AMFA will be prepared from time to time to pay over A.M. lire when available to Army and Navy Finance and Disbursing Officers, including Central Funding Officers against a receipt or voucher of the officer or officers designated for this purpose by the Chief Finance Officer AFHQ and the appropriate Navy Finance Officer. AMFA will then send an advice to War and Navy Departments giving the name of the officer to whom the lire are paid, his symbol number and the amount and date of the lire transfer. Such officers will be fully accountable to their respective departments and not to AMFA for lire so paid. Comparable procedure will be followed with BRITISH Military Forces. AMFA will not receive dollars or sterling for such lire payments but will charge them to an account on its books relating to occupation costs.

Please confirm if this procedure is satisfactory and if not, indicate other procedure you desire to be followed.

Message from USFOR states our recommended awards (CITE NAGAP) to British officers being cleared with British Government. Your 8643 states that French awards not yet approved by President. Presentation simultaneously to British, French, and US officers is only gracious way. Transfers and new assignments make it most desirable that this be accomplished as soon as feasible. Request clearance and approvals be expedited as may be politic.

RE: PORTUGAL MATTER 112(1728) OF 16 JUNE

VERY ANNOYING THAT NOT LONG AGO WE RECEIVED SIX OFFICERS WHO WERE
OFFICERS WITH THEIR IDENTIFICATION ABOUT TO TAKE A LEAVE WITH THEIR RESERVE POSITION
WHICH WAS THEIR LAST. TWO OF THEM HAD BEEN FOR 24 YEARS AND THE OTHERS
THREE YEARS. WE HAD BEEN TOLD THAT THEY WERE LEAVING FOR THE
TWO. I AM SURE YOU WILL BE INTERESTED IN THIS MATTER. WE HAD
ALSO BEEN TOLD THAT THEY WERE LEAVING FOR THE TWO. I AM SURE
EMPLOYED IN THE. CAN ALSO GIVE THEM THE FIRST CLASS TRAINING AND
EXPERIENCE. PREVIOUSLY REFERRED BUT DENIED.
THANK. I AM SURE IMMEDIATELY WHETHER SIX OFFICERS WOULD BE RELEASED AND
SOMEONE WOULD BE RELEASED. SUGGEST THAT RIGHT SOLUTION IS THAT I HAD
TWO OF THE OFFICERS. I AM SURE THEY WOULD BE RELEASED IN TWO ABOVE.

Civil requirements are determined by AMEOT Force 141. Reference your L 4541 May 21st. They are then coordinated in AFHQ. Except for coal which is handled as military problem only requirements so far are those covered in cable W 967 to AGIAR for CCS not to SOS NATO of 20th May. This was not a bid for space on convoys but estimated of probable needs. When needs are firmer allocations of space will be made by AFHQ and definite shipping instructions issued after coordination with SOS NATO. Cable W 967 answered FORTUNE 92 April 31 13th and FORTUNE 198 of 10th May.

The President has expressed the following views on Psychological Warfare for HUSKY. The Prime Minister concurs: reference your telegram of 17 May on the subject.

"Most certainly we cannot tell the Italians that if they cease hostilities they will have a peace with honor. We cannot get away from unconditional surrender. All we can tell them is that they will be treated by us and the British with humanity and with the intention that the Italian people be reconstituted into a nation in accordance with the principles of self-determination. This letter should, of course, not include any form of fascism or Dictatorship."

Accordingly, the existing approved statement of policy, transmitted in our FORTUNE 111 of April 16, will be adhered to in your planning for Psychological Warfare.

To avoid further confusion such as arose about our recent French broadcast, we send you herewith the main line along which, as approved by Allied Commander in Chief, Psychological Warfare is being conducted in this area.

1. The propaganda themes for Psychological Warfare against Italy are in full accord with the plan for Political Warfare brought by Grossman.
2. Algiers radio will keep precisely in line with the leaflet series, which are being composed in accordance with the phase plan below. Indeed, these Italian leaflets will form the basic directive for the campaign. To assure better coordination we will cable you summaries of the leaflets with the dates on which the drops commence.
3. Propaganda emanating from Algiers believed by the enemy to be directly inspired by AFHQ. For this reason slight divergencies between the Algiers radio line and that of London and New York may prove an extremely useful form of strategic conception. The divergence over French which you recently pointed out, may have been noticed by the enemy also.
4. However, we realize in this instance the interests of strategy and politics conflicted and will seek in future to avoid the danger you point out.
5. Our phase plan combines, both in timing and content, psychological warfare with strategic deception. This combination, for reasons given above, is only possible to propaganda from North Africa.
6. The plan envisages three phases. Phase 1-in this phase, now concluded, propaganda concentrated on the first theme of the PWE Italian plan. In accordance with the strategic conception plan the attempt was made to create the impression that the propaganda had reached its climax only to ebb away.

Phases 2- the propaganda ebbs from a high intensity in phase one. The peace theme is expanded in the form of reasoned argument. b This phase is a propaganda lull. Phase 3- propaganda tempo gradually increases to the intensity of phase one. Fear themes, as in phase one, but coupled with all the peace with honor material which official declarations allow. During this phase, in accordance with PVE Italian Plan, the propaganda target will be the Italian Army, the people with the weapons in their hands.

- 7. During this phase the deception plan will be as in phase one..
- 8. Would you let us have your comments on this plan and also your own phase plan as soon as possible

Estimate of Civil Supplies essential to HORRIFIED reference
FORTUNE 198, May 10th.

1. FOOD. Estimated based upon 4 assumptions: (1) During the 90 day period following D day, although there should be adequate food stocks in the area as a whole, they may be unavailable to city populations due to breakdown of transport. (2) Consequently failure of normal rural supply may be expected in 3 large urban areas, MALICIOUS, FUSTIAN and GUNMETAL. Total population of these areas, 750,000 of which perhaps 500,000 will remain. (3) Provision should be made for maintaining this 500,000 for at least the 30 day period following occupation of each city, at the end of which time contact should be reestablished with normal rural sources of supply. (4) The ports of FUSTIAN, and MALICIOUS will be open on D plus 30 and D plus 60 respectively and that of GUNMETAL can be supplied thru FUSTIAN by D plus 45. These dates are not based on a Military tactical timetable, but are assumed for civilian supply planning purposes only.

Based on para 1 (3) and on present 29 ounce ration, which appears low in comparison with ration scale Finance, and present distribution of ration between basic commodities, required food supplies amount to 12,100 short tons broken down as follows: flour 8,000; milk (14 1/2 ounce cans) 1,200; potatoes 2,000; meat (28 ounces cans) 500; sugar 400. The following quantities are needed as follows: for FUSTIAN at D plus 30: flour 2,000, milk 300, potatoes 500; meat 125, sugar 100. Same amounts at D plus 45 for FUSTIAN. Same for MALICIOUS at D plus 60 and repeated MALICIOUS D plus 75.

These are not bids for shipping space on convoys, but are estimates of probable needs only. When the situation clarifies, a military time table is agreed upon, and the military needs are firmer arrangements for the allocation of ship tonnage will be made by AFHQ

and definite shipping instructions will be forth coming.

Above figures are desired quantities and destinations irrespective of source of supply. From point of view of handling in HORRIFIED, it is preferable that each of above 3,000 ton shipments be loaded on a single ship from a single source, presumable USA. However, flour and potatoes could be supplies from current ALGERIAN production, and milk, meat, and sugar shipped from USA to ALGERIA for onward shipment to HORRIFIED. In that case, dates given above should be advanced 30 days for arrival in NORTH AFRICA.

Markings should include word AMQOT and code number of port of destination, also distinctive color marking.

2 MEDICAL SUPPLIES. Our 8971 TROOPERS AGWAR 3rd May and reply from TROOPERS 76834 Q (OPS) 2 May 6. Medical requirements for 5/18's of estimated population total 34 priority A drug units weighing approximately 80 tons. Required for arrival D plus 30 for FUSTIAN area. Source of supply presumable USA. Units described in reports in possession State Department Office of Foreign Relief. Markings same as indicated under food.

3. COAL AND CHARCOAL. Requirements for 90 day period covering essential civilian needs, including utilities, will be included in Military requirements.

4. PETROLEUM PRODUCTS. Requirements for essential civilian purposes will be included in military requirements.

5. ENGINEERS SUPPLIES. Requirements include items deemed essential for emergency reestablishment of utilities for military requirements. These will be included in Engineers supplies estimates. Reference your FORTUNE 92. Your assumption correct that such emergency reestablishment will be undertaken by Military, using troops. Plans do not provide for early repair or replacement of utility installations other than those essential for military requirements. Supplies for this purpose will be requisitioned on basis of actual survey.

6. CLOTHES. It is estimated that it will not be necessary to supply clothes to civilian population during 90 day period. Later requirements will be determined on basis of survey.

I do not believe there is any substantial difference in the views as to matter referred paragraph 2 your FORTUNE 217. (FOR MARSHALL CITE CIVIL AFFAIRS FROM EISENHOWER CITE AMJOT). According to directions contained your FORTUNE 101, I included following paragraph in my order creating AMJOT:

"During the assault and initial phases of any operation in which AMJOT is concerned, AMJOT Personnel assigned to task forces will operate as staff officers of their commanders. Tactical commanders shall have final responsibility and authority; provided however, that an administrative line of communication directly from the Chief Civil Affairs Officer to local Military Administrators may be established and authority delegated to such administrators at the discretion of the GOC, Force 141."

Agree entirely that final responsibility and authority over civilian population is inherent in the tactical command. However following factors must be borne in mind:

1. The organization for military administration of the territory is one that will remain after the capture of the island and the task force organization has changed to that of a garrison. This phase will continue the peace treaty or recognition of some ITALIAN GOVERNMENT.
2. No central authority now exists in the territory, the provincial governments being separately responsible to the National Capital. Uniformity and efficiency require that there be a central authority for Military Government.
3. As the existing administrative framework will not be replaced the machinery for military government should be built on present administrative divisions and following provincial or territorial lines. This may or may not correspond to the disposition of the tactical commands

in the area. Districts in the interior where no troops will be stationed will have to be administered.

4. The foregoing reasons, even in the 1st phase, there should be an administrative line of communication on subjects with which the local commander would not wish to be distracted from the military governor or his deputy to the local military administrator, as proposed in your FORTUNE 101. In the later phase good administration and economy of effort and personnel may make it desirable to centralize lines of authority in a similar manner under the military governor. The question has no immediate application, but if and when it does arise I wish to be free to consider it in the light of conditions then existing. Any decision then made would, of course, have due regard to the accepted principle of final responsibility of the tactical commander.
