_____ Badoglio told me last night that he is today creating a Government of Ministers rather than of Under Secretaries. There are no changes in the personnel of the new Government except that Casati, a Judge of the Supreme Court, has been appointed Minister of Justice, Siciliani moved from Agriculture to Communications, and Insifera who had been appointed Prefect at Catanzaro, becomes Minister of Agriculture. I spoke to Badoglio last night on the subject of the Comando Supremo. In practice the Comando Supremo has not come into the picture at all as regards the Italian Navy and Air Force. It has become an additional and in my opinion unnecessary link in our dealings with the Italian Army. I told Badoglio that the Army Sub-Commission under Duchesne would in future work direct with the Italian War Office and General Staff at Iscece. That after Marshal Messe and the Comando Supremo had moved to Salerno I would deal with Messe only personally and only on questions of high policy. Badoglio was in complete agreement. Messe and the Comando Supremo are moving to the ~~Salerno Area~~ ^{RJ} about 21 February. ^{RJ} to the Salerno ^{RJ}

H.Q. A.C.M.F. FOR GENERAL ALEXANDER RECD FROM CHIEF OF STAFF, MACMILLAN,
CIVIL AFFAIRS AND M.G.S. FROM MACFARLANE PERSONAL

I saw Badoglio last night and he made the following requests, one. That the Crown Prince might be allowed to be attached to the Staff of either General Alexander or General Clark to quote follow the present operations unquote. I gave this request little encouragement but agreed to forward it. Two. He requested permission to appoint a Corps Commander for Sicily. The Italian troops in Sicily are being increased and I recommend strongly that this request be agreed. Three. After making yet another rather bitter complaint regarding the extent to which we were allowing the opposition to indulge in criticism of the King, his Government and the Armed Forces, he asked whether he might be allowed to take action under the laws of Italy against individuals or newspapers making statements which were in violation of the law of the land. He stated that he had no desire whatever to interfere with the right of freedom of speech but that when this freedom of speech was calculated to bring disrepute upon the King, the Government and the Armed Forces and was also clearly sponsored by us, it made his position extremely difficult. I told the Marshal that I had already

- - 2 - -

GLD

represented his views in this matter and that I would again bring to the notice of my Commander-in-Chief . Comment. The present situation from the point of view of Badoglio's Government with which we have to collaborate is very difficult. It would clearly be disastrous to permit his Government to take legal action against prominent members of the opposition. On the other hand we are at the moment through P.W.B. giving them encouragement and facilities for what amounts to breaking the law of the land. I have already spoken to P.W.B. both in Naples and in Bari on this question and I am convinced that in the meantime everything possible should be done to keep published comment by the opposition within, if possible, legal limits

CLIP

FREEDOM FOR C-IN-C, MACMILLAN AND CIVIL AFFAIRS FROM MACFARLANE PERSONAL

Para One. King and Queen are living in Villa at Ravello. King asked me to see him yesterday. Para Two. Count Aquarone and members King's personal staff told my personal assistant during my interview with the King that the King was going to talk to me on the following lines. Italy is rapidly splitting up into two camps. This is a dangerous development and the worst possible for the country. Should the King abdicate in favour of the Crown Prince did I think it would be possible to obtain guarantees that the Crown Prince would not be subjected to the same attacks as the King had experienced. Would there be any objection to the King moving to Naples. Para Three. In fact the King spoke to me on quite different lines. After inquiring regarding the progress of the fighting he stressed and continued to stress throughout the interview the urgency of his getting to Rome at the earliest possible moment. He claimed that he would have no difficulty in Rome in getting either Orlando or Bonomi or some other responsible politician to form a government. He claimed that abdication even in favour of the Crown Prince would have a very bad effect in the country. He complained that our censorship and

8397

FLD

- - 2 - -

publicity in Bari were most unfair and displayed marked partiality in favour of his opponents. He thought that Badoglio was getting very tired and that he was making a great mistake in filling all the ministerial posts in his cabinet with comparatively unknown men. He attributed most of his present difficulties to Count Gforza. He had heard stories that the Allies wished him to abdicate in favour of the Crown Prince and to install a government representing the Bari Congress Parties. He hoped there was no truth in these rumours. He inquired whether I thought he should make some personal reply to the pronouncements of the Bari Congress. In reply to his last two remarks I stated firstly that the country was full of irresponsible rumours and secondly that he must decide for himself on the question of issuing any personal reply to the Bari pronouncements. Para Four. Comments. I gained the following definite impressions. One. The King is apparently either misinformed or not fully informed of the present political situation. I very much doubt if the message to him from the Executive Junta of the Committees of Liberation has been allowed to reach him. Two. The King failed to speak to me on the lines anticipated by his immediate advisers and it seems clear

-- 3 --

ELD

that there is little possibility of his considering the question of abdication before reaching Rome except under very strong outside pressure

_____Acreage potatoes planted Sicily and mainland will total 228090 acres. Mailing estimate planting by provinces. This from current crop estimate. Total absence copper sulfate causing alarm in areas needing sprays. Rate spray per acre equals 100 US gallons 9-9-100 Bordo. Desire lead arsenate rpt arsenate and sodium arsenite rpt arsenite two different chemicals chosen to reduce distribution problem being one for spraying all crops to be sprayed and the other for poison baits. Seasonal variation grasshopper problem makes sodium arsenite requirement difficult to define hence ship lesser quantity if you think sufficient for this season. Suggest avoid manufacture by shipping white arsenic and lye rpt lye from which to make sodium arsenite USDA formula. Copper sulfate need urgent March 15 thru May could use quantities stated up to May 15 but urgently need some basis for action before March 1. _____ With ref FBGS 51147. Quantity older suggests adequate about 2 applications hand equipment imported rpt imported seed potatoes only. Experts Bari Naples Universities concurred necessary protect potatoes in certain provinces against blight up to 3 sprays pd also concurred necessary protect vines certain varieties up to 2 sprays and impossible to restrict usage to potatoes in view long established custom control diseases that kill vines. Apples pears and brambles also sprayed usually once to protect plant growth and fruit. Insecticides required lead arsenate apples, vines and some vegetables to control worms, flea beetles, several chewing insects. Sodium arsenite primarily to make baits control grasshoppers on light soils Sicily. Zinc phosphide to make poison baits control plagues of rats mice after grain harvest. Quantities stated based on acreage and past practice due consideration hand application and recent inadequate protection renders heavy losses probable. Careful consideration given widely varying estimates from agricultural inspectors and all possible local sources together with regional AMI reports received. Availability adequate supply domestic sulfur and nicotine materials questionable also considerable needs copper in Regions 3, 4 and 5 not submitted hence even maximum redistribution quantities as stated cannot be relied

FREEDOM FOR US SIGNED MACFARLANE

The following for Italian Legation at Lisbon. "Number
TC/1 dated February 12. Nearly all liberated Italy was restored by the Allies to
Italian administration on February 11. This is a first step toward renewed unity
of the country and at same time indication and proof of restored confidence. The
Royal Government will spare no effort to reorganize the unitarian life of the country,
to further its rebirth, and to carry on the war of liberation with utmost energy.
Event should be particularly underlined amongst Italians and and foreigners. All
Italians should be told that the country counts, today more than ever, on their
solidarity and unity. Kindle their faith and their hopes. After so many painful
events the date of February 11 is for us undoubtedly one of the first propitious
days. Request that above message be forwarded to Madrid Ankara Tangier Buenos Aires
Berne Stockholm Helsinki Dublin and Kabul. Will you kindly confirm. Signed

FREEDOM TO AFHQ FOR MGS FOR WARREN

With reply to Fhage 50790 of 13 February. One. We have already asked ACMF to call forward advance party of 2 officers 30 EM/OR in Fargo 825 of 9 February repeated to MGS. We will supply vehicles. Two. Do not understand figures given for HQ ACC which should consist only of officers and clerks. On what principle have you divided OD OR/EM and vehicles between HQ and Holding Center query Three. British officer figures do not agree with FHMGS 46070 of 2 February which gives six officers not counting Allworth. Four. Intention is that all except officers and clerks for HQ ACC and American personnel, vehicles and equipment as agreed between Albright and Parkin should go to Holding Center. Five. Move of vehicles referred to in cable FHMGS 48479 of 7 February and called forward in cable Fargo 907 of 12 February at HQ ACMF (Action) Freedom (Info) for AFHQ for MGS for Warren is to be treated entirely separately. Six. On above basis forward immediately revised figures for HQ ACC party and Holding Center Main and Rear parties. Figures must include officers EM/OR, vehicles, motorcycles and cubic feet and weight of equipment. Seven. If you have contrary views cable immediately.

entire industry but there is temporary hold-up owing lack of transport for
feeding mills also only very partial amount electric power available for the
moment. Very shortly hope commence preparing suitable parcels for exporta-
tion United Kingdom covering surplus raw material after local needs provided
for. Providing acute transport difficulty overcome then confidently anticipate
getting ready 500 tons monthly of raw cordage hemp with ends cleaned plus
certain quantity hackled hemp suitable for cordage and Guardioni Spessati.
Subject shipping facilities being available hope commence first shipments
early April. Waiting your information and instructions regarding yarns.
Very important you absorb available higher counts over cordage yarns to enable

In reply to my request in this respect, Marshal Badoglio pointed out that the Finnish Government had not recognized the Fascist Republican Government and that he had therefore thought it might be of Allied interest to keep the Italian Legation there in particular since the United States Legation remains at Helsinki. APR for MCH

Transmission of following message to APR for CBS requested. Finding is reported in small amounts of Blue Seal Dollars and Sterling notes in black market at premiums ranging up to 150 %. Italian Banks are forbidden to redeem these notes at parity in lire. Believe much of these foreign monies brought in by soldiers and sailors including Merchant Marine and no appreciable amount coming in from Axis occupied territory. In order to withdraw from circulation such of these notes as are offered and to prevent their falling into hands of enemy agents authority is requested to authorize Italian banks in liberated territory to redeem Blue Seal and Sterling notes when presented at official exchange parity holding them for account of ANPA or APA. Present prohibition on transactions in Blue Seal and Sterling notes would be modified to prohibit all transactions except presentation to an Italian Bank for redemption at par for account of ANPA or APA. Importation of such currency would continue to be prohibited and amounts discovered in safe deposit boxes would be impounded against receipt by ANP or ANO Finance Officers.

Foregoing for Italian Embassy at Madrid. Number not given dated 9 February. Following from Ministry of Finance: Return arrangements to Madrid for commissioner Verrando being delayed unavoidably. Please be informed, pending his arrival, of following resolutions. First, your action approved safeguarding Banca Lavoro. Second, it is desired all merchandise of Italian property be shipped to Italy including iron scrap insofar as feasible. Third, all merchandise belonging to Allied interests be redelivered rightful owners against covering documents and payment accrued charges. Fourth, steps being taken here for appointment special commissioners with adequate powers for protective counteraction against enemy covert ^{action} directed gaining Italian interests in Spain. Fifth, with certain restriction further financial help to Istituto Nazionale Assicurazioni approved in principle. Request you defray home rent and charges of Verrando. ROUTINE

PROCEED FOR INFO FOR BUREAUWORK

Stocks of following metals and metalliferous products in metric tons in round figures presently exist in Sardinia: First, lead concentrates with 6% lead content, 10,000 tons; second, zinc concentrates with 5% zinc content and 0.5% cadmium content, 59,000 tons; third, slab or metallic zinc with zinc content of 99.98 or almost "four-nine" quality, 1,900 tons; fourth, antimony regulus or metallic antimony with content of 99.7% antimony, 190 tons. Also on Italian mainland there are 600 tons "three-nine" slab zinc and 100 tons "four-nine" slab zinc. None of these materials presently required by military or Italian civilians. Steps are now being taken to rehabilitate mines so that future production can take care of later possible civilian requirements. It is suggested that these materials should be exported and thus supplement or replace to some degree supplies of such products now coming from marginal or submarginal mines. Furthermore, these materials make excellent ballast which is now required by ships returning to U.S. Request ASWAR furnish us with appropriate (rolled back) prices for materials to be exported. Suggest ASWAR refer matter to Foreign Economic (Cont'd on Page 2)

PRIORITY

ACKAR for C.C.S.

Continued production from Sardinian coal mines which is considered highly essential by this headquarters is contingent upon arrival by not later than 1 April of certain engineer supplies requisitioned by AOC Mining Division in October and rediced to PEBARK by LOS HATONIA on 11 January. Request that all supplies on this requisition be procured at the earliest possible date. Supplies on this requisition principally coal mine explosives and carbide neither of which are believed to be very critical and therefore need not be delayed by screening in Washington. Request that PEBARK notify this headquarters when shipment is made.
