Sitrep ABRUZZI-MARCHE REGION. 12. 2 disturbances reported from TERAMO city where Italian troops of SAN MARCO Battalion, NEMBO Div on afternoon of 11 February and evening of 13 February damaged theater, club and photographic shop, molested several women; Italian officers present were unable to control their men on either occasion; Deputy Provincial Commissioner warned Div Commander that he would be held personally responsible for further disturbances and since that warning no Italian troops have appeared in TERAMO. Without ref to this region, Italian Agriculture Ministry more than doubled price of seed potatoes in AVERANO district; this is considered to be in direct conflict with expressed anti-inflationary policy and is difficult to understand in light of policy being pursued in connection with olive oil. 2 E. Thousand tone of wheat in PESARO province declared unfit for human consumption because of rot as result of lack of transport or weatherproof warehouse space. 100,000 young pigs available for export from MACERATA province for fattening elsewhere. Total of 2745 tons of grain moved so far by 1000 and 1002 St Companies.

3E. Olive oil control now working in CHIENTI, PERCASA, ASCOLI and MACERATA; it is too early yet to say what results will be though much good ground work has already been done and it is hoped results will be evident within next few weeks. In fact farmers are already reported asking for containers in which to amass oil. Frost has had

adverse effect and considerable oil is said to have soured. Olive oil control officers to remain after removal of provincial officers from ANRUCCI. Following amounts of supplies have been received at ORTONA warehouse in first 20 days of February, in addition to wagons consigned to private firms or individuals:

Sugar	109	tons
Salt	476	tons
Seal	301	tons
Fertilizers & disinfectants	128	tons

Other AMG supplies 341 tons

One railwagon from BRINDISI filled with sugar destined for ORTONA reported missing. Total of 48 quintals of caustic soda, worth almost 3 million lire on black market, lost between BARI and ORTONA from railway shipment of 231 quintals. More and more civilian trucks being declined by civilian haulers for lack of tires. Grain and olive oil collections up to 24 February, with latter based upon new targets established by Ministry of Agriculture:

Military giving assistance and high priority to ORTONA-ANCONA railway and military railway service in secret report to AFHQ predict completion at least to CEISO by 1 April.

Region's 5 civilian truck pools operating presently with 102 vehicles. A total of 49334 metric tons were hauled during 4-month period of October-January. Total kilometers operated were 2,663,772, of which 1,602,356 or 67 per cent were loaded. Total quintal-kilometers loaded were 51,549,770, of which 9,125,710 were hauled in January. The book profit so far has been 41,749,868 lire, against which should be deducted cost of gasoline (during early months) and spare parts supplied by Armies which have not been paid; these latter total 12,500,000 lire leaving approximate net profit of 29,000 lire.

Reports dispatched on 4 Chief ports of ABBUZZI. At 2-
2 temporary wooden quays, each about 15 meters long, with draft
of 2.5 meters are now available for use; no warehouses at at
present available. Port had a pre-war capacity of 50,000 tons;
it was built in 1934-35 and reached highest development in 1938,
when 300,000 tons of goods were moved. A dredge, 3 tugs, about 20
schooners and several fishing boats are now submerged in harbor.
Most urgent need for putting harbor back into operation is
salvage of dredge, which blocks mouth of canal, leaving only a
7-meter width for the channel. Full use of port would require
salvage of other vessels, repairs to railways, quays and warehouses.
Port Commandant believes, however, that it could be placed in ope-
ration fairly quickly. At ORISONA 100 meters of quay are now
available for schooners, 60 more for lighters, but port has no
cranes or gear of any type and is badly in need for dredging.
Present capacity is about 200 tons, convenient to railroad. Max-
imum capacity likely to be achieved by repairs would be 1000 tons
or less. Anchorage for about 12 schooners available. 15 motor-
boats and schooners have been salvaged since ORISONA was taken by
Allies, but an equal number remain sunk in Port. Salvage firm
short of timber and cement and needs cylinder-floats and lighter
with crane.

AM Lire currency shipments. Refer TAM 441, TAM 457, TAM 460, MAT 547 this is MAT 561.

1. AFA advises 480 boxes AM lire 100 ex BA 37 received on 22 February.
2. Amount outstanding shown in TAM 457 agrees with AFA records of forty billion order after delivery of BA 59 and UCS-C shipments takes place.

3. There follows schedule of AFA requirements based on 2 shipments of 480 boxes (approx) per month:

- March - 480 boxes AML 1480 boxes AML 100;
- April - 815 boxes AML 145 boxes AML 1000 (to complete order);
- May - 70 boxes AML 500 (to complete order) 515 boxes AML 100 (to complete order)

This would leave outstanding 500 boxes AML 50. Present stock of this demon are surplus to requirements. Further printing of AML 50 should therefore be discontinued and the forty billion order reduced accordingly.

3. Further to TAM 460, AFA estimates its stocks of AML 10 should last until September. In view of fact that forty billion order does not allow for any further printing of this demon, AFA now requests that the 390 boxes of AML 10 be shipped to it as soon as possible and MAT 547 request is amended accordingly. Your DPR/9/RW/ of 17 February.

1. OMAR PASHA MANSOUR has arrived BENGAZI from ITALY bringing £3250 in EMS currency notes which he now asks us to exchange into EGYPTIAN pounds. States he received EMS in exchange for Italian lire from Major HARTMAN and Capt WILSON. Carried no papers authorising export this currency from ITALY.

Refer TAM 445 this is MAT 554.

Proposals for modification of US/UK financial relations with Italian Government
is subject.

1. Your paragraphs 1A. and 1C relating to functions of AFA.

a. Finance SubCommission (including AFA) is in process of ridding itself
of financial operations such as mentioned in para 1A of reference, but some months
will be necessary to complete process. Certain operations such as civilian supply
and financial accounting, financing of AC/AMG and Advisory Council, must be
continued by AC and are in addition to those stated in para 1C of reference.

b. AC has been working toward goal of terminating control over Italian
external financial transactions, and in assisting Italian Government in developing a
machinery of exchange control to be operated by Banca D'Italia as agents of treasury
substantially as in period 1917-1919. The experience and probity essential to
exchange control are not readily available in ITALY at this time. Some of the
experts are in German-controlled ITALY and many of those who remained behind are
suspended and awaiting epuration hearings. AC is endeavoring to expedite the
hearings in the hope of obtaining a competent nucleus but has to proceed with
considerable care. In the meantime neither Government nor public have made any
request known to us for acceleration of date when full responsibility for exchange

(FX 33055 continued)

control would pass to Italian hands. Premature transfer of such control may result in wasting of slender foreign exchange resources of Italian Government by improper or imprudent management, to disadvantage of Allied Governments which now or in future are obliged to meet minimum essential foreign exchange needs of ITALY. In this connection you have urged (E.G., TAM 136 and 398 and TAM airgram 24) necessity for exercising control not only in operation of post-liberation accounts in US and UK but also of all transactions in currencies of neutral countries.

c. AFA must continue to provide an adequate volume of Lire currency to Allied forces in ITALY regardless of their location with reference to Italian Government or AMG territory. Therefore whenever Italian Government assumes responsibility for all currency AFA should either draw currency from Government or receive currency from overseas as we present for account of Italian Government but for military use. Moreover, after shift to non-military currency is made, AFA should retain remaining stocks Am Lire and have right to use them in emergency.

d. In view of above, transfer of AFA to AFHQ could not be accomplished for some months and even then such transfer would necessitate creation of another section in Finance Sub-Commission to carry on some of AFA's present functions.

2. Your paragraph 1D is noted and concurred in.

3. Your paragraphs 1E and 2. Our views on the undertaking of the proposed negotiations will follow in another message.

4. TAM 445 deals with only part of wider problem of giving "a greater measure of responsibility in financial matters" to Italian Government. As is concerned in varying degrees between control and advice with many other areas of financial operations such as following. Until other wise instructed you, AC will continue its present

SECRET

SECRET

- 3 -

(FX 33055 continued)

activities in these areas.

a. AC assists Government in control of expenditures and must bring pressure at times on Government to prevent breakdown of communications and other services essential to Allied war effort.

b. In field of revenue AC works with Government in developing new sources and improvement of collection techniques, reduction of collection costs, and increased efficiency of revenue service.

c. Works with central Government accounting authority in effort to maintain close check on expenditure, budget deficit, and disbursement deficit.

d. AC and Government are cooperating to bring about normal operations of domestic insurance, but AC is retaining tight control over insurance interests abroad as required by TAM 417.

e. In connection with Property Control, AC in absence of detailed instructions from you, has attempted to conserve property of Allied nationals in ITALY and to make suitable arrangements for transfer of responsibility to Italian Government.

Non-military live currency.

1. No action can be taken until requisitions arrive. Therefore it is necessary that they be submitted as soon as possible so that supply allocation can be made.

2. It is not essential (see paragraph 8, enclosure A of JAN AIR 16) that civilian supply items forwarded from the UNITED STATES be paid for from pay of troop account. The pay of troop account is not as yet available (refer COM 33). Also, the policy that the procuring of the non-military currency for ITALY would be paid out of funds in A.F. account was determined in the initial phases of the negotiations and was agreed to by the UNITED STATES Departments of State, Treasury, and War, ALLIED FORCES HEAD-QUARTERS, and the ALLIED COMMISSION. It is not the desire of the UNITED STATES Department of Treasury that this question be opened again.

3. In light of the above, your acceptance and immediate fulfillment of methods set forth in COM 32 is anticipated.

G2 summary number 173.

A. ITALY. 1. Operations. Decreased activity in MONTE BELVEDERE-MONTE JORNACCIA area L51. On 8 Army front small enemy counter attack repulsed area COTIGNOLU M33. Positions north of COMACCHIO taken over by ELTS 162 Division according PW statements which appear reasonable and consistent with earlier reported move eastwards of Division.

2. Dispositions. Considerable movement observed on front of 715 Div suggesting relief in progress. 278 Division believed not to have moved far since recent release from line and may be involved in another reshuffle here. Some signs of slight eastward shift of responsibilities 232 and 94 Divisions as result of commitment on 114 Jaeger Div. SCKRR. (?)

B. BALKANS. JUGOSLAVIA. Radpartisans recaptured SUHOPOLJE and VOCKN in area former BARCS bridgehead while enemy from DARUVAR captured PAKRAC and LIPIK. This appears enemys success against partisan pocket area DARUVAR-PAKRAC only achieved at cost of relinquishing some of previous gains in BARCS bridgehead area.

Unspecified enemy reinforcements reported arrived LUSSIN. Civilian workers also allegedly imported from AXINEILO to construct defences. LUSSIN garrison last reported early February 400 strong. All informed.
