IN CLEAR.

The enemy in ITALY has surrendered unconditionally. Your magnificent victories in the spring offensive left him only two alternatives: to surrender, or to die .

This hour is the glorious climax of one of the greatest triumphs in the long, hard-fourht war in AFRICA in in Europe. Your part will live always in the hearts and minds of our peoples.

The attack against the enemy's so-called "inner fortress" began in the Mediterranean. You have come from ALAMEIN and CASABLANCA to the ALPS. After the successes in North Africa, you smashed the enemy in TUNISIA. You drove him from SICILY. You invaded ITALY and, despite ferocious resistance and incredibly difficult terrain and weather, you drove him back, always back. You have destroyed the best troops he possessed. At this moment of surrender he is against the ALPS, helpless longer, under your blows, to defend himself.

The victory is yours - - you of the ground, sea and air forces of many nationalities who have fought here as a single combat team. The surrender today is to you.

Now with final and overall victory in sight, let us go forward until the last foe, JAPAN, is crushed. Then, and not until then, will freedom-loving men and women be able to enjoy lasting peace.

Signed MCNARNEY Deputy Supreme Allied Commander, Mediterranean Theater

Large numbers of enemy animals are now following into our hands particularly in NW ITALY. It is our policy that non military animals are handed over on temporary loan to local farmers for maintenance and employment in Italian agriculture. AMG representatives with 5th and 8th armies are assisting in this work but number of animals is larger than they can deal with efficiently. In the interests of Italian agriculture generally and to avoid the loss of valuable animals which would have an adverse effect on Italian economy it is requested you arrange to dispatch suitable personnel to assist your representatives at Army Headquarters in this work. Please report to 15 Army Group rptd this Hq details of the assistance you can give. 15 Army Group will notify you destinations at which personnel are required

Reference your CC101 of 30 April.

1. It is not desired that large scale movement over long distances of animals should take place from their place of capture to the forward Holding Centre at SAN MARTINO. In view of the localities where animals are now coming into our hands particularly in NW ITALY it is suggested you open a supplementary Holding Centre in NW ITALY and if necessary one in NE ITALY. If you decide to do this, request you report what V and R Units you may require to assist, when we will do our best to provide.

2. It is most desirable that non military animals should not be brought into our holding centers but should be handed to local farmers at the earliest moment in accordance with para 8 of our AFHQ/3383/Q(Maint) of 19 April.

3. To assist in the handing over of animals to local farmers we are pressing Allied Commission to assist you with additional suitable supervisorey personnel

The Prime Minister has sent me the following message.

"I rejoice in the magnificently planned and executed operation of 15th Group of Armies which are resulting in the complete destruction or capture of all enemy forces south of the ALPS.

That you and General MARK CLARK should have been able to accomplish these tremendous and decisive results against a superior number of enemy divisions, after you have made great sacrifices of whole armies for the Western Front, is indeed another proof of your genius for war and of intimate brotherhood - in - arms between British Common-Wealth and Imperial Forces and those of the UNITED STATES.

Never I suppose have so many nations advanced and manoeuvred in one line victoriously. The British - Indians - Poles, Jews, Brazilians and strong force of liberated Italians have all marched together in that high comradeship and unity of men fighting for freedom and for the deliverance of mankind.

This great final battle in ITALY will long stand out in history as one of the most famous episodes in this second World War.

03 DIV 2. Due to the spread of the disease "afta Epizootica" it is impossible to transfer from the peninsula, Bovine cattle. The Sanitary Office of the Ministry of Interior allows to load only equines from CAGLIARI, where, for technical reasons, can only gather 201 equines maximum, every 8 days. In order not to divert from other employments and to consent the utilization of the whole tonnage, it is necessary that that commission send the "LANGANO" weekly instead of every 4 days and authorize this commission to load other goods as artichokes, cork, etc etc. In order to complete the remaining exportation of the 677 equines, 3 trips are still to be performed.

Para 2. Justification.

(a). Above regulations have object of making possible daily ration from all sources of 1500 calories for inhabitants urban centres. They contemplate extension of 300 gram bread ration to North. This considered essential here and approval in principle believed implied by # 478. In any case local production of wheat expected to be sufficient to meet 300 gram ration in North.

(b). Practical differential rations system as follows proposed.

(1). General daily ration scale in grams for normal consumers: bread 300, sugar 8 and one third, pood eggs one and one fourth in North, two and one half in South. Fats three and one third in North. Olive oil six in South. Fish fifteen in inland cities. Dried vegetables gives twenty urban centres over fifty thousand population. Above/ration of approximately one thousand calories daily against target of fifteen hundred. Balance to be obtained from market availabilities.

(2) Complete special rations scales to be continued for hospitals, Public Safety personnel, prisoners, refugees, merchant seamen, consulated. Now complete special ration scales for returning prisoners of war and religious institutions proposed.

(3) Additional rations to certain classes to supplement their general ration scales issues to be continued. These classes are children, nursing mothers, heavy workers. Now intended also to issue extra ration to tuberculosis patients and people sick at home.

(4) Issues to communal kitchens for poor and midshift meal to civil laborers of allied forces to be continued.

(c) Special ration scales at subpara (b) 2 and supplementary issues at b 3 and 4 take account of particular nutritional needs of classes affected, and also provide for difficulties which institutions etc with limited financial resources would experience in augmenting general ration scale issues by purchases in free (and black) market. Altogether needs of special classes represent approximately 35000 tons of

total import tonnage requested.

3. Notes.

a. Wheat: Period expected to start with 150,000 tons in stock which for first time will allow small reserve averaging 20 day supply in large communes. Monthly requisition for this period represents one twelfth of annual deficiency for south and central ITALY and islands. Most desireable from shipping and internal distribution point of view that imports should be equalised over year. North estimated ably supporting in cereals. Requisition however includes 12,000 tons for LIGURIA COAST (coast) probably impossible to transport grain to that province owing to difficult communications over mountains. These imports for LIGURIA will be reflected by reduction in later requisitions. Must emphasize, however, that estimate of northern harvest may be over optimistic necessitating upward revision of requisitions later in year or early next.

b. Sugar: No production in presently liberated ITALY last year and this years production not available for distribution till after October. In north reports indicate much destruction of sugar processing factories. Even if factories can be reactivated no sugar expected available for distribution before November earliest.

c. Dried salted fish: No meat in general ration scale and therefore minimum ration of 20 grams fish regarded essential. Local supplies expected sufficient for coastal areas but imports equal to 15 grams daily required for large inland cities.

d. Powd eggs: Equivalent of 21 grams fresh eggs considered essential in absence of meat from general ration scale as Italian production only sufficient for 15 grams in north and 9 grams in remainder. Deficiency, therefore, being requested in form powdered eggs.

e. Coffee: Required for hospitals, Public Safety personnel and refugees only.

f. Meat: For issue to special classes only. If meat not available only

SECRET

(FX 67969 cont'd)

suitable substitute is cheese.

g. Dried vegetables: Urgent thorough study being conducted here into maximum local production possibilities in order keep requisition lowest. Will be subject of further cable.

h. Milk: For issue to hospitals, refugees, children under 3 years, sick at home and nursing mothers only.

i. Soap oils: Requirement for ITALY estimated 6000 metric tons soap monthly for 5 gram daily ration. Local production soap owing to lack of oils only 3000 tons monthly. Importation 3400 tons monthly of palm, coconut or similar oil will enable sufficient soap to be manufactured locally. If oil not available request 4800 metric tons soap monthly.
