All camps find para 3(A) extremely difficult to comply with for following reasons:

(1) Higher paid employees penalized more for same accommodation and rations viz doctor already near minimum will pay 2500 lire cobbler will pay only 1100.

(2) Different scale of rations in issue viz Yugo-slav ex-internee interpreters and general workers in camps scale 336.

(3) Refugees working for military units receive rations and often accommodation and as DP and RSC not paying unit no control can be exercised.

(4) Refugees living in camp but working outside and paid outside. Suggest all refugees employed have the 30 lire a day deducted without complications only affecting DP and RSC employees.

Communications on Italian exports.

Direct communication is authorized concerning Italian exports (refer LAC 865) between the AC and WASHINGTON and between AC and LONDON. Such communications to and from WASHINGTON will be in the COM-MOC series and action in WASHINGTON will be assigned to combined liberated areas committee. Such communications to and from LONDON will be in such series as the WAR OFFICE LONDON may designate.

The UNITED STATES is not committed to any action on such communications, and replies hereto are to be repeated to WASHINGTON for CCAC and CLAC information. The COM-MOC series will be used for both combined matters and UNITED STATES matters. It will continue to be repeated to LONDON for information CABINET SECRETARIAT as is present practice. Both series are to be repeated to AFHQ for FHCHG.

For the time being, policy matters on exports from ITALY will continue in the CAL-LAC series.

No confirmation of t is by contact but civilian reports of arrival Jaeger troops at LONGASTRINO M 4257 and their continued movement towards front lends support. Division has not recently been identified on central front and may well have moved across to relieve 114 Jaeger Division. No new identifications central front and consider enemy probably less apprehensive of Allied attack there and prepared to compensate for departure of 42 Jaeger by stretching divisions already in line. Enemy reserves now 157 Mountain, 26 Panzer, 98 Inf and 114 Jaeger Divisions. Last named probably still in poor shape but 26 Panzer and 98 Inf should be nearly operational again.

Sulphur. This is LAC 958.

This answers CAL 1020 and amplifies LAC 934. Export availability for period January-June 1945 determined to be 6406 tons. This has been arrived at as follows (all in Dwlt)

(1) SICILY and mainland stocks and production for first half 1945-74460. Deduct total mainland stocks of 18000 and unmovable production of 5000, leaving 51460. Add 10000 which is amount of mainland stocks that can be moved during the period. From this deduct total Italian requirements of 50554 leaving 10906. Deduct allocation to SOUTHERN FRANCE of 4500 (CAL 1060 refers). This leaves unallocated balance of 6406.

(2). Unshipped balance of 1944 allocation to French NORTH AFRICA has not been deducted, as this is covered by December 1944 production and will be met in addition.

(3). Total requirements of 50554 in para 1 above is comprised of:
