A. ITALY. 1. General. Partisans report enemy main bodies withdrawn behind LAMONE north of RAVENNA. No confirmation of this however from own troops. South of Route 9, 26 Panzer Div now withdrawn behind LAMONE with 305 Div on its right conforming. Slight resistance only to own bridgehead over MARZENO at M3120 where 577 Gr (305 Inf Div) identified after long absence from line. No important changes on remainder of front.

2. Order of battle. Deserter on 162 Division previously reported on MONTE ROSA front now known to have left Division 3 months ago. No rpt no evidence therefore that Division likely to appear this sector. Latest CX provides plentiful evidence of arrival 162 Div in PIACENZA area where partisan activity likely to supply more suitable employment. NE ITALY. Partisan report dated November 15 mentions heavy traffic north from UDINE and preparation of 50 troop transport trains. This possibly connected with reported move of 44 Inf Div.

SECRET.

1. This message should be referenced 6884 of signals to British Chiefs of Staff.
2. Subject is routing. An endeavour is being made to simplify routing of signals to British Chiefs of Staff so that all most important combined series of signals are routed in future to Air Ministry Whitehall Special Signal Office which at present handles all other signals for British Chiefs of Staff. This should help to reduce difficulties resulting from existing 2 routings (1 via U K Base and 1 via AMSSO).

3. Not at present possible for AMSSO to handle some of less operationally urgent or important series and therefore LEM/MEL CAL/ALAC GAY/YAG MOC/COM will have to continue via U K Base for present. The rearrangement will however ensure that most important signals all follow 1 route and therefore less liable suffer delay and misrouting.

4. Proposals are:

a. All signals (except particular series in para 3) for British Chiefs of Staff or War Cabinet Offices to be routed to AMSSO (Call sign JARI).

Cypher to be used.

b. Combined series routed to AMSSO to be encyphered on combined cypher machine or once in British system and a second time in American system (1 of them being a 1 time cypher for reasons of cypher security). This double encyphering may be necessary

SECRET

Decl.

(6884 continued)

on grounds of extreme secrecy of subject matter. Suggest AGWAR could pass such signals which should be very few to J S M to encypher in appropriate British cypher.

c. Other signals routed to AMSSO (including MEDCOS/COSMED series) to continue in British C O S typex or 1 time pad as previously.

d. Combined series routed via U K Base (see para 3) to continue as previously except that they will be addressed "U K BASE WAR CABINET SECRETARIAT" instead of "U K BASE FOR BRITISH CHIEFS OF STAFF". This intended to facilitate differentiation by originators and signal staff of the 2 classes of traffic. U K Base to deliver series concerned via War Cabinet Offices as hitherto.

5. Most important that messages intended for AMSSO bear transmission instruction T JARI. Use of transmission instruction T JAWK (Air Ministry Whitehall) would result in message being sent to wrong cypher office.

6. Request all addressees confirm agreement, after which effective date will be signaled.

A. ITALY.

1. GENERAL. Stiff local fighting in active sectors of Adriatic front. 26 Panzer Division forced to withdraw slightly from line of upper COSINA West of CASTIGLIONE, M3416 but no indication flanking formations. Remainder of front continues quiet save for patrol activity.

2. ORDER OF BATTLE. Identification of 162 Inf Div by deserter in SERCHIO valley confirms westward move of Division. May be intended to give stiffening to MONTE ROSA. Reports from ground sources of move of VIENNA Division to HUNGARY possibly refer to 44 Inf Div. As latter has remained unidentified since withdrawal from line end October and may well therefore have left country.

B. BALKANS.

1. YUGOSLAVIA.

(A) MITROVICA occupied by BULGARS by 21 November.

(B) 21 Corps making determined effort break through Via PODGORICA-NIKSIC road, head of column being reported area DJUROVICI 22 November. Troops from KOTOR and RAJOVICI moving Via coastal road back to SCUTAR since CETINJE route blocked.

(C) German saboteurs landed SILBA night 19/20. Boats reported wrecked but saboteurs had not been rounded up by ^{9/79} Partisans by 21 November.

Personal for Commodore STONE from General ALEXANDER.

You will have seen my MA 1796 to General WILSON on the subject of my taking a parade of Carabinieri in ROME. If General WILSON agrees I presume that your HQ will make the detailed arrangements. Any day during the first week in December would suit me. I should be glad to have your comments.

Sir NOEL CHARLES and Mr. MACMILLAN have evidently suggested that it might be a good thing for the Carabinieri if I took a parade by them in ROME. I have no objection to this provided you approve.

First cipart. G-2 summary number 83.

(A) ITALY. General. Little positional change on Adriatic flank. North of route 9 enemy still holds firmly line of MONTONE and UNITI rivers. Further South determined resistance met at CASTIGLIONE M3416 and on remainder of front activity on small scale only.

Order of Battle. 90 PG and 362 Inf Div still out of line. In addition evidence of PW shows enemy now able to carry out frequent unit reliefs on well packed Central Sector. Probable that divisions in line have each up to 1 Regiment in immediate reserve. 162 Div still unplaced since withdrawal from Adriatic coast. Steady traffic NW along route 9 towards MODENA reported on 18th possibly connected with its movement.

Total German PW for opening of attack on Gothic line to 15 November, 24608.

(B) BALKANS. 1. YUGOSLAVIA and ALBANIA. LESH and SAN GIOVANNI reported evacuated. German forces in ALBANIA thus concentrated entirely in North and cut off from all communication by land with rest of Army Group E. No further movement Northward by this force. Heavy MT movement continues through SJENACA-VISEGRAD-ROGATICA. Pontoon bridge at VISEGRAD reported damaged 20 November probable result of bombing. Indication Germans using subsidiary withdrawal routes PLEVLJA-GOEAZDE, PLEVLJA-RUDO and UXICE-ZVORNIK.
