APO 412

16 November 1943

SUBJECT: Italian Government Communications.

TO : CCAOs of Regions and to CCAO 15th Army Group.

1. The Italian Government will be unable to function without adequate means of communication. In the present state of disrupted communications, the only channels through which that government can communicate are military government channels.
2. Regional and Provincial CCAOs, therefore, will expedite the transmission of official correspondence only between Italian Government Officials, subject to the following provisions:
 - a. All messages will be ^{IN} clear. Under no circumstances will code be used.
 - b. No priority will be granted. So long as such messages do not interfere with military or ACC-AMS requirements, however, they should be transmitted as soon as practicable.
 - c. Before transmission, headquarters concerned will assure that such communications are official.
 - d. Official communications will ordinarily not be censored. The right to do so is, however, reserved to INC.
 - e. Unofficial communications will not be transmitted through military government channels, and will continue to be censored by INC.
 - f. No such facilities must be allowed to interfere with the efficiency of the transmission of military government communications.

By order of Major General Joyce.

J.J. Albright,
Col., Inf.,
