Documents A, B, and C for handing over of territory to Italian Administration, with slight changes, have been approved by this Headquarters and summary is being sent to CCS asking approval of GAF proposed course of action. We are forwarding full sets of documents by fast air.

Timing of presentation of documents to Badoglio and subsequent transfer of territory to Italian Administration is dependent upon approval of CCS. Since date is uncertain do not consider it advisable to hold McSherry awaiting actual handover. Or has reorganization progressed sufficiently to permit his departure. If his presence is not necessary we (we?) would issue and order relieving him and appointing a CCAG for AMG REAR effective December 7th. Russell would be relieved and Lush appointed CCAG AMG Fifteenth Army Group on same order and effective same time if agreeable to General Alexander. Elevation of authority to Lush and McSherry's successor by General Alexander would be required. If you are in agreement submit your recommendation as to who should be appointed CCAG AMG REAR.

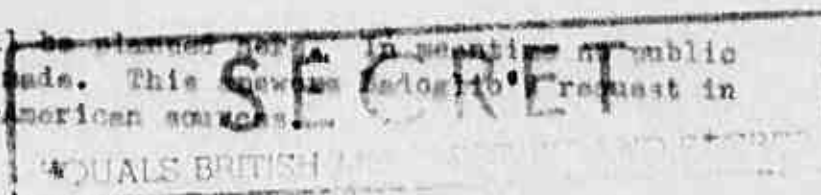

- In anticipation of early approval of plans the CCS please submit revised estimate of earliest safe target date for handing over considering
- (A) Status of documents being prepared at Palermo for continuing in force certain AMG measures.
 - (B) Time required by Italian Government to act upon documents we submit.
 - (C) Printing and distribution of proclamations and publication of decrees.
 - (D) Issuance of necessary instructions to AMG personnel who will become control officers.
 - (E) Time required by Italian Government to prepare to assume administrative duties, and all other factors involved.

Not necessary to submit here documents referred to in (A) above, but we wish to know firm date when they will be completed. 399

Publicity respecting transfer will be planned here. In event of public announcement on the subject should be made. This news should be requested in message 1164 for statement from Anglo-American sources.

On military side use of Montgomery's message to troops and similar material does not mean relax in standing rule nor to go beyond official communiques and report hard fighting in difficult conditions.

We re-use propaganda on U boats stressing following points:

1. Unnecessary sacrifice lives and boats by Hitler.
2. Failure of "weapons" which Germany claimed she used in September U boat offensive to affect the raid crews employed as result of U boat losses during May to July.
3. Decrease Atlantic insurance rates.
4. Increasingly effective attacks by Allied submarines against U boats.

For Russia stress Russian strength demonstrated by renewed offensive but uncommit Russians holding whole Kiev Salient.

Paraphrase by FREEDOM of 7616.

Summary PWS Directive week beginning November 29 continues main political lines for Italy as in last week directive.

For air war revive bombing guilt theme, recalling Germany tried win war by mass attacks Britainwards but now unable prevent Allied bombardment of Germany. Avoid any suggestion Allied raids are reprisal, nor that aerial offensive is substitute invasion.

383

For France continue main campaign. Stress our approbation increased influence French resistance in Committee National Liberation and link with recognition of resistance efforts within France. Ignore Vichy's situation unless official statements from Allied leaders forthcoming. Avoid further reference EBC 4V12 number 19 until 1 of objectives mentioned therein has been boxed.

For Austria continue last weeks lines and outpoint likelihood further influx evacuees result Allied air offensive. Stress growing need power and desperate drive for labor.

Documents A, B, and C for handing over of territory to Italian Administration, with slight changes, have been approved by this Headquarters and summary is being sent to CCS asking approval of OAF proposed course of action. We are forwarding full sets of documents by fast air.

Timing of presentation of documents to Badoglio and subsequent transfer of territory to Italian Administration is dependent upon approval of CCS. Since date is uncertain do not consider it advisable to hold McSherry awaiting actual handover. Or has reorganization progressed sufficiently to permit his departure. If his presence is not necessary we would issue an order relieving him and appointing a CCAG for AMO REAG effective December 7th. Rennell would be relieved and Lush appointed CCAG AMO Fifteenth Army Group on same order and effective same time if agreeable to General Alexander. Elevation of authority to Lush and McSherry's successor by General Alexander would be required. If you are in agreement submit your recommendation as to who should be appointed CCAG AMO REAG.

In anticipation of early approval of plans by CCS please submit revised estimate of earliest safe target date for handing over considering

- (A) Status of documents being prepared at Palermo for continuing in force certain AMO measures.
- (B) Time required by Italian Government to act upon documents we submit.
- (C) Printing and distribution of proclamations and publication of decrees.
- (D) Issuance of necessary instructions to AMO personnel who will become control officers.
- (E) Time required by Italian Government to prepare to assume administrative duties, and all other factors involved.

366

Not necessary to submit here documents referred to in (A) above, but we wish to know firm date when they will be completed.

Publicity respecting transfer will be planned here. In meantime no public announcement on the subject should be made. This answers British request in message 1164 for statement from Anglo-American sources.

Reference your cable 3209 dated 27th November. If VALERZA claims he is remaining BARI on my orders, he misunderstands situation. These are the facts: When I arrived in BARI on 18th November, I met VALERZA in Oriental Hotel, where he had been for about two weeks. I asked him what he was doing and he replied he was going to airport each day attempting to arrange air transport to PALERMO but that he had been unsuccessful. He gave me to understand that he was definitely leaving BARI not later than 21st November. As he spoke good Italian I suggested that while he was waiting he might obtain information in regard to black market prices in BARI, which would be of interest to both Public Safety and Finance Sub-Commissions. I left the next morning for BRINDISI and have not seen or heard from VALERZA since. Am asking Colonel QUARTY-SMITH to contact VALERZA and order him to PALERMO at once.

Requirements of the 12th and 15th Air Forces necessitate that the city of FOGGIA be evacuated of its civilian population except those necessary for the function of local services. This will entail the movement of approximately 30,000 persons to the south of Italy. The Italian Government will be required to find accommodations for these people by JOCKE who will inform AMO 15th Army Group when Italians are prepared to receive first evacuees. The Italian Government should assume full responsibility for their reception and should designate a representative to work with AMO in FOGGIA with special reference to custodial arrangements for the personal property of evacuees. AMO will make preparation for evacuation. Necessary additional personnel will be provided by AFHQ on request.

Jung has presented to Foley figures indicating that estimated receipts of Badoglio Government for December 1943 are 250,000,000 lire and estimated expenditures for same month are 1 thousand 250 million lire, including payment of Italian Armed Forces in Regions 2 and 3, but excluding payment of bond maturity due December 15. This stage detailed scrutiny of figures by ACC and approval of each category of expenditure is obviously impossible and we recommend that ANFA put the bank of Italy in funds to the extent necessary to enable the Bank of Italy to extend the requisite credits to the Badoglio Government. We of course recognize that the Badoglio Government cannot continue to finance itself merely through an overdraft account at the central bank, and we are presently discussing with Jung a program whereby the Italian Government will borrow from both the entire banking system and the public as soon as this becomes possible. In order to coordinate the handling of advances in Regional, 2, 3, and 6, we suggest that the regional finance officers be instructed to make necessary advances in amounts which Jung will estimate to the branches of the Bank of Italy in their respective areas upon request by the branches and against their receipts. A copy of each receipt given will be forwarded to Bari branch of Bank of Italy, which is temporarily acting as head office for this purpose. We assume that in accordance with ANFA accounting regulations the original receipts given to finance officers will be forwarded to ANFA Headquarters, in order that we can maintain a month-by-month check on total advances made. We realize that such advances cannot be broken down and allocated to specific expenditures by Italian Government ~~xxxxx~~ but this is implicit in procedure outlined for us by C.C.S. in cable number 1554 of 3 November 1943, TAN 66.

Inasmuch as the full text of the instructions of C.C.S. relative to advances to Italian Government has not yet been received by us, this suggested procedure is merely our thinking in regard to handling advances in the initial stages and before discussing matter further with Jung we would appreciate your comments.

Jung suggests that some of the pressure for wage increases results from encouragement on the part of some AMG officers in the field. You may wish to consider issuance of a brief circular to such officers pointing out gravity of allowing inflation to develop, stating that the people cannot expect further wage increases, and indicating that any encouragement in this direction by AMG officers will be dealt with severely.

Jung agrees that further wage adjustments would be catastrophic and that every effort must be made to hold the present line.

Jung plans to order wage increases for governmental employees in BALEARE Provinces as soon as possible, using BALE percentages as contained in AMO wage order. However, in our discussions with him two points have arisen which require immediate clarification.

First point: Jung's draft order makes wage increase applicable to all military and naval personnel as well as civil employees. It is our understanding that AMO order for Sicily did not apply to Italian Armed Forces. Jung states there is no basis for distinction between Carabinieri and Italian Army, Navy, and Air Force, and that any attempt to make such a distinction in Regions 2 and 3 and 4 provinces will lead to serious difficulties. Jung's application of order would more than double cost of wage increase, but he insisted it is absolutely necessary and inevitable. We urgently request your views on this point, as we have asked Jung to suspend action on order pending further word from us.

Second point: Jung's draft order abolishes 2 wage supplements, the "Indennita Di Presenza" and the "Premio Di Onerosita". The AMO order for Sicily as issued adds the percentage increase to base pay plus all supplements, including "Indennita Di Presenza". It is our understanding that "Presenza" is to be abolished in Sicily, now that the wage increase has been put into effect. Jung points out that unless this is done there will be a serious discrepancy between wage levels for corresponding classes of employees between Sicily on the one hand and Region 2 and the 4 Provinces on the other, where "Presenza" is not now being paid. Please confirm our understanding that "Gratifica" will be abolished in Sicily. Jung's draft also abolished the "Premio Di Onerosita". He holds the thin supplements verbal as among individuals in the same salary class SOBEREIGNLY that its inclusion is administratively impracticable. If "Onerosita" is retained in Regions 1 and 2 and eliminated in BALEARE Provinces, a differential will result. Please discuss with other interested sub-commissions and let us have your views as soon as possible.

It has been suggested here that information be obtained from Washington and London on ~~Spain's~~ experience in dealing with currency and inflation problem during the recent Civil War. The Spanish situation appears to be somewhat comparable to the situation now existing in Italy, that is, a country occupied by 2 belligerent forces, both issuing currency; commodities in short supply, and foreign trade virtually at a standstill. It is likely that ~~ONE~~ and ~~MR.~~, who have been working on Spanish problem, have information in their files which could be quickly assembled. Please keep us informed as to progress made this connection.

FROM: FOLEY SIGNED JOYCE

TO : FAROO FOR HADLYN.

Requart following message transmitted to combined Chiefs of Staff, reference cable from combined Chiefs of Staff number 1554 of 3 November, 1943, TAN 66.

1. Question of resumption of payment on Italian debt has been discussed by Foley with Jung, Finance Under-Secretary on Badoglio Government, and certain procedures were agreed upon. Immediate problem is redemption of 9 year 4 1/2 Treasury Bonds due on December 15, 1943.

2. It is our understanding that by far the largest part of the Italian State is in non-registered. The Treasury Sub-Office from which such bonds were purchased retains a counterfoil for each bond, and such bonds cannot be redeemed unless each bond is matched against the relative counterfoil. A circular instruction will be issued by the Badoglio Government to each treasury paying office requiring strict adherence to the rule of matching bond with counterfoil and forbidding payment without Jung's prior approval of any bond whose counterfoil was not in possession of a treasury Sub-Office in what is now Allied-occupied Italy (including Badoglio's 4 provinces and Sardinia) on July 10, 1943. We recognize that such a counterfoil system affords no proof of rightful possession of bonds but we feel it most unlikely that the enemy would smuggle securities into the liberated area solely to gain lire, since the enemy, being in possession of the printing presses and adequate paper stocks, can provide itself with any desired quantity of lire without recourse to any such circuitous device. Jung thinks there is no question but that Germans will permit all bonds held on their side of the line to be paid. The matching of bonds against counterfoil should be ample protection against payment of counterfeited bonds injected into the liberated area by the Germans. In view of the above, we have decided it is not feasible to impose at this time any system of registration or stamping. Of course no obligations issued under authority of new Mussolini Regime will be serviced.

3. We are in complete agreement with you that AMFA should not make direct advances to Badoglio Government for specific purposes, but that such Government should look to the banks for credit. AMFA will supply AM Lire if banking system is short of currency, regardless of reason for shortage. Jung plans to handle redemption of December 15 maturity by receiving a credit from the Bank of Italy, Bari Branch,

SECRET

22

S

which credit will be spread among other Bank of Italy Branches in Regions #1, #2, #3 and #6, and 4 Provinces in accordance with their respective needs. Jung estimates that in above-mentioned area the issue due on December 15 is held in a value of approximately 300 million Lire. Reinvestment of matured principal and movement of bonds out of area before invasion will lessen demand for cash and Jung estimates that net cash outlay will be approximately 120 million Lire. AMFA will stand ready to put in funds any branch of the Bank of Italy needing currency to meet withdrawals under the redemption credit.

4. As for payment of interest on entire state debt, which has been suspected in some areas but maintained in Badoglio provinces, Jung is in process of compiling estimates of monthly amount required to meet interest charges. We shall advise you further when we have definitive figures. It is our present intention to handle service on entire debt as herein outlined for December 15 maturity. Jung states there are no additional maturities during the next six months.

Foley spent Friday at Bari with Rennell, Graffetey-Smith and MacFadzean. The situation resulting from non-payment of Italian Armed Forces appears to be critical. MacFadzean pointed out that the Italian 31st Corps had not been paid for more than 6 weeks and that unless payment was resumed at once order could not be maintained. 80 million lire are needed for immediate payment to these troops. MacFadzean reported that Italian funds on deposit with the branch of the Bank of Italy from which these troops were previously paid have been drawn down below 80 million lire and that Allied Military Lire must be deposited if troops are to be paid. MacFadzean has sufficient supplies of Allied Military Lire for this purpose but his stocks should be replenished within the next 30 days. Rennell considers matter to be of urgent military necessity. Delay on part of combined Chiefs of Staff in replying to cable requesting policy instruction on question of advances to Italian Government is causing serious embarrassment. General Joyce has informed MGS that he intends to follow procedure approved by combined Chiefs of Staff for payment of debt service to meet essential needs of Badoglio Government and Italian Armed Forces in the four provinces pending receipt of definitive advice from combined Chiefs of Staff.

Our letter WGS 00073-2 November 13th regarding censorship. Major CHAMTEX of INC now here, and states he understands from Captain TUBBER Postal Officer of WGS that December 1st has been approved as date for resumption of Internal Mail in and between AMG Regions 1 and 2 and 4 Provinces, also for External Mail in accordance your MAT 85. He states December 1st is satisfactory to INC. Do you confirm December 1st for resumption of both Internal and Foreign mails, letter to be handled accordance MAT 85? Of assumption that December 1st is approved for Internal Mail, Italian Government would like resume, (A) Money Orders, (B) Current Accounts, (C) Savings Accounts and (D) Sale of Postal Bonds within and between 4 Provinces and Region 1 and 2. Your letter 13th November only authorized surface letters and postcards so far as censorship rules are concerned but does not specifically authorize resumption of service. Major CHAMTEX states INC has no objection to resumption of these 4 Postal Financial Services effected December 1st. We therefore recommend that Money Orders, Current Accounts, Savings Accounts and sale of Postal Bonds in and between 4 Provinces and AMG Regions 1 and 2 be authorized coincided with resumption of Internal Mails. POLLY concurs. Will Internal Telegraphs be permitted where facilities available? Your early reply is requested.

The results of the Taylor-McSherry reconnaissance of the Naples area indicate conclusively that the Italian Government and Allied Control Commission should move to Sorrento without delay. This will require taking over the best hotels, one or more schools and probably certain other facilities. All of these are prospectively or now in use as rest camps and convalescent resorts.

Salerno, the only other alternative, is a possible but much inferior solution. It is possible only if a large seminary which is Vatican Property can be obtained. Negotiations with the Pope as well as extensive repairs to part in other buildings will be time consuming. Furthermore the presence of the Government and Commission in Salerno will adversely affect operational activities of the port.

If the Italian Government is to discharge the responsibilities which you wish it to assume, it must be given suitable working space, living accommodations and communications. These are immediately available in Sorrento. In spite of the disadvantages that may attend the displacing of present occupants, I strongly recommend that full authority be given me to designate for immediate transfer to the use of the Italian Government and Allied Control Commission such facilities in Sorrento as I deem necessary. If this decision is made Allied authorities in Italy should be instructed to assist in every way. The solution of this matter is one of emergency as establishment of government and adequate organization of Commission are practically impossible until settlement is reached.

If it is necessary or desired I shall come myself or send Taylor to your headquarters to make a presentation.

on

Rank: Major Name: W.H. OUSLEY Unit or Formation: INTELLIGENCE CORPS

Age: 51

Period covered by this report: from 9th Oct 43 To 4th Nov 43

1. How has he been employed? C.A.C. Potenza Province.
2. How long have you been his Commanding Officer? Years One months.
3. Brief statement giving grounds upon which report of ineffectuality or inefficiency are based:-

NOTE:- Special note should be made of such faults as intemperance, lack of leadership, temperamental or physical weakness, lack of knowledge or experience, unreliability, and example.

I have only been this Officer's C.O. for a short time, but from many reports of the Officers serving under him, and from my own observation I consider him unsuitable for employment as C.A.C. in Italy, living in Italy he has distinct Italian leanings, this leads to a good deal of fraternisation with Officials, a reluctance to take strong action against Italians who seem undesirable to our Government, this undoubtedly causes a lack of confidence in his subordinates who feel that the true spirit of Allied Military Government is not being carried out, he is capable and hard working and should be usefully employed in another sphere of A.I.C.

4. Have you previously warned this Officer regarding his inefficiency?
No.
5. Is this Officer's character such as to make his retention as an Officer in His Majesty's Service undesirable?
No.
6. Is this Officer recommended for further employment or further training in his present rank?
Yes.
7. If so, in what capacity? N. Africa or Middle East and whatever climate being advisable as instructor Military

Personnel allocated to Region #4 should be responsible for administration of the Province. They will be reinforced by such additional personnel as experience may show, and you recommend, to be necessary from Global TO/RE use in preparation. Until at least 75 percent of area of Region #4 is under military government this presumably will not take place.

CITE FH COS

Your number 5088.

I told BADOGLIO tonight that ROATTA must be replaced. BADOGLIO quite understood the situation but said that he would have to get the KINGS approval before taking action. He stated that he would have great difficulty in replacing ROATTA and hoped very much that we might be able to let him have 1 of the ITALIAN Generals captured by us returned to fill the appointment. He mentioned the name of MESSE but said he would like to think the matter over further. I told him that I thought that you would probably give this request your sympathetic consideration and personally I think it might be a good thing to comply with it. Will let you know further in due course.
