PALERMO.

P.P.:- CAE/14.

1. Major Shield's departure leaves this province with no "Jeep" and only one light truck and one utility truck for transport which is inadequate. The few civilian vehicles which have been licensed to Italian organisations can only occasionally be used by AMGOT officers as their mechanical condition leaves much to be desired.

2. We have enough heavy transport.

3. In spite of the Army Order, no commandeered civilian vehicle has yet been turned into AMGOT, though large numbers of them are driven through the town by U.S. and Canadian troops.
