1. Owing to wide variations between price and wage scales reported from northern ITALY and those in southern ITALY it has been decided to maintain the reported lower prices and rates in northern ITALY and to separate the two economies for an initial period. Economic boundary line will be northern boundaries of RAVENNA, VERONA, VICENZA and LUGO provinces.

2. Probable wide price differentials will make smuggling and black market across the economic boundary profitable for both civilian and military vehicles (Allied and Italian).

3. Forwarding will establish police road blocks (check posts) on all roads crossing the boundary in paragraph 1, to examine both northbound and southbound traffic for illegal cargo. Road blocks will be staffed jointly by military police (to search military vehicles) and Carabinieri or Guardia di Finanza (to search civilian vehicles). Road blocks in areas under US control will conform in general to US announced in FMG Circular number 1.

4. Types of cargo to be made subject of search will be notified through AG/AMC channels.

5. Allied Commission are issuing similar instructions through AG/AMC channels. You are requested to cooperate closely with AG in

Export of almonds from ITALY. Refer LAG Airgram 111.

2. Approximately 10,000 ~~tons~~ presently in BARI area and further 70,000 tons in shells will be produced by September in PUGLIA compartment.

3. These amounts result in an excess to possible Italian use, especially as availability of transportation prohibits extensive distribution in related areas.

Financing of Italian diplomatic missions.

Para 1. AC advises that following requests for April have now been submitted:

AFGHANISTAN-pounds sterling 200 ARGENTINA-pesos 84000 BELGIUM-dollars 13376.50 BULGARIA-dollars 5549.50 ENGLAND-pounds sterling 5943 IRISH FREE STATE-pounds sterling 440 PORTUGAL-escudos 270000 ROMANIA-dollars 6236.50 SPAIN-pesetas 755400 SWEDEN-kroner 36181 SWITZERLAND-swiss francs 163804 UNITED STATES-dollars 25124.25 TANGIER-pesetas 83000 TURKEY-turkish pounds 46870.91.

Para 2. As for March, AC informing Ministry of Treasury that question of financing Italian diplomatic missions in AFGHANISTAN, BULGARIA and ROMANIA must remain in suspense, as instructions not yet received from CCS in regard to these countries.

Para 3. Amounts for ARGENTINA, PORTUGAL, SPAIN and SWEDEN are the same as for March and Minister of Treasury writes AC that he hopes to finance these requirements without recourse to post-liberation dollars or sterling accounts. AC accordingly approving these expenditures if financed out of Italian-owned local assets.

Para 4. Amounts requested for the U.S. and BELGIUM are the same as for March (see MAT airmem 26). Pending advice from you AC again authorizing the payments requested, on understanding that they do not constitute a precedent for future months.

Refer TAI airtel 42 this is MAT 650.

Billing recipient governments for civilian supplies is subject.

1. Application of billing procedure in cases of ITALY, GREECE, YUGOSLAVIA, and ALBANIA has been under careful study and Deputy Chief Accountant, ALLIED COMMISSION ITALY, has proceeded to WASHINGTON to discuss certain technical problems attendant on implementation.

2. Following comments relate to both ITALY and BALKANS.

a. Report of diversions and difference of arrivals required by paragraph 1b(1). Report of diversions of ships can be made. Preparation of difference of arrivals by reconciliation between tallied arrivals and priced quantitative reports received from US/UK/CANADA involves difficulties and delays. Respecting BALKANS, where direct shipments ex US/UK have been tallied by recipient SUPC, such reconciliation is feasible. But arrivals from the MIDAST stockpile create difficulties, and in case of YUGOSLAVIA partial or total transshipment in ITALY has been necessary, which means even in instance direct shipments ex US/UK tallies of arrivals in Yugoslav ports cannot be checked against your reports by ships. Respecting ITALY, where direct shipments ex-theater are the rule, problem is that of shortage of staff named in MAT 419 of 24 November, due to which tallies are in many ports being made

by Italian agencies and reconciliation at A.C. 7 even under TAE 228 procedure has not been undertaken because of lack of accountants. If purpose of differences of arrivals reports is to permit statistical refinement of weighted average landed costs, question is raised as to whether requirement is justified in view of above difficulties and delays and fragmentary results which will be obtained. So far as concerns BALKANS, recipient governments will of course be billed on basis quantities received by them; in case ITALY refer proposal in para 4 of MAT 419.

b. Application combined weighted unit landed costs to our quantitative records will encounter nomenclature difficulties. So far as concerns bulk and homogeneous commodities (such as wheat or flour) application of your costs to our records should not be difficult. But increasing numbers of miscellaneous and especially non-food items are listed on shipping documents in general terms, such as "5 cases linotype machinery". Unless you can arrange to supply landed costs for such items in advance, we shall have to refer to your landed costs subcommittee all items where we are unable to match up landed costs with tallied arrivals and/or receipts signed by recipient government.

c. Reference monthly summary required by paragraph 1b(4). information is requested as to what detail is wanted. In instance BALKANS, relevant priced quantitative reports are being received only from U.S.

d. Subject to above, billing procedure in TAE airgram 42 can be applied to GREECE, ALBANIA, and YUGOSLAVIA.

3. Following comments recite only to ITALY, reference paragraph 3 of TAE airgram 42 as to transition from TAE 228 procedure to new billing procedure. 2849b.

a. TAE 228 procedure involves charging Italian Government on basis tallied

arrivals, while as we understand it new procedure after cut-off date involves billing on basis of acknowledged issues to recipient government. Billing prior to cut-date, as provided in paragraph 30, must take into account all shipments received and taken into stock prior thereto, and A.C. will have to be supplied with detailed breakdown by ships of such shipments by WASHINGTON and LONDON in order to avoid duplications or omissions in subsequent bills prepared by A.C. under new procedure. Since as of 31 March 1945 warehousing responsibilities were turned over to Italians in each of ITALY, that is probably most satisfactory cut-off date.

b. MAT 419 raised problem of each of Allied personnel for carrying out of tally. Additional problem will be created by shortage of accountants when new procedure is applied, involving sorting in theater of our quantitative records. Moreover, existing accounting staff inadequate to prepare differences of arrival reports. Lt Col BARKING is in position to discuss accounting personnel situation.

c. Considering personnel difficulties, and fact that with cut-off date as above, great majority of supplies will be billed to ITALY under TAM 228 procedure as restated in para 36 of TAM airmgram 42, it is view of A.C. HQ (of ?) which this headquarters concurs, that consideration should be given to continuing billing Italian Government under para 30 procedure until end of period of military supply responsibility.

REAR HQ EMILIA REGION for Col PUCK from HARTLEY.

Urgent you press for transport as in Regional Commissioner's letter RIX/SE/T/2 of 31 March addressed AICOM. Suggest following minimum requirements for EMILIA REGION. In event Armies pass rapidly beyond EMILIA REGION before autotrasporti can be formed temporary requirement for distribution of imported food supplies from railhead or One Central Depot in each Province is 104 trucks based on 3 trucks per one hundred thousand of population excluding FORLI and RAVENNA Provinces. Upon formation of autotrasporti these could be released. In addition 120 trucks required permanently on basis 5 per Province for Public Works and 10 per Province for Industry Commerce and Agriculture for use on mountain roads where civilian vehicles useless. Total minimum requirements 1 GT Company until formation of autotrasporti and 2nd GT Coy permanently. Above figures assume railhead clearance not regional responsibility and distribution of wheat necessary because available in Communes.

G-2 Summary number 227.

A. ITALY.

1. Enemy line along canal S NICOLO FERRARA-PORTOMAGGIORE breached at several points against very heavy resistance. Bulk of 98 Division recommitted this area together with elements 26 Panzer Division. Exact line up of enemy units not at all clear following collapse of 42 Jaeger Division but appears 362 Division also obliged to extend left flank considerably. Little opposition encountered on axis route 9 and both parachute divisions now probably behind line of IDICE.

2. West of BOLOGNA surprising collapse of resistance in 8 Mountain Division sector and Allied spearheads now reported astride route 9 between 74 and 78 eastings. Enemy thus faced with cleavage 10 and 14 armies and possibilities of even moderately successful and orderly withdrawal to PO now slight. Defence of BOLOGNA perimeter and line of RENO offers only slender hope to 10 Army. Fate of 14 Army even more precarious.

3. Movements. Air reports heavy MT movement early this morning eastwards from TURIN. Significance not altogether clear but may be connected with reports of civil disturbances MILANO.

B. Army Group South. Russians captured ASPARN (XS43) 19 April. 18 captured map

1. Own attack north from ARGENT appears to have found weak spot in junction 29 PG and 42 Jaeger Div. Latter driven back in considerable confusion to line of canal west of PORTO MAGGIORE. PW included 100 from Artillery Regiment. 120 prisoners also from Tank Bn of 29 PG Div. Elements 117 GR (98 Div) also identified here and expect further elements to appear despite poor shape of division. South of flooded area 278 Div forced back behind QUADERNA canal but 1 and 4 Para Divisions still firm today on line of GAIANA. 26 Panzer Div not yet identified but will almost certainly be required to cope with situation developing north of ARGENT.

2. West of BOLOGNA considerable Allied progress made against slackening resistance 8 Mountain Div sector. 334, 114 and 232 Divisions now left in forward salient west of MONTESE and some thinning out likely to occur here to provide familiar piecemeal reinforcement further east.

3. Order of battle. 3 independent mountain Bn confirmed by document incorporated in 8 Mountain Div.

HQ 138 Regt reported LEIBNITZ (RZ 10) and 144 Regt believed same general area. Identification latter provides good evidence presence 3 Mountain Div since no possibility of confusion with ERSATZ units as in case of 138 Regt.

Beginning of defense construction observed by PR between KREMS (R 80) and HORN (R 83). No anti-tank ditches seen. This possibly continuation of line MARIBOR-BRUCK previously reported.

C. Army Group E. In BOSNA VALLEY, MAGLAJ and DOBOJ in Yugoslav hands. In BROD area PIETERNICA S F 94, KUTJEVO (SG 05) and VRPOKJE (SG 43) also occupied by our Allies.

Continuous traffic COSSACK troops from VIROVITICA towards SLATINA reported night 13/14 and day 14 April. Cossack Corps presumably taking over area vacated by 91 Corps.

In CROATIA Yugoslavs captured LOXVE (RJ 54) and MRKLA VODICA (RJ 44) thus cutting main road FIUME-KARLOVAC. Unidentified Jaeger troops reported arrived KARLOVAC from ZAGREB. 17 military trains reported stationary between ZABOK (E 4617) and DURMANEC (E4135), northwest ZAGREB, 13 April. Possible therefore Jaeger reinforcements came from 2 Panzer Army and in this connection Partisan source states 117 Jaeger Div with 91 Corps at KARLOVAC.

Enemy casualties on KRK reported 600 killed and 200 PW. Isolated resistance continues.
