He required an assurance that locally used bitumen would all be used for road repair work and this assurance was given by Lt. Col. Bolick.

5. Control of Civilian transport and petrol.

Colonel Garrat pointed out that there was considerable mis-use of petrol and that there were too many civilian vehicles on the road. Licences were issued to very wide categories of persons and the conditions for the use of the vehicles were not sufficiently precise. Specific instances were submitted by Col. Garrat where investigations had been made by No I District and the chairman promised that enquiries would be made in cases submitted. It was also agreed that more specific instructions would be issued as to interpretation of schedule "A" of AFHQ, Administrative Instruction No 12 so that licences would only be issued in essential cases and for specific purposes.

6. Unauthorized wearing of Allied Uniforms.

Colonel Curry stated that increasing numbers of civilians were appearing in the streets wearing parts of Allied Military Uniforms. The chairman pointed out that the responsibility in the first instance laid with the Armed Forces. It was however, agreed that action should be taken to inform the civilian population that it was an offence to be in possession of any issued military equipment.

been received. It was agreed that this was now a matter for the Allied Forces Local Resources (Sicily) Board.

3. Transport for Civilian Contractors working for Army.

Colonel Reuter stated that this matter was raised by Colonel Dicks who was not present and he had instructions to allow the item to lapse.

4. Bitumen.

Colonel Lindsay stated that all locally produced bitumen would be available for roads but that no imported military bitumen would be permitted to be used for this purpose. He required an assurance that locally used bitumen would all be used for road repair work and this assurance was given by Lt. Col. Lolick.

5. Control of Civilian transport and petrol.

Colonel Garrat pointed out that there was considerable mis-use of petrol and that there were too many civilian vehicles on the road. Licences were issued to very wide categories of persons and the conditions for the use of the vehicles were not sufficiently precise. Specific instances were submitted by Col. 7. Carrying of Arms by Civilians.

Colonel Carrat stated that when a number of houses were searched in No 1 District instances occurred where arms were discovered. He asked for information as to who were authorized to carry arms among the civilian population.

Lt. Col. Snook replied that outside of Carabinieri only very restricted classes of persons were allowed to carry firearms, such as bank employees, post office officials and farmers in isolated areas. Permission to carry these arms

For A.

The chairman pointed out that this was again a question for the A.P.L.I.I. but Colonel Curry indicated that the matter was urgent and that action should be taken by the Board. He was particularly interested in straw and hay. The chairman stated there was little likelihood of hay being available but it was probable he would be able to obtain information where supplies of straw could be found and promised to take action with this end in view. He also said that an instruction had been issued for the retention for Army purposes of all offals from the milling of imported wheat and said that they would be available at 200 lire per quintal ex mill. Colonel Curry stated that he would be pleased to take all such supplies as became avrilable.

9. Purchase of Fish, Eggs, etc. by Military.

Colonel Curry stated that in his opinion the time was opportune for the removal of the existing restrictions which prohibited the purchase by the Army of such food as fish, eggs and poultry. It was agreed that these restrictions should now be removed.

10. A.P.L.I. Administrative Memorandum No 35.

The chairman stated that this memorandum had not been received by AMG and Colonel Garrat supplied a copy for perusal. It was agreed to discuss this matter on the following morning.

11. Necessity for Continuance of Island Source Board.

The question of how far the A.P.L.I.I. supplanted this Board was discussed. It was generally agreed that there was still a need for the existence of this Board although its scope would be reduced. It was agreed that the name should be amended to the Island Co-ordination Board.

The next meeting of the Island Co-ordination Board will be on Friday, 4 February 1944 at 1000 hours at Region I Headquarters.

Lt. Commander Stephens said that the C.I.C. Mediterranean required 10 tons of coal tar and 10 tons of fuel oil. Col. Colonel Curry stated that he would deal with the question of the fuel oil. Lt. Commander

Colonel Curry stated that he would deal with the question of the naptha. Lt. Commander Stephens asked that information in these matters should be transmitted to the Fuelling Officer, Eastern Sicily Naval Base, Augusta.

14. Seed Potatoes.

Colonel Curry asked for information on seed potatoes and the chairman gave figures of arrivals and stated that the crop would be expected to come in towards the end of May.

MEMORANDUM FOR: Brigadier Gueterbock, Allied Control Commission, Naples

The Italian Authorities have raised the question of the disposition to be made of Italian motor vehicles in Sicily. It is stated that there are from 750 to 800 vehicles of which 400 to 500 are estimated to be road-worthy.

If these vehicles are to be returned to the Italians they intend to allot them to various governmental services in proportion to the relative urgency in their requirements.

Will you kindly discuss this matter with Colonel Spofford and find out what policy is to be pursued? If they are to be given back to the Italians, this headquarters would like to be informed of the approximate number that can be counted upon.

1. The continued operation of the bus lines in the City of Palermo is rapidly becoming more difficult due to inability to replace worn tires. The bus line to Mondello has been compelled to cease functioning, and others will follow in the immediate future unless tires can be found.

2. There is at present a large stock of suitable tires at Dump 201, under the control of I B S. The tires in question are worn in varying degrees and mostly in need of repair. However, they are adequate for use by Palermo buses.

3. On Nov.2,1943, Capt. Farrar of AMGOT Hq. submitted a requisition for 50 tires which were to be replaced by 50 tires of the bus companies. This arrangement was disapproved by Maj. Ledbetter of I B S. On Nov. 22, 1943, Lt. Rocker of this office spoke to Maj. Ledbetter to ask permission to carry out this arrangement, but was refused again.

4. It is requested that these tires be turned over to AMGOT for use by the bus companies. Thousands of citizens, civilians, now gainfully employed depend on these buses for transportation and the economic life of this city will be seriously injured if the bus companies are forced to cease operation.

5. Immediate action is imperative because I understand these tires will be removed shortly.

To the mayor

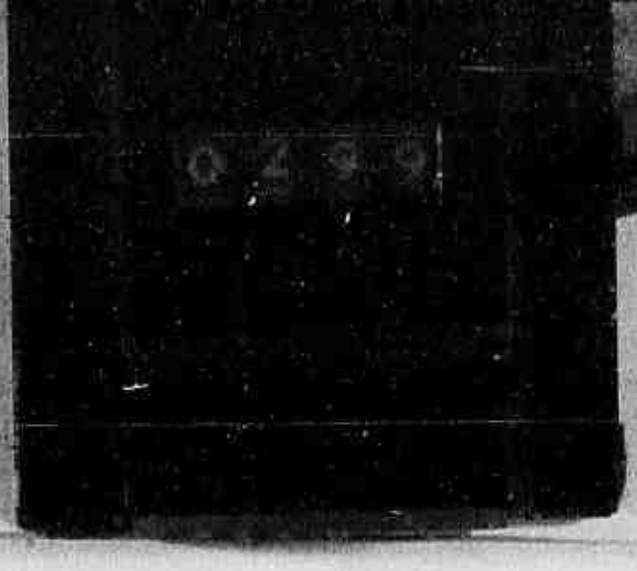
Bus services, tire deficiency

With further reference to to-day's conversation I submit to you the following specifications concerning the suspension already effected of some bus service lines in Palermo and regarding further suspension of services which cannot be avoided on account of tire deficiency

This company has made all possible efforts to keep in running condition as great a number of vehicles as possible but they the greatest difficulty is caused by the lack of tire supplies, For this reason I have undertaken numerous steps with A.M.G.O.T. in order to receive assignment of a certain number of tires and innertubes which has been discarded as useless by the Allied Troops, but which can still be used very well by the bus services of Palermo —

Such material is in storage on the premises of the "Aeronautica Sicula" in Via Espignano —

A.M.G.O.T. has approved this request + had issued a withdrawal order on the above mentioned Wool. Ho for 270 tires and as many innertubes in the following American measurments or Italian equivalents:



No. 12	size	1100	x 20
" 80	"	1200	x 20
" 70	"	900	x 20
" 10	"	600	x 16

This company in turn could turn in an equal amount of obsolete material.

But as the officer in charge at the warehouse did not comply with this order, as also the approval of the S.O.S. army is needed, which approval has not been granted.

As there is no possibility for purchase in the free market, this company although with full understanding of the inconveniences occurring to the population by the gradual elimination of services, is unable to do anything different.

Other urgent needs are due to lack of batteries and spare parts, for which the company will give you further details for any assistance which may be given it.

A seguito della odierna conversazione mi pregio rimettere alla S. V. Ill/ma le seguenti precisazioni circa la soppressione che ha dovuto attuarsi per qualche linea automobilistica di Palermo e circa ulteriori sospensioni di servizi, e che non potranno evitarsi, per mancanza di coperture.

L'azienda ha fatto tutti gli sforzi possibili per mantenere in condizioni d'impiego il maggior numero di vetture, ma la difficoltà maggiore è costituita proprio dal mancato rifornimento di pneumatici onde aveva svolte assidue pratiche presso l'A.M.G.O.T. al fine di avere assegnate un certo numero dicoperture e camere d'aria, eliminate come fuori uso dalle truppe Alleate, ma che tuttavia potevano servire ottimamente per i servizi autobus di Palermo.

Tale materiale si trova depositato nei locali dell'Areonautica Sicula in via Perpignano.

L'A.M.G.O.T. aveva aderito alla richiesta ed aveva anche rilasciato (Magg. Minard) un buono di preleva ento sul prescritto Mod. 400 per n° 270 coperture ed altrettante camere d'aria delle seguenti misure, americane, o misure italiane equipollenti:

N° 110 della misura 11.00 X 20
N° 80 " " 12.00 X 20
N° 70 " " 900 X 20
N° 10 " " 600 X 16

L'azienda a sua volta avrebbe versato altrettanto materiale proprio fuori uso.

Senonchè l'ufficiale preposto al deposito non ha ritenuto di dare esecuzione al disposto prelevamento, ove il buono non fosse munito anche del visto dell'ufficio I.B.S. della Armata. Tale

Poichè non vi è possibilità di rifornimenti dal commercio libero l'azienda pur rendendosi pieno conto del disagio che si accresce per la cittadinanza con la graduale soppressione dei servizi non ha come prevvedere.

Altri esigenze pressanti sono costituite dalla deficienza di accumulatori e di ricambio, sulle quali l'azienda fornirà in seguito ulteriori precisazioni per quegli aiuti che potessero esserle forniti.

1. Minutes of AMGOT Executive Council Meeting on 15th October 1943 contain the following words:-

"D.C.C.A.O. wanted it clearly understood that no duty was to be levied on any imports for military use, including all AMGOT imports, whether for re-sale to civilians or not."

2. The subject of Customs Duties was discussed at a meeting of S.C.A.O.'s in November, and the Finance Division was instructed to prepare an order implementing the decision of D.C.A.O. in para 1 above, to be applied to Sicily Region. The order was duly prepared and signed.

3. Capt. Ekker-Racz asked for a copy of the order to be given to Brigadier Hamlyn. It was given him one and for the first time learned that Region 3 was in fact charging Customs Duties on all imports.

4. In view of this divergence of direction as between one Region and another, it was deemed prudent to hold issue of Sicily Region Order. Therefore the only distribution was to Heads of Divisions in Sicily Region.

5. The whole subject of Customs Duties is under consideration by higher Authority.

6. Meanwhile no duties are in fact being collected in Sicily Region, so that although the Order has not been broadcast, its effect is in vogue.

1. Official Order No. 36, Sicily Region Headquarters, creates the Consorzio Compartimentale della Sicilia, which supersedes the Italian Office for Sicily of the Italian Federation of the Consorzio Agrario, an organisation which had existed under Italian law. In order to coordinate agricultural and food distribution agencies on the Island and to reorganize the Consorzi which had fallen into disuse it was felt necessary to create, without delay, an over-all administrative agency to supervise these important tasks. A parallel technical agency, the Ispettorato Agrario Compartimentale, was already in existence and was already supervising and coordinating the work of the Ispettorati Agrari Provinciali. The creation of the Consorzio Compartimentale sought to supply a much needed agency for the Island, an agency, the functions of which had been previously exercised by an Italian organization known by a different name, and the necessity of which was clearly indicated by the existence of a regional office performing similar functions in related fields.

1. The above memoranda are codifications of policies and procedures established by Headquarters ACC. It is a little difficult to see how minor changes in Blocked Accounts procedure is likely to affect occupied territory as a whole, particularly since ACC Headquarters has never extended the blocking program to regions other than Region I. It is not believed that (e) Appendix A forbids all freezing control activity until receipt of specific instructions from Headquarters ACC.

SUBJECT: Official Order No. 38.

TO : C.C.A.O. AMG. HQ. (Naples).

1. In AMGOT letter 5 Sept. 1943, addressed to all S.C.A.O's. (Ref. AMGOT/3034/PH), advice was sent that G.I.L. and Dopolavoro had been abolished. No order was made (it is presumed that Proclamation No. 7 was considered to be sufficient, but Order No. 38 removes any doubt about this). Instructions were given for all property to be impounded and steps to be taken to preserve it pending receipt of further specific orders. Full reports were to be furnished to Public Health Division (Public Welfare Section). It is not known whether reports from all Provinces were in fact submitted. In some cases the responsibility for conserving the property was passed by Senior Civil Affairs Officers to Assistant Property Controllers (where available) and in others to some other responsible officer (eg., Adjutant). It may even be that in some cases no specific arrangements were made at all.

2. Assistant Controller of Property Palermo submitted several requests (both verbal and written) to both AMG. Hqs. Controller of Property and AMG. Hqs. Public Welfare Division asking for instructions as to disposal of this property and at the same time pointing out the urgent need for some decision to be made. No reply was forthcoming and meanwhile almost three months had passed. The property was in general protected by Civil Affairs Officers, but was gradually being used for other purposes.

3. On Region I being formed, the problem was analysed by Regional Controller of Property (who had the responsibility) and Regional Public Welfare Officer. In accordance with Para 3, letter AMGOT/3034/PHR, Public Welfare decided that the assets should be passed over to the disposition of the Prefect and at the same time special instructions to Senior Civil Affairs Officers were sent (dated 25 Nov.1943 RPC 386) advising that general scheme would be under the control of Provincial Public Welfare Officer AMG. No alternative organization had in fact been formed, but the Prefect has the newly organized Ufficio Provinciale di Assistenza Sociale to which such of

those assets which have not already been allocated or used by AMG. will or can be made available, (see letter 25 Nov. 1943 Ref. RPC 586).

4. By Order No. 38, the general responsibility for this widely spread property (over 133 properties in Province of Palermo alone) has been transferred to the Prefect who is in a much better position to trace and preserve it. The Prefect would under present arrangements submit any dispositions to both Senior Civil Officer and Provincial Welfare Officer.

5. The position before the order, was that nothing had been done for three months. No instructions had been issued to either Senior Civil Affairs Officers, Civil Affairs Officers or the other Divisions. Property was gradually being frittered away. No arrangements had been made for cancellation of leases, payment of debts, analysis of claims etc. Controller of Property was accepting a responsibility which with two other Officers it was quite physically impossible for him to carry out efficiently. The order was therefore a constructive step to face and deal with this problem bearing in mind the possible transfer of this responsibility to the Italian Government.

1. Proclamation No. 7 dissolved certain Fascist Party organizations. It is not clear whether other organizations of a quasi-party constitution are included. General Order No. 8 covered further organizations (based on Palermo Province Order 3 Sept. 1943).

2. On formation of Region I, Controller of Property found that the process of dissolving these quasi-Fascist organizations had not been carried out on a uniform policy. In some cases, Assistant Controller of Property (where available) had taken over the responsibility (under his directive either as Fascist Property or on instructions of Senior Civil Affairs Officer) and in others Senior Civil Affairs Officers had directed an officer to carry this out. In some cases Senior Civil Affairs officers had appointed an Italian to carry out the liquidation.

3. Here again Controller of Property considered that the work of liquidating the Fascist organizations should be carried out on an "Island Wide Basis" with uniform methods of liquidation. The Official Order No. 39 must be considered as part of this policy. As Fascist concerns are dissolved, the liquidation will be carried out by a Judge Nominated by President of Tribunale Civile and approved by Regional Civil Affairs Officer. Each Province will have a sub liquidator (appointed by President of Provincial of Tribunale Civile and approved both by Prefect of Province and Senior Civil Affairs Officer) all under the control of Chief Liquidator in Palermo who under the terms of the Order is responsible and controlled by Controller of Property.

4. The Order was a constructive method of dealing with this problem bearing in mind the limited staff of Controller of Property Division. The method can be used for the liquidation of other Fascist Organizations and uniformity of method is ensured by the control in Palermo.

5. The appointment of Judge Criscuoli (nominated by President of Tribunale Civile) and approved by Regional Civil Affairs Officer enables AMG to adhere as far as possible to the Italian Civil Law so far as the proceedings of liquidation are

concerned retaining at the same time the control of AMG. through Controller of Property who will be instructed as to policy by Regional Civil Affairs Officer.

6. No coordinated policy had been produced from the date of occupation and General Order No. 8 and the Order has laid down a general method of effecting proper liquidation proceedings under AMG control.

7. The appendices and instructions to the Order give full detailed instructions to all Divisions concerned as to the practical completion of this work.

1. Control of prices has been one of the most serious problems confronting AMG. At a full meeting of the Prefects, it was agreed, in view of the fact that no other method had been successful, to attempt to control retail food prices through local posting by the Giunta Comunale. This, in fact, restored a previous practice. The chief merit of this device was to shift responsibility for the control of prices to the local Italian officials themselves, a goal which AMG has set for all governmental operations.

ADDRESSED FOR INFORMATION:

SPECIAL ORDERS AND AUTHORIZATIONS FOR OPENING AND FUNCTIONING OF SCHOOLS

Introduction. The following orders and authorizations have resulted from a conference of the Provveditori agli Studi of Sicily, and are considered by them necessary and desirable in order to open and conduct the schools successfully during the period of Military Government. Except where these orders and authorizations negate, replace, or supplement existing Italian laws and regulations, all existing laws and regulations of the former Italian Government continue in full force. In general it is the policy of the Allied Military Government to avoid any changes in the legal situation, the administrative organization, or the school program, except where such changes are necessary to eliminate Fascism or to make schools function in the absence of a regular Ministry of Education of the Italian Government with jurisdiction over occupied territory in Italy.

In accordance with the above statement the following policies, authorizations, and orders are hereby DECREED and are immediately effective in all parts of Sicily.

1. TEACHERS

a. Teachers who were "vincitori" in the "concorso" for the title of "Ruolo B" in schools of the second grade, held in the spring of 1943, will, upon presentation of credentials from the Minister of Education, be given "ruolo" by the Provveditori agli Studi even though the official publication of the list of "vincitori" has not been received by the Provveditori.

b. Teachers "incaricati" employed for the school year 1943-44 will be paid for ten months, beginning December 1, 1943. Teachers employed for this school year and unable to do a full year's work because of unavailability of school buildings, will nevertheless receive ten months pay provided they have been employed by Provveditore agli Studi and teach more than half the school year.

c. The distinction between "grande sede" and "piccola sede" is suspended for the year 1943-4. Teachers may therefore be transferred from any city to any other city.

d. When a teacher claims to have been excluded from a concorso because of Anti-Fascist sentiment, the Provveditore agli Studi to whom such teacher applies will proceed as follows:

(1) He will appoint a small commission to hear the claim. This commission will report its findings to the Provveditore agli Studi as soon as possible.

(2) The above mentioned commission reports that the teacher was in fact deprived of the opportunity to take the concorso because of not being fascist, the Provveditore agli Studi will immediately appoint a commission to hold a concorso for this teacher, and if the teacher is successful in the concorso he will be considered a "vincitore" of the last National Concorso. All Provveditori agli Studi will recognize this status and these rights in making appointments and fixing salaries. A record of all [illegible] issued by Provveditori agli Studi must be sent promptly to the

military Government. Except where these orders and [illegible] supplement existing Italian laws and regulations, all existing laws and regulations of the former Italian Government continue in full force. In general it is the policy of the Allied Military Government to avoid any changes in the legal situation, the administrative organization, or the school program, except where such changes are necessary to eliminate Fascism or to make schools function in the absence of a regular delivery of education or the Italian Government with jurisdiction over occupied territory in Italy.

Per quanto concerne l'organizzazione amministrativa e l'ordinamento didattico della scuola, nell'assenza di un Ministro regolare della Educazione Nazionale con giurisdizione sul territorio occupato in Italia, è intendimento del Governo Militare Alleato di non modificare la legislazione italiana, quando ciò non sia strettamente necessario al fine di eliminare il fascismo e non sia richiesto dalle necessità per il funzionamento della scuola.

Nello spirito di tale dichiarazione, le norme e istruzioni decretate al presente Regolamento entrano immediatamente in vigore per le scuole della Sicilia.

IRELLO. - Le seguenti norme e istruzioni, relative alla riapertura e al funzionamento delle scuole, sono state concretate d'accordo con i R. Provveditori agli Studi in apposita riunione.

Le materie non contemplate nelle presenti disposizioni sono regolate dalle leggi e dai regolamenti in vigore del cessato Governo Italiano.

Per quanto concerne l'organizzazione amministrativa e l'ordinamento didattico della scuola, nell'assenza di un Ministro regolare della Educazione Nazionale con giurisdizione sul territorio occupato in Italia, è intendimento del Governo Militare Alleato di non modificare la legislazione italiana, quando ciò non sia strettamente necessario al fine di eliminare il fascismo e non sia richiesto dalla necessità per il funzionamento delle scuole.

Nello spirito di tale dichiarazione, le norme e istruzioni decretate al presente Regolamento entrano immediatamente in vigore per le scuole della Sicilia.

1. INSEGNANTI-

a. Gli insegnanti "vincitori" del concorso, svoltosi nei primi mesi del 1943, per cattedre di ruolo B delle scuole di secondo grado, saranno nominati "di ruolo", dal R. Provveditore agli Studi competente, previa presentazione, da parte degli interessati, delle partecipazioni di nomina avute dal cessato Ministro dell'Educazione Nazionale; e ciò anche se non sia pervenuta, ai RR. Provveditori agli studi interessati, la pubblicazione ufficiale della relativa graduatoria.

b. Gli insegnanti "incaricati" per il corrente anno scolastico saranno retribuiti, per dieci mesi, a far tempo dal 1° dicembre 1943. Avranno diritto alla retribuzione, sempre per dieci mesi, anche quegli "incaricati" che, per il corrente anno scolastico, non potranno compiere per intero l'anno di insegnamento, per mancanza di locali, ma a condizione che siano stati impegnati a prestare servizio presso il Provveditore agli Studi ed abbiano insegnato per un periodo di tempo superiore alla metà dell'anno scolastico.

c. E' sospesa, per il corrente anno scolastico, la distinzione fra grande e piccola sede. Sono, pertanto, autorizzati i "comandi" degli insegnanti di qualsiasi centro scolastico anche alle scuole delle grandi città.

d. In eventuali reclami di insegnanti, nei casi in cui questi siano stati esclusi dal concorso perchè non iscritti al partito, il R. Provveditore agli Studi competente di regolerà come appresso:

(1) Nominerà apposita Commissione col compito di esaminare i reclami e riferire sollecitamente sulle relative risultanze;

(2) Nel caso in cui, dalla relazione della Commissione anzidetta, risultasse fondato il reclamo del ricorrente, nel senso che questi sia stato effettivamente privato del suo diritto a partecipare al concorso, allora il Provveditore agli Studi competente nominerà senz'altro una Commissione affinchè, indetto un concorso per l'insegnante interessato, questi sia sottoposto alle prescritte prove d'esame. Risultando l'esperimento favorevole al candidato, questi sarà considerato come vincitore dell'ultimo concorso Nazionale e, come tale, sarà nominato di ruolo dallo stesso Provveditore agli Studi, attribuendogli lo stipendio e gli assegni di legge. Una copia della relativa deliberazione e dei ruoli composti col procedimento di cui sopra sarà sollecitamente rimessa, da parte dei RR. Provveditori agli Studi interessati, attraverso la SCAC, all'ufficio competente di questo Comando Militare Alleato.

e. Le vedove di Militari delle Forze Armate Italiane, sempre che abbiano superato con esito favorevole almeno un triennio di prova nell'insegnamento, hanno diritto alla nomina come insegnanti di ruolo per le materie del loro insegnamento e saranno collocate nel grado loro spettante.
Ai RR. Provveditori agli Studi, che riceveranno le istanze delle insegnanti vedove anzidette, è fatto obbligo:

(1) Di esaminare le istanze stesse e, ove questo risultino fondate, deliberare la nomina in ruolo delle insegnanti vedove interessate;

(2) Di comunicare al competente ufficio di questo Comando Militare Alleato, attraverso la S.C.A.C., le generalità al completo, l'indirizzo e le qualifiche di ogni insegnante vedova nominata di ruolo.

f. I Provveditori agli Studi sono autorizzati ad assegnare alle classi del primo anno dell'Istituto Magistrale Superiore, dell'Istituto Tecnico Superiore o dell'Istituto Scientifico Superiore gli insegnanti che avrebbero avuto diritto all'assegnazione, per le rispettive materie di insegnamento, [illegible] anno della corrispondente scuola Se-

Provveditori agli Studi interessati, attraverso la SCAO, all'Ufficio competente di questo Comando Militare Alleato.

Regional Directorate of P.S. for Sicily

Regulations re Constitution and Functioning of
Inter-Provincial Offices of P.S.

TO: CC.RR., Questori, Prefects

In accordance with dispositions of the Allied Government re constitution of Inter-Provincial Offices of P.S. the following are communicated to you to serve as guides by which to ensure the regular functioning of the services.

The principal purpose behind the formation of the offices is to combat recent serious criminal manifestations which have alarmed the public; it is aimed particularly at organized crime, cattle stealing and those of inter-provincial character. Hence, the chief characteristic of these offices will be mobility in order thus to effectively meet criminal methods in all forms.

The seats of the offices will be: Corleone, Partinico, Paternò, Mistretta, Alcamo, Castelvetrano, Sciacca, Canicatti, Riesi, Mussomeli, Leonforte, Vittoria, Palazzolo Acreide.

By seat is meant the address of the office and it does not necessarily mean that the Functionary will be always present there. The jurisdiction of each inter-provincial office is not rigid. Functionaries must carry out their activities when necessary even in communes outside their jurisdiction by making an arrangement with the Director of the other inter-provincial office.

Whenever experience counsels modifications in jurisdiction of the offices, the heads of the offices are authorized to submit concrete proposals which will be duly considered.

The Functionary directing an inter-provincial office must by means of constant close observation, acquaint himself with the environment and conditions in his area, so that he may have a clear understanding of every anti-social and criminal manifestation and know how to meet it.

In order that this Regional Directorate may be in a position to follow the various crime manifestations, and

ensure the regular functioning of the services.

Declassified E.O. 12356 Section 3.3/NND No. 785015

For preventive purposes large and frequent services of watch and patrols should be set up in the country districts, particularly in the more remote spots and in those in which there is heavy agricultural traffic. The inter-provincial offices will regulate and integrate these patrols.

This Regional Directorate has power to request of the Questori the execution of special services in particular zones of the respective Provinces or the detachment of personnel from other Provinces for the time necessary to meet a particular emergency.

Each inter-provincial office shall be made up of 30 men, picked primarily from among non-commissioned officers, divided as follows:

14 P.S. Agents, 4 of whom armed with automatic rifles, 4 on horses, 2 motorcyclists.
2 P.S. Agents auto-drivers.
14 CC.RR. 4 of whom armed as above, 6 mounted, 6m/cyclists.

Each office to have:
1 truck to transport persons
1 light car
16 bycicles

750 kg. gasoline monthly, 30 kg. oil, 6 kg. benzine, 6 kg. of rags for cars.

The Questori, in accordance with previous orders, will provide for the immediate detachment of necessary personnel - including Functionary Director - for the communes chosen as seats of Inter-Provincial Offices in their respective jurisdictions.

Similarly, the Superior CC.R. Command will provide for the same with respect to CC.RR.

The heads of the Inter-Provincial Offices are charged with the setting up of the office, occupying, if possible, the premises of the suppressed P.S. sectors, or other suitable quarters, notifying this office of the amount to be paid as rent. Instructions will be issued re furnishings, etc.

Declassified E.O. 12356 Section 3.3/NND No. 785015

The P.S. Agents & CC.RR. to be assigned to Inter-Provincial Offices must be picked men, young and capable, and preferably with experience in this field, and those who, having the requisites, volunteer.

Personnel to be paid, in addition to other wages, an indemnity to be established by A.M.G.

This Directorate reserves power to confirm the assignments of Functionaries to Inter-Provincial Offices and to provide for substitution if necessary.

In case a detached P.S. office is located at the Inter-Provincial seat, the head of the Inter-Provincial Office - until further provision - shall also be head of the local P.S. office. He must, however, concentrate on active services which must always take precedence over all other services of an administrative nature.

To provide for eventual lack of personnel, plans are under way for exams and recruiting.

In performing duties the personnel must have as sole aims the prosecution of crime and the strict observance of Proclamations and Laws, without reference to social conditions or party affiliations. Only thus can that liberty of action which is the guarantee of success be assured, and every distrust by the public be dispelled.

The conduct of personnel must be above reproach and must serve as an example. No indulgence will be granted in this respect. All other exhortations are superfluous.

The people are hopefully waiting for the return of tranquility. It is an undertaking involving our honor.

The general situation created in recent months in Sicily is becoming particularly delicate and must be studied in all its aspects in order to forestall eventual demonstrations accompanied by violence as have recently occurred in some communes.

The primary causes contributing towards aggravation of the situation may be summarized and reduced to 4 problems interconnected with each other; unemployment, food, political situation, public safety.

Unemployment appears in the industrial field - particularly mining, work having slowed down and often ceased due to scarcity of prime materials and breakdown of exchange of products because of interrupted transportation and communications. Turbulent and interested elements could make use of these classes of unemployed with aim of creating serious difficulties in the general situation.

Connected with this grave problem which cannot be overlooked is the problem of food, which because of the extreme scarcity and consequent very high cost of foods of prime necessity, has brought a serious economic upset among the various social classes, particularly in the more needy and fixed-income classes.

With respect to unemployment, projects are under study looking to a solution of the situation through a possible rise in employment. The solution of food problem is also under study.

And in this connection the recent pay increases aim to better the economic conditions of the various classes, pending the adoption of other measures which will effectively lessen

The police, however, must not look lightly upon the gravity of this situation from which serious consequences could result. Therefore, public spirit must be frequently controlled in order to forestall and when necessary, repress quickly all demonstrations, which might assume alarming proportions should they degenerate into acts of violence.

Police action whould also be directed against those who notoriously run the black market and those who openly charge prices higher than those in Allied price lists.

With respect to the political situation it is noted that after the collapse following the occupation and the fall of Fascism the people have turned to the various political parties which, founded on democratic bases, are organizing and tend to develop looking forward to eventual political elections.

It must be said, however, that the Sicilian public in general does not have a high cultural level nor an adequate political preparation and hence could easily be led astray by mischief makers and opportunists who could use them as instruments in their own selfish interests.

In the political field the police must keep aloof from any partisanship. In this delicate field the only duty of the police is to be always on the alert so that any manifestation of political character will not assume such proportions as to constitute a danger to public order. In such cases the police must intervene adopting measures necessary to bring about public order.

The Public Safety problem directly and specifically interests the police which must out-do itself in order to give once again to the people that tranquility necessary for carrying on in daily life.

The criminal phenomena of recent times, particularly the boldness of the criminals, have created a state of real concern in the people such as to require energetic and urgent measures to prevent further developments in a situation which, closely connected with unemployment and food, could result in a collapse requiring no great imagination to picture.

Police in this field must work in a spirit of sacrifice, remembering also that the institution of inter-provincial offices, aims to integrate the work of the Questure.

Hence it is necessary to institute frequent patrols and "combing" groups in the country districts, working simultaneously among the contiguous provinces, controlling the more dangerous farm areas and especially those farthest from inhabited areas and the mine areas.

Accordingly, until otherwise provided the Inter-Provin-

Accordingly, until otherwise provided the Inter-Provincial Offices are directly dependent on Questore of proper jurisdiction, the Questore in organizing the services of inter-provincial nature will reach prior agreement with contiguous Questori, furnishing this Directorate with a

scheme of the organization of the services.

The P.S. personnel must win the trust and respect of people, acting energetically when occasion requires, so as to avoid falling into excesses, abuses, or worse, arbitrary actions.

The safe guarding of public order and the prosecution of crime must be the constant care of all personnel, assuring the strict observance of proclamations, laws and regulations without regard to social conditions, party politics or without concern for public order, always suiting their conduct to their delicate task.

Only thus can the police have that liberty of action which is the sine qua non without which it cannot perform its duties of vigillance over and maintenance of public order.

In this way we hope to meet and cope with the situation bearing in mind that up to no criminal activities are carried on by relatively few elements and if immobilized by simultaneous and energetic police action, the public safety situation would rapidly improve; 3085

Such results will be easier of achievement in view of the better economic status of personnel and the indemnities to be paid those in inter-provincial service.

It is necessary, however, that the lazy, inefficient, and those physically inept be eliminated. Questori are requested to send this Directorate a list of said persons in order that Directorate may provide for their immediate discharge. No departure from this rule can be permitted.

Only by diligent and intensive work on part of personnel can success be achieved."

Because of the exceptional conditions under which the Institute per le Case Popolari of the Province of Palermo found itself after the destruction of its offices by air raids;

Because the subsequent requisition and immediate evacuation of other locations where the Institute had transferred itself interferred with the registration, from May 1, 1943 onwards, of rented apartments within the time limits established by law;

And since the involuntary omission of registration was also caused by the forced removal of the registration office from Palermo;

By virtue of the power conferred on me, I, CHARLES POLETTI, Lt. Colonel, Regional Civil Affairs Officer

ORDINANZA:
N. 52:

Considerato che l'Istituto per le Case Popolari della Provincia di Palermo per le eccezionali condizioni di proprio funzionamento in cui si venuto a trovarsi a seguito della distruzione per cause belliche dei suoi Uffici, e della successiva requisizione e immediato sgombro degli altri locali ove erasi trasferito, non ha potuto adempiere nei termini di legge alla registrazione delle locazioni dal 1 Luglio 1940 in poi per gli appartamenti di sua proprietà;

Considerato che al verificarsi di tale involontario inadempimento ha anche fatalmente il decadimento dell'Ufficio del Registro;

In virtù dei poteri conferitimi, io, CHARLES POLETTI, Tenente Colonnello, Ufficiale Capo degli Affari Civili della Sicilia,

Sono estesi al 28 Febbraio 1944 i termini per la registrazione delle locazioni convenute, rinnovate o prorogate in data anteriore al 1 Dicembre 1943 dell'Istituto per le Case Popolari della Provincia di Palermo.

TO : Brigadier E. Gueterbock- Chief of Staff- AMG HQ.

In order to keep the record clear I wish to advise you that General McSherry verbally informed me that General Order Number 5 need not be carried out in Region I for the time being.

Among reasons for his decision are:

1. Extra ration when given should be granted to all police forces.

2. Since ration at present is so low inadvisable to augment it for one special category.

3. Desirable to adhere in this critical period to equality of treatment for all.

4. Wage increase recently granted has been of substantial assistance.

Memorandum: Policy Concerning Wage Increases in Region I

To: All AMG officers in AMG Headquarters and in Region I

1. Control of inflation in areas under A.M.G. (or A.C.C.) is one of the major requirements of A.M.G. Under this policy substantial additional wage increases cannot be granted, for such increases would be powerful inflationary forces. Officers are requested and instructed, therefore, to be extremely careful when wage questions are being considered to do or say nothing contrary or prejudicial to the A.M.G.'s efforts to control inflation.

2. Officers should understand that substantial additional wage increases leading to inflation are more harmful in the long run to the people than are the results of the present wage scale. The quantities of goods available in the area under A.M.G. control is limited to the amount on hand, plus the amount which can be produced in the area, plus the amount which can be imported. Because of war conditions payment of higher wages, with the consequent higher prices, will not alleviate the supply situation by increasing significantly the amounts of goods produced or imported. However, by furnishing added impetus to the inflationary tendencies the higher wages and higher prices will do positive harm. Inflation distorts the civilian economy and creates civil unrest, thus reducing the amount of goods produced and available for consumption. The lot of the civilian is made worse and progress of the Allied armies is hindered because more men and more resources must be diverted to areas behind the combat lines.

3. A.M.G. in making vigorous efforts to forestall inflation and the fullest co-operation of all A.M.G. officers in not encouraging requests for wage increases is requested and expected.

(2) Military security authorities will be requested to cooperate where necessary.

(3) A form "Scheda Personale" will be used in every case under investigation and the following points and approved procedure are to be borne in mind in respect of this document, a sample of which, together with translation, is attached hereto.

(a) Firstly, it must be understood clearly that the form merely commits the subject's record to writing. It must not be considered that subject's statement is authentic. It is only intended to assist the enquiry and normal investigation must follow.

(b) Supplies of these forms can be obtained on application to Special Police Section Public Safety Division, Sicily Region Headquarters.

c. Criminal Activity

(1) The officer authorised to appoint or dismiss will nominate the officer to conduct or supervise the investigation.

(a) If the matter directly concerns one of other of the Divisions of Sicily Region HQ, same will be brought to the notice of Chief, Public Safety Division, who will instruct an officer of his Division to investigate personally or supervise the investigation of the case.

(b) In matters affecting Provinces and Comunes the SCAPO will be responsible for directing the investigations as required by the SCAO.

(2) In all matters of an extraordinary nature or importance, immediate communication will be made with Public Safety Division. The Chief of the Division will decide whether the case warrants the sending out of a special investigator.

(3) In all cases under this heading where no political activity is suspected or suggested, the form "Scheda Personale" need not be used.

(4) In all cases the investigating officer will check directly with the local questore and Carbinieri Reali for the criminal records and antecedents of complainants, informants, persons for "vetting" and suspects. Application may also be made to Special Police Section, Public Safety Division, where certain records are kept.

6. CENTRALIZATION OF RECORDS

a. 7. FURTHER CONSIDERATION IN CASES WHERE NATIVE PERSONNEL HAVE BEEN DETAINED OR RELEASED FOLLOWING THE VETTING PROCESS.

a. It may be that the seriousness of the case demands either internment or police supervision unless the matter has been disposed of by a competent Court. However, even then, after the expiration of the Prison sentence, internment or Police (Carabinieri) supervision may not only be desirable but necessary.

Declassified E.O. 12356 Section 3.3/NND No. 785015

b. For information it should be noted that no civilian can be interned - as distinct from detained - or subjected to supervision without the approval of the MCAO.

c. Every case of native personnel detained or dismissed as a result of this "by laws" will be subjected to examination by a Review Board now in operation as regards civilian internees.

d. The Review Board is held monthly at Special Police Section, and it may be assembled during the intervening periods upon the order of MCAO or Chief Public Safety Division.

e. At Special Police Branch the evidence and information is collated and placed before the Board where the facts are examined carefully, recommendations made and submitted to M.C.A.O. for approval or otherwise.

f. The Board consists of representatives of Military authorities, Legal and Public Safety Divisions of Sicily Region Headquarters.

g. A number of categories in relation to civilian internees are at present in use by the Board. The categories which will be utilized in the particular cases under review are -

(1) A(a) - To be interned indefinitely;

(2) A(b) - To be interned for period of three months after which release is ordered on conditions imposed by AMG - the conditions imposed are those in cases of D(b) releases.

(3) D(a) - To be released unconditionally

(4) D(b) - To be released on conditions imposed by AMG. In brief the conditions are weekly personal reports to local CC.RR., changes of permanent address of periods exceeding 48 hours.

h. In cases of detention and dismissal of personnel the facts will be examined automatically by the Civilian Internees Review Board, therefore, when the case papers are submitted they must bear the recommendations of the investigating officer and the officer instituting the investigation. This is of importance as neither of these officials nor the individual "under examination" will be present when the case is considered by the Board.

i. The decision of the MCAO will be executed by Public Safety Division, but information as to the action taken will be forwarded to the Head of the Division or MCAO concerned.

3. A number of categories in relation to civilian internees are at present in use by the Board. The categories which will be utilised in the particular cases under review are -

(1) A(a) - To be interned indefinitely;

(2) A(b) - To be interned for period of three months after which release is ordered on conditions imposed by AMG - the conditions imposed are those in cases of B(b) releases.

(3) B(a) - To be released unconditionally

(4) B(b) - To be released on conditions imposed by AMG. In brief the conditions are weekly personal reports to local CC.RR., changes of permanent address of periods exceeding 48 hours.

4. In cases of detention and dismissal of personnel the facts will be examined automatically by the Civilian Internees Review Board, therefore, when the case papers are submitted they must bear the recommendations of the investigating officer and the officer instituting the investigation. This is of importance as neither of these officials nor the individual "under examination" will be present when the case is considered by the Board.

5. The decision of the MCAO will be executed by Public Safety Division, but information as to the action taken will be forwarded to the Head of the Division or SCAO concerned.

This letter is intended to explain and supplement the information contained in the enclosures.

2. I. Dissolved Fascist Organizations

Plans for liquidation of dissolved organizations are set forth in the enclosures. In brief, this liquidation is to be handled by the Controller of Property by means of various Italian civilain agencies. However, assets in the possession or under the control of any bank or banking institution are to remain under the control and supervision of the Financial Division.

3. Applications for licenses for specific transactions in accounts of the above organizations may be made in accordance with the procedure set forth in the Memorandum No. 36 enclosed.

4. II. Other Fascist Organizations.

Proclamation No. 6 (Amgot Manual, pp.50,56), prepared in Africa and issued upon arrival in Sicily, empowers the Controller of Property to take into his control any Enemy State property not for the time being required by any other branch of the Allied Forces. "Enemy State Property" is defined as including all property of companies, institutions, or bodies in which any such State has any substantial interest or over [illegible] control. "Enemy State Property" is defined as including all property of companies, institutions, or bodies in which any such State has any substantial interest or over which it exercises substantial control. These provisions and others are being used in the simplification of the Italian Governmental structure, so that it is not always easy for the Provincial Officers to determine whether or not a particular organization not presently functioning is or is not to be dissolved. In any event, blocked bank accounts of organizations not already dissolved or unblocked must be handled on an interim basis.

5. Applications for unblocking or for specific transactions in the accounts of organizations not dissolved may be made in accordance with the procedure set forth in Memorandum No.36.

6. III. Payment of Salaries,etc. of Dissolved Organizations

See Memorandum 37 enclosed. You will note that only certain salary and wage claimants are being preferred at this time. It has been decided to proceed with the liquidation of dissolved organizations and payment of creditors thereof in two or more stages, and that we are now prepared to issue directives covering the first stage alone. Directives for payment of dismissal indemnities, rent, current bills other than wages, etc. will be issued in due course, after the payment of salaries and wages has been substantially completed, and when more is known of the nature and amount of other claims.

7. Any claim not preferred under the terms of Memorandum No.37 but which you think should have special attention at this time, should be submitted for our consideration through applications for licenses in accordance with the procedure set forth in Memorandum No. 36. No payments of such unpreferred claims by you are authorized and no payments of any such claims will be authorized by us unless there is (1) a bank balance from which the payment can be made and (2) a positive showing that allowance of such payment will not result in giving undue preference to the person on whose behalf the application is made. A preference is"undue" when according to Italian Law and ordinary principles of justice it gives the other creditors preferential rights which can not be satisfied out of existing bank balances. It is not expected that many such applications for special attention will be submitted prior to the time more detailed instructions can be given the sub-commissioners referred to in Official Order No. 39, advance copy of which is enclosed.

8. IV. Plans for Future Activities of the Blocked Accounts Section.

The files of reports of banks required under the letter to Bank Managers dated 25 September 1943 are still not substantially completed. These files will be completed as soon as possible. Negative reports are required.

9. Reports of transactions in blocked accounts indicate: (1) that the great majority of the banks are not complying with the provision in the letter to Bank Managers dated 4 September 1943 with respect to fortnightly reports of transactions in blocked accounts. (2) That some banks are sending in negative reports, although negative reports are not required. (3) That some banks are reporting

ment of salaries and wages has been substantially completed, and when more is known of the nature and amount of other claims.

7. (2) That some banks are sending in negative reports, although negative reports are not required. (3) That some banks are reporting transactions in accounts unblocked by General License No.1, although the license itself specifically relieves them of such duty, and (4) that some banks are violating blocking restrictions.

10. It is planned to send the banks a reminder on the above matters, and to warn them that they may be required to void unlicensed transactions unless they can show that the violation was not a substantial one. For your information, no ANG action to require restoration of funds is presently contemplated, unless requested by the Controller of Property, and his requests will be supported firmly and promptly by the Financial Division.

11. A general license is in preparation unblocking the accounts of the Ente Colonizzazione del Latifondo Siciliano and organizations to be affiliated with it, if any. The question of affiliation is pending. Applications of the Ente will be approved automatically until the General License is issued.

12. No extension of the blocking program to other categories of accounts is being actively considered at the present time.

13. For your information, a copy of a letter recently sent to the Palermo banks is enclosed. We have not yet had any experience upon which to estimate the worth of these proposals, but the banks assisted in drafting them, and they give promise of working with no more than a tolerable number of objections and complaints.

SUBJECT. Liquidation of Dissolved Organizations

TO . ALL SCAOs, for Attention of SCACs, FOs and APCs

1. Enclosed are copies of Official Order No. 39, dissolving certain Italian organizations and providing for the establishment of certain machinery to aid in the liquidation thereof and of organizations previously dissolved. This order is to be printed in the local newspaper and posted in three public places in each commune in the province. One copy is to be delivered to the Presidente del Tribunale in the capital of your province, and one copy is to be delivered to the local Prefect.

2. Because of transportation difficulties, it will be impossible for the Commassario Straordinario appointed by the enclosed order to take personal charge of the selection of his provincial sub-commissioners. It is therefore necessary to assist him in this matter. You are to obtain suggestions from the local Presidente del Tribunale, Prefetto, Intendente di Finanze and any others you may wish to consult, and after checking with the local C.I.C. or F.S.S. submit the name and address of the person you nominate for sub-commissioner. The nomination should be signed by the Provincial Senior Civil Affairs Officer.

3. Enclosed are 6 Italian copies and 3 English copies of a letter to the several Presidenti del Tribunale. Of the Italian copies, one is for the Presidente del Tribunale in the capital of your province, and one is for the local Prefect. The other Italian copies and the English copies for your files.

4. Except for assets in the possession or under the control of any bank or banking institutions, the liquidation proceedings are to be under the supervision of the Controller of Property. Handling of assests in the possession or under the control of a bank, including bank accounts and other banking debits and credits, involves problems which the Financial Division is better equipped to solve, and will remain with the Financial Division. All instructions, written or oral, heretofore given forbidding banking transactions in blocked accounts except pursuant to licenses issued by the Regional Chief Banking Officer or his predecessor (the Controller of Financial [illegible]) are hereby ratified and confirmed. OGGETTO: Liquidazione di Organizzazioni sciolte.

AI : Sigg. Presidenti del Tribunale dei Capiluoghi di provincia in Sicilia.

PER : Gli Ufficiali Superiori degli Affari Civili.

1. Si desidera stabilire un sistema per aiutare nella liquidazione di certe organizzazioni che sono stati sciolte in base al Proclama no.7 l'Ordine Generale No.8 o dall'Ordine Ufficiale No.39 del Governo Militare Alleato, Quartiere Generale della Sicilia, dei quali si alliga una copia. Per vostra guida si alliga anche una completa lista di tali organizzazioni.

2. Il sistema anzidetto non deve essere considerato come una sostituzione di quello stabilito dalle leggi italiane, ma come supplementare con l'intendimento di provvedere per i piu urgenti pagamenti e per i reclami arretrati per salari.

3. Tali reclami saranno regolati dai seguenti principi e procedure.

a) I reclami per stipendi o salari arretrati saranno solamente considerati in dipendenza di stipendi ordinari che provengono e sono stati non pagati per il seguente periodo:

I) dal 1° Gennaio 1943 alla data di scioglimento compresa, nel caso di organizzazioni sciolte dal Proclama No.7. La data di scioglimento nella vostra provincia sara' stabilita dall'Ufficiale Superiore addetto agli Affari Civili.

II) dal 1 Gennaio 1943 al 30 Settembre 1943 compreso, nel caso di Organizzazioni sciolte dall'Ordine Generale No.8 (eccezione fatta per la provincia di Palermo) ovvero dall' ordine accluso. 3. Tali reclami saranno regolati dai seguenti principi e procedure.

a) I reclami per stipendi o salari arretrati saranno solamente considerati in dipendenza di stipendi ordinari che provengono e sono stati non pagati per il seguente periodo:

I) dal 1° Gennaio 1943 alla data di scioglimento compresa, nel caso di organizzazioni sciolte dal Proclama No.7. La data di scioglimento nella vostra provincia sara' stabilita dall'Ufficiale Superiore addetto agli Affari Civili.

MEMORANDUM

ARRANGEMENTS FOR TURN OVER OF REGIONS I & II
TO THE ITALIAN GOVERNMENT

1. It is agreed that the date for the turn over should be the earliest practicable.

2. It is agreed that for Region I a Regional Italian Commissioner will be required who should by the time of turn over have the nucleus of a cabinet or a working staff. These should include Supply, Finance, Communications, and Transportation. Col. Poletti now has regional officials as follows:

Regional Finance Officer
Regional Police Inspector
Regional Public Works Officer
Regional Postal and Telegraph Director
Regional Railroad Director
Regional Censorzio
Regional Agriculture Inspector

These officials, if acceptable to the Badoglio Government, should form the greater part of the required Italian regional staff.

3. In order to inform the Badoglio Government of the existing set-up and to discuss the ways and means of turn over, Col. Poletti will go to Brindisi as soon as possible, reporting to General Joyce and attend the forthcoming conferences. He will attempt to procure the appointment of a Regional Commissioner and if possible return with him.

4. General Holmes and Col. Chandler will go to Algiers November 23 to present the three basic turn over documents now in draft and approved by General Joyce and tentatively approved by General Alexander to the C-in-C. If approved by the C-in-C an advice will be cabled to the Combined Chiefs of Staff of the substance of these documents and the decision to effect the prompt turn over on these terms.

5. If these basic documents are acceptable to the C-in-C he will procure from General Alexander his final comments or approval. Arrangements for the presentation of these documents to the Badoglio Government will be made by the C-in-C.

3030

6. In addition to the basic documents, decrees will be necessary continuing either permanently in some cases and temporarily in others certain of the existing provisions of proclamations and orders of the Allied Military Government. For example, the permanent reservation of the rights of the Controller of Property; temporarily to continue the price and wage levels and like matters. Col. Upjohn is preparing decrees, copies of which will be submitted to General Joyce, General Holmes and Col. Rose as soon as available for discussion and clearance.

7. The exact date of turn over depends on promptly accomplishing all of the foregoing steps. It is hoped that the turn over can be accomplished by December 6, 1943.

Dear Sir:

I'm writing you this letter with the hope that you will give me the help that I greatly need.

But first of all I think it's necessary for me to explain you my whole case. I'm an American, born in the State of New Jersey with my two sisters and one brother, which are also here. My father is also an American citizen. He obtained this citizenship in the last war by serving American, where he is now living. He belongs to the American Legion Post 14 in West Hoboken, New Jersey.

We came here four years ago for a holiday and we expected to stay here one year, while my father returned quick back to the U.S.A.

At the end of that time when we were ready to leave, the war broke out and we had to remain here, waiting for the possible moment to come again.

But during this time up to the moment that even the U.S. came in war, we always had news and assistance from my father.

In these last two years we've had nothing.

So in this time my mother having nothing here in which she could live on, asked assistance from the Italian Government, who after a long time decided to give her and my sisters a very miserable relief. For me nothing because they said I was old enough to earn my living.

I cannot tell you how much I suffered in this long time with these Italians who maltreated in all ways.

They wanted me to give up at every cost my American citizenship and at last they tried to frighten me saying that they would bring me in a Concentration Camp.

But fortunately God helped me and nothing of all this happened.

Now what I would want from you is your help which I am sure you will give us.

Here, as we are in the British territory no one can help us and again the clever Italian Authorities declared they cannot do nothing for us.

So the only thing I hope is your assistance for my family because we are in an area where they don't give food.

I also have to tell you that I would be happy, if I could have an employment with you Americans in an office as interpreter or something else, which I could earn enough for my family.

(Over)

There are A.M.G.O.T. at Messina and Italian women are employed and I think I also can have a place like that, because you see Messina would be better for me, because it's near my home.

So now that you know everything I hope you will appreciate my thought which is the best solution I can take.

Wishing your best help.

I thank you,

Very Truly Yours

/s/Lillie La Malva

Memorandum for Discussion at Meeting of Finance Officers

Region I on Saturday 21 November 1943.

Subject : Budgetary Control.

1. There is presently under consideration by the Finance Sub-Commission A.M.G., H.Q. the desirability and practicability of inaugurating a system of budgetary control intended to supplement that now in operation but with the purpose of making the control more effective and at the same time less burdensome in operation.

The specific instrument of budgetary control now under discussion is the annual work program so set up as to give control figures over a monthly period basis.

2. Briefly the work program consists of and is operated as follows:

In the formulation of the annual program covering the varied activities of the governmental unit involved the data are compiled so as to indicate the estimated financial transactions by months of the year, required to consumate the proposed programs. The whole is expressed simply by dividing the annual estimate of revenues and expenditures into monthly periods to indicate in which particular month a given amount of revenue will be collected and a given amount of expenditure will be made.

The particular classification of accounts to be used in the work program should be the same, or readily converted into, the classification of accounts used on Mod CRO/7 plus debt service and movimenti di capitali.

3. With the completion of the formulation of the work program it is then used as a base to control the monthly operations of the governmental unit through control of financial transactions. That is, first on the revenue side, if actual revenues realized for a given period differs from those estimated in the work program such differences must be fully explained to the satisfaction of the reviewing authority. If the actual revenue is less than anticipated steps may be taken to correspondingly reduce the proposed expenditures, or additional revenues may be indicated, or a combination of both in order to keep the budget in balance. Excess of actual revenues over anticipated may properly be used to retire debt or set aside as a reserve to meet contingencies.

Secondly if the actual expenditures for a given period differ from those estimated in the work program such differences must be fully explained to the satisfaction of the reviewing authority. In the case of excessive expenditures [illegible] for the remaining period covered by the whole

budgetary control intended to supplement that now in operation but with the purpose of making the control more effective and at the same time less burdensome in operation.

Secondly if the actual expenditures for a given period differ from those estimated in the work program such differences must be fully explained to the satisfaction of the reviewing authority. In the case of excessive expenditures a reduction of future expenditures for the remaining period covered by the whole program may be indicated, or additional revenue may be sought, or a combination of both. Actual expenditures less than anticipated may be set aside as a reserve to meet contingencies or used to retire debt, or any other authorized purposes.

4. The advantages of the operation of the work program include the following :

(a) A monthly guide is furnished on which to base recurring action concerning the financial needs of the governmental unit.

(b) The financial stability of the governmental unit will be enhanced by keeping the budget currently in balance.

/.....(c)

Declassified E.O. 12356 Section 3.3/NND No. 785015

(c) Not only is a sound estimate of the need for credit to be advanced to the governmental unit provided for the coming year but also the specific month and the amount needed in the specific month is estimated well in advance.

(d) At any period during the budget year it will be possible to ascertain to what extent the actual financial transactions of the governmental unit are at variance with the program outlined in the annual budget.

(e) Uniformity in activities of similar governmental units may more easily be insured from month to month rather than on an annual basis.

(f) It will insure to the reviewing authority that the annual budget was compiled only after sufficient planning had been made to insure the practicability and soundness of the annual program outlined in the budget.

5. The disadvantages of the operation of the work program may include the following:

(a) The Italian officials who will be charged with the formulation of the works program may be unfamiliar with it, and thus require education in its purpose and use.

(b) The time element prevents in some instance the compilation of the work program simultaneously with the annual budget.

Any other disadvantages including the amount of work involved, it is hoped, will be brought to light during this discussion.

6. In conclusion if it is found feasible to make use of the work program the problem of reviewing all financial requests by the various governmental units should be made easier to all officers concerned. It should prove to be a time saver and lessen the burden of officers operating on all levels of supervision.

Unless its advantages far outweigh its disadvantages, of course, it should not be put into operation.
