ACTION: AFHQ SITE THREO. INFO 5 ARMY 8 ARMY ALCOW

SECRET

1. Your FI 84415 refers.

2. Your para (A) 5 ARMY recommends that personal funds be taken up by German paymasters, turned over in bulk to commanding officer of POW cage who in turn would transmit funds to APA through Finance officer. 8 ARMY failed to make recommendation. Both Armies report no German military currency available. Based on above information it is recommended by this Hq that special legal tender good at canteens only be issued for confiscated personal funds and also for Army pay. German pay service should be reorganized so as to function in conjunction our finance officers. Your para (B) both Armies report that official funds have been taken up and now in hands of Army finance officers. Your para (C) due to lack of suitable currency for pay upon discharge recommend that payment be made in proposed legal tender GERMANY and/or AUSTRIA. Failing this voucher should be issued discharged soldier for conversion into legal tender at AMG for banks in GERMANY/AUSTRIA. The above refers to your cable FI 84415. Refer letter AG 386.331 31/GEG-0, para 5. Would appreciate interpretation (A) shall all personal funds be taken from surrendered German personnel (B) shall personal funds be taken from German Prisoners of War.

On behalf of all officers and men of the Allied Military Government I thank you for telegram of 5 June with kind words recalling the events of 5 June 1944 and our work together for The ETERNAL CITY. Your cooperation was immensely valuable to us from the start and I hold it one of my greatest honors that the duty devolved upon me of making the appointment of a Roman Prince to govern ROME and of relinquishing to him only the right to use the Campidoglio. Col FISKE reports that there have been minor incidents between troops of FOLGHE GRUPPO who were recently moved into BOLLANO Province and German speaking population. Although it appears to be nothing serious at present I think it is a good instance of a case in which ALLIED COMMISSION ought to have been consulted by Allied command before and on political aspects of movement of Italian troops. You may care to take up question of principle using above as example.

URGENT.

According to press discussion on premiership seem to have reached a deadlock with VI PART and HANOI each refusing to accept the other.

I think I should warn you that if failure to find a personality acceptable to all parties should lead to break up of coalition and assumption of power by right wing parties with exclusion of Communists and Socialists a very serious situation would arise in the north.

I doubt whether left-wing parties here would be willing to accept such a solution and it might even lead to formation of separate government in the north. As a purely left wing government would be equally dangerous at this stage when arrangements for elections will be going ahead it seems essential that the coalition should be preserved.

Except as indicated, we have no objections to proposed amendment of general license 32 A. Refer TAM 590.

1. Amendment to opening section paragraph 1 so as to permit remittances to any person within liberated portions of ITALY is satisfactory except that we are not yet certain whether or how remittances may be made to VENEZIA GIULIA and intend to make proposals on this as soon as possible. If remittances to that area are opened prematurely it might be necessary to hold them up at this end.

2. Refer MAG 691, switch over to civilian postal channels should be made at your end soonest possible. Italian Govt still has not issued general license but that will not affect incoming remittance mail and we will continue to apply pressure for general license to cover outgoing mail.

3. Ref para 2 of TAM 590, Italian Government has taken no action to admit other Italian commercial banks to remittance business, and hence change proposed by treasury may result in some confusion if additional Italian banks begin receiving remittance lists. To minimize this, urge that remittance mail should always be sent only to head offices of Italian banks.

1. Recent references in speeches by TITO. Official representations by the Yugoslav Govt (BLE Vice Premier) when proposed agreement was delivered, TANJUG broadcasts, Yugoslav and Russian press all stress propaganda portraying deplorable conditions for Slovenians in CARINTHIA under and resulting from AMG administration in that area. Specific instances of these are as follows.

2. (A) 26 May. All Yugoslav press reported units of Allied police and those of former Carinthian Hitlerite Govt were arresting Slovenians in KLAGENFURT. TANJUG announced that on 23 Allied Military police surrounded the Hq of the Carinthian Regional National Liberation Committee, searched it in an "extraordinary and cruel" manner and arrested several people, including VLADENIN KRIBACH. At the same time a Slovenian anti Fascist printing press was taken over by force and sealed. Alleged other arrests of Slovenes carried out; that local police were former Gestapo.

(B) 28 May. TITO made a speech in LJUBLJANA in which he said "already we hear the cries of our Carinthian Brethren and their shouts for help".

SECRET

SECRET - 2 -

(C) 28 May. Yugoslav daily paper Borba referred to the "Nazi Govt of KLASNFURT" and accused Allies of closing their eyes while Nazis persecuted the Yugoslavian fighters for National Liberty.

(D) 2 June. PRAVDA published an article from a TASS correspondent referring to the delegation from the Regional National Liberation Committee of Carinthia to see TITO in LJUBLJANA. They complained that persons prominent under Nazis were given full freedom of action, including RUPNIK and Bishop VOJMAN. Many SS men, Hedich gangsters and white guards had been enlisted by AMG into police and gendarmerie, who were conducting a reign of terror, and referred to the incidents mentioned in (A) above.

(E) Vice Premier KARNELJ referred to the victimization of the Slovenian population in Carinthia when notes from Govts in connection with VERBIA SIUBIA were delivered.

3. It is appreciated that most of this propaganda and that charges are baseless. You should, however, keep in mind when appointing local officials, and generally in connection with AMG activities, the special nature of the propaganda that is being directed against the situation in Carinthia and ensure that extra care is taken to avoid the provision of ammunition for this propaganda campaign.

4. Desired that you report fully on relations with Slovenes and comment on any of reports which require comment as basis for counter-propaganda measures which are under urgent consideration here. Officer this Hq being dispatched to you today to assist in preparation report and collect information for FWB.

Christian Democrat representative on CINAI MARAZZA called yesterday and expressed grave anxiety in regard to (1) activities of CLNS in factories and (2) acts of violence in Provinces. As regards (1) he said that activities against individuals in factories were still continuing. Wholesale education was being carried out by factory CLNS against managements and employees. Managers were being sent away on purely personal grounds and with no political justification. Appointment of COMMISSARI was not an adequate remedy. General MALAISE among moderate elements including many workers was leading to risk of reaction. As regards (2) he said that in Provinces and especially in smaller communes of NOVARA, BIELLA, VAL D OSSOLA and other mountain regions there existed what he described as virtual reign of terror. Locally appointed police were carrying out requisitioning and blackmail and conniving at robbery and killing. Carabinieri were intimidated and powerless. He said that similar conditions existed in country districts of BOLOGNA, MODENA and REGGIO Provinces. He admitted that elements were in fact a small minority of thugs only nominally forming part of Communist party but deplored failure of Communist and Socialist leaders to take an open stand against these practices. Indeed by accepting many dangerous republicans into their parties they were making situation still worse. He thought that Christian

Democrats might find it necessary themselves to take the lead in the matter.

As regards the factory committees, I told MARAZZA that the ALLIED COMMISSION and AMG were working actively on the question in consultation with the Italian Government and that I hoped that very shortly, measures would be announced which would clarify the position. He said that he hoped it might be possible to establish epuration commissions for factories which would not only have the duty of clearing out Fascists but would have the power to reinstate owners, members of management, and workers who had been sent away improperly. Decisions of any commissions should be open to review by Allies.

As regards state of affairs in Provinces, Public Safety Officer of LOMBARDIA REGION confirms that violence of this sort is on the increase. He attributes it in part to activities of criminal elements released from jails by Germans. In existing circumstances this state of affairs is not surprising. It is of course mainly a police matter but from this and other reports I have received, it has attained such proportions that it requires special investigation by Provincial Commissioners and organized suppression involving if necessary, use of Allied troops. General CRITTENBENDER is already interesting himself in this situation and has given orders to divisional commanders to increase their patrols. He also is interesting himself actively in raising prestige of Carabinieri.
