Operation of PIOMBINO as a sub-port of PENBASE is desired. It is felt that this can be accomplished with a cadre from PENBASE, supported with available civilian labor.

It is appreciated the successful operation is contingent upon completion of repairs to railway line, which it is understood has a date of 15 February. PENBASE is requested to investigate and if viewed as practicable, confer with ALLIED COMMISSION and Military Railway Service to determine if opening of railway line cannot be hastened.

It is planned that the port operation will eventually be turned over to ALLIED COMMISSION

1. As an experiment to a n effort to rapidly build up a winter stockpile of gas coal in ROME, it is planned to discharge a Liberty ship collier off the beach at FIUMICINO into MINDA barges that will be towed to the coal quay in FIUMICINO for discharge into rail railway wagons or stockpiled on the quay until railway wagons or barges are available to transport the coal into ROME by railway or barge canal.

2. Liberty JOHN DAVIES, now waiting calling forward at AUGUSTA, containing 8300 tons, has been selected for this purpose.

3. To insure the success of this operation, PENBASE is requested to:

- B. To arrange with military railway service for the placing of gondolas.
- C. To locate an RTO at FIUMICINO to supervise the railway operation to insure an adequate supply of railway wagons and shunting, as well as movement of loaded wagons to the gas plant in ROSE.

Exports of sulphur from ITALY and SICILY during period January-June 1945. Refer CAL 1001, *CAL* 1066, EEL 388 (not to all).

1. Position is as follows: stocks and production in SICILY approximately cover total Italian industrial and agricultural requirements as at present known. Stocks and production of mainland expected to be approximately 18000 tons during the period, but transportation problems control quantity that can be utilized. To extent stocks on mainland can be made available to meet mainland requirements, SICILIAN stocks will be available for export. A detailed answer to questions in CAL 1001 and A plan for movement of mainland stocks is being prepared. A firm decision as to availability for export will be reported by 15 January.

2. The PDM 13 presently loading approximately 3580 tons for SOUTHERN FRANCE to apply against 4500 tons allocation for January-March (CAL 1060 refers).

3. The AUGUSTINE LE BORGNE presently loading approximately 1400 tons for NORTH AFRICA will leave approximately 5300 tons of NORTH AFRICA 2nd semester 1944 allocation still to be met (CAL 657 refers).

4. As shipping becomes available it is intended to load balance of 5300 tons for NORTH AFRICA and 920 tons for SOUTHERN FRANCE. This will complete outstanding commitments with the exception of

SECRET

150 tons for GAZETTE.

5. By deducting amounts in para 4 above from 18000 tons (para 1) there is a balance of 11630 tons. Additional 2800 tons remaining at port after loading paras 2 and 3 above makes tentative exportable balance 14430 tons. Please notify US disposal instructions for this balance.

6. Known MEDITERRANEAN requirements not included in para 4 above are:

- A. 4500 tons for SOUTHERN FRANCE March/May 1945.
- B. 13800 tons for NORTH AFRICA at the rate of 3200 per month as notified by NAJEM.
- C. ED 7100 tons for BALKANS, of which 4100 has been called forward from USA under bulk 72/December (Eng-Roman 4-TCG-0476). Call forward for balance BALKAN approved demand being withheld pending your allocation of balance in para 5 above.

7. Amounts available for export will be reviewed upon subsequent fuller report, and are contingent upon increased production as a result of receipts of requisitioned supplies and improved internal transportation. Every effort will be made to create maximum export availability.

1. Refer our FX72271 of 21 December. Your S72822 of 28 December advising immediate acceptance in FRANCE of only 20 tons is noted. It is requested that decision be reconsidered with a view to acceptance of 150 tons.
2. Reconsideration appears necessary for following reasons:
 - A. Your signal S72529 of 26 December requested diversion of 150 tons to Southern FRANCE.
 - B. As indicated in signal NAJEM 146 of 2 January, copy to you, 150 tons was purchased on French North African account at request of NAJEM. Previous intention was to ship to NORTH AFRICA for ultimate use in FRANCE. This arrangement was made at time when only operational shipments could be made to FRANCE and prior to CCS policy instructions in TAM 384 of 6 December.
3. Paraphrase of relevant portion of TAM 384 from CCS to AFHQ follows. Use of existing channels and memorandum account for ITALY-NORTH AFRICA trade authorized as interim measure to cover trade between ITALY and metropolitan FRANCE provided proceeds credited or paid to Franc account in name of Italian banks designated by AC for Italian Government account and proceeds freely utilized for purposes specified in TAM 136 under AC supervision and control and subject to approval French Exchange Control authorities. ¹⁹⁷⁶ CCS stated above arrangements tentative pending negotiations by AC on behalf Italian Government with French

4. MAT 459 of 16 December from AFHQ to OCS proposed that temporary negotiations on behalf Italian Government be undertaken by SHAEF mission or other appropriate Allied organizations in FRANCE since neither AC nor this headquarters currently in contact with French officials authorized to negotiate along lines TAM 384. Points below were to be kept in mind:

- A. Establishment of memorandum account.
- B. Periodic notification to Italian Government of details of realized proceeds.
- C. Arranging communications channels between AC or Italian Government and French authorities on trade matters, including notification by Italian Government of export prices prior to shipment.
