CONFIDENTIAL. On 6 Oct demonstration of some hundreds of Florentines mostly women took place before Prefettura to protest against insufficiency of food in particular bread. Gathering was apparently spontaneous and was eventually dispersed peacefully. FLORENCE has been receiving 200 grammes bread daily and full ration scale of miscellaneous items except olive oil was issued for October. In order to help alleviate undoubted hardship that exists trucks are being diverted from building up grain reserve to bringing in more fruit and vegetables. It is recommended that issue of past ration minimum of 500 grammes weekly be considered without delay. Draw your attention to lack of harmony between facts described and announcement in Stars and Stripes of same date that substantial increases in food for ITALY are promised by President ROOSEVELT. This will undoubtedly, as usual, be made subject of German radio propaganda.

**SECRET.** 1. Joint statement on ITALY by the President and the Prime Minister issued to the press on 26 Sept, which has been given wide publicity in ITALY, has naturally occasioned many enquiries from Allied as well as Italian sources. In the absence of Directives from you as to the time and manner of implementation of the policies laid down, I am instructing the Chief Commissioner that specific action is to withheld.

2. In order to enable me satisfactorily to answer these enquiries and to cut short the present period of speculation, I request that I may be given Directives as soon as practicable. I hope these may cover the matters directly raised by the announcement, most important of which is taken here to be the naming of direct Italian Representatives to the 2 Governments, as well as matters necessarily raised by implication, as for example, any modification in the relations between other United Nations and Italy.

3. In connection with the naming of direct Representatives I request that specific guidance be given on whether Italian Representatives are to be allowed secret communication with their Government. I also hope that character and scope of the functions of any representatives will be clearly defined. This I consider essential if there is to continue any satisfactory working relationship between the ACC and the Government. I wish that there may be avoided any situation such as recently arose through an important direct communication, the fact and contents of which were generally known in Italian circles but were unknown to the senior officers of ACC or AFHQ until reported by OSS on an Intelligence basis.

4. If there is implied in the statement a forth-coming reorientation of the functions of ACC, I request that the ACC and this Headquarters may be given an opportunity to comment. Considerable study has been and is being given to the possible future reorganization of ACC, as a result of which and on basis of experience in the field, I believe we may be in a position to offer useful suggestions which may fit within the framework of whatever policies may be laid down.

SECRET. G-2 SUMMARY NUMBER 43.

A. ITALY. Adriatic sector. Enemy attitude and dispositions generally unchanged. Digging reported on west bank of Fiumicino. Vigorous reaction to own patrols across river. Identification of both regiments 114 Jaeger Div East of SOGLIANO suggests possibility 278 Inf Div about to be squeezed out. Central sector. Enemy resistance continues strong astride IMOLA axis where 44 Div now reinforced by one battalion 362 Div, one regiment 98 Div, one regiment 334 Div and battalions 305 Div. No sign yet of remainder 98 Div which probably still back reforming. On axis route 65 only moderate resistance offered by 4 Para Div and 362 Div to our advance which has now reached approximate LINE LOIANO-MONTE VENERE L8123. 362 Div likely to need assistance soon and remainder 334 Div may well be brought in here instead of following 755 Inf Regt to IMOLA axis. General impression therefore is that enemy is fairly confident of controlling situation on Adriatic and now concentrating his forces in attempt to wear down our attack in centre. NORTHEAST ITALY. Usually reliable CX reports 71 Div in ISTRIA. Div has not been identified since its withdrawal from 8 Army front Mid-Sept. In view of its heavy losses seems not unlikely that it has returned to NON-OPERATIONAL AREA to reform.

B. BALKANS.

1. YUGOSLAVIA: Russian forces from Roumania reported captured PETROVGRAD and JASENOVA due north and east BELGRADE respectively. Successful exploitation this advance threatens latter city and also drive wedge between Army Group SOUTH UKRAINE and Army Group F.
