CAIT. PROV/20

PROVINCE OF CALTANISSETTA,

SUBJECT:- MONTHLY REPORT ON THE STATE
OF THE PROVINCE.

October, 1943.

TO:- AMGOT HEADQUARTERS, PALERMO.

Monthly Report of Caltanissetta Province follows below :-

1. MORALE OF POPULATION.- Good. The fact that Sicily is liberated, and that the liberation of Italy has begun has had a tonic effect. This, however, will not last unless the acute fuel and shoe shortage is remedied before really cold wet weather sets in; also a firm policy on clothing and housing is necessary. Former clothes rationing system should be continued. In view of the law-abiding spirit of the Province as a whole, the Curfew has been lifted.
2. POLITICAL TENDENCIES.- General trend is Anti-Nazi; but it is interesting to note how former powerful Fascist party members are trying to retain their hold by ingratiating themselves with Military Government Agencies, and by effecting a reconciliation with the Church in some cases. Further the so-called "Democratic Party" is well-staffed by young and presumably well-indoctrinated Fascists.
3. REMOVAL OF OFFICIALS.- The Sindaco of Niscemi was removed for incompetency. The Vice-Sindaco of San Caterina is in custody, charged with theft of AMGOT Medical Supplies.
4. GENERAL STATE OF CRIME.- The crime situation through the Province continues to be fairly satisfactory. No particular heavy crime has been reported, and, apart from the usual reports of pilfering, everything is under control. Towards the end of the month a small demonstration took place in the Comune of Reisi, in which 21 persons were arrested. This demonstration was caused through unemployment in the Sulphur Mines. Although this affair was on a small scale, it is possible that there may be larger ones, and a strict vigilance is being kept.
5. LEGAL.- Captain A.C.J. German was relieved of his assignment, and succeeded by Major A.C. Wright, who also operates in Enna Province.
6. CARABINIERI AND OTHER POLICE.- Reports show that these Forces are doing good work and are co-operating satisfactorily.
7. CURRENCY, SOCIAL INSURANCE, TAXES, ETC.- Plenty currency in the hands of the people. It is for consideration whether provision should not be made for the withdrawal of worn and mutilated currency. The Banks have been opened under General Order No. 6 for limited withdrawals. At the end of the month new deposits exceeded withdrawals. As far as can be ascertained there was no rush to withdraw deposits. Some of the Smaller Banks have not yet opened. Consideration will have to be given to Agricultural Credits; many loans cannot be liquidated. Social Insurance is beginning to function again, and Relief Rolls are being checked for duplication.

- "Democratic Party" is well-staffed by young and presumably well-indoctrinated Fascists.
3. REMOVAL OF OFFICIALS.- The Sindaco of Niscemi was removed for incompetency. The Vice-Sindaco of San Caterina is in custody, charged with theft of AMOCT Medical Supplies.
4. GENERAL STATE OF CRIME.- The crime situation through the Province continues to be fairly satisfactory. No particular heavy crime has been reported, and, apart from the usual reports of pilfering, everything is under control. Towards the end of the month a small demonstration took place in the Comune of Reisi, in which 21 persons were arrested. This demonstration was caused through unemployment in the Sulphur Mines. Although this affair was on a small scale, it is possible that there may be larger ones, and a strict vigilance is being kept.
5. LEGAL.- Captain A.C.J. German was relieved of his assignment, and succeeded by Major A.C. Wright, who also operates in Enna Province.
6. CARABINIERI AND OTHER POLICE.- Reports show that these Forces are doing good work and are co-operating satisfactorily.
7. CURRENCY, SOCIAL INSURANCE, TAXES, ETC.- Plenty currency in the hands of the people. It is for consideration whether provision should not be made for the withdrawal of worn and mutilated currency. The Banks have been opened under General Order No. 6 for limited withdrawals. At the end of the month new deposits exceeded withdrawals. As far as can be ascertained there was no rush to withdraw deposits. Some of the Smaller Banks have not yet opened. Consideration will have to be given to Agricultural Credits; many loans cannot be liquidated. Social Insurance is beginning to function again, and Relief Rolls are being checked for duplication.
8. WAGES AND PRICES.- There is an upward tendency despite the published lists. The prices listed fail to bring forward supplies. There has been a strong demand for increases in wages, especially from Government Employees and "Black-coated" Workers.
9. RELIEF.- The continued unemployment of miners is still a problem, and the relief load is quite heavy. All relief is now through E.C.A. and the cost is about 11-12 lire.
10. RAW MATERIALS AND CROPS.- The grain situation in the Province is not satisfactory. The province is at present short of 40-50,000 quintali of grain that has not been amassed. Steps are in hand to round-up defaulters, and it is hoped that the campaign will bear fruit. Supplies have been allocated to the Provinces of Ragusa, Syracuse, Catania and Palermo amounting in all to about 48,000 quintali. It should be noted that this is theutmost quantity that can be spared.

(page 2)

12. BREAD AND PASTA.- The ration in this Province has been changed. Bread has been reduced from 300 grams to 250, and Pasta from 40 to 85 grams. This change has been welcomed by the people.
13. VEGETABLES.- There is a marked shortage of green vegetables. This is probably due to the lateness of rains. Now that rain has come the situation should improve.
14. WATER.- Towards the end of the month the water supply was very critical - many bursts having taken place. Steps were immediately taken to make good the damage. Italian personnel were employed and their co-operation was very satisfactory. The pipe line between Landro and Villalbo has been repaired and a supply is now available. The line from Villalbo to Musumeli is now in good condition and the quantity of water being delivered is as much as has ever been supplied. The water line called "Geracello" has been underrepair for some time; the repairs have now been completed and water will be laid on in the course of a few days.
15. ELECTRICITY.- Difficulty is being experienced in endeavouring to supply the whole Province from the electricity available. A schedule has been compiled by the Public Works Department showing the distribution for essential purposes. Two generators which were located in a disused Mine have been put into commission in the Trabia Mine which it is hoped will help to solve some of the difficulties.
16. EDUCATION.- An Advisory Council of three men, one selected by the S.C.A.O., one by the Prefecture, and one by the Provviditore has been formed to advise the S.C.A.O. on all matters of Provincial Education Policy. School Buildings are being evacuated by refugees and troops so as to get them ready for the school year. Text Books are being studied for elimination of fascist doctrine. Examinations for students and competitive examinations for teachers are being held this month. Schools will be ready to open on 1st December.
17. AIR RAID PRECAUTIONS.- Generally speaking no Organisation exists, and little or nothing is being done.
18. FINE ARTS AND MONUMENTS.- A Corporal has been attached to this Headquarters. He is at present engaged in making a survey and a Report will be rendered next month.

D. R. H.

May I have your comments on 13-224
Please? Would an interview as suggested
in last para of 24 be advisable?

To: SQ/115 Pickens - C. R. R. 22.10.

1. No useful purpose would be served by an interview with Barone Guido de Paredes this directorate. It may be desirable for the R.C.A.O., Region 1, to interview him and it is suggested that this document be sent to him for disposition as he sees fit.
2. This directorate is in full accord with the action of the S.C.A.O. with regard to furnishing medical attention for this "forgotten" community.

Calt Prov/3

atifundia: Favorata-Palombara

HQRS. AMGOT.

Reference to the attached letter from GUIDO DE PACE. I visited this estate on the 13th of October, 1943.

The community is entirely isolated and can only be approached across the hills and fields by mule track in good weather.

The owner Barone Guido De Pace, who prefers to be known as Signore Guido De Pace is the last survivor of his family. Until his father and brother died he had lived in high society in the various Capitals of Europe. He is 41 years of age.

Prior to the brother's death, the estate was let to a tenant but for the past three years De Pace has been running the property himself living in bachelor quarters on his farm. He appears to be taking a genuine interest in improving the lot of the inhabitants but is hampered by the great cost of transport of materials.

To overcome this difficulty De Pace is urging that agreements made years ago be implemented.

With regard to the absence of Spiritual and Medical Aid, I have issued a direct order to the Sindaco of Santa Caterina, in whose Commune Palombara is, to arrange for the visit of a Doctor once a week. Taxes are paid, no services whatsoever have been given. I visited many of the houses. The living conditions can only be regarded as beastly. In fact the farm stables are more commodious and better lighted than the majority of the houses. I saw two very sick men and a child with a bad mastoid.

The visit was most interesting as it brought to light a new aspect of life on this island. It is doubtful whether there is another place so isolated but possibly conditions are no better on some fief estates where the owners are less enlightened.

Increasing population militates against an improvement of conditions. In the last twenty years the population has increased by more than one-hundred. There has been no urge for the young people to migrate to the town.

the owner Barone Guido De Pace, who prefers to be known as Signore Guido De Pace is the last survivor of his family. Until his father and brother died he had lived in high society in the various Capitals of Europe. He is 41 years of age.

Prior to the brother's death, the estate was let to a tenant but for the past three years De Pace has been running the property himself living in bachelor quarters on his farm. He appears to be taking a genuine interest in improving the lot of the inhabitants but is hampered by the great cost of transport of materials.

To overcome this difficulty De Pace is urging that agreements made years ago be implemented.

With regard to the absence of Spiritual and Medical Aid, I have issued a direct order to the Sindaco of Santa Caterina, in whose Commune Palombara is, to arrange for the visit of a Doctor once a week at Communal expense and also of a Priest once a week. Though Communal Taxes are paid, no services whatsoever have been given. I visited many of the houses. The living conditions can only be regarded as beastly. In fact the farm stables are more commodious and better lighted than the majority of the houses. I saw two very sick men and a child with a bad mastoid.

The visit was most interesting as it brought to light a new aspect of life on this island. It is doubtful whether there is another place so isolated but possibly conditions are no better on some fendel estates where the owners are less enlightened.

Increasing population militates against an improvement of conditions. In the last twenty years the population has increased by more than one-hundred. There has been no urge for the young people to migrate to the towns as in Western Europe and the U.S.A. There was, even in this place, a former resident of the U.S.A. who aired his English with great pride.

De Pace will be in Palermo for a few weeks and it is suggested that he might be granted an interview. His address will be Via Dante 61.

Caltanissetta

Oct. 1943.

W. R. L.

It. Col.,

S.C.A.O., Caltanissetta Province. 4902

TO: The Allied Military Government.

21
N.R. 0988 Italy 1: 100,000 Sheet 268
Caltanissetta

Nine Km. from the Commune of Santa Caterina Villarmosa (in the Province of Caltanissetta) and six Km. from the railroad station of Imera, you find a part of the Commune nominated above, called Favaretta - Palombara.

Today there are more than 500 people, modest farmers. In 1922, on interest of the Sindaco of that time, who thought that it was impossible to leave the people in the actual conditions with a project No 6810468, listed on page 63 of the official Bolletino of 1923, admitted this part of the Commune to the benefits of the Decreto Lucotenenziale 30th. of June 1918, No 1019, disposing of the communication with the Commune of S. Caterina.

For many years this project has not had any consideration, even thought after a period of 8 years from its issue, a project has been drawn up by the Genio Civile, that was approved in the meeting of the Committee of 27/11/1930 for a grant of L. 530.000 (practise signed M 16070 M 67/c/33).

From the approval of the project 13 years have passed (twenty from the original project) and the road for communication is still to be. This little village has become larger, there are more than 80 stone habitations, surrounded by small farms, the inhabitants are more than 500, the conditions have not changed.

In the winter when, the rainy season begins, the roads of communications, that is the Via Mulattiere and the R. Trazzera, are impassable, the village is cut off from the rest of the world, and social life, that is already backward, is completely annulled. It seems impossible, but it is the truth, that there is such a village like Palombara, where even today, there is no doctor, drug-store nor Civil State Officer, and because of this the children, born without any assistance, are registered in the Commune of S. Caterina, where the conditions permit the parents to undertake the trip to the main Commune.

The dead, when the atmospheric conditions permit, are brought to the Cemetery of S. Caterina that is distant nine Km. There is no possibility for religious life, because the population, only in the months in which it is possible, goes to the main habitated center.

The owner of the nearby property, Guido De Pace, impressioned by the state of this village has tried to contribute to the elevation of the population, using his personal building for a kinder garden. But the thing is that not one of the 500 knows how to write and nobody can sign their name!

We are, trying to help rural life, elevating the population, with the intentions of intensifying the national production.

In this case, the village Favaretta Palombara is already an agricultural village with 500 authentic farmers.

It is now obligatory to the guarantee the necessities of life; before all, it is necessary to begin the construction of the road already planned.

approval of the project 13 years have passed (twenty from the original project) and the road for communication is still to be. This little village has become larger, there are more than 80 stone habitations, surrounded by small farms, the inhabitants are more than 500; the conditions have not changed.

In the winter when, the rainy season begins, the roads of communications, that is the Via Mulattiere and the R. The owner of the nearby property, Guido De Pace, impressioned by the state of this village has tried to contribute to the elevation of the population, using his personal building for a kinder garden. But the thing is that not one of the 500 knows how to write and nobody can sign their name!

We are, trying to help rural life, elevating the population, with the intentions of intensifying the national production.

In this case, the village Favaretta Palombara is already an agricultural village with 500 authentic farmers.

It is now obligatory to the guarantee the necessities of life; before all, it is necessary to begin the construction of the road already approved with the deliberation of the Committee on the 27 of Nov. 1930, and the work absolutely necessary in order to permit the habitants to reach the Commune on which they depend and bring the abundant agricultural products, that in the winter months are blocked.

In this way, a problem both civil and economical can be resolved. The habitants understanding the benefits that can be obtained in resolving such a problem, are willing to offer their labour freely, in transporting stones needed for the construction of this road in the months of September and October (months of rest in the period of in agriculture ^{that goes on from the} harvest to the preparation of the ground for planting).

The owner of the nearby property that permits the habitants of the new center to make use of the water on his property, offers freely the land for the construction of a school and that land necessary for the construction of a church.

In this way a road, sanitary assistance, school and church will ~~the~~ permit spiritual elevation of the rural mass.

Today the Allied Military Government which, interested in our island,

20

will certainly consider this problem, a problem that for 20 years has been submitted for examination of the fascist regime, but that has not as yet had a concrete resolution.

The exponent puts at the dispositions of the Allied Government, documents and whatever else is necessary to resolve this problem.

GUIDO DE PACE fu Vittorio.

23

AL GOVERNO MILITARE ALLEATO

P A L E R M O

" ESPOSTO "

A nove chilometri dal Comune di Santa Caterina Villarmosa (in Provincia di Caltanissetta) ed a sei dalla Stazione ferroviaria di IMERA; (stazione non allacciata ad alcun tronco stradale) sorge la frazione dell'anzidetto Comune, denominata "FAVAROTTA - PALOMBARA " . Vi vivono, oggi, più di 500 persone, modesti agricoltori, silenziosi militi del grande esercito che lotta diuturnamente nella battaglia per l'indipendenza economica della Nazione.

Nel 1922, dietro interessamento del Sindaco dell'epoca, non ritenendo oltre ammissibile l'abbandono di un cospicuo centro abitato, con provvedimento N. 6810468, riportato a pagina 63 del bollettino ufficiale del 1923, ammetteva questa frazione ai benefici del Decreto Luogotenenziale 30 Giugno 1918, N. 1019, disponendone l'allacciamento al Comune di S. Caterina.

larmosa (in Provincia di Caltanissetta) ed a
sei dalla Stazione ferroviaria di IMERA; (stazione
non allacciata ad alcun tronco stradale) sorge la
Frazione dell'anzidetto Comune, denominata "FAVAROT-
TA - PALOMBARA " . Vi vivono, oggi, più di 500 perso-
ne , modesti agricoltori, silenziosi militi del gran-
de esercito che lotta diuturnamente nella battaglia
per l'indipendenza economica della Nazione.

Nel 1922, dietro interessamento del Sindaco dell'e-
poca, non ritenendo oltre ammissibile l'abbandono
di un cospicuo centro abitato, con provvedimento N.
6810468, riportato a pagina 63 del bollettino uffri-
ciale del 1923, ammetteva questa Frazione ai benefi-
ci del Decreto Luogotenenziale 30 Giugno 1918, N.
1019, disponendone l'allacciamento al Comune di S.
Caterina.

Per lunghi anni il provvedimento non ebbe alcuna
pratica attuazione, sebbene, a otto anni di distanza
della sua emanazione, sia stato redatto dal Genio
Civile il 13-8-1930 , un progetto, che fu, poi appro-
vato nella seduta del Comitato del 27-II-1930 per

un importo di L.530.000 (pratica segnata al N.

I6070 N.67/C/33.

Dalla redazione ed approvazione del progetto sono già trascorsi altri 13 anni (venti del provvedimento originario) e la strada ancora è di là da venire. La Frazione PALOMBARA intanto, è venuta ingrandendosi; vi si contano più di ottanta abitazioni in muratura, circondate da piccoli poderi beneficiati di I/2 EA. al massimo di proprietà dei singoli contadini; gli abitanti, come si è già detto, sono più di 500; ma le condizioni di vita non hanno subito alcun mutamento.

Nella stagione invernale, quando per le frequenti ed abbondanti piogge le vie di comunicazione, cioè le vie mulattiere e la R. Trazzera (anche per la interruzione dovuta ad un vallone impraticabile dove scorrono le acque piovane a regime torrentizio) diventano intransitabili, la Frazione viene tagliata fuori del resto del mondo e la vita sociale, già

to originario) e la strada ancora è di là da venire.

La Frazione PALOMBARA intanto, è venuta ingrandendosi; vi si contano più di ottanta abitazioni in muratura, circondate da piccoli poderi beneficiati di 1/2 EA. al massimo di proprietà dei singoli contadini; gli abitanti, come si è già detto, sono più di 500; ma le condizioni di vita non hanno subito alcun mutamento.

Nella stagione invernale, quando per le frequenti ed abbondanti piogge le vie di comunicazione, cioè le vie mulattiere e la R. Trazzera (anche per la interruzione dovuta ad un vallone impraticabile dove scorrono le acque piovane a regime torrentizio) diventano intransitabili, la Frazione viene tagliata fuori del resto del mondo e la vita sociale, già rudimentale, viene completamente ad annullarsi.

Sembra quasi impossibile, ma è purtroppo una realtà, che vi sia un centro abitato come PALOMBARA, dove ancor oggi, non vi è né medico né farmacia, né ufficio di Stato Civile, di tal che i bimbi, nati senza alcuna assistenza, vengono denunciati al Comune di

19

di Santa Caterina Villarmosa, quando il ritmo dei lavori e condizioni climatiche, consentono ai loro genitori di affrontare la cospicua distanza che li separa da quel Comune. I morti, a loro volta, quando le condizioni atmosferiche lo consentono, vengono, con macabro rito, caricati a dorso di mulo e trasportati al Cimitero di S. Caterina che, come si disse, dista ben nove chilometri.

Non vi è possibilità di vita religiosa poiché la popolazione adempie agli obblighi del culto solo nei mesi nei quali è possibile transitare e trasferirsi nel principale centro abitato.

Da questi sommi rilievi è facile intuire quale debba essere il livello generale della vita: l'anal fetismo trionfa!

Il proprietario del vicino feudo (Guido De Pace) impressionato da questo triste stato di cose ha cercato di contribuire alla elevazione di quella popolazione e per alcuni anni, approntando locali pro-

Non vi è possibilità di vita religiosa poichè la popolazione adempie agli obblighi del culto solo nei mesi nei quali è possibile transitare e trasferirsi nel principale centro abitato.

Da questi sommari rilievi è facile intuire quale debba essere il livello generale della vita: l'anal fetismo trionfa!

Il proprietario del vicino feudo (Guido De Pace) impressionato da questo triste stato di cose ha cercato di contribuire alla elevazione di quella popolazione e per alcuni anni, approntando locali propri che venivano, con grave danno della sua Azienda sottratti agli usi agricoli, provvedendo alla istituzione di una scuola asilo infantile.

Ma la dolorosa realtà si è che non uno dei 500 abitanti sa scrivere e nessuno riesce neppure a firmare.

18

Dunque, si tende a costruire nuovi centri di vita rurale, allacciati alle grandi vie di comunicazioni, nello intento di intensificare la produzione Nazionale di elevare il tenore di vita delle masse rurali.

Nel caso della frazione "FAVAROTTA-PALOMBARA" abbiamo già un villaggio agricolo abitato da un nucleo di oltre 500 persone, individui agricoltori autentici, espressi si può dire dalle necessità stesse della terra.

Urge ora che ad essi siano garantite le condizioni minime di vita: urge che, prima di ogni altra cosa, si inizi la costruzione della strada già approvata con la deliberazione del Comitato del 27 Novembre 1930, e prima di tutto si dia inizio alle opere strettamente indispensabili e necessarie al transito del vallone, in modo da permettere agli abitanti di recarsi nel Comune da cui dipendono e di esitare dalle loro terre gli abbondanti prodotti agricoli che

rali.

Nel caso della frazione "FAVAROTTA-PALOMBARA" abbiamo già un villaggio agricolo abitato da un nucleo di oltre 500 persone, individui agricoltori autentici, espressi si può dire dalle necessità stesse della terra.

Urge ora che ad essi siano garantite le condizioni minime di vita: urge che, prima di ogni altra cosa, vi inizi la costruzione della strada già approvata con la deliberazione del Comitato del 27 Novembre 1930, e prima di tutto si dia inizio alle opere strettamente indispensabili e necessarie al transito del vallone, in modo da permettere agli abitanti di recarsi nel Comune da cui dipendono e di esitare dalle loro terre gli abbondanti prodotti agricoli che nei mesi invernali restano bloccati.

Si tratta di risolvere, così, un problema che è indifferente problema di civiltà e di economia. Gli abitanti stessi, consci del bene che potrebbero ricavare da una pronta soluzione del problema della viabilità offrono la mano d'opera gratuita per

17

il trasporto della pietra occorrente alle opere nei mesi di settembre ed ottobre (mesi nel periodo di stasi dei lavori agricoli che vada dalla fine del raccolto alla preparazione dei terreni per la semina).

A sua volta il proprietario del vicino Feudo, che ha già permesso agli abitanti del nuovo centro di servirsi dell'acqua di sua proprietà, offre gratuitamente il terreno per la costruzione di un'ampia scuola e quello necessario alla costruzione di una chiesa. Così strada, assistenza sanitaria, scuola e culto renderanno possibile quella elevazione spirituale della massa rurale che è al sommo del pensiero degli interessi dell'economia Nazionale della Nazione. Oggi che il GOVERNO MILITARE ALLEATO, prende tanto a cuore gli interessi della nostra isola, certamente considererà questo problema con ogni maggiore interesse riuscendo a risolvere una questione vitale tanto importante che per ben 20 anni fu sottoposta all'esame del già regime fascista, ma non ebbe mai al

C.S.O.

8. I don't feel very strongly either way but perhaps the changing of names is a bit premature as it will add to the confusion before things have settled down.

We could reply that we sympathize with the feeling but consider that the change should be put off until conditions are more settled.

DB 4/10.

The name James except to me and I would be inclined to oppose the change

Prefettura di Caltanissetta

Divisione 2/I^a N. di prot. 21849

Caltanissetta, 23 Settembre 1943

Risposta a nota

Alligati N.

OGGETTO: Comune di Milena - Cambiamento denominazione
in Milocca.

ALL'ECC.

IL GOVERNATORE PROVINCIALE

S E D E

Il Comune di Milena ha adottato l'unita deliberazione n.57 in data 18 Settembre corrente con la quale stabilisce di cambiare la denominazione del Comune stesso in quella di "MILOCCA".

Poiché per le vigenti disposizioni l'autorizzazione per il cambiamento dei nomi dei Comuni era devoluta all'Autorità Centrale, prego significarmi se nulla osti da parte del Governo Alleato all'accoglimento della richiesta di cui trattasi.

Da parte mia nulla osta al riguardo.

IL PREFETTO

Deliberaz. N. 57

VERBALE
di Atto del Podestà

OGGETTO

*Cambiamento della
denominazione del Comu-
ne da Milena in Milocca.*

Comune di MILENA

Provincia di Caltanissetta

Deliberazione del Podestà

L'anno millenovecentoquarantatre
addì diciotto del mese di settembre
in Milena e nella sala Municipale.
Il Sig. Salvatore Angilella Sindaco
~~Podestà~~ del Comune suddetto, assistito dal Segre-
tario Comunale infrascritto, ha adottato la seguente
deliberazione.

IL Sindaco
~~Podestà~~

Vista la deliberazione n.36 del 7.2.1933 relativa al
cambiamento della denominazione di questo Comune da
Milocca in Villa Littoria;
Vista la successiva deliberazione n.66 del 5.4.1933,
con la quale si denominava Littoria Nissena anziché
Villa Littoria;
Vista l'altra deliberazione n.165 del 26.10.1933, con
la quale questo Comune prendeva la denominazione "Mi-
lena";
Considerato che le predette denominazioni, trovano giu-
stificazione nell'ipocrita volontà di fare apparire la
popolazione riconoscente al Governo di allora;
Considerato che la denominazione "Milena", non trova pe-
fetta corrispondenza con i principi che spinsero alla
modifica;
Ritenuto che MILOCCA trae origine nella baronia omoni-
ma che risale al 1363 di cui ancora se ne ricorda la
storia e se ne conserva lo stemma;
Considerato che questa popolazione figlia alle tradizio-
ni fa sempre uso della denominazione Milocca nei rappo-
ti sia con i cittadini e sia con i nativi di altri
Comuni nel linguaggio e nella corrispondenza;
Ritenuto che nella corrispondenza ordinaria a volte ur-
gente, Milena viene spesso confuso con Milano gene-
rando facili e continui disguidi postali;
Considerato che ritornando alla vecchia denominazione,
che riesce gradita a questa popolazione si viene a con-
nuare la storia di questo Comune;
Vista la vigente legge Comunale e Provinciale;

IL PREFETTO

Province of Caltanissetta
September 7, 1943

SUBJECT: Monthly Report on State of the Province.

TO : AMGOT HQS., Palermo

Monthly report of Caltanissetta Province follows below:-

1. Morale of Population. The morale of the population is generally good. There was one "demonstration" in the City of Caltanissetta for "no rationing", but it was quickly and quietly broken up, 4 of its leaders questioned and our position explained to them satisfactorily, and a statement issued by the S.C.A.O. in the press which was favorably received throughout the Province.
2. Political Tendencies. Politically, the Province is quiet; there have been no more placards on the "Independent Sicily" movement posted. Under separate cover I have sent a communication, that reached me, showing an attempt to organize Socialist and Communist Communist Parties into a "Workers Front", which will bear watching.

3. Removal of Officials: The following officials have been removed:-

Sindaco of Butera	sickness
" " Sommatino	theft
" " Riesi	incompetence
" " Miscehi	incompetence
" Santa Caterina	sickness
" " Marianopoli	business reason (a doctor)

4. General State of Crime. The amount of crimes in this Province is normal--some pillaging and stealing, one case of homicide, and the usual "hoarding" and "black market" operations. The amount of crime has decreased this past month from the general disorder we found on our arrival. This improvement should increase.

5. Carabinieri and other Police. Favorable reports reach me from all my Communes on the discipline and activity of the local police. We have started "Mounted Carabinieri" in outlying areas with good

in the press which was favorably received throughout the Province.

2. Political Tendencies. Politically, the Province is quiet; there have been no more placards on the "Independent Sicily" movement posted. Under separate cover I have sent a communication, that reached me, showing an attempt to organize Socialist and Communist Communist Parties into a "Workers Front", which will bear watching.

3. Removal of Officials. The following officials have been removed:-

Sindaco of Butera	sickness
" " " Sommatino	theft
" " " Riesi	incompetence
" " " Miscemi	incompetence
" " " Santa Caterina	sickness
" " " Marianopoli	business reason (a doctor)

4. General State of Crime. The amount of crimes in this Province is normal--some pillaging and stealing, one case of homicide, and the usual "hoarding" and "black market" operations. The amount of crime has decreased this past month from the general disorder we found on our arrival. This improvement should increase.

5. Carabinieri and other Police. Favorable reports reach me from all my Communes on the discipline and activity of the local police. We have started "Mounted Carabinieri" in outlying areas with good results. We are securing much enemy property by means of the local police and home-to-home searches.

6. Currency. No troubles on this score. A.M. Lire circulate freely along with the other currencies which are "legal tender". Very few exchanges of B.M.A. notes and yellow seals.

7. Banks. Cooperating in every way possible. Have used ~~488~~ in Bank of Italy instead of asking for new amounts of A.M. Lire. Finance Officers account is at Bank of Sicily and this is used to refurnish all the banks with "cash" for authorized payments.

8. Social Insurance. Limited activity to collecting contributions, but difficult because of lack of transport. Loan to Istituto Infortunati sul Lavoro of 300,000 Lire for monthly expenses.

100 sh. to make new. We must get here at 10
 Province is now less hot a spot for activity

San Lucia
 1 month

Hand
 10/11/44
 10/11/44

9. Public Finances & Taxes. Monopolies not functioning at all. Communes receiving help in dispensing assistance through I.C.A. where possible this being work relief. Provincial administration continuing satisfactorily to perform its functions and some former state functions now placed on a provincial level. Too soon to tell about taxes but every effort being made to collect them. Records destroyed in Gela and Sommatino. Throughout Province tax date postponed to August 31st and to September 21st for Essatori.

10. Post, Telegraph and Telephones. Post offices not yet open. Work being done on various local phone services but none yet functioning.

11. Wages & Prices. Prices list about to be published. Below Palermo scale but still represent rise of about 40% above pre-occupation days. Proportionate increases in wages necessary. General manual work provisionally placed at 40L for 10 hour day, (before deducting workers contribution and adding family allowance). Awaiting wage order from Palermo.

12. Raw Materials & Crops. We need fuel (coal), soap, and clothing for the approaching winter. Crops of grain are being harvested and are reaching the Ammarsi. There is fishing at Gela. We lack olive oil and vino in this province but are negotiating with other provinces for delivery of same.

13. Labour: We are waiting for a general wage scale and policy from Palermo; in the meantime we are working under the old wage scale, with its social insurance as best we can, adjusting our scale to prevailing prices. In no case have we permitted wages to rise about the 50 Lire standard set by the Army.

14. Education. I have had three conferences with the Provincial Director of Education. All text books to be used are to be submitted to my office for approval. We have found a committee of 5, of which the S.O.A.O. is chairman, to discuss all educational policies. We are, in general, returning to pre-Fascist school curricula.

15. Air-Raid Precautions: Generally inadequate. Little has been done along this line.

11. Wages & Prices. Prices list about to be published. Below Palermo scale but still represent rise of about 40% above pre-occupation days. Proportionate increases in wages necessary. General manual work provisionally placed at 40L for 10 hour day, (before deducting workers contribution and adding family allowance). Awaiting wage order from Palermo.

12. Raw Materials & Crops. We need fuel (coal), soap, and clothing for the approaching winter. Crops of grain are being harvested and are reaching the Ammassi. There is fishing at Gela. We lack olive oil and vino in this province but are negotiating with other provinces for delivery of same.

13. Labour: We are waiting for a general wage scale and policy from Palermo; in the meantime we are working under the old wage scale, with its social insurance as best we can, adjusting our scale to prevailing prices. In no case have we permitted wages to rise about the 50 Lire standard set by the Army.

14. Education. I have had three conferences with the Provincial Director of Education. All text books to be used are to be submitted to my office for approval. We have found a committee of 5, of which the S.C.A.O. is chairman, to discuss all educational policies. We are, in general, returning to pre-Fascist school curricula.

15. Air-Raid Precautions: Generally inadequate. Little has been done along this line.

16. Fire Arts & Monuments. The bombed cathedral has been cleared up but no attempt yet has been made on restoration. The head of Garibaldi, lost during an Air-Raid, has been removed from the rubbish and stored away.

OFFICE OF THE MILITARY GOVERNOR
PROVINCE OF CALTANISSETTA
CIVIL AFFAIRS HEADQUARTERS

WRI:vrs

2, August 1943

SUBJECT: Weekly Report, Caltanissetta Province.

To : AMGOT HEADQUARTERS

1. Law & Order: Carabinieri and local police are maintaining order. Many reports reach me of planned political meetings Communist, Socialist, Independent Sicily -- but so far we have prevented such, meetings. 3 Carabinieri arrested and sent to Africa for allowing pillaging of German and Italian stores.

2. Food: Millers refuse to grind grain on old price, claiming that with no electric power, and being forced to use coal and naphtha which is more expensive, they cannot grind the grain without financial loss. Arrangements are being made for each commune, thru the prefectural gov't, to subsidize this milling fairly thru out the province. We have retained the old Ammassi system, sometimes same officials, according to our instructions. (See attached Ordinance). So far, we have fed the civil population, including refugees and miners out of work.

3. Water: The water problem is not acute in this province, except in the town of Caltanissetta which was heavily bombed. Water at this town is secured from the public fountains but due to broken sewer mains, we can not, at present, run it thru the pipes.

4. Finance: Actual lira have been delivered all the towns of this province to pay for the following:

- (1) pay of bank employees
- (2) pay of all government employees at their jobs
- (3) pay of farmers at the Ammassi
- (4) pay of "General Relief", including pensions under the head of "General Assistance Fund."

It is hoped we can get at Budget, Taxation, condition of banks very soon.

5. Utilities: Electric power is lacking at the city of Caltanissetta due to bombing of plant at Port Empedocle. It is being restored in other towns of the province.

TO SEE
C SO

4888

P/A 9/8

0 5 2 5

6. Health: No reported epidemics. Medical Supplies have been delivered to the towns in the northern half of my Province; I was unable to reach the southern half this past week, but have had no complaints of any lack.

7. Economics: Black market exists. ^{every day} Complaints from producers that price of grain is too low. ~~Sunday~~ it is the same thing prices too low, people won't sell their products at said price, but sell them "around the corner" at the black market. ~~Stores~~ are opening for business,; there is somehow an air of "~~Monday~~" "normalcy" thru out my Province. The sulphur mines are not working; am awaiting instructions as to whether to operate them or not. Is there any market for sulphur?

8. Recommendations: (1) MP's: To give a little more backbone or solidity to law enforcement, recommend a detail of a squad of military police in each town of my province over 10,000 population, with a Company at Caltanissetta, the provincial capital, to be used for any emergency. We are dealing with a volatile and excitable people, the only thing they really respect is an American M.P.

(2) Fuel: Coal and Naphtha supplies are running a little low-- some provision must be made to get more shipped in as soon as possible.

(3) Transportation: Am trying to run this province with two Jeeps; have commandeered a little civilian transportation, but it is "junky".

(4) Personell: I need law officers, a public health officer, and civilian supply personell. 12 officers to run this large province is too small.

9. General: In general, considering the conditions of War, there has been a distinct improvement in this province this past week. People are settling back into their normal lives; shops are opening, a newspaper has been started(watched carefully), (and only printing official broadcasts), and all-in-all, we feel encouraged. My new prefect, Signor Cammarata, is proving himself a capable and a vigorous executive, by Sicilian standards.

HEADQUARTERS SEVENTH ARMY
Civil Affairs Section
APO # 758

1A

18 July 1943.

Subject: Civil Affairs - Butera.

To: Lt. Colonel CHARLES POLETTI.

1. Issued ordinances copies of which are attached.
2. Conference's with Syndicates of; (a) Commerce (b) Industry (c) Consorzio (Amassi) (d) Labor.
3. Conference with doctors and public health officer. All records intact and sanitary conditions satisfactory, no contagious diseases at this time. Department head fairly modern in ideas and operation of department is vaccinations, inoculations etc. Public sewer and water is O.K.
4. Inspected power plant. Had damage repaired (drafted labor). Prepared list of needed supplies and gave same to Capt O'Hara, CAO. Lights not working because of lack of wire, all else is repaired and ready to operate.
5. Inspected milk, largest mill damaged by shells, damage repaired and all milk operating. (a) Conference with millers and obtained estimates of required ~~xxx~~ coal and oil and submitted same to Capt O'Hara. (b) Conference with bakers concerning obtaining flour, and fuel for ovens obtained by help of Mayor. Appointed a supervisor of ovens to see that the bakers have the necessary flour and fuel and observe the rationing requirements. (Supervisor to serve gratuitously).
6. Conference with slaughter house keepers and agreed on continuance of prices and to resume operations. Farmers and herders notified to bring for slaughtering the same quantity of live stock as heretofore.
7. Conference with banker and bank made ready to re-open. (Kept closed as per direction of Lt. Colonel Rodd).
8. Conference all syndicates and Mayor and citizens committee and 5 priests concerning black market and labor costs and retail and wholesale prices; concerning re-adjustment and abolishment of black market.
9. Conference with Mayor and municipal council in regards to means of payment of municipal employees, and finance payment of credit cards of Consorzio, ~~xxx~~ which was robbed.
10. Due to lack of police, looting was done in a large scale. Citizens committee formed and assisted by 5 carabinieri and 5 civil police. All houses searched and several tons of macaroni and flour recovered, and many radios, shoes, linens, silverware, etc., recovered and restored to proper owners.
11. All arms and munitions etc, collected and temporarily stored.
12. Carabinieri ordered in uniform Sunday July 18th. *488!*
13. Formed citizens committee of 40 men to sweep streets and clean debris (volunteer labor).

Continued - Civil Affairs--Butera.

14. Inspected hospital, convent orphanage, and prison and directed cleaning of city jail.

15. Re-establishment of Consorzio and Amassi directed and conference with the heads of each and Mayor.

People are very co-operative, officials very willing to co-operate and citizenry apparently tranquil. Town is just about normal.

H.M.FIORE,
Major,
Civil Affairs Officer.

Subject: Public Health Report - Gela area.

To: Lt Colonel CHARLES POLETTI.

1. General features such as water supply, town cleanliness and nutrition are covered very well in the general report.

2. Disease problem is MALARIA which almost wrecked one Italian army in this area - month of June shows 302 cases of Tertian type - no mortality. The rate among civilians is equally high but many cases are not reported. In normal time there is some attempt at prophylaxis and normal requirements of 45 kg of quinine or substitutes per year for treatment and prophylaxis. The source is probably the two rivers in the area - an area bounded by the R. Gela and R. Mariglio. The army malarial control unit has been advised and will survey the situation. We are approaching the worst month - August, when Estivo-autumnal types will be on the increase. Dr. DiBartolo (Health officer) has a small amount of quinine for the time being. There is an anti-malarial unit which has been dispersed but can probably be reassembled.

3. The next problem is typhoid and para typhoid fever. There are about 45 cases per month. The obvious vector is the water supply from wells, tremendous number of flies, open goods on the various markets and no doubt food handlers. The latter are supposed to be examined but it is not done. The Health officer has vaccinated 21 % of the population but at the present time no vaccine is available. The mortality especially in the 18-19 year age group has been about 25%.

4. There have been 4 cases per month of undulant fever from goat milk. This problem is a long range one from the civilian view point. The army has been duly warned. The question of the reported diseases can not be ascertained clearly because they are not reported.

5. Tuberculosis is rampant and the cases usually coming in the advanced stages. The only sanitarium being in Caltanissetta.

6. Finally scabies in all its forms is rampant among older people, children and Italian soldiers. Evidence of 4882 lack of soap and scrubbing. They are issued sulphur ointment.

7. The Ospedale Civile of Gela has been taken over by the Army. This leaves the civilian population with a Red Cross building. This will be adequate though it needs plenty of cleaning - again soap and cresol is the disinfectants. 12,000 Lire have been authorized to carry on the work there until a more complete picture can be obtained.

8. The quality of medical care by our own standards is very poor. There is no surgeon of any consequence in all there are five physicians of old vintage including one Health officer - DiBartolo. These men are certainly in need of refresher courses if any when the time permits. At any rate it is not an immediate problem. They are functioning as best they can.

9. General stocks of medicine are about completely out. The pharmacist are endeavoring to give a more complete report.

10. The social services i.e. for T.B, maternity and infants has never worked. They all say it looks good on paper, but in Sicily no benefits have been derived.

11. Finally infant mortality has been very high. The figures being about 150 per thousand. They are all due to Enteritides so called. This is due to lack of clinics and general maternal ignorance. I am urging the establishment of a clinic.

12. There has been no typhus or cholera. Here appended are some forms used by the Italian Army to control Typhus from the Russian front. These are self-explanatory.

O. J. BIZZAZZERO,
Major, M.C.,
Public Health Officer.

bilimento il periodo contumaciale di giorni 15; provenendo da zona so-
spetta di dermatifo, dovrà essere sottoposto a vigilanza sanitaria durante
il periodo di licenza.

D'ordine
L'UFFICIALE ADDETTO

6885

A V V E R T E N Z E

1. — Si chiamano *telegrammi espressi di Stato* i telegrammi di Stato in franchigia spediti dai funzionari a ciò autorizzati, che, invece di essere trasmessi per telegrafo, sono inoltrati per posta dalla località di origine a quella di destinazione, e, quivi giunti, vengono subito recapitati per fattorino ai destinatari.

2. — E' obbligatorio l'uso dei *telegrammi espressi di Stato* tutte le volte che, date le comunicazioni ferroviarie esistenti tra la località di provenienza e quella di destinazione, il funzionario mittente può arguire che essi giungano al destinatario in tempo utile per l'adempimento dei provvedimenti di sua competenza. Sono in generale da inviarsi per espresso i telegrammi emessi nelle ore pomeridiane, quando l'ufficio amministrativo destinatario sia già chiuso o prossimo a chiudersi, e quando le comunicazioni ferroviarie permettano che i telegrammi in parola giungano a destinazione contemporaneamente o poco dopo l'apertura mattutina degli uffici amministrativi suddetti. La Direzione provinciale (o l'ufficio postale principale della località) all'atto dell'applicazione delle presenti istruzioni invia a ciascuna autorità interessata una tabella contenente l'indicazione dei treni utilizzabili secondo le diverse destinazioni dei telegrammi e l'ora utile per l'accettazione dei telegrammi stessi. — La Direzione (o l'ufficio postale) comunica in tempo opportuno le variazioni che doves- sero apportarsi alla tabella suddetta.

3. — I *telegrammi espressi di Stato* sono compilati su modello speciale 2513, in base alle norme sulla franchigia con l'avvertenza che l'indirizzo deve essere scritto sull'apposita linguetta destinata a tale scopo. Detti telegrammi muniti della firma e del bollo dell'autorità mittente devono essere inviati aperti al Capo dell'Ufficio postale di stazione (ove esiste) ovvero al Capo dell'ufficio postale centrale di ogni località. Il Capo dell'ufficio postale (o chi per esso) verifica se il telegramma porta la firma ed il bollo dell'autorità mittente; indi lo chiude, appone sulla linguetta il bollo postale a data e provvede per l'invio con la prima corsa utile.

4. — Nel caso di eccezionale affluenza di lavoro il Capo ufficio postale deve adibire alle operazioni relative all'accettazione ed invio dei *telegrammi espressi di Stato* tutto quel personale che per le speciali condizioni locali o del momento risultasse necessario a prevenire confusioni o ritardi.

5. — Nel caso che i *telegrammi espressi di Stato* vengano presentati agli uffici postali in ore in cui non è più possibile eseguire la spedizione col treno indicato nella tabella, o verificandosi eventuali cause di ritardo o di impedimento che non permettano l'invio dei telegrammi stessi, il Capo ufficio postale (o chi per esso) deve respingere i telegrammi, indicando per iscritto il motivo del rifiuto.

6. — L'ufficio postale della località di destinazione provvede all'immediato recapito per fattorino dei *telegrammi espressi*, dando loro la precedenza sulle ordinarie corrispondenze postali per espresso.
