Financing in Italian diplomatic missions.

1. On basis of information from Minister of Treasury and CARADINI, Italian ambassador to GREAT BRITAIN that large part of previous payment of ten thousand pounds was used to repay Bank of ENGLAND loan, AC has approved March request for 5,943 pounds sterling. Refer MAT airgram 25 of 31 March.

2. Since UNITED STATES and Belgian missions are just being established and there are no comparative figures, AC has allowed requested payments but without establishing precedent for future months. Your comments as to reasonableness of amounts urgently needed.

3. AC has authorized expenditure in PORTUGAL, SWITZERLAND and TANGIERS of same amounts for same purposes as in February, i.e. Escudos two hundred seventy thousand (270000), Swiss francs one hundred sixty three thousand eight hundred four (163804), and Pesetas eighty three thousand (83,000). In case of TURKEY AC is authorizing only forty six thousand eight hundred seventy point ninety one (46870.91) Turkish pounds for March until comments received from British and American missions on difference between amounts requested and authorized.

Reur GEN 506 which is 76795 CAL4 of 15 March this is MEG 466.

Italian external postal services is subject.

ALLIED COMMISSION feel it would be undesirable to commence printed paper and commercial paper services from UK unless it is also possible to cope with similar services from US and also from ITALY to US and UK. At present considered more important to open first class letter services to liberated territories such as FRANCE and to permit resumption of fact-finding business correspondence in existing services than to commence cheap rate services. Extension of US gift parcel service to all liberated ITALY might also be considered prior claim on any available margin of present limited facilities.

Subject of your GEN 506 is, however, being studied by ALLIED COMMISSION, Italian Posts and Telegraph and Civil Censorship and further report will be furnished. In meantime would be useful to have particulars of types of matter proposed to be sent ITALY by printed paper and commercial paper services and rough estimate of volume of traffic anticipated.

Imports into ITALY from British territories in Mediterranean theater is subject.

1. Reference para 3 of MAT 337 and para 2 of TAA 98A, further consideration is being given here to policy and procedure respecting imports into ITALY from ARON in Mediterranean under British administration such as MALTA and TRINOLI LAMIA, with view to making fullest utilization of total theater resources.

2. Approval is requested of procedure whereby such imports would be arranged between theater and administration of areas concerned, without necessity for application to CCAC. Such imports would be in diminution of regulations placed on CCAC, would be reported monthly, and would apply to both category A and category B requirements. As example, TRINOLI area is understood to have tunny fish in oil available for shipment to ITALY. This fish is required in ITALY and would reduce imports into theater. Similar procedure is operative to increasing measure with respect to FRENCH NORTH AFRICA and FRANCE.
