TOOT organization in NORTHERN ITALY.

1. 5th Army report that above is strictly civilian organization and should not therefore be handled as surrendered military force.

2. Stated 3000 highly qualified technicians this organization available and organized ready for immediate employment in units. Formerly supervised 130,000 civilian laborers. Examples of units are:

A. 1 electrical unit capable of installing power plants, transmission lines, wiring, etc. Supplies for TOOT have been procured locally to the extent of about 1 billion lire per month and large stockpiles are now under efficient control of the organization itself in about 30 dumps in NORTH ITALIAN ALPS.

B. 1 large water supply unit capable of installing pipelines, plumbing, purification installations, well drilling, etc.

C. Snow removal detail at MORABO, which has elaborate organization and equipment for clearing roads in mountain passes and the PO Valley and has received a complete tire recapping installation which is not yet set up.

3. Suggestion made that as employment and control would be essentially civilian you should contact 5th Army and dispatch qualified technical and supervisory personnel to control and direct efforts this organization before disintegration begins.

(B) Official funds all German paymasters should be taken up against receipt and disposed of in accordance above cited letter.

(C) Anticipating some form of pay will be made probably on discharge and in reichsmarks considering possibility using VERRECHNUNGSSCHEINE or some form of pay voucher which could be cashed in GERMANY or AUSTRIA. Investigate whether German paymasters have any such pay voucher and if so possibility printing in quantity. Also investigate supplies of VERRECHNUNGSSCHEINE and possibility printing additional amounts. These could also be used as canteen money if such is needed.

LUCCA excitement over TRIESTE. PISA following meeting of ~~the~~ there has
been much activity. All parties holding meetings. All orderly. 2B,F
FLORENCE salt ration increased to 250 grams per month. Sugar not
distributed since March because of insufficient supply for general
distribution. More unrationed foods (fruit and vegetables) could now be
brought in if it were not for economic control lines. FLORENCE has
normally been supplied from the north. APUANIA 300 quintals olive oil
allotted by region ex PISTOIA. 700 tons flour from LIVORNO. 90 tons
handled through Italian vehicles. Transport ceased. Impossible to get
flour to other communes by civilian transport. Urgently need allocation
of 10 SD 6 x 6 trucks. 1B,F FLORENCE curtailment of electric power due
to breakdown of transformer slowed down industrial production. Necessity
of having to bring lignite into province by autotransport is heavy
burden on road haulage equipment, costly and inadequate. 4A,F FLORENCE

CONFIDENTIAL.

It is proposed to send Government Representative to ITALY to obtain chestnut hoops for binding citrus cases required principally for prospective supply of citrus to Ministry of Food in 1945-46 season. Secretary of State for the Colonies has advised that there is no objection in principle to visit for which sponsorship of AFHQ CAMBIA is required but suggested that in view first place Major GENT of your Commerce Sub Commission should be consulted in regard to availability of hoops. Offer has been received from ANGLIO-SICULA PALERMO SICILY at 150 Italian lire per bundle of 300 pieces. Purchase of 70,000 (10,000?) double bundles is contemplated. ACTION ALCOM AFLRS, 5 ARMY, 8 ARMY, DISTAD, DISTHRE, PAB, INFO 15 ARMY GROUP

CONFIDENTIAL.

It is urgently desired that the AFLRS system of allocation of local resources shall become effective thruout all ITALY at the earliest possible moment and that a uniform and organised system of determining, reporting and freezing controlled and restricted resources shall be put into effect. It is therefore requested that you approve the operation of AFLRS personnel within your whole area or such part as will not interfere with your operations. The immediate effects of such approval would be that surplus resources would be sought only by AFLRS and AEG officers, that controlled and restricted resources including plants and facilities would be frozen only by AEG officers, that allocation would be made only thru the committee of the AFLRS board and that the armies would bid their needs on AFLRS, and armies would not make allocations direct to any bidders. Your agreements and or comments are urgently requested in order that resources which are essential for the Allied forces and civil needs may not be disposed of to non essential users.

2. It is desirable that local sub committees of the wages and labour committees of the AFLRS board should function thruout ITALY as quickly as possible to prevent a spiralling of wages and to reconcile wages on a wide basis. The districts and base sections are familiar with the organisation and operation of these sub committees. If agreed to by Army commanders it is believed practicable for DISTAD, DISTHRE and AEG

(EX 82607 cont'd)

to set up sub committees in areas which they eventually will command even while armies are in control. Any such sub committee set up in an area still under Army control would have Army representatives. The situation is more critical in the eventual RISTO where industry is concentrated and in which the service are anxious to make use of the facilities for redeployment purposes.

3. It is believed that both the above plans will free armies from present onerous tasks and expedite the orderly exploitation of Italian resources for Allied uses and the essential Italian economy. Request the matters be considered as urgent.

4. All addressees are requested to comment and or concur.
