A. ITALY. 1. Operations. In ADRIATIC sector own troops reached line of Santerno between 35 and 44 northings after only slight opposition. Further w est a ir recce reports road TOSSIGNANO-IMOLA blown as far as 21 easting, indicating enemy probably prepa ring to pull back as far as SANTERNO in hill sector as well as costal plain. No sign yet of reinforcement arriving for 76 or 1 para corps. In western sector unconfirmed report claims ceasure of CARRARA and 200 PW by partisans.

2. Movements. In re number of reports indicate move in early April of substantial elements 29 PG Div into VENICE-TREVISO Area. Photo covering of 8 April a lso shows military rail movement UDINE-TARVISIO of fairly heavy nature including flats loaded with MT or Mdv. No evidence yet to connect 29 PG Div with this movement which may equally well involve one of infantry formations of 97 Corps.

B. AUSTRIA. Between MORAVA and DANUBE, Russians occupied GAENSERDORF (S61), DEUTSCH WAGRAM (S50), GLINZENDORF (X59) and WITTAU (X59). In VIENNA whole of city cleared south and west DANUBE Canal. Enemy appears to be making little effort at fortress resistance. 1902

C. JUGOSLAVIA. By lo April Jugosla vs controlled coa st as far north as KRIMPOTE (WJ6711) and captured OGULIN meeting little opposition. On 6 April, 725 Regt located area PETROVO SELO (WP38) and 734 Regt immediately to east. On 10 April, elements 104 JAEGER and 10 Croat Divisions reported reached DREZNIKGRAD, northwest PETROVO SELO, en route for KARLOVAC. This is LAC 1098. This is LAC 289.

Subject: Indigenous coal production. Reference CAL 1243 and GAY 275.

1. Your para 1a. Factors restricting Sardinian production have been:

a. Lack of labor. Primary cause of falling production. Additional 2000 miners needed to acquire total 70000 tons monthly, but recent recruiting campaign had poor results. AC are examining further measures including possible recruitment within Italian Army; but latest reports indicate only 500 extra men expected from this and present conditions of work will not attract labor from mainland.

b. Strikes. 10 day strike in January dropped production to 33400 tons. Grievances remedied. Last strike started 3 March on political grounds, ended 7 March but political tension still exists. Miners now reported to be adopting go-slow policy and April production estimated at only 30000 tons as against December 38000 and November 42000.

c. Lack of essential equipment. Sufficient supplies, however, now on hand or called forward to maintain production during first half 1945.

2. Under policy FAN 487 control of mines has been restored to Italians with AC advice and assistance. If Italians prove incapable of increasing output requisition Allied control may be necessary.

3. Your para 1b. Factors restricting consumption available output nil. ITALY including SICILY but less northern ITALY can absorb 70000 tons monthly.

4. Monthly reports not sent to WAR OFFICE hitherto. Future reports will show special factors restricting production and consumption and will go to WAR OFFICE LONDON and WAR DEPARTMENT. Paras 1, 2, 3 above cover January and February 1945.

5. Your para 2. Will obtain preparation by Italian Government of monthly reports on production and disposal Italian lignite. Production and disposal Greek lignite and Jugoslav coal are entirely a matter for Greek and Jugoslav Governments and this HQ has no means of direct control. Will arrange reports through UNRRA.

6. Progress Greek lignite production unsatisfactory owing to existing Greek economic conditions, particularly finance, wages and labor. Early arrival mining engineer mentioned in GAY 254 will assist.

SECRET.

This is MAT 639.

Imports into ITALY from additional countries.

1. Italian Government request permission to import following towards meeting deficiencies normal programme:

a. 3000 tons frozen meat or corresponding quantity tinned meat, salt pork, lard etc from ARGENTINA.

b. Up to 1000 tons anchovies from Italian owned fisheries in SPAIN.

c. Unspecified quantity food, medicines and machinery from SWITZERLAND.

2. This raises questions:

a. Desirability direct negotiations over import matters between Italian Govt and neutral or other countries not covered in previous signals or directives.

b. Overall control such commodities.

3. Question of means of financing approved imports from additional countries arises. Following possibilities suggested.

a. Utilisation of Italian balances in supplying country, subject to determination by appropriate Allied authority that such balances are not needed for higher priority purposes such as diplomatic expenses. In instance ARGENTINA.

for example. Italian Government purposes using blocked peso proceeds from sale Italian ships: and in instance SPAIN proposes making lire payments in ITALY to Italian owners of fish canneries in SPAIN. Does not appear likely, however, that SPAIN will agree to such obvious evasion Spanish exchange controls.

b. Where ITALY has no balances in supplying country. 2 possibilities remain:

(1) negotiation of interim memorandum account procedure with country concerned; or

(2) utilization of dollar/sterling balances to acquire the necessary third country exchange, subject to licensing by US/UK Government.

4. Request guidance for early reply to Italian Govt on above.

This is G 2 summary number 216.

A. ITALY. Nothing to report.

B. AUSTRIA. No official Russian confirmation up to 7 April of reported river MORAVA crossing. Count of DANUBE Russians apparently encircled high ground west VIENNA moving from area BRAITENFURT (X 28) to PFAFFENBAUM (X 18) and KLOSTERNEUBURG on DANUBE northwest VIENNA.

177 Infantry Division reported 4 April in line east of VIENNA. Comment. Possibly divisional number 177 of Wehrkreis 17 upgraded with scratch assortment training units. 870 Regiment 356 Infantry Division reported 4 April both of VIENNA.

C. BALKANS. 1. JUGOSLAVIA. Russo-Bulgarian advance apparently slowed down. Probably due organised resistance reinforced 2 Panzer Army among MURA and DRAVA and on line between 2 riverswest of railway MURSKO SREDISCE (X 87) to CAKOVEC (X 85) which both captured 7 April.

On coast Jugoslav offensive captured OTOCAC (WO 98) and reached road junction 8 miles east SENJ. Jugoslavs operating in enemy rear held road SENJ-KARLOVAC from inclusive BRINJE (RJ 80) to exclusive JOSIPDOL (RK 02).

Your 4730 of 4. No objection to return of Prince SULEIMAN to TRIPOLITANIA but it is strongly urged that his return is postponed until arrangements can be made with War Office for payment of pension vide this Hq letter 37/D/8 of 31 March. There would however be no objection to his immediate repatriation provided the Italian authorities are in position to continue payment of pension and make arrangements for transfer of funds to TRIPOLITANIA. It is presumed negotiations with War Office for revision of pension to KARAMANLI family with take some months and there can be no guarantee that the sum eventually agreed upon for payment to SULEIMAN will prove satisfactory to him.
