15th May file 61 to ALCOM ROME for AGREG.

Subject is Sgt CA PADONNA. His responsibility involves considerable personal foreman type supervision at warehouse and is not sort of duty adapted to an officer unless very junior. Furthermore Liaison Officer has no commissioned officer here subject to his orders. It is hoped therefore that transaction can be completed in the 7 days mentioned by you.

One. Some Italian apricot pulp was imported in 5 KG tins before the War but was of poor colour and owing to its quality lost favour with the trade. Sulphited pulp in barrels would be even less satisfactory.

Two. The information in MOC 112 is insufficient to enable Minfood to judge whether this small quantity is likely to be of usable quality. They cannot express an opinion without examining a representative sample and without knowing name of packer B date on which pulp was packed C its content of SO₂.

Three. In any case the price quoted for the barrelled sulphited pulp is appreciably higher than that which is being charged for first quality apricot pulp in tins from other sources.

ROBBINS

C STEWART BRADEN PRO ALLIED COMMISSION ROME

IN CLEAR.

Am releasing in MILAN 1200 Saturday view of the Italian members, concurred in by the AC Representatives, was that commerce and traffic of all sorts should be permitted between north and south ITALY in the very near future. This is particularly true of commodities which are surplus to this north area and for which there is demand elsewhere.

Question of soaking up the unemployed by finding useful work was touched on, and the Italian Representatives stated that this was an important problem, particularly during the period during which industrial plants are waiting for fuel or for raw supplies. It was stated that since rice fields must be planted very soon a program already was underway to employ a considerable number of people in clearing the fields and making them ready.

Problem of handling the bonus which was promised workers in north ITALY as compensation for their refusal to comply with German production demands also was considered briefly. One million people in LOMBARDY Region alone were promised the bonus, which ranges from 1500 to 5000 lire per worker, adding up to a total in excess of three billion lire. Some consideration is being given to making at least partial payment of this sum over government bonds, so as to avoid the inflation stimulus were this to be put in cash within a brief period.

Am releasing in MILAN 1200 Saturday view of the Italian members, concurred in by the AC Representatives, was that commerce and traffic of all sorts should be permitted between north and south ITALY in the very near future. This is particularly true of commodities which are surplus to this north area and for which there is demand elsewhere.

Question of seeking up the unemployed by finding useful work was touched on, and the Italian Representatives stated that this was an important problem, particularly during the period during which industrial plants are waiting for fuel or for raw supplies. It was stated that since rice fields must be planted very soon a program already was underway to employ a considerable number of people in clearing the fields and making them ready.

An releasing in MILAN 1200 Saturday censured by GILL -- how to merge the Financial, Industrial and Agricultural phases of north and south ITALY into one economic whole is been considered by the Allied Commission and National Committee of Liberation in sessions in MILAN.

The first such meeting was held 11 May during which chiefs of the various sub commissions of AC met with chiefs of corresponding committees of the CLNAI. Purpose of the first meeting was to exchange information as to conditions in north ITALY so that the AC representatives could have first hand data on which to base their plans.

A.C. ANTOLINI, Acting Vice President of the Economic Section of AC, headed the AC Delegation, which has toured parts of north ITALY and learned some of the problems facing this newly liberated area. The Italian Delegation was headed by ALFREDO PIZZIONI who went under the name of LONGHI during German occupation, as President of the Central Financial Committee, and CESARE MERZAGORA, member of the Liberal Party, president of the Economic Committee.

Mr PIZZIONI stated that manufacturing plants in north ITALY are generally in operating condition but are in need of coal and raw material stocks are low. Partisan organizations were able to frustrate German plans to wreck industrial and utility

installations, and the speed with which Allied Armies broke enemy defenses and swept through the north was such as to cause the Germans to think more of escape or survival than property destruction.

Mr PIZZIONI stated that while conditions in the north are considerably different from those in the southern part of the country, all recognize that ITALY is necessarily one people and one country, and all planning and operations must go ahead on that basis

ACTION ALCON FOR ADMIRAL STONE

SECRET

Your 7488 dated 12 May. I desire put following considerations before you.

1. Instructions have been given to DISTONE that no Italians will be evicted except for their own safety and at instance of your officers.
2. Every endeavour has been made to find alternative and more suitable area in conjunction with Regional Commissioners. The only alternative proposed has been again condemned by medical authorities who estimate that it would produce 50 per cent malaria risk.
3. Instructions have been given that no surrendered troops will be billeted in buildings except with full consent of your officers.
4. General HEYDEMAN is fully alive to the considerations presented by you and will do his utmost to avoid damage to crops and hardship to civilians.
5. The matter is most urgent. These surrendered Germans must be got away from where they are and back to an area where we can maintain them. In view particularly of situation in VENEZIA

SECRET

- 2 -

GIULIA I cannot possibly agree to their remaining in an area which would involve heavy transport commitment for their maintenance. It is also essential that they should be put where they can be guarded easily.

6. I believe the estimates as to numbers of civilians who will be displaced and damage to crops have been greatly exaggerated. However I am calling for further reports in this connection.

7. If with your assistance we can find more suitable area quickly elsewhere I shall be glad to arrange for transfer of Germans from present area to it as soon as practicable. SAC has seen this telegram and approves of it.

There is no intention to withdraw Italian Government contribution to Italian Armed Forces ration scale. ALLIED COMMISSION should also consider possibility of increasing their share of ration scale above scale allowed for civilians.

2. Request your views urgently whether ration scale made up on following basis would satisfactorily compensate the withdrawal US/BRIT military element of existing ration. I informed Mr MYRON TAYLOR that the Refugee Sub Commission had withdrawn its officers from the Region and that I have no Refugee officers but that we would do our best with the personnel we have. The Refugee Camp for Italian soldiers such as Ex Prisoners of War was found to be in the greatest confusion. This Camp was being handled by the Italian Army and was not a Regional responsibility. We have given them assistance and will continue to do so. I made a telephonic report today to Brigadier LUSH. One result was I have been told by G-1 British I am to receive at least 3 additional officers for refugee work. I will phone Executive Commissioner daily until the refugee emergency has subsided.

As previously reported economic barrier does not exist in practice but this is not generally known and CLNAI Economic Council consider theoretical barrier should be maintained for further 2 weeks and we concur for following reasons:

1. Facts and figures reflect lower wages and prices but tendency is upwards. Free flow of trade will have a deflationary effect in the south and impact on the north will be lessened by this delay of 2 weeks.
2. The morning papers indicate members of Italian Govt coming to MILAN early next week. We feel this is most important and highly necessary from both an economic and political point of view.
3. Appreciate your confirmation on trip of Government members and Eta. Please signal me care of WALKER IV CORPS MILAN.
