Resumption commercial and financial communications from ITALY.

A. With end of military campaign in ITALY and transfer of increasing authority to Italian Government, consideration being given to transfer to it responsibility for operating censorship of Italian external civilian communications.

B. It is planned effective not later than 12 July that all external censorship stations will be transferred to Italian Government with Allied participation limited to a small liaison Advisory Unit not exceeding 4 officers and 4 EM/OS, which will so far as possible protect interests of Allied in external communications and ensure coordination of Italian censorship with Allied censorships in GERMANY and AUSTRIA and other censorships of United Nations network.

C. In view of this small Liaison Staff large reliance must be placed on Italian Government to carry out policy outlined in MAT 697 and confirmed by you in TAM 584.

(This is LAC 1196 in answer to LAC 1382)

Your para 1 and 2. Figures in production program for Italian agriculture forestry and fisheries October 1944 were purely speculative. Estimated grain production in ITALY stated LAC sirgram 120 was based on later more reliable information. Detailed survey of harvest prospects in North now in progress indicates poor harvest probable and therefore LAC sirgram 120 figures over optimistic. Cannot therefore agree surplus in North will offset deficit in South. Indeed increases requisitions wheat will probably be necessary later in year as foreshadowed para 3 LAC 1131. If 300 gram ration to be met. In any case internal transportation difficulties during period will preclude large movements of grain North to South.

Special ration scales: numbers and classes of those entitled Special and supplementary ration scales and proposed scales set out tables A and B LAC sirgram 120. Object to provide additional calories to certain classes for whom general ration scale insufficient by reason of nature of their work, sickness, or poverty preventing purchases in free and black market. Believed self evident classes listed table B require special provision and submitted that proposed scales of issue are reasonable. Only new special scales are 1. returning, 2. convalescing, sick at home, religious institutions whose limited funds are insufficient to purchase extra food in market, and industrial workers which have long been essential sectors of Italian industry.

Best and please: your pages 6 and 7. Could emphasize requisitions LAC 1131 also at 1500 calory general daily ration. Hitherto requisitions have been based on "inspect" scale implemented - 20 months ago. This standard has long ceased to be adequate and increased believed were political necessity, particularly in view past statements of allied leaders. Requisitions admittedly higher than before but necessary of 1500 calory ration described LAC 1131 and LAC airgram 120 to be achieved.

Col BENTLEY is fully conversant with these requisitions. Lt BENTLEY, late of AG WASH and now believed in BENTLEY assisted in their preparation. Suggest these officers be consulted for general background, and any further justification required.

1. Consider personal funds in lire and other currencies other than German military currency should be withdrawn against receipt. This should be carried out by German pay service and money taken over by us against our receipt for disposal to AFA in accordance with your 386.3/131 GEG-O dated 25 May. Bulk of personal funds have already been withdrawn by us direct against nominal rolls but in some cases personnel refused acknowledgement and no record of ownership thus exists.

2. Official funds received to date 59000000 Metropolitan lire and 62000000 in bankdrafts of which bulk has already been taken up from German pay service against receipt and will be handed to AFA in accordance with your 386.3/131 GEG-O dated 25 May.

3. No VERRECHNUNGSSCHEINE available with German paymasters and will advise earliest whether they hold any other form of suitable pay vouchers. Consider any such pay vouchers if required should be printed by you on centralized basis.

Subject is personnel for VENEZIA GIULIA.

Further to my M 1069 of 4 June. Have today discussed whole question with Colonel MONFORT and we consider that the following additional officers are urgently required.

1. 1 transportation officer.
2. 1 junior purchasing and contracting officer.
3. 1 displaced persons officer suitable for running camps.
4. A capable officer, preferably rank Lt Colonel, as executive to Colonel MONFORT. This officer would replace Lt Col SHOLTE who has urgent compassionate grounds for returning to the UNITED STATES. Lt Col MICHIE now with 5 ARMY would be very acceptable if available.

NEW SUBJECT

It was also agreed here at same conference that formation of separate administrative units should be formed to hold the personnel for the Region. For this purpose sufficient additional American personnel are required to run a separate company of 2675 Regt and 2 experienced British NCOS to assist present camp comdt for the British detachment.

Suggest true view is members of organised military formations who surrendered to Allied Forces or to Partisans in the field are entitled to be treated as Prisoners of War and are not amenable to jurisdiction of extraordinary Courts of Assize. Those who did not surrender but were arrested as criminals are not entitled to be treated as Prisoners of War even if they were military personnel. Please confirm or advise otherwise. For your information very large numbers are in jail local opinion would be gravely disturbed if the men were not made to answer before the Italian courts for action against Patriotti and civilians.

Assistance to recovery of Italian industry.

1. Telegram advising you of our views was in preparation when your FAX 585 (SI 39573 of 29 May) was received.

2. Summary of present industrial situation in ITALY. Industries in north ITALY have not sustained appreciable war damage and are capable of immediate reactivation at about 80% of normal production, subject to provision of coal and raw materials. Coordinated machinery for reactivation does not exist. Many plants are idle for lack of necessary supplies, owners are being compelled to pay their workers and are rapidly becoming bankrupt. Serious labour troubles already in evidence. AD experts calculate that unless matters are taken in hand unemployment to extent of 4 million or more is inevitable. Industries in south ITALY suffered heavy war damage but considerable success has been achieved in restarting these industries for military purposes under Allied Military Control. There is, however, still room for appreciable further rehabilitation. Allied Military Control must inevitably be withdrawn, because the personnel involved will disappear on redeployment, quite apart from desirability of such withdrawal in accordance with terms of PAR 487. Both in north and south ITALY there are numerous examples of the evils of lack of coordination. Manufacturers producing luxury articles for sake of profit instead of meeting essential needs of community.

8027

SECRET

~~SECRET~~ ^{Page 2}

Tendency to produce articles in types intended for export although same class of article is urgently needed in ITALY and in some cases is included in Allied rehabilitation programme. Certain classes of goods can only be produced by coordination resources of various manufacturers who will not cooperate without some pressure to persuade them to do so.

3. Having in mind situation outlined in second above it is considered that there is urgent need for some action with the following objectives:

- A. To prevent widespread unemployment which would inevitably lead to disease and unrest and political instability.
- B. To ensure effective and proper utilisation of rehabilitation supplies on import programme.
- C. To stimulate production of essential consumer goods of a character and quantity to help to arrest inflation which already well advanced.
- D. To ensure that Italian industry is exploited to such extent as may be necessary for military requirements in this Theatre or in other theatres.
- E. To apply the productive capacity of Italian industry to the extent desirable and practicable to alleviate conditions in other liberated countries.
- F. To ensure that when Allied supervision is withdrawn, the industries of south ITALY do not revert to chaos.

4. Following are considered to be the principles which should govern action to be taken:

A. The underlying principle of FAN 427 must be observed, namely that ITALY must be encouraged to stand on her own feet.

B. ITALY must determine her own economic system and the Allied must not make themselves responsible for imposing any particular system upon her except for insistence upon observance of Allied policy

~~SECRET~~

toward Fascism.

C. The Allies must provide some stimulus to action because it is unlikely that the Italian Government will take sufficiently prompt and effective action otherwise.

D. The Allies must necessarily be involved in any effective scheme for reactivating Italian industry because they control the essentials for reactivation, namely supplies of coal and raw materials and means of transport by land and sea.

E. Allied military interests must be protected by paragraph F. Legitimate Allied commercial interests must be safeguarded.

F. The type of organization which we favour is the establishment of a central Italian production advisory board with subsidiary boards for individual industries. All boards would be predominantly Italian in composition. Allied members would be non voting and advisory only. Boards could be nation wide in scope, action on their recommendations being taken by Italian Government in Italian Government territory and by *AMG* in *AMG* territory. Charter for these boards would be for definition by Italian Government but we should advise that they should follow generally the charter of parallel organizations such as *VRB*, without necessarily possessing the same degree of executive power. Accordingly the primary functions of the boards would be the establishment of priorities for production, allocation of raw materials and transportation. Since boards are intended to be advisory rather than possessing legal authority it does not seem that it will be necessary for Italian Government to pass special decrees in order to establish them. They will exercise sufficient influence through the control which they will possess over allocation of raw materials and means of transport to render establishment of special sanctions unnecessary. Some details are foreseen in the establishment of central board. It is therefore proposed that boards for individual industries should be set up at once for the following vital industries: textiles, chemicals and fertilizers, steel,

8025

785015

Page 4

cement, lime and brick, and food processing. Meanwhile pending establishment of a central board the COMMISSION will make every effort as a provisional matter to work out allocations in line with the objectives of para 3.

6. It will be for the Italian Government to accept, reject or amend the scheme proposed to them. Unfortunately time does not admit of delay. If Italian Government does not take some action on general lines of our proposal there would be no intention to force it but we should indicate that they would thereby be forfeiting Allied sympathy for their difficulties.

7. Early advice of your reaction to these proposals is requested.

3. Approximate average tonnage per day recently for port warehouse lifts has been 1200 made up of 800 tpd for kind ANCONA and 400 tpd for port. These figures do not taken into account OSIMO kind lifts. In addition to 10 GM Coy trucks an average of 30 10-ton vehicles per day from army sources have been used to accomplish 1200 tons lift. Retention of use of 10-ton vehicles uncertain and cannot be relied upon.

4. To accomplish ABX B (?) lift without 10-ton vehicles port warehouse detachment estimate will need from GM Coys 140 trucks per day and 30 trucks by night if each truck does 4 trips.

5. This impossible with present commitments grain and sulphur and OSIMO kind and refugees etc as average availability of GM Coys only 35 trucks per day or less. Additionally average only 1 driver per truck. For example 9 GM Coy at date has only 32 drivers available for detail. 67 have been trained but difference due to imprisonment and sickness and absence without leave. CONFIDENTIAL .

Incomplete reports received here that French Govt is effecting currency conversion between 4 and 16 June. Allied financial agency holds about 600 thousand francs and also Allied Force paymasters have some. In addition Italian Govt and Bank of ITALY have fairly large amounts exceeding hundred million. Please advise urgently what provision is being made for conversion such overseas holdings as above and whether conversion applies equally to supplemental francs. We hope AFA and Allied Force holdings can be reported by signal and thus obviate necessity air lift. Physical conversion could be made later. Italian Govt is raising question through its ambassador in PARIS but any advice you can give on conversion its holdings will be appreciated. Also advise whether personnel traveling to FRANCE under orders this theater can be supplied with francs we have on hand pending our acquisition of new francs.

HQ ALCON FOR ACRIO INFO 13 CORPS FOR ANG FOR MONFORT

CONFIDENTIAL.

Subject is personnel and transport for VENEZIA GIULIA.

1. Require to know Rta of labour officer ordered from Reestablishment Branch by Executive Commissioner in 8 Army Signals M1056 of 30 May also of 2 additional finance officer promised by Brig GRANTLEY SMITH when on visit here.

2. After consultation with Col MONFORT consider Majors LOCKWOOD-YATHAM and REYNOLDS unsuitable owing to lack of experience for positions as Senior Supply and Public Safety officers and really capable substitutes are required. MONFORT requests Lt-Col TUCANI and RYE if 5TH ARMY are now in position to release them alternatively other officers of 1st class calibre and experience are required.

3. Shortage of RN/ONS grave handicap since in this area use of civilian clerical help not possible on scale prevailing in rest of ITALY. MONFORT request up to 30 clerks incl experienced S.O. and some trained in administrative duties.

4. Transport also short but deficiency can be made up from 15 Cwts being turned over to VENEZIA Region by MG AUSTRIA as outlined in MG AUSTRIA letter to you ref AQ/1516 of 1 June. Some of these vehicles now in UDINE. Do you wish memo hand some over to VENEZIA GIULIA. If so how many. An equivalent number of drivers would have to be supplied by you as none available here.

5. Whole subject covered by memorandum from MONFORT dated 1 June copy of which is now enroute to you. Additional proposals **7945** therein but not dealt with in this signal are being considered by this Hq and further demands will follow. (See over)
