G-2 summary number 159.

A. ITALY. Dispositions. Deserter 1060 GR Area M3843 confirms 362 DIV has taken over part former sector 16 SS PG DIV. Appreciate latter's departure now fully compensated by sidestepping 362 and 42 DIVISIONS and appearance of any new formation unlikely. In western coastal sector ELTS 285 GR identified in contact. All 3 Regiments 148 DIV therefore satisfactorily accounted for.

BALKANS. 1. HUNGARY. 2 PANZER ARMY now known to come under operational command army group south.

2. JUGOSLAVIA. Enemy has made some progress in attack against east flank BARCS bridgehead following capture of VOCIN his forces occupied HUM and are advancing on SUHOPOLJE. Outside bridgehead area and further south, POZEGA, PNICA and CAGLIN also occupied by enemy. Latter is apparently making considerable effort to clear whole area south of DRAVA as is BORNE out by size of forces employed. Formations so far identified in area are: 606 SICHERUNGS REGIMENT, DONJI MIHOLJAC: 11 GAF DIVISION, D MIHOLJAC-NASICE : 297 INFANTRY DIVISION, VOCIN-HUM: 7 SS DIVISION PRINZ-EUGEN, NASICE: "STEFAN" DIVISION, DJAKOVO: battle group FESCHER, QUERY D MIHOLJAC: 5SS POLICE REGIMENT, NASICE-DJAKOVO-VRPOLJE. This concentration too great to come under 34 CORPS which still manning sector on eastern SREM and evidence suggests 91 CORPS probably in charge operations. All informed.

AGWAR, TROOPERS, INFO: ALCOM ROME, UK BASE SECTION, SHAEP.

CONFIDENTIAL.

Transmission of certain clear text messages relating to Civil Affairs over military circuits is subject.

AGWAR for CCAC ref WX 83305 of 28 December and TROOPERS ref 62866 CA16 of 25 January.

Believe proposed relaxation of security measures extremely dangerous for following reasons.

1. Security regulations must be clearly defined with exceptions qualifications and minor divergences held to a minimum. Present theatre ruling requires such type messages be enciphered.

2. Danger of incorrect assessment by originator in relation to security and information of value to enemy. Cipher security considerations also involved with different regulations for US and BRITISH ciphers.

3. Understand these messages devoted largely to provision of import and export materials that can or cannot be supplied or accepted. Point out value such information to enemy for example propaganda and economic intelligence.

4. Consideration so far given only to special series messages working direct between ITALY WASHINGTON and LONDON but believe clear text messages to various ALLIED CONTROL COMMISSIONS and other delegations in this theatre would follow automatically since radio circuits to missions treated as operational circuits such clear text messages obviously undesirable and not acceptable for relay by existing theatre

policy.

2. This Headquarters unable control messages despatched from LONDON or WASHINGTON but cannot accept relaxation of security restrictions within this theatre for although present proposal theoretically limited in scope consider acceptance of principle would have retrogressive influence on theatre security.

3. Strongly urge maximum use of air and postal services for all nonoperational communications.

2. JUGOSLAVIA. 500 USTASHI troops reported landed KRK 4 February. Together with force which landed on previous day this represents considerable increase in island garrison. Unlikely however that whole of raiding force will remain on island.

Enemy continues to draw in front in MOXTAR area and SIROKI BRIJYK to west of town now in Partisan hands.

Refer TAM 398 of 18 December this is MAT 526.

Financing of Italian diplomatic missions is subject.

1. Italian Ministry of Foreign Affairs and Ministry of Treasury have now
presented a tentative plan for financing Italian diplomatic missions for January
and February, 1945.

2. Instructions have been given, with the approval of AC, for utilization of
following local currency amounts, if available, by the respective Italian missions
in January and February, 1945: SWEDEN - Krona 98,000 PORTUGAL - Escudos 540,000
SPAIN - Pesetas 1,599,160 TANGIERS - Pesetas 252,000 ARGENTINA - Pesos 240,000.
Italian Ministry of Foreign Affairs has indicated that these are the minimum amounts
required at the present time, and that it is hoped that reductions can be made by
closing offices and institutes and repatriating personnel. It should be noted,
however, that because of lack of up-to-date information Italian Government cannot
be certain that the above-mentioned local currency amounts will actually be
available.

3. With regard to SWITZERLAND, TURKEY and EIRE, Italian Government requests
permission to finance its diplomatic missions in these countries by drawing on its
post-liberation dollar and sterling accounts. In the case of SWITZERLAND, Italian

Government does not consider it advisable attempt draw on its blocked Swiss Franc assets, that equivalent sums be unblocked in favor of the Republican Fascists. Plans being laid to send a competent Italian representative to SWITZERLAND to examine the whole situation; until this is done it is recommended that Italian Governments suggestion be followed. Sums requested for these 3 countries and approved by AC: SWITZERLAND - Swiss Franc 327,408 EIRE - Pounds 980 TURKEY - Turkish Pounds 113,843 Plasters 12 TAM 398 provides that dollars and sterling will be drawn on equally. Neither Italian Government nor AC is aware of exact channels that would be used to effect the dollar exchange transfers and therefore Minister of Treasury has requested that entire amounts needed in SWITZERLAND, EIRE, and TURKEY be made available by local currency advances from the American and British Missions, immediate repayment being effected in WASHINGTON and LONDON by debits to Italian post-liberation dollar and sterling accounts. It is recommended that this be adopted as interim procedure, and that if it is desired that the exact procedure specified in TAM 398 be followed you forward information as to what banking channels the Italian Government could use in making dollar remittances to all neutral countries. Unless there are strong reasons to the contrary, it is suggested that the local currency advance procedure be continued, for it would eliminate delays in transfer of American share which might result in double requests to British Missions and other complications.

4. Italian Government has also raised question of financing the Italian Missions in RUMANIA and BULGARIA. Minister of Treasury states that he believes the mission in RUMANIA has sufficient funds at its disposal for the time being; it is expected that an Italian official from RUMANIA will shortly visit ROME and that he will be able to clarify the situation. For BULGARIA the Minister has requested 3,000,000 Leva for January and February. Since BULGARIA is an ex-enemy country and does not

appear to be covered by TAM 398, your views on this question are urgently needed.

5. Minister of Treasury has also included AFGANISTAN in the list of countries to be financed by drawing on dollars and sterling, a figure of 400 Pounds sterling for the 2 months being given. We understand that the question of the Italian mission in AFGANISTAN is currently under discussion between British Foreign Office and Government of INDIA, and we desire an indication of what answer is to be given to the Italians on this point.

6. Reference para 13 of TAM airgram 24, comprehensive report of Italian external assets given in second interim report on ITALY's foreign exchange position (31 October 44) of Finance SubCommission, AC.

Italian and SICILIAN sulphur.

Refer LAC 934 and LAC 958, repeated to you. Following is paraphrase of CCS signal, begins:

1. To fulfill requirements MEDITERRANEAN Area for sulphur, supply and shipping authorities deem desirable to use ITALIAN and SICILIAN production to greatest extent possible. UNITED STATES is only other supply source, but this involves trans-Atlantic shipping. Therefore you should plan for maximum exportable surplus.

2. Explain statement 1st para of LAC 958 that movement during 1st 6 months of 1945 is impossible for net tonnage of 13,000, apparently surplus to local needs.

3. Estimate of 50554 for local needs considered here possible excessive. Specifically, skeptical that 9900 tons for rubber manufacture can be used 1st half this year.

4. Considering paras 1 thru 3, thought here that balance of BALKAN requirement, 3000 tons, should be met from your surplus. Notify action you take so that allocations of stocks from UNITED STATES may be adjusted accordingly. End of paraphrase.

In compliance with above and in light of your program for internal movement request you advise:

- A. Portion of mainland sulphur not movable and reasons therefor.
- B. Your revised essential requirements.
- C. Amounts expected to be available for export during 1st half 1945 by areas and approximate dates.

A. ITALY.

1. Operations. Adriatic and Central Sectors generally quiet. In SERCHIO VALLEY enemy launched several local counterattacks north of GALLIGANO, all of which reported held. Strong reaction also to Allied reconnaissance in strength along coast where 2 Bn 281 Inf Regt (148 Div) reidentified.

2. Dispositions. Deserter 98 Fusilier Bn in southern part of former 362 Div sector confirms general northward sidestep this area. Appreciate last elements 16 SS PG Div probably now leaving line. No further evidence on 715 Div.

3. Movements. Fighter bombers report 100 rail cars loaded MT west of TREVISO area G3877. This of interest as area in which loading of 356 Inf Div previously reported.

4. Northwest ITALY. Usually reliable source reports German evacuation scheme for PIEDMONT began January 25 and to extend over period 60-90 days. Plan includes substitution of Fascist for German troops with intention of all out defense of PIEDMONT. Comment. Latter part fits in with professed preparations by Italian High Command for "colonial type" warfare.

ACWAR WASHINGTON FOR CCS FOR CCAC REPEATED FOR INFORMATION CENTRAL DISTRICT

SECRET.

This is LAC 1006.

1. In LAC 967 we requested among other supplies 12360 pulses per month for period April-June as necessary supplement to local resources for essential civilian supplies.
2. Request is now made for import of additional 5000 tons of pulses per month to be made available to civilian population to replace fresh vegetables which it is desired be purchased by armed forces for their consumption on a strength proportional basis.
3. Armed forces are presently permitted to purchase for own consumption fresh vegetables which are surplus to the area where grown and which cannot, due to transport limitations, be moved to deficit areas. Under this authority a small part of current requirements can, and are being met. Purchases of this nature will be reflected in automatic reduction of imports of food supplies for Allied Army consumption. Troops are obliged to eat canned vegetables and substitutes in lieu of fresh vegetables for substantial portion of requirements.
4. Additional purchases of fresh vegetables for troops are only permitted where replacement of substitute such as pulses can be made to civil population. Ratio of replacements of pulses is 1 ton of pulses for 4 tons fresh vegetables.

SECRET

7564

SECRET

- 2 -

(FX 23360 continued)

5. Military services wish authority to increase at once purchases of fresh vegetables to improve diet and morale of troops, realizing that such increase in purchase program will require replacement of food by provision of pulses as substitute. Question to be determined is whether such replacements should be made directly by the procuring service or whether such replacements constitute a valid increase in the civil supply requirements. Pending formulation of recommendation on this question it is requested that for the 3 months of April, May and June you authorize imports for this purpose of 5000 tons per month of pulses so that services may commence to purchase at once for 3 month period 20000 tons per month of fresh vegetables against replacement.

6. This will require prompt notification of approval of the 12360 tons of pulses per month requested in LAC 967 for normal civilian feeding, together with approval of additional requirement of 5000 tons of pulses per month for purpose outlined herein and notification of supply responsibility so that initial shipping may be called forward at once.

7. The figure of 5000 tons of pulses is a token figure established on basis of present availability for purchase of fresh vegetables desired by the armed forces. It is not possible to determine other than on the basis of experience whether actual purchases will be larger or smaller than the estimates. Experience with actual purchases may result in a substantial modification of the 5000 ton per month pulse figure this program forward after the 3 month period. Should the pulse figure increase, such increase would be matched by a corresponding decrease in imports of food supplies for Army consumption.

8. Interim authority to proceed as outlined above is desirable in view of the

SECRET

7563

SECRET

- 3 -

(FX 23360 continued)

fact that the British Army has already planned its imports for feeding troops on the assumption that fresh vegetables could be made available in the quantities contemplated herein. Consequently some steps must be taken now either to modify the program of the military services for feeding of troops or to modify the CA import program. Either modification will require import provision but it appears that a slightly lower tonnage of less critical items will be needed to permit troops to buy fresh vegetables and to import pulses as replacement. If troop food is to be imported as alternative, the import would be principally canned vegetables. The ramifications of local accounting and handling make it desirable from the administrative point of view to schedule the pulse imports as civil affairs imports as outlined herein, pending a determination on the handling of this type of problem in the future. Otherwise considerable delay will be experienced in determining how to handle the administrative questions that arise in having supplies for civil consumption imported through other channels including particularly the extent to which separate discussions would take place with the Italian Government.

9. Recommendations will be formulated and forwarded with respect to the replacement problem in general. Meanwhile interim authority for a limited period of time, 3 months, as outlined herein is requested.

A. ITALY.

1. Small enemy counterattacks in SERCHIO VALLEY yielded 66 prisoners identifying 148 Inf Div and ITALIA Div.

2. Dispositions. PW 361 PGR area M1721 confirms previous deserter's story of westward move of 90 PG Div. No direct evidence yet of complete relief of 715 Inf Div but air evidence of movement on roads southeast of BOLOGNA points to regrouping this sector.

B. JUGOSLAVIA. Enemy reported to have occupied XVORNIK. Appears likely that reinforcements from 22 Inf Div are fighting way through to area BIJELJINA S erase read where 7 SS Div considerably harassed by Partisans.

No further move yet made by enemy forces in TRAVNIK and no indications any intended. Present garrison in danger of isolation owing Partisan activity and route to BUSOVAGA sole means of communication.

Numerous reports recently received suggesting setting up of new Cossack formation. These include reports that regimental Hq and 6 battalions arrived in SISAK area during December 44 and January 45. Above combined with previous references to existence of 2 Cossack Div suggests latter being formed round nucleus provided by 2 Regiment 1 Cossack Div at present located SISAK area.

1. AC reports OMAA, according to Credito Italiano, ROME there were unconfirmed rumors in June and July 1944 that in LOMBARDY and TUSCANY "special bonds" or other "instruments" were circulated by Italian Partisans as part of a "loan of liberation".

2. In December 1944, also according to Credito Italiano, reliable sources reported that in LOMBARDY a number of five hundred and thousand lire notes were over stamped with a seal of G. L. N. raising them to 20 times their original face value. These over stamped notes were reportedly purchased for cash by wealthy people in TURIN and MILAN at their raised value, did not circulate, were closely held, and total amount issued has not been large.

(Reference TAM 442 of 27 January this is MAT 523)

Para 1. Data requested are shown each month in schedules 2 and 5 of AFA accounts.

Preliminary figures from December accounts which will arrive shortly are:

(a) "Deposits by AMO/AC Divisions" total lire one billion two hundred and twenty three million three hundredseventy eight thousand five hundred forty two;

(b) "Proceeds of sales in ITALY of supplies" excluding goods purchased locally, total lire four billion five hundred eight eight million two hundred eighty one thousand six hundred thirty five.

Para 2. Balances as per your paragraph 2 will not be released by AFA without specific authority from CCS. However, AC faces problem of collecting outstanding accounts for sales of imported supplies due by Consorzi, Communes, Public Utilities, etc., and does not have personnel to handle collection over wide areas. Consequently AC proposes turn over collection of these accounts to Italian Government, latter to acknowledge that these debts are in respect of goods imported into ITALY on behalf of the Italian Government. The Italian Government is considering this proposal and its acceptance is anticipated. We consider this procedure best designed to collect these debts
