Requisition CLAC I-2-Sardinian mines. Refer COM 17, MOC 18 para
2, MOC 24 and MOC 27.

1. It is imperative that mines in SARDINIA be restored to an
efficient operating basis and it is therefore essential that the
procedure outlined in the 2nd paragraph of COM 17 be followed by the
Government of ITALY and the ALLIED COMMISSION, so that (A) UNITED STATES
Commercial Company is named to act as procuring agency for the Govern-
ment of ITALY; (B) Permission is given for transfer of 100,000 dollars
from the account which holds the proceeds from exports to the accounts
which the UNITED STATES Commercial Company holds as procurement funds.
There must be no further delay in this procurement as allocations will
be forfeited, and also there is an acute shortage of lead.

2. As set forth in TAO air 26, enclosure A, 8th paragraph, and
CAL 730, dollar funds should be made available for this purpose. If
this is not done, UNITED STATES will be unable to begin procurement.
Details have not yet been completed for method to be followed in
connection with troop pay accounts referred to in para 1, MOC 37.
Additional information will be given in another cable.

G 2 summary number 163.

A. ITALY. 1. Operations. Nothing to report.

2. Dispositions. Report dated 9 February places Elats 26 Panzer Division in area west of FERRARA. 162 Inf Div reported 9-10 February by 2 independent sources moving eastwards and destined for "BOLOGNA front". Consider Division more likely to appear on Adriatic, particularly if present tendency 114 Jaeger Div to move forward continues. Selected elements of division might be used in front line.

3. NW ITALY. Well-placed source reports 9 February stand-by order for withdrawal major part German divisions in PIEDMONT received. Similar orders expected for divisions on TYRRHENIAN coast. Consider this palusible, though large-scale withdrawal combat troops unlikely to begin yet. Decisive limiting factor on enemys capabilities remote communications bottleneck. Experience of 356 Div suggests enemy unlikely to get divisions out of ITALY at rate of more than one every ten days.

B. BALKANS. 1. HUNGARY. Organised German resistance in BUDAPEST ceased and garrison commander PFLETER WILHELMBRUCH taken prisoner. All informed

4. LIGURIA successes of MINGO and CICHERO Divs of Partisan 6 zone continue and enemy attempts to counter activity by many simultaneous drives with small columns has proved expensive failure. Following from US and British liaison officers in area. In enemy drives 12 Germans killed at CARREGA (P1870) many wounded at CARTESEGNA (P1872) Sole enemy success was temporary occupation line FASCIA (P2166) - ALPE (P0966) after heavy losses. Partisans hit back in series of guerrilla actions including attacks on German garrisons at PIANCERETO (P1474) killing 4 wounding 2 and CAPANNE DI CARRECA (P2068) killing 3 wounding 11 taking 5 PW. At BOGLI (P2173) CICHERO Div counter attacked killing 25 wounding 13. Post of 10 FLOAT has men wiped out. 7 February Partisans attacked 5 troops trains moving north from GENOA killing 13 wounding 20 and large numbers enemy forced to continue journey on foot. Further to my 2265/3(167) of 9 February 45.

Now understood from 2nd addressee that allocation of sulphur of approx 120 tons mentioned in para 3 has never been made. Information was incorrectly passed to this office and should have stated that 200 tons per month was requirement to commence production and not an increase of 80 tons on existing allocation. Now understood previous electrolyte has been supplied to us by MONTICATINI ex stocks. These now exhausted and sulphur urgently required to commence production. Can you assist.

Production of non-military Lira currency.

1. Following length discussions, FORBES Lithograph Manufacturing Company gave formal notification on 26 January 1945 that it prefers not to contract with Banca D'Italia to produce 600 million notes in final form. This decision was reached due to obstacles which would be met in securing allocations and necessary materials for the completed notes and also for the supplies to be forwarded to ITALY for currency manufacturing in that contact.

2. Consequently, suggest you recommend to Government of ITALY that in this instance it follow normal system for obtaining necessary supplies for civilian use in ITALY, which would mean United States Commercial Company would be designated as agent for buying both materials and currency. Because it is agreed that this requirement is of non-military character, you are authorized to transmit, as MOC airgrams, 2 formal requisitions to Combined Civil Affairs Committee for Combined Liberated Areas Committee. These airgrams should make formal request for (1) essential supplies and materials needed to produce specific types of notes in ITALY. Full details are to be supplied in the requisitioning airgram; (2) for a total of 600 million notes to be processed and finished here for the Government of ITALY and the Bank of ITALY. Mister

MARZIANO, who is at present representing the Bank of ITALY in the UNITED STATES, is to supply all details of denominations and other specifications. The former request will be referred to hereafter as CLAC I-10 and the latter as CLAC I-9; these designations to be assigned by the ALLIED COMMISSION.

3. It is understood that the Government of ITALY has participated over an extended period in discussions relative to this program and that the program is acceptable to the Government of ITALY. Involved also in discussions relative to the program have been the UNITED STATES WAR DEPARTMENT, UNITED STATES TREASURY DEPARTMENT, AFHQ, AC and Bank of ITALY. It is expected therefore that the Combined Liberated Areas Committee will agree without any difficulty to grant the requests referred to above.

4. The ALLIED COMMISSION should attach to each request at the time it is submitted the following statements:

(1) By the Bank of ITALY and Government of ITALY that they agree the program is necessary.

(2) By the Bank of ITALY and the Government of ITALY asking specifically for the materials needed, accepting designation of United States Commercial Company as procurement agency, and agreeing to transfer immediately from AF accounts to United States Commercial Company sufficient dollar funds to pay for costs of purchase, shipping and insurance as well as incidental expenses involved. It is estimated that it will cost approximately 1 million 5 hundred thousand dollars to manufacture the finished notes requested in CLAC I-9. Because amounts and kind of supplies are not known yet for CLAC I-10, estimate of costs cannot be made.

5. It is known here that the Ministry of the Treasury in ITALY and the Bank of ITALY have already given their representatives in this country permission to sign a contract either with an official UNITED STATES Government agency or with a private

company in the UNITED STATES to supply the required material. However, it is essential that the statements asked for in the preceding paragraph be submitted in the light of statement in TAM 434 regarding Mister UODESTAS doubtful status.

6. The United States Commercial Company and the Foreign Economic Administration will take the necessary action as soon as the requisitions and statements indicated above are received and Combined Liberated Areas Committee has approved them. Neither the Bank of ITALY nor the Government of ITALY will be required to enter into a specific contract with the United States Commercial Company. The United States Commercial Company will sign the contract with the FORBES Lithograph Manufacturing Company.

7. If the plan outlined above is followed, United States Commercial Company asks that the Government of ITALY appoint as its official representative Mister MARZIANO, granting him the necessary power to take any essential action, either individually or with another person selected by the Government of ITALY, in working out contract details between UNITED STATES Commercial Company and FORBES Lithograph Manufacturing Company. To this end it is requested that arrangements be made to obtain for Mister MARZIANO permission from the military to allow him to stay in the UNITED STATES until the completion of the contract, so that he may take over responsibility for all technical problems and also take over from United States Commercial Company responsibility for accepting from the producer the finished notes. Mister MARZIANO's approval will be a prerequisite to payment on the contract.

8. The plan set forth in OGM 17, paragraphs 3, 4, and 5 will be followed in arranging to forward and ship this currency.

9. Help of the UNITED STATES TREASURY DEPARTMENT, Foreign Economic Administration

and WAR DEPARTMENT will be enlisted in going ahead informally with conversations between the United States Commercial Company, FORBES Lithograph Manufacturing Company, and representatives of the Government of ITALY. Your earliest action and information by cable giving date above requisitions are forwarded would be appreciated.

10. The following paragraph is directed the ALLIED COMMISSION Sub-Commission on Finance by Lieutenant WILLIS, of the ALLIED COMMISSION, now in this country.

Lieutenant WILLIS agrees with the plan suggested above, and further advises that until the formal MOC requisitions outlined in paragraphs 2 and 4 above are received the FORBES Lithograph Company will be unable to order the necessary supplies. In order to permit the placement of orders immediately upon receipt of these MOC requisitions, Lieutenant WILLIS asks that AFA direct the immediate transfer by radio to the Treasurer of United States Commercial Company, WASHINGTON 25, District of Columbia of 1 million 5 hundred thousand dollars by the Bank of SICILY and the Bank of NAPLES. The agreement of the Italian Treasury should be obtained to this transfer of funds, which are to be taken from AF accounts. As soon as information is received from AFA regarding payee banks in the UNITED STATES, the UNITED STATES TREASURY DEPARTMENT will approve payment to United States Commercial Company. Under the present circumstances no deliveries are anticipated before June or July of finished notes.

UNITED STATES Political Adviser has requested addition of following new paragraph after paragraph 6 of draft cable reply to TAM 445 agreed in your office last Friday:

"With reference to paragraphs 4, 5 and 6, quite aside from technical aspects, U.S. Political Adviser feels that in view of the public statements of the Italian Government the negotiations proposed in TAM 445 will come as something of a disappointment but that nevertheless, weighing all factors and taking into consideration the long run situation, he considers that it is desirable to undertake the proposed negotiations and is communicating his views more fully to WASHINGTON."

We are adding this paragraph in order to obtain necessary concurrences at AFHQ.

Wine exports.

1. Subsequent to the first receipt of approximately ten thousand gallons of good wine which was disposed of at the UNITED STATES ceiling of \$1.75 per gallon, increasing difficulty has been met in disposing of later supplies. All import firms and agents of the brands making up this later consignment have stated their refusal to take these wines. Their refusal is attributed to bottling difficulties and the employment of correct brand titles. Open bids have been requested on two occasions, however only one bid was made. This dealer bid a half-dollar per gallon (UNITED STATES MEASURE) for the total quantity held here, indicating the wine would be distilled. This condition exists because recently shipments are of low grade, some even below the UNITED STATES minimum requirements of alcohol proof, necessitating reprocessing before acceptance, and also, these wines are unable to compete with the improved producing methods in the UNITED STATES.

2. These wines are now in storage in bonded warehouses. There is a high percentage of leakage as the barrels are made of green lumber. Frequent cooperage is required and the costs of cooperage and storing are mounting constantly.

3. The UNITED STATES Commercial Company, representing your interests here in the UNITED STATES, is of the opinion that it is not empowered to take a bid as low as the one offered without first consulting you. The USCC requests that you advise them of the matter by 15 February because present UNITED STATES requirements provide that the

On receipt of any enquiries from Italian Officers you should inform them that it is not possible to authorize any development of Italian Civil air transports during the war. Reference your AFSC/R/S1/ AIR January 19. You should explain that it would be impossible to find resources either in equipment or in suitably trained personnel without detriment to the war effort, and that until further notice they should confine their air transport activities to the use of such aircraft of the Italian Air Force as may be approved for this purpose by the AIR FORCES Sub Commission.

In this connection it is known that the Italian Government has a genuine requirement for the Air transport of officers or government officials in furtherance of their war effort or to meet essential administrative needs for which they are responsible. Some aircraft of the Italian Air Force are already engaged on such courier services, and if the requirement increases and sufficient Italian aircraft are available, there is no objection to a reasonable extension of these services

G 2 summary number 161.

A. ITALY. 1. Operations. Local counter attacks continued yesterday in SERCIO valley and western coastal sectors. Nearly 150 POW taken here mainly Italians of which about half deserters.

2. Dispositions and general. Believed elements 715 Inf Div still in line. POW formerly of 356 Inf Div says he accompanied latter as far as VERONA where he was pronounced unfit for service on east front. Was rejected 23rd January by 278 Div on same grounds and finally sent to 305 Inf Div. Comment. 278 Div not identified recently and is as reasonable candidate for GERMANY as 356 Div but its departure requires confirmation. If it goes would expect 114 Jaeger Div to be made available again for front line reinforcements possibly by bringing across 162 Div to take on time-honoured coast-watching task.

B. BALKANS. Enemy attacks SLAVONIA have now reduced Allied bridgehead to small perimeter round BARCS. Main Partisan force believed escaped to area PAKRAC-LARUVAR-EULAVEC. Presence of 755 Div confirmed and latter now reported located area VOCIN. South of MUSTAR Partisans attacking NEVESINJE and height ROZ. North east of SARAJEVO Partisans captured VLASENICA followed by that of HAN PIJESAK thus isolating 22 Inf Div in area ZVORNIK-DRINJACA. All informed

G-2 Summary number 160.

A. ITALY. Nothing to report.

B. BALKANS.

1. HUNGARY. Russians regained considerable area south of BUDAPEST driving enemy 10/15 miles west of DANUBE. Line now runs from southern tip LAKE VELENCEI west of SEREGELYES ABA KALOX and DEG to northern end LAKE BALATON.

2. JUGOSLAVIA. Enemy attacks against BARS bridgehead resulted in capture MIKLEUS SLATINA and VIROVITICA. Reduction of whole bridgehead appears probable.

(A) VLASENICA recaptured by Partisans thus suggesting bulk of 22 Inf Div north of town. Latter will probably take over area vacated by 7 SS Div.

Recent reports show 41 Fortress Div now reorganized and degraded to Inf Div. ANCILLARY number 141 is borne by Fusilier and field reinforcement battalions and divisional services. No artillery Regiment or Anti-tank battle is so far identified.

3. AEGEAN. 133 Fortress Div now apparently no longer exists as such yet is included under command known as 133 Fortified Area or Fortress Crete (TE) ?. 746 Grenadier Regt renamed Grenadier Regt CRETE while 733 Grenadier Regt previously evacuated now incorporated in 41 Inf Div.

SECRET

7809

SECRET

4. Eastern Front. VOELKISCHER BEOBACHTER on 6 February reported HIMMLER took over command Army Group Centre.

OSO report having information of 3 February states 2 SS Panzer Div caught in air attack while passing through DUISBURG. 2 and 9 SS Panzer Regiments caught in same attack and lost greater part of heavy equipment. SS Div was on way to east front.

All informed.
