1. Ballast for ballast year 50055. On 5 July 10 being taken up as priority consideration and arrived AUGOT headquarters in BERNARD. Decision on export as ballast depends on factors not determinable before survey.

2. Considerations are

- (a) need of ships for ballast
- (b) time and facilities available for loading
- (c) whether industry will be satisfied in view of possible new export needs for labor, coal, etc.
- (d) saving in shipping to be effected by supplying Middle East, North Africa and the Soviet

and (e) urgency of need of oil in above areas.

3. Request for 2 (d) (e). Request consultation with Combined Raw Materials and Shipping Boards.

4. Requesting 1957 and 1958 oil and coal needs for 1957 and 1958, although allocation presumably must come from 1957. Request similar information for 1958.
