Italian cheese. Following is paraphrase of signal received from CC/S.

1. Information received here indicates existence of approximately 4000000 pounds of cheese (Romano Sardo cheese) in Region of MACOMER and ARASANTA on SARDINIA. This cheese supposed to be held in part by 3 firms of ALEANO and DITRANI, DALMASSO, and SALMON. The information further indicates that a good part of this cheese is probably 2 years old and may start deteriorating if held during the hot weather of coming spring and summer.

2. In view of the fact that the supply situation as to meat is very tight and it has been difficult to fill your requirements for meat, it is suggested you investigate existence of this cheese and the possibility of using it in substitution of part of your meat requirements. End paraphrase.

Advise immediately results of such investigation.
