ALLIED FORCE HEADQUARTERS

LAC AIRGRAM 99, 28 January 1945

FROM : FHGECG (Concurred FHGDS)

TO : Combined Civil Affairs Committee,
3C - 886 Pentagon Building, Washington, D.C. (15 copies)

SUBJECT : Use of Barley in Italy.

Further to LAC 897 and with reference to CAL 1126.

The use of barley in Italy as an adulterant has proved unsatisfactory for a number of reasons. These are set out in the following paragraphs and it is requested that the use of barley be discontinued.

1. Distribution. Since Italy has virtually no stocks of grain suitably placed for consumption in large communes and must, therefore, depend upon imports for immediate consumption needs, it is not possible to achieve an equitable dilution. Areas dependent on imports may have to accept a wheat ship or a barley ship, whichever is arriving, and in many instances the grain supply on the present unavoidable "hand to mouth" basis has consisted entirely of wheat for one period and entirely of barley for another. The extensive "milk round" necessary to avoid this state of affairs would entail a prohibitive waste of shipping.

2. Irregularity of Arrivals. Actual arrivals OCT - JAN have been as follows. (FEB is added since the vessels are now in sight)

<u>Month:</u>	<u>Allocated</u>	<u>Arrived</u>
Oct	20,000	15,169
Nov	20,000	22,485
Dec	20,000	NIL
Jan	20,000	5,368

Total	100,000	65,974

discontinued.

1. Distribution. Since Italy has virtually no stocks of grain suitably placed for consumption in large communes and must, therefore, depend upon imports for immediate consumption needs, it is not possible to achieve an equitable dilution. Areas dependent on imports may have to accept a wheat ship or a barley ship, whichever is arriving, and in many instances the grain supply on the present unavoidable "hand to mouth" basis has consisted entirely of wheat for one period and entirely of barley for another. The extensive "milk round" necessary to avoid this state of affairs would entail a prohibitive waste of shipping.

2. Irregularity of Arrivals. Actual arrivals OCT - JAN have been as follows. (FEB is added since the vessels are now in sight)

<u>Month</u>	<u>Allocated</u>	<u>Arrived</u>
Oct	20,000	15,169
Nov	20,000	22,485
Dec	20,000	NIL
Jan	20,000	5,368
Feb	20,000	22,952
Total	100,000	65,974
	Deficit 34,026	

The difficulties outlined in para one are aggravated by these irregular arrivals. Any planned distribution must break down in these circumstances. Whilst the wheat equivalent of the backlogs is badly needed to prevent excessive expenditure of indigenous stocks any attempt to catch up the barley programme would result in swamping.

3. Unsatisfactory Condition of Barley. The Allied Commission has repeatedly complained of the dirty state of Iraq barley. Grain machinery becomes clogged with dust and milling is impeded. The Consorzio Agrario has asked for an allowance of 15% to compensate for losses sustained in cleaning the barley and preparing it for milling. The worst cargoes specifically mentioned were those of the BLNJ.MIN BOUTNE (7,400 tons in OCT) and the ICNLI.N (7,468 tons in NOV).

CONFIDENTIAL

Two samples from the BENJAMIN BOURNE were analysed. The analysis revealed the following:

	Sample A.	Sample B.
Weight of hectoliter	62.45 kg	61.95 kg
Heated grain liable to fermentation	21.30%	18.40%
Parasite infested grain	0.14%	0.80%
Oats	1.60%	7.00%
Other seeds	12.14%	0.30%
Dirt	16.22%	10.22%

4. Uneconomical use of shipping. The percentage of waste claimed (15%) and the low extraction rate (75%) result in a lower wheat equivalent than has been assumed.

100 tons barley yield 85 tons actual grain, 75% of 85 is 64. Thus 100 tons barley yield 64 tons flour whereas 100 tons wheat yield 90 tons flour.

This supports the statement made in LAC 897 that 7 barley ships are needed to replace 5 wheat ships.

In addition protests have been received from ASCOLI and MACERATA regarding tax on slaughtering of pigs; provincial commissioners informed that in view of the large deficit in the national budget there would be no exemption from taxation. Limited postal service and bus service in about 10 per cent of PESARO province which is accessible to civilian vehicles awaiting clearance of 15 Army Group. Sentences of 6 years imprisonment imposed by General Military Court at PESARO on 10 January upon conviction of possession of wireless transmitting set and other offenses. Total of 153,887 mines, 600 unexploded bombs and approximately 800 tons abandoned ammunition cleared through 31 December in CHIETI, PESCARA and TERAMO provinces; total of 180 Italians killed and 405 seriously wounded by mines in 3 provinces since Allied occupation. Every road in ABRUZZI provinces blocked by snow today except coastal highway and PESCARA-POPOLI-SAPESTRANO-AQUILA-ANTRODOSO road, and snow now falling heavily on eastern portion of latter artery. It is believed impossible to keep latter road open unless Army can assign high priority equipment; genie civile has demonstrated its equipment is not adequate, its snow plows being too light and its rotary plows worn out. 1 RAF truck has been marooned with its crew for 16 days.

A. ITALY.

1. Patrol activity only. Some movement observed behind lines in sectors 16 SSPG, 362 Inf and 90 PG Divisions. No contact 278 Inf Div. In Western sector 5 Regt SAN MARCO Division identified by prisoners of war ARFA L2906. Prisoners of war 230 fusiler Bn same area say are being relieved by Italians and Bn has moved back to area SESTOLA rpt SESTOJA L4221. No evidence that more than a battalion of SAN MARCO has arrived this area and consider it unlikely that whole of 232 Div is being relieved.

2. Rear areas. Ground source reports heavy military rail movement on 25 and on following 2 nights on route TREVISO-TARVISIO. Partisans also report 188 Division upgraded and leaving for Germany. Another source reports units of 188 Div in TRIESTE preparing to move. Agree. General. Scale of movement reported in NE ITALY indicates formation move in progress though not yet possible to fix identity. Continued movement in rear of 10 Army suggests enemy has not yet completed regrouping and is still in course of extracting divisions most suitable for despatch to east front.

B. BALKANS. 1. JUGOSLAVIA. Enemy offensive in SLOVENIA concluded and troops returned to garrisons at KOGEVJE ST VID rpt ST VPD and NOVO

Stores being shipped to Island from POLA and FIUME via CHERSO thence transferred overland via OSSERO bridge. As yet no mention any reinforcements to LUSSIN.

Banco di SICILIA by AFA and accounting would be simplified if post liberation account were cleared up before transfer. Banca d'ITALIA would then reimburse AFA for lire and instructions would be sent to Bank of ENGLAND to transfer from Banco di SICILIA to Banca d'ITALIA account.

3. No comment on your para 5.

4. Your para 6. AG reports Banca d'ITALIA is most reluctant to assent to direct correspondent relationships between U.K. commercial banks and Banco di NAPOLI and Banco di SICILIA. A.C. considers such direct relationships premature until effective foreign exchange control has been established and until lire no longer have to be provided to Italian commercial banks by AFA or Banca d'ITALIA.

Ref your 353 dated 24 January. In view of good communications and easy access to approved requisitioning authorities not understood why machinery set up in AFHQ Adm Memo 59 not readily workable for AG. Overlapping authority undesirable in any area, is reason for limiting requisitioning to major Hq. G5 letter T 13 of 9 January states desired procedure in matter of handling AG passenger vehicle problem for 2657 Regt. In addition proposed increase in w/e for British component of AG has received favourable consideration here and has been forwarded to WO with recommended approval. This Hq has today received list of your passenger car requirements for non t/o personnel as outlined in G5 letter referred and will give prompt consideration. Wheat for ITALY-April. All in thousands of net metric tons.

1. Course of operations indicate no wheat now required for German occupied ITALY in April other than possible use present emergency stockpile. Liberated ITALY will require 100 as in NAF 842. This is 6 more than requirements LAG 941 same area since feeding from stocks now estimated at 66 monthly instead of 72. Consider this necessary as stocks must be spread to end July instead of to end June.
2. Note monthly flour ship requested LAG 948 has been approved CAL 1130.
3. Short falls occurring in recent months have depleted stocks at excessive rate. Request any February and March short falls be shipped in April in addition to April requirements.
4. Pending appraisal full reply to CAL 1126 request no barley be considered for April arrival.
5. Call forward will be made immediately. Wheat showing bagged and bulk will be cabled forward on CANADA but presume you will adjust between USA and CANADA if this not agreeable.

Central ITALY electric power equipment. Following is paraphrase of signal from CCS, begins:

1. Obstacles have arisen in getting release from Chinese of power equipment under Manufacturers Numbers F E 64000, F E 64001, and F E 70000, totaling 9000 KW. Approved is substitution 22 units, diesel driven, 416/500 KW, 50/60 cycle, probably available in USA July 31st this year. UNITED STATES military depots have on hand equivalent capacity of single phase 150 KVA transformers which will produce 8800-8400-8000-7600-7200-6800-6400-6000-5600-5200-4800-4400-4000-3600-3200-volts on high side. Generator voltage can be adjusted to give 9000 volts. In case these transformers not repeat not acceptable, special ones to suit required stations will be obtained. Cooling towers for engines will be provided.

2. Advice is wanted regarding preferred grouping of units. Desirable to keep number of stations to minimum. Give estimate of any additional power necessary for other than engine-generator auxiliaries desired at the stations. Engines are designed for maximum ambient 104 degrees Fahrenheit at 3000 feet elevation.

3. Floating power plant, on present information, will be available 1st June 1945.

G-2 summary number 144.

A. ITALY. 1. OPERATIONS. Enemy activity continues small.

2. DISPOSITIONS. Some evidence of slight forward move by 26 PZ DIV. Fresh corpse 956 GR area M3640 indicates relief of 362 DIV not yet complete. 11 PARA REGT (4 PARA DIV) identified by PW east of CASTEL BOLOGNESE. Says 11 PARA REGT was relieved in old area on 20 January by mountain troops and then moved north of BOLOGNA. Believes other regiments of 4 PARA DIV were withdrawn at same time. Regt arrived at CASTEL BOLOGNESE 22 January and relieved PG units in line. On this evidence appears likely that 157 MOUNTAIN DIVISION last believed in area north of BOLOGNA has replaced 4 PARA DIV SW of BOLOGNA and that latter is relieving 29 PG DIV on route 9. In view of its strength it seems possible that 4 PARA DIV will take over responsibilities of 278 DIV as well but this at present conjecture only.

3. GENERAL. Considerable regrouping now in progress implies more than execution of normal rest refit programme. Extraction of 29 PG DIV together with slight evidence forward move of 26 PANZER DIV could be interpreted as offensive preparations. Though these cannot be altogether excluded however consider these moves more likely in present circumstances to be connected with contribution from ITALY to eastern front.

B. BALKANS. 1. HUNGARY. German claim to have retaken FELSOGALLA northwest of BICSKE indicates latter still in RUSSIAN hands and previously forced carry out slight withdrawal this area.

3638

German counter attack area SZEKESHERVAR reported reached DANUBE but attempt drive north towards BUDAPEST frustrated.

2. JUGOSLAVIA. Partisans attacking BIJELOJINA in some strength 24 and 25 January. TRAVNIK in enemy hands. Elements 724 and 734 JAEGER REGIMENTS 104 JAEGER DIVISION reported in town and appears probable bulk of 104 DIVISION this area. All informed.
