Allied Garrison Commander in SARDINIA requested authority to dispose of approximately 525 buildings in the vicinity of USA airfields in SARDINIA. These buildings were constructed by local labor using mostly local materials and it is not considered practical to salvage them for military use. The joint disposals committee has authorized their disposition.

Para Two. The Italian government desires the buildings. The AGC and Italian High Commissioner have appointed a board to establish their value and to determine separately the cost of USA labor and materials and the Italian labor and materials.

Para Three. On the basis of the recommendations of this board the AGC and the Italian High Commissioner for SARDINIA propose to enter into an agreement for their sale to the Italian Government. Any agreement entered into will assure that the USA is relieved of any liability with respect to the use and occupation of the property involved. The procedure has been approved by this headquarters in EURAD FX 41241 of 25 October to AGC. Transfer must be completed by 10 November.

Para Four. It is desired that you send a representative to SARDINIA or direct your representative there to advise the AGC on the proper procedure for the consummation of the sale by the authorized Italian official and on accounting for the

Para five. In view of the urgency of this matter it is desired that AGC render all assistance to the completion of the transaction

South of Route 9 no opposition offered to our troops crossing RONVO area M our 714. Lack of contact north east PREDAPPIO and north of MELDOLA suggest 356 Inf Div withdrawn to GERHILD switch position on Upper MONTONE.

2. In central sector 4 unsuccessful attacks launched by 1 Para Div on hill 568 L9933. Elsewhere activity on small scale and artillery generally light.

3. In western APPENNINES intra Bn MONTEROSA Div identified by PW area U9798. May indicate arrival of 1 Alpine Regt. PW assertion that entire Division is to come into line supported by report of inspection of MONTE ALTISSIMO positions P9803 by Italian General.

4. Largely as result of weather general enemy situation tolerably satisfactory. On east Dpt east flank further withdrawal probable whenever weather conditions permit resumption of major movement until 2 main fronts join up forward of BOLOGNA. Para One. Believe that your questions CAL 902 have been covered in previous correspondence. (This is LAC 786). Also Col BUTTERWORTH personally explained wheat situation in September and Col LEVIS, 35 section, Col LING and TOLMAN, AC Food Sub Commission, have been in your office for purpose of giving you detailed background information since mid September.

Para Two. Specific answers follow:

A. Figures refer to 12 months requirements(see paras three and four SACRED'S letter) 1 July 44 to 30 June 45. (see also para four A of LAC 763, 19 October) pairing of monthly deliveries should conform to ALLIED COMMISSION's program, now before you.

B. Maize and rice. Regret areas growing these cereals not yet liberated. When available these cereals will be used to best advantage (see para B LAC 702).

C. That question was raised previously in CAL 714 and replied in LAC 659. AC advises additional personnel would not affect grain import requirements and still does not want them.

D. Para (1). Yes. However no additional trucks available

Para (2). Yes. See LAC airgram 51

Para (3). No. Tonnage requested is based on needs to ⁸⁰⁸⁴ implement policy of 300 grain bread ration, lift and distribute indigenous(?) supplies of all commodities.

Para Three. New but related subject. What is status of food program for January-June 19 45 submitted by ALLIED COMMISSION'S representatives in mid September. Needed immediately are tonnages and procurement responsibilities allocated to permit calling forward in time to meet shipping bid dates. Consistent delay in sending this type of information has resulted in our calls forward being late every month for a year. This handicaps proper allocation of shipping to this theatre. Following agreed signal STEPHENS & BLAIR STOKER of MFT owing to acute shortage of railway wagons in REGGIO CALABRIA for grain and military commitments sufficient wagons cannot be provided for even timber haulage. This means insufficient timber will be available at loading ports for ships arranged by T.N. Sub commission. Endeavouring to haul with present inadequate road transport and POL allocation of maximum tonnage possible this will increase timber cost. Unless railway wagons provided immediately will necessitate revising export programmes as manufactured lemon cases cannot be ready in time to pack and load ships

In recent discussion LAMON with General HILLERND latter urged acceleration demilitarization ACC personnel at Headquarters and in regions other than under AMO. HILLERND stated that demilitarization could be achieved either by substitution of civilians or by decommissioning officers who desire to stay on and whose services are required. He requested early progress report and stated that substantially all US personnel in uniform with assignments as above should be withdrawn by end of this year. In absence of agreed plan in conformity with foregoing, orders may be expected from War Department relieving personnel by date indicated.

Information has been received from WASHINGTON that in connection with implementation of New Policy towards ITALY arising out of the Declaration on 26 Sept the position is that a reply has been drafted by UNITED STATES members of CCAC and is presently with UNITED KINGDOM members for concurrence or comment.

It is stated that the draft reply is based on realization that the implementation must take full cognizance of how much of an Allied Commission SACMED desires to retain to enable him to carry out the responsibilities which will still be his.

The draft reply envisages that before final directions are issued this Hq will be requested to comment on the proposals made by you in your S328 of 10 Sep, a copy of which has come in the possession of WASHINGTON through Ambassador KIRK. The draft then proceeds substantially as follows

An alternative suggestion is that AC be demilitarized without changing its framework. This would be accomplished by an acceleration of the infiltration of Allied civilian officials into the AC and the simultaneous withdrawal of military personnel or their release from military status. Such demilitarization would not apply to the Establishment Section and the Independent Army, Navy, Air and War Material Disposal Subcommissions. This demilitarization would not involve any alteration in the line of authority from the Supreme Allied Commander who would continue to exercise authority through his Deputy, The Chief Commissioner in AC, until such time as military considerations no longer predominately

govern Allied policy in ITALY.

It is requested, although the alternative presented seems not materially inconsistent with your original plan, that you will urgently consider and submit your view on the above in the light of the proposals already made by you and of events subsequent to their preparation and that in doing so you cover the aspect of phasing of

(A) Withdrawal of military personnel or their release from military status,

(B) Functions which you now consider can be dispensed with entirely.

"NAHON is still in JERUSALEM and Allied Forces Hq in ITALY have informed Hq Allied Control Commission in ITALY that it has no knowledge of NAHON'S application to enter ITALY having been received. I have informed Allied Control Committee "it is most desirable that until NAHON arrives no immigrants for PALESTINE be permitted to proceed apart from those already in possession of immigration authorities." In view of allocation of a figure of 900 persons for immigration of JEWS in ITALY to PALESTINE I consider it most desirable that NAHON should arrive in ITALY as soon as possible in order to assist in selecting suitable immigrants.
