AC HQ FOR UNRRA FOR VARRICHIONE

RESTRICTED.

Ref AC/DPR/10 7/A of 19 March to Major BLACK.

Consider military personnel to remain completely inadequate for smooth take over. UNRRA employees here still need help and guidance from BLACK for at least another month. If BLACK who has taken over AC Finance leave on 1st April who pays AC civilian payroll for March totalling 700000 lire. This is not UNRRA reponsibility and in any case I have insufficient funds. Ref para 4 of DPR/10-7/A of 19 March it is presumed Mr VARRICHIONE has informed you of position of DEMETROPOULOS.

Following is interim reply to CAL 1202. subject exports to MALTA.

Para 1. Past exports queried by you were made prior to November 1944. Until that date surpluses of local resources in SICILY were declared separately from surpluses available on the mainland and were controlled by AFLR (Sicilian) Board. AFHQ agreed that local resources in SICILY should be made available to MALTA and COZO and that demands should be submitted direct by MALTA to the Sicilian Board. Actions of that board were not reviewed by HQ AC.

Para 2. Since November 1944 local resources in ITALY (including SICILY) have been treated on a national basis under the control of the AFLR (Italian) Board. All exports and authorised by AC and AFLRS as exportable surplus from ITALY and are agreed by Itali an High Commissioner for food.

Refer FX 54719 of 17 March.

Accounting for Italian imports and exports is subject.

1. Requirement in your para 1 that some Allied personnel under control SACMED must make check of imports of civilian supplies not regarded practicable. Manpower shortage makes check of military cargo by Allied personnel impossible and neither AC nor military can undertake such check for civilian supplies. Absolutely essential depend on receiving reports prepared by Italian agencies as per para 3 of MAT 419. Moreover in certain areas such as SICILY and SARDINIA the Allied establishment very largely has been withdrawn.

2. Urge strongly that consideration again be given to recommendation in para 4 of MAT 419 that Italian Government be charged on basis quantities shipped, as matter practical necessity

This is MAT 595.

Proposal to transfer currency responsibility to Italian Government is subject.

1. MAT 554 gave the views of this Hq and A.C. on TAM 445, omitting para 1 E and 2, which are commented on herein.

2. At the time of the dispatch of MAT 554 I found it difficult to give any clear reply on the broad political effect of entering upon the negotiations proposed in paragraph 1 E of TAM 445. Some of my advisers felt that since the question of the ultimate disposition of Am lire was obscure in Italian minds, there was a good deal to be said for not disturbing this situation which to some extent was contributing to internal stability. Since then, however, the technical position with regard to A.M. lire has been made quite clear, and Italians generally must be coming to recognize the necessity for absorbing the currency with their own.

3. At the same time, the Italians no doubt hope for some financial support from the Allied Governments. This is a matter of high financial policy upon which decision must clearly be taken at an intergovernmental level, more especially as the Italian Government have now

formally raised the issue in their Memorandum of January 9 (refer MAT 568 of 2 March). Your reply to this Memorandum may officially dispose of the question of dollar/sterling reimbursement and open the way to negotiations on currency responsibility and issue. In the meantime, therefore, I do not feel that any further comment of mine is necessary.

1. Exports. U KINGDOM civilian departments have been considering machinery for handling Category B exports from ITALY as defined in TAM 452 to AFHQ of commodities generally imported into U. KINGDOM by private traders and propose arrangements by which U KINGDOM would deal direct with ICS.

They would of course consult AC before accepting orders and would also request AC's assistance in obtaining shipping. There should be no overlap with Ministry of Supply or Ministry of Food orders since U KINGDOM importer could not import till he had cleared his position with U KINGDOM Import Licensing Department.

4. Sterling due to ICS could be held in accounts opened with agreed British Banks in LONDON in the names of agreed Italian Banks in ITALY. The arrangements will require authorities under the trading with the enemy act and possibly legislation. Apart from the trading with the enemy difficulties which will have to be resolved the sterling so paid would under the defence finance regulations be available for use in the sterling area or for transfer to other Italian accounts. Post liberation account BANCA D'ITALIA with big 5 might be used for this purpose and in due course we hope it will be possible to allow Banks in the UNITED KINGDOM to open accounts for other Italian Banks as opportunity offered. We have the impression that the Italian authorities would not object to Bank of NAPLES and Bank of SICILY having accounts with LONDON correspondents forthwith for remittance purposes. Such arrangements could be considered in due course and the accounts used of ICS purposes if desired.

5. Please notify whether foregoing is acceptable and whether you think ICS is up to the job. Initially only a few commodities would be concerned but system should be capable of some expansion. We shall not proceed with necessary action until hearing from you.

IN CLEAR.

Exports. Lemon oil.

1. Examination of lemon oil from ARANELLA shipped on SS "NEA" ex PALERMO shows:

(a) Majority of containers made from metal of insufficient thickness.

(b) Insufficient soft packing in cases has allowed tins to move and suffer damage.

(c) Cases made from wood of poor quality and insufficient thickness.

(d) Poor quality solder has caused leaking at seams.

2. The contents of 96 cases of which 52 cases contained on 25 kilo tin only have been entirely lost by leakage. Whole shipment requires repacking before distribution can be made.

3. For future shipments cases must be of improved specification interior loose packing must be used in greater quantity and more evenly distributed to prevent interior movement of tins and only tins of sufficient strength in relation to their capacity should be employed. Suggest PADELLA consults with Dr FOIS about all these points.

4. If we can obtain early shipment we propose sending you a quantity of tin lined drums 55 gallons capacity each. They will be consigned to I.C.E. MESSINA for distribution to contractors unless you cable preferred route. In view of uncertainty of obtaining outward freight space for this purpose it is vital you commence

1C. Second demonstration in 2 days occured at ASCOLI-PICENO on 12 March as protest against price of bread. Warned that demonstration was planned, Public Safety Officials placed 25 Carabinieri inside Prefettura, but these proved useless. 8 members of crowd who talked loudly and refused to disperse arrested by Provincial Public Safety Officer. Troops were called to assist, were provided from Italian FOLGORE Division and performed duty satisfactorily in morning. In afternoon troops from same unit sided with crowd, which returned with intent of removing prisoners from jail. Italian Captain and Lieutenant said they were unable to control their men. Prisoners were admitted to bail and a 1900 hours curfew imposed. Italian troops have now been removed from town, Military Police loaned to assist and situation in city now is normal. Trail of persons arrested scheduled for Thursday. Remark in last week's sitrep regarding permission having been granted for AQUILA demonstration was erroneous.

2B. Following economic prices of bread set by Ceprels in Military Covernment territory:

Alert sounded regarding 2 sabotage possibilities. 4 canvas dinghies found on beach at S. ELPIDIO (ASCOLI Province) on 16 March. 6 men landed in the 4 boats, 2 carrying gladstone bags with possible sabotage equipment. Descriptions obtained of 2 suspects who inquired whether bridges in area were guarded; these descriptions circulated by Sub Area which has placed guards on all bridges and alerted all road blocks in area. Warning also distributed regarding possibility of sabotage attacks in PERUGIA and throughout UMBRIA in full moon latter part of this month; information obtained from interrogation of captured enemy agent who said that saboteurs were to be dropped by parachute and were to be supplied for long missions.
