Telegram - Cigs to General Eisenhower
No 53869 Cigs. Dated 28/7.

In view importance of precedent Sicily & lessons to be learned their value to me in future ops I should be grateful for your permission to send a staff off on a liaison visit to observe the working of the A.M.G. arrangements under your command in Sicily. Such a visit I feel sure would enable me to appreciate your problems & be of great mutual benefit. If you will kindly approve in principle I could arrange details with Alexander. I fully realise how difficult it must be for you to accept visitors at this stage of ops & must therefore leave it to Alexander to say what would be a suitable date.
