed in this room, an entry will be made in the Court Exhibits Register, which will contain the following particulars:-

- (a) Charge Register No.
- (b) Date and Time of receipt by the Police.
- (c) From whom obtained. This will either be the name of the Police Officer who found the exhibit, or the name of the person who handed it over to the Police.
- (d) Full Description of Exhibit. Under this head will be inserted the colour, shape, pattern, or design, material or substance of the exhibit, and any engraving or inscription by which the exhibit may be identified. In the case of firearms, the maker's number, pattern, calibre and the condition of the weapon will be inserted.
- (e) Authority, Date and Disposal. Under this head will be noted the name of the Court ordering the disposal of the exhibit, the date of the Order, and the method of disposal, i.e. destroyed,

Returned to owner against receipt, or sold by public auction and proceeds of sale deposited with sub-accountant etc.

(f) Signature. The signature of the Court Official, owner or other person taking the exhibit will be recorded under this head. In cases where the destruction of the exhibit is ordered, the person so destroying it will sign in this column. (S.O.)

14. VEHICLES, POLICE W.D., CARE AND MAINTENANCE OF.

The care and maintenance of the Police Vehicles has been badly neglected. This must be remedied immediately. It is the duty of all Officers who have vehicles allocated to them, to make sure that drivers carry out the correct maintenance. The "Task System" must be enforced, a half hour a day is all that is required.

A.Bs. 412 and 406 must be kept up-to-date. It has been noticed that some drivers are not in possession of these books, and in some cases have not signed for the vehicle. All W.D. vehicles must have a Workshop and Section Inspection every month, the Section Inspection to take place 10 to 14 days after the Workshop Inspection. These inspections must be recorded in A.B. 406. Vehicles in out-stations which are maintained by other Units and inspected by them, will have these inspections entered by the Workshops concerned in A.B. 406. Only Workshop Inspection will be entered in A.B. 412, and not Section Inspection. The former inspections must always be signed by a Workshops Officer, or i/c Workshop Section.

3. Accident reports must be forwarded to "B" Garage B.M.A. as soon as possible in the case of an Accident. The estimates of repairs being carried out in other Workshops, caused by accidents, should be forwarded as soon as possible. The word "Accident" will be entered in the A.B. 412 in red ink.

4. Milages, Lubricants drawn, and Oil Changes will be entered in the space provided in the A.B. 412. In the case of a defective speedometer, milage should be obtained from the petrol consumption. Engine Oil Changes should be carried out every 1500 miles. Gear Boxes and Back Axles every 5000 miles. Correct Lubricants must be used, i.e.:-

Ford Engine M.220. Gear Box and Back Axle M.600.
Dodge Engine M.160. Gear Box M.600. Back Axle Hypoid.
Bedford Engine M.160. Gear Box and Back Axle M.600.

5. Grease G.S. must not be used for chassis lubrication or Battery Terminals, and drivers must have grease in their

that is required.

2. A.Bs. 412 and 406 must be kept up-to-date. It has been noticed that some drivers are not in possession of these books, and in some cases have not signed for the vehicle. All W.D. vehicles must have a Workshop and Section Inspection every month, the Section Inspection to take place 10 to 14 days after the Workshop Inspection. These inspections must be recorded in A.B. 406. Vehicles in out-stations which are maintained by other Units and inspected by them, will have these inspections entered by the Workshops concerned in A.B. 406. Only Workshop Inspection will be entered in A.B. 412, and not Section Inspection. The former Inspections must always be signed by a Workshops Officer, or i/c Workshop Section.

3. Accident reports must be forwarded to "B" Garage B.M.A. as soon as possible in the case of an Accident. The estimates of repairs being carried out in other Workshops, caused by accidents, should be forwarded as soon as possible. The word "Accident" will be entered in the A.B. 412 in red ink.

4. Milages, Lubricants drawn, and Oil Changes will be entered in the space provided in the A.B. 412. In the case of a defective speedometer, mileage should be obtained from the petrol consumption. Engine Oil Changes should be carried out every 1500 miles. Gear Boxes and Back Axles every 3000 miles. Correct Lubricants must be used, i.e.:-

Ford Engine M.220. Gear Box and Back Axle M.500.
Dodge Engine M.160. Gear Box M.600. Back Axle Hypoid.
Bedford Engine M.160. Gear Box and Back Axle M.600.

5. Grease G.S. must not be used for chassis lubrication or Battery Terminals, and drivers must have grease in their possession. Chassis will be lubricated with M.600; Battery Terminals with vaseline or Lanoline. If these are not obtainable, terminals will be left dry but free from corrosion.

6. It is essential that correct Tyre Pressures be maintained. All drivers will check their tyre pressures every morning.

7. It is recommended that:-

- (1) Vehicles be divided into Sections with a M.C.O. in charge of each section where possible.
- (11) A check be made on A.B. 412, the driver to sign for the tool kit and vehicle.
- (111) The Task System be brought into force, the first half hour of each morning to be allotted to the Task No. of that day.

4.

8. The Police have no pool of vehicles. Therefore when a vehicle is detained in Workshops over a period of days the Officer is deprived of his means of transport. The B.M.A. Garage is maintaining a large number of vehicles, and even if an Officer has arrived from an out-station he cannot assume that he will obtain priority. It is not always possible. Therefore surely it is to every Officer's personal benefit, as well as the smooth running of B.M.A., to make sure that the vehicles under his charge are well maintained. (S.O.)

Instructions have been received from the Director of Civilian Postal Services that mail despatched by Civilian employees of this Force will be paid for at Civilian Postal Rates- Ordinary surface mail, 5d per letter under 20zs.

At present there is no civilian air mail service, employees will continue to use the Military Rate of 10d per letter up to 10 grams.

40. TRANSPORT - POLICE WD.

(1) Difficulty is being experienced by the R.T.C. in maintaining the E.A.A. cars in the condition in which they should be, with the result that most E.D. vehicles are deteriorating considerably and will continue to deteriorate unless they have more frequent and regular overhauls. One of the difficulties experienced by the R.T.C. is that drivers and mechanics are not offered the time in which to maintain and repair the cars and this to a great extent is due to the fact that cars are being kept waiting for long hours outside the or other officers when the driver could be usefully employed at the garage overhauling them. Cases are recorded of cars especially asked for having been out all day and returning in the evening having done a very small mileage indeed (5 miles

is the low record so far) and the deduction to be drawn from this is that they have not been put to full use. Officers are therefore requested to ensure that V.D. vehicles allotted to them either permanently or temporarily are returned to the garage immediately the officers have no further use for them. Small adjustments can be made and no vice wasted. They can be sent for when required.

2. Another factor in the deterioration observable in cars is that the drivers change from time to time. The R.T.C. is doing his best to allocate to each driver his own car or other type of vehicle thereby giving the driver an incentive to keep his car in good condition. This object is defeated if officers ask for particular drivers by name. They must be content with the driver and car allocated to them. Yet a third reason for deterioration is that drivers are sometimes not permitted to drive themselves. The interest that the driver feels in his responsibility the car in good condition ceases as soon as someone else starts driving it. Officers therefore who are provided with cars and drivers should permit the driver to drive and not to do so themselves.

3. The above does not apply to the civilian cars in use by certain officers for their duties, but these too should be returned to the garage for inspection and maintenance at intervals of not less than a week.

Tripoli, except in agreed exceptional circumstances. Banker's Receipt for the amount credited to the account will be forwarded by the Paymaster to each B.I. or A.B.I.

BRITISH INSPECTORATE.

1. In view of the fact that Banking facilities are now available in Tripoli, all salaries of the British Inspectorate will be paid on the first day of each month to the credit of the personal account of each individual B.I. or A.B.I. at Barclays Bank S.D.C. & C. Tripoli, except in agreed exceptional circumstances. Banker's Receipt for the amount credited to the account will be forwarded by the Paymaster to each B.I. or A.B.I.

CIVILIAN, ITALIAN & ARAB PERSONNEL.

2. Rates of pay for all personnel of Police and Prisons have now been agreed by the D.C.F. & A. The approved rates of pay are as scheduled in the circular issued to all Police Formations by the Commissioner of Police, under reference PP5/1 dated 31 March 1943.

3. The practice of preparing the Pay Rolls from Weekly Casualty Returns rendered to the Paymaster will cease forthwith. Such procedure is contrary to S.O. No. 4. It is repeated that no increment of pay for promotion or allowances will be effective, and no stoppage of pay or fine will be effected until the printed copy of Force Orders has been published. The publishing date for Force Orders has been fixed for the 20th day of each month.

4. W.e.f. 1st July 1943 all Pay Rolls throughout the territory will be prepared by the Paymaster, in quadruplicate, and issued to the requisite Station Officer on the last day of each month, or at such time as will enable Paying

6.

Officers to commence payment on the first day of each month.

Upon receipt of the Pay Rolls, the Station Officer will present them to the S.C.A.O. or C.A.O. in his District, and obtain the total sum required to cover payment, against a temporary receipt.

Under no circumstances will encashment be effected unless each Pay Roll bears the authority of the Paymaster.

Upon receipt of the cash from the S.C.A.O. or the C.A.O. of his District, the Station Officer will then immediately pay the emoluments due to the personnel listed on each Pay Roll. When this has been completed, two copies of the Pay Roll will be handed back to the S.C.A.O. or C.A.O., duly signed by the Station Officer, for rendition by the former to the D.C.F & A. with his monthly accounts in the normal manner. The temporary receipt previously given by the Station Officer to the S.C.A.O. or the C.A.O. will then be handed back to the Station Officer, and destroyed.

It is to be noted that each copy of the Pay Roll will be endorsed by the Paying Officer "CERTIFIED PAID", and will be countersigned by the S.C.A.O. or the C.A.O.

One completed and certified copy of the Pay Roll will then immediately be forwarded to the Paymaster, and the remaining copy retained by the Provincial H.Q.

5. If, for reason of sickness, or prolonged absence from duty, an amount cannot be paid either to the person concerned, or to the authorised representative, the cash remaining in respect thereof will be returned to the S.C.A.O. or C.A.O., and the appropriate explanation annexed on the Pay Roll. The name of the person should be deleted, and the totals altered accordingly. Subsequent allocation for payment of any such amount should be made direct to the Paymaster. Where personnel are illiterate, their thumb-prints must be taken in lieu of a signature, and witness to the payments made by an Officer, on the Pay Roll.

6. In view of these amendments, B.O. Form No. 26, which relates to the rendition of Weekly Casualty Returns, will be amended by the deletion of the words "Copy to Paymaster, F.I.D." (S.C.O.).

85. PROSECUTIONS.

Reports have come to hand that some Police Officers are placing undue importance on petty offences and pressing for punishment in cases such as "being in unlawful possession of Italian military property, namely, a pair of trousers".

3. The intention here is not to discourage good police work, but merely to point out that large numbers of Libians are wearing articles of military clothing because shops have no stocks, or if they have them, the prices are beyond the reach of the average worker.

4. If a Police Officer finds a Libian in unlawful possession of Italian military clothing the clothing may be confiscated, but the wearer should not be prosecuted unless the offence is accompanied by aggravating circumstances. At a later stage when clothing becomes available in the shops at reasonable prices, it may be necessary to revise this instruction.

f) Numerous instances have occurred of letters occupying only
a few lines of the paper and the remainder of the sheet has
been left blank.

General.

1. (1) Too much importance cannot be attached to an effective system of day and night patrols. In the details of patrolling, much must necessarily be left to the zeal, intelligence, and tact of the Inspectors and H.C.Os in command of Police Stations and Posts, who must be guided by their available strength in personnel - the particular state and feature of their areas - the nature of the crime prevalent - the season of the year - and sundry other circumstances.

(11) Officers i/c Districts are to exercise a vigilant and careful supervision over the patrolling arrangements in their Districts, and should ensure that the instructions contained herein are strictly observed. Although the instructions do not purport to be a complete set of orders upon this important subject, they contain orders which cannot be neglected if the duty is to be efficiently performed.

74. PATROLS.

General.

1. (1) Too much importance cannot be attached to an effective system of day and night patrols. In the details of patrolling, much must necessarily be left to the zeal, intelligence, and tact of the Inspectors and N.C.Os in command of Police Stations and Posts, who must be guided by their available strength in personnel - the particular state and feature of their areas - the nature of the crime prevalent - the season of the year - and sundry other circumstances.

(11) Officers i/c Districts are to exercise a vigilant and careful supervision over the patrolling arrangements in their Districts, and should ensure that the instructions contained herein are strictly observed. Although the instructions do not purport to be a complete set of orders upon this important subject, they contain orders which cannot be neglected if the duty is to be efficiently performed.

(111) Every patrol should have a leading idea, when going on duty, which should be fully explained to the personnel composing it. It should always be remembered that the objects to be kept in view are the prevention and detection of crime, the protection of life and property, and the preservation of the peace. The circumstances of each locality should suggest to the Inspector or N.C.O. in charge of a Station or Outpost the particular idea and aim which ought to guide the arrangements when a patrol is being sent out. No patrol should be sent on duty without instructions, having for their object the carrying into effect of some good Police work.

Local Knowledge.

(1V) It is the duty of an I.S.C. to see that each member of the Force in his District becomes personally acquainted with the inhabitants of the area in which he is stationed in the shortest possible time. It is of the utmost importance that members of the Force should acquire perfect local knowledge of the towns, villages, dwelling houses, roads, trams etc. With this object in view, a member of the Force who has recently joined a station or outpost, should occasionally be

... on day-patrol by another member who knows the area well. A.S.P.s will take every opportunity of testing the local knowledge of all ranks under their command.

(V) A sketch-map of the District area, showing the Police Stations and Posts and boundaries of the District, should be hung up in the Charge Office of each Station and Post.

Variation.

(VI) In a good patrol system it is necessary that hours when patrols are sent out and the length of time they remain on duty should constantly be varied. Short and frequent patrols will sometimes be found more effective than patrols of several hours' duration with long intervals between them. No matter how perfect the arrangements for patrolling may appear, if continued systematically for any length of time, persons accustomed to committing crime soon become acquainted with them and frame their plans accordingly. Inspectors and A.S.P.s i/c Stations and Posts should, therefore, adopt new expedients for patrolling from time to time.

Combination and Co-operation.

(VII) It is important there should not only be established well understood combination of the patrols within the same District, but plans of co-operation should be made between A.S.P.s of adjoining Districts within the Province, and even with Districts in other Provinces.

Instructions to Patrols.

(VIII) As regards direction, the Officer, I.C.O., or constable in charge should observe the strictest secrecy. If the Inspector or A.S.P. in charge of a Station or Outpost is in command of the patrol himself, he should communicate to no one the direction of the patrol, but leave with the Station Orderly a letter in a sealed envelope stating the route to be taken by the patrol, in case an inspecting Officer wishes to inspect the patrol, or it becomes necessary to recall the party.

Day-Patrols.

(IX) Day-patrols are to be performed effectively and at irregular hours, and it is the duty of the Station Officer or A.S.P. in charge of an outpost to keep patrols moving through their areas and mixing with the inhabitants. It should be remembered that day-patrols afford one of the best opportunities of acquiring local knowledge. Contact men should, on the occasion of their visit, discuss with the object of

missions of committing crime soon become acquainted with their
and frame their plans accordingly. Inspectors and I.C.O.s
i/c Stations and Posts should, therefore, adopt new expedient
for patrolling from time to time.

Combination and Co-operation.

(VII) It is important there should not only be establish-
ed well understood combination of the patrols within the sa-
District, but also of co-operation should be made between
I.S.F.s of adjoining Districts within the Province, and even
with Districts in other Provinces.

Instructions to Patrols.

(VIII) As regards direction, the Officer, I.C.O., or
constable in charge should observe the strictest secrecy. If
the Inspector or I.C.O. in charge of a Station or Outpost
is in command of the patrol himself, he should communicate
to no one the direction of the patrol, but leave with the
Station Officer a letter in a sealed envelope stating the
route to be taken by the patrol, in case an inspecting Officer
wishes to inspect the patrol, or if it becomes necessary to
recall the party.

Day-Patrols.

(IX) Day-patrols are to be performed effectively and at
irregular hours, and it is the duty of the Station Officer
or I.C.O. in charge of an outpost to keep patrols moving
through their areas and mixing with the inhabitants. It
should be remembered that day-patrols afford one of the best
opportunities of acquiring local knowledge. Counted men
should, on the occasion of officers, discount with the object of
speaking to the inhabitants and acquiring their knowledge.

Night-Patrols.

(X) Night-patrol should never consist of less than
two men. Such patrols should not move in close order, but
open out, walking on both sides of the road, not abreast. If
of more than two men, they should keep from 5 to 12 paces
distance from one another, according to the darkness of the
night.

Classes of Patrols.

(XI) Patrols in rural areas may be divided in to four
classes:-

- (1) ordinary
- (2) ambush
- (3) special

(4) conference.

Ordinary Patrols.

(XIII) Ordinary patrols are those sent out by the Station Officers or I.C.O.s of posts, in fact, is to time and direction, be left to them for arrangement. The Inspectors or I.C.O.s should see that patrols go out at all hours and in all directions.

Am bush Patrols.

(XIII) Instead of confining themselves to the high roads, patrols should frequently traverse the fields and hills, and conceal themselves near localities favourable to the detection of offenders, remembering that it is not by the number of miles marched, but by the manner in which Police have been employed, that the efficiency of a patrol is to be estimated. When while in ambush should observe the strictest silence. When conversation must necessarily be carried out, it should be in whisper. Sacking must be strictly forbidden.

Special Patrols.

(XIV) Special patrols are sent to protect persons and property in particular places. They should endeavour to cover as large a circle as possible in going to and returning from place of ambush near the dwellings of persons to be protected. They should, when practicable, proceed by different routes. It is by and return to, their stations by different routes. It is by living in ambush near houses exposed to attack - houses, for example, occupied by persons who are supposed to be conspicuous - from any cause, to the disaffected in the neighbourhood - that patrols may expect successful results. It may also be desirable for patrols to place themselves unobserved in view of dwellings occupied by dangerous characters, whose movements may be watched during the night with great advantage. It is advisable, when voices or footsteps are heard, that the patrol should secret themselves until, by a nearer approach of the party, it can be ascertained who they are.

Conference Patrols.

(XV) A.S.P.s should arrange inter-District conference patrols for the purpose of affording suitable opportunities to Inspectors, I.C.O.s and constables of adjoining Districts to confer with one another as regards to the state of their Districts, and the methods best adopted to the particular localities concerned for the preservation of the peace. Inspectors and Inspectors i/c Stations

the number of miles marched, but by the manner in which Police have been employed, that the efficiency of a patrol is to be estimated. Men while in ambush should observe the strictest silence. When conversation must necessarily be carried out, it should be in whisper. Smoking must be strictly forbidden.

Special Patrols.

(XIV) Special patrols are sent to protect persons and property in particular places. They should endeavour to cover as large a circle as possible in going to and returning from place of ambush near the dwellings of persons to be protected. They should, when practicable, proceed from and return to, their stations by different routes. It is by lying in ambush near houses exposed to attack - houses, for example, occupied by persons who are supposed to be criminals - from any cause, to the disaffected in the neighbourhood - that patrols may expect successful results. It may also be desirable for patrols to place themselves unobserved in view of dwellings occupied by dangerous characters, whose movements may be watched during the night with great advantage. It is advisable, when voices or footsteps are heard, that the patrol should secret themselves until, by a nearer approach of the party, it can be ascertained who they are.

Conference Patrols.

(XV) A.S.P.s should arrange inter-District conference patrols for the purpose of affording suitable opportunities to Inspectors, M.C.O.s and constables of adjoining Districts to confer with one another as regards to the state of their Districts, and the methods best adopted to the particular localities concerned for the preservation of peace. A.S.P.s concerned and Inspectors i/c Stations will attend all such conferences. When the A.S.P.s and/or the Station Officers are prevented from attending these conferences, they should be represented by their next senior officer. The meeting place of such patrols should be varied as much as possible. It will be sufficient for A.S.P.s to arrange for one inter-District patrol each month.

Visits to Houses of Suspects.

(XVI) When a serious crime is reported at a Station, it becomes the duty of every Officer and M.C.O. in the District where the offence was perpetrated, and neighbouring Districts, to take action with a view to ascertaining whether any of the suspects likely to commit ²⁴⁷³ it are in question were away from home at the time and, if so, where they were.

Patrol Duty.

(XVIII) The portion of town to be patrolled by each constable is termed his "patrol area". During his tour of duty he is accountable for the order and regularity of the streets, the preservation of the peace and the protection of life and property within that area. He should not confine his attention to the principal streets, but should visit all the lanes and alleys within his area. He should not loiter or gossip, but should work his area continuously and regularly, not leaving it unnecessarily until he is relieved at the appointed time.

Peace Officers.

(XIX) Personnel on fixed beats are posted chiefly for traffic control - the personnel so posted must always be observant and on the alert.

Expenditures.

(XX) It should be remembered most difficult for any one to guess the hour of departure or direction of any patrol. When a station is watched, it may sometimes be expedient to send out a false patrol, which, after remaining out a sufficient time, will return to the Station openly. While the real patrol will afterwards proceed as secretly as possible. In disturbed areas, crime is often committed shortly after Police have been seen to leave the locality. The unexpected arrival of a second patrol to the same locality will usually prove most effective.

Supervision.

(XXI) Oficers i/c Districts will satisfy themselves by personal enquiry that the act of patrolling in the different beats of their Districts are to be suitably suited to the necessities of each locality, and that the action of officers is in accordance with the interests of the community adopted.

Nothing can be more salutary effect upon the personnel of District than to find that the officer is always taking an active part in this important duty.

(1) If for any reason, however, a patrol or force, the police officer in charge of the patrol will, before obtaining the food or forage, inform to the Chief or Shiekh of the tribe that the police is to purchase food or forage.

(IV) As it is against the customs of the tribes to accept payment for food or forage from patrols who visit them, care must be taken to explain that no insult is intended, but that the administration has found it necessary to issue this order. If the Chief or Shiekh declines to accept payment for the food or forage, the patrol must move on to the next village. If the Chief or Shiekh agrees to accept payment, the patrol must move on to the next village at the time, and must not return to the village of the tribe.

(V) Police personnel may accept coffee from villagers or tribesmen, but must on no account accept any other form of hospitality.

(VI) It is realized that, at first, the refusal to accept hospitality from the tribes may be misunderstood by them. If, however, it is carefully explained to the tribes that there is nothing personal in the refusal, but that it is an order emanating from the Administration, it will not affect the relations between the police and the native public.

Patrols, organization of the patrol.

(1) The intention of the concerned is directed to the importance of ensuring that road patrols are carried out in an intelligent manner.

(i) As a general rule, patrols should cover the main roads between the hours of 4 P.M. to 10 P.M.

(ii) The most likely places for hold-ups must be given special attention and, with this object in view, patrols should be instructed to double-back frequently, and not to move from the starting point to the terminal point and return.

(iii) It is essential that patrols should move slowly and with caution, and in a random manner, so that there is no fixed view of the road, vehicles and people.

(iv) Officers and Inspectors will be every on the alert for any signs of trouble, and will ensure that, in all cases where no officer or inspector is present, an S.O. or other of comparable is definitely available to take charge of the patrol.

BAIL, GRANTING OF BY POLICE.

1. British Courts. In cases which fall within the jurisdiction of British Military Courts bail may be granted or sureties accepted by Police in lieu of the detention of an accused person. It should, however, be carefully noted that the powers of Police in respect of bail are strictly confined to cases where arrest has been made without a warrant and the accused has not yet appeared before a Magistrate.

2. A prisoner arrested on a warrant, and who wishes bail must be taken before a Magistrate as soon as possible.

3. The granting of bail should be resorted to in petty cases only, and never in serious cases such as murder, arson, rape, theft or other cases where the penalty of imprisonment without the option of a fine can be imposed.

4. Where bail is granted by Police the following procedure will be adopted:-

(a) The official police form will be used and a convenient date for the appearance of the accused person before a court will be inserted thereon.

(c) On the bail money being fixed and paid the bail bond will be completed in duplicate in the top section only. No more than £25 should be accepted by the Police in cash.

2460

2.

The Amount of bail will differ in individual cases and should be of such an amount as the Station Officer considers will ensure the attendance of the accused, but not so great as to make it impossible for the accused to find the money.

(c) The original form will be retained in the bail bond file and the duplicate will be handed as a receipt to the accused who must be warned to retain it in his possession and to present it at the court on the date of appearance.

(d) If the investigations have not been completed on the date the Court will be asked to extend the grant of bail for such further time as is considered necessary.

(e) Should the accused be unable to produce the total sum of bail money required he may then call upon one or two guarantors to bind themselves in the sum fixed against his appearance. Care will be taken to ensure that the sureties offered are persons of substance and in every way suitable therefor. Sureties accepted by Police should be limited to £50 each. In all cases it is preferable to accept sureties rather than actual money.

(f) Should part or whole of the money or surety be volunteered by guarantors the lower half of the bail form will be completed.

5. When the accused person duly appears the bail money will be refunded and the duplicate form be recovered and passed to the original to complete the records. The return of the duplicate serves as a receipt. If sureties have been accepted, they will be released from their bond in the same way.

6. If the accused fails to appear on the date due the Court will be informed that money or sureties have been accepted by Police and service of the notice to appear proved. The Court will then be asked for directions; A minute on the directions of the Court will be recorded in the C.R.

7. If bail money is actually in the possession of the police and the Court orders it to be endorsed a receipt will be obtained from the Clerk of the Court and affixed to the duplicate copy of the bail form.

8. A prisoner charged with a bailable offence must be informed that he can be released on bail, or allowed his liberty on his own recognisance when this is practicable.

(e) Should the accused be unable to produce the total sum of bail money required he may then call upon one or two guarantors to bind themselves in the sum fixed against his appearance. 6. If the accused fails to appear on the date due the Court will be informed that money or sureties have been accepted by Police and service of the notice to appear proved. The Court will then be asked for directions; A minute on the directions of the Court will be recorded in the C.R.

7. If bail money is actually in the possession of the police and the Court orders it to be estrusted a receipt will be obtained from the Clerk of the Court and affixed to the duplicate copy of the bail form.

8. A prisoner charged with a bailable offence must be informed that he can be released on bail, or allowed his liberty on his own recognisance when this is practicable.

9. When a person who has been admitted to bail fails to appear at Court, the Magistrate may order the bail estrusted in which case the accused is still liable for the offence for which the bail was granted.

10. ITALIAN COURTS. (a) No person found in the act of committing an offence against the statute (Arts. 241-313 of the Italian Penal Code), or an act made punishable by imprisonment for more than 12 months by law may be released by the Police. In the same way, no person who is considered dangerous, such as an habitual criminal

and who is caught in the act of committing an offence punishable by imprisonment for any duration, may be released. Such persons must be detained and a report of the arrest sent to the Italian Courts within 24 hours.

(b) In other cases, the Police may release an accused person "a piede libero". No bail money may be asked or surety demanded. The accused is merely released and the Italian Courts notified that this has been done when the report (Processo Verbale) is sent. If the Procuratore del Re so desires, he will then issue a warrant for arrest (Ordine di Cattura) for execution. In other cases, the accused will be warned to appear at his trial by the court.

(c) In using their discretion in cases falling within Para. (b) hereof, the Police will bear in mind the possibility of escape of the accused, and whether he is likely to answer a summons, or has a fixed place of abode.

(d) The expression "caught in the act" in Italian Law includes cases where an accused person is found in possession of articles, or is found in circumstances which directly link him up with an offence already committed.
