I would like to congratulate the Fighter STORMOS for the magnificent results of their most determined attacks on the enemy columns in the ELBASAN area today. Such a crippling blow to the enemy at this time will have far reaching effects on his withdrawal in this area. It was particularly praiseworthy in view of the extremely bad weather conditions at the time. Good luck to you and may you have many more such successes.

1. Our view is that document transferring title of any Allied property to Italian Govt should include statement of known or estimated dollar or sterling components and of lire components, total of two comprising total known of estimated value of item being transferred. Italian Govt would make no payment at present time. Final settlement would presumably involve dollar or sterling claim against Italian Govt to amount such components and reduction in total of Italian aid to Allies under armistice by amount of lire components.

2. This Hq has no directive from COS covering disposal Allied property in above manner and as outlined in our FX 47390 of 2 Nov. Consequently disposal 525 BUILDINGS IN SARDINIA along these lines will not constitute precedent for future disposal, on which it is intended to seek CCS direction. You should obtain approval Minister of Treasury for proposed disposal buildings in SARDINIA on basis para 1 as soon as possible, as Allied Garrison Commander SARDINIA considers disposal urgent matter.

Para 1. Recommendations by you on disposal of buildings as given in URAD AGS A50 of 2 November are approved. Consult AC on procedure for settlement. As regards your answer in reference cable to related subject, your assumption that 5200 dollars, appropriated from Italian funds constitutes book charge against USA was erroneous.

Para 2. The sum appropriated from Italian funds constituted an obligation of the Italian Government under Armistice.

Para 3. There can be no question at this time of any book charges against the Allied Governments as a result of local goods and service contributed by the Italian Government to aid the Allied war effort.

Para 4. The reason for requesting breakdown between Allied and Italian components of cost of buildings is to provide adequate accounting record for purposes of ultimate settlement between the Allied and Italian Governments.

Disposal of buildings is subject.

Joint US Italian Commission has completed survey and arrived at agreed recommendation. Have personally inspected buildings, and agree with Commission in following conclusion:

Buildings in practically all cases valueless to landowner or others as buildings; represent expense to landowner to remove.

Contrary to my statement in basic letter this subject, materials construction, mostly hollow tile and concrete block, difficult to reclaim for further use, and percentage recovered very low account damage. This because strength and bond of cement used as mortar.

Labor cost to remove negligible; quantity materials resulting renders resale price greatly in excess local market price similar used materials.

8344

Landowners most cases will have just claim for damages account presence of buildings; total such claims indeterminate this time.
