Assignment of Airplane & Pilot.

AMGOT/304/HQ.

H.Q.S. - A.F.H.Q.

thru G.O.C. in C. - 15 Army Group.

29 Sep. 3.

1. Request that an airplane, approximately five places, with pilot be assigned to this H.Q.
2. An airplane with facilities is available.
3. Forward zones administered by this H.Q. are quite active and progressively further forward while rear areas continue to require administration. Any communication by land or sea is extremely slow and difficult. Lack of rapid means of communication seriously hampers effective control. This H.Q. now controls three regions of considerable area, with a fourth now being organized. This in addition to those officers with tactical units. Continuous expansion is required as tactical units advance. Effective control without communications is impossible.
4. It is urgently requested that an airplane and pilot be assigned immediately.

For the Commanding General.

CHARLES E. SPORFORD,
Colonel, G. S. C.
Chief Staff Officer.
