C.S.O.

At 2 three employees of the Italian Govt.
announce their presence, their work & their salaries.
The work is of no use to us and their salaries
are of no interest.

2 If you agree with above we should not continue
their employment but as I understood it they
remain in their employment (and i.e. in employment of
their salaries) until told that their services are
no longer required. Is this correct, please?

If it is what machinery should we adopt to relieve
these people of their jobs?

2. We just paid to pay their T.B. 24/8.
monthly as periodic payment. This should be
affection to terminate their employment. 3393 PA

The papers in this office might be of interest to you.

2. It is not intended to continue to ~~comp~~ pay the salaries of these men and I should be glad if you would advise whether the office archives should be transferred for safe custody or can be left to take care of themselves.

This should go to Amfor H.Q.
They should be asked to produce a note

why not crossing the money
